NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Parkview Orthopaedic Group, S.C. Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of Parkview Orthopaedic Group, LLC (the "Company" or "Employer"), and related entities through common control, who are at least 21 years old and have two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The assets of the Plan are managed and administered under the terms of an agreement between the Employer and Fidelity Management Trust Company (the "Trustee"). The Trustee is responsible for the investment of such assets and the accounting for all related receipts and disbursements.

Contributions. The Plan is funded through participant contributions, as well as Company matching and profit sharing contributions. Participants may contribute up to 20% of their compensation on a pre-tax basis and up to 100% of bonuses. Roth after-tax deferrals are also permitted. Total contributions are subject to Internal Revenue Service limits. The Plan also provides for Employer discretionary matching and profit sharing contributions. The Company did not elect to make any matching contributions for the year ended January 31, 2016. The Company elected to make a profit sharing contribution of $581,497 for the year ending January 31, 2016.

A participant must be employed on the last day of the plan year in order to share in Employer discretionary profit sharing contributions for the Plan year unless the participant retires at or after age 65, dies or becomes permanently disabled during the year.

The Plan accepts rollovers and transfers in accordance with certain rules. Rollover contributions consist of contributions from other qualified plans which participants have elected to include with the Company's Plan.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocation of the Employer contributions, if any. Plan earnings or losses and administrative fees are allocated to participant accounts based on their proportionate share of identified fund balances and other Plan assets.

Investment Options. Participants may direct their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions.

Vesting. Participants are immediately fully vested in their contributions. Employer contributions are fully vested after completing five years of service.

Notes Receivable from Participants. The Plan provides that a participant may borrow from their vested account balance. Outstanding loans may not exceed the lesser of 50% of the participant's vested balance or $50,000. Loan terms shall not exceed five years unless used to purchase a primary residence. Payments are to be made not less frequently than quarterly. The loans are secured with up to 50% interest in the vested portion of the account balance and bear a reasonable rate of interest as determined by the plan administrator.

Forfeitures. At January 31, 2016 and 2015, forfeited nonvested accounts totaled $11,009 and $3,287, respectively. These accounts may be used first to pay administrative expenses and then to reduce future Company contributions. During the year ended January 31, 2016, no forfeitures were used to pay administrative expenses or reduce Company contributions.

Benefits. Benefit payments are generally made in lump sum upon termination, death, retirement, or resignation. The plan permits hardship withdrawals and in-service distributions if certain criteria are met.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual method of accounting.

Estimates and Assumptions. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Concentrations of Credit Risk. Substantially all the Plan's assets are held by the Trustee.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefit Payments. Benefits are recorded when paid.

Administrative Expenses. Administrative expenses pertaining to the operation of the Plan are primarily paid by the Company. Additionally, various administrative, legal, and accounting services are performed by Company personnel on behalf of the Plan for which no charges are made to the Plan, and for which the Company does not intend to obtain reimbursement. Investment expenses, however, are charged against the Plan's investment income.

New Accounting Pronouncements. The Plan early adopted the provisions of ASU 2015-12, *Plan Accounting.* Under Part II of ASU 2015-12, certain disclosures regarding plan investments are no longer required, such as the disclosure of individual investments that exceed 5% of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type. Other disclosures regarding plan investments have been simplified and require investments to be grouped only by general type rather than on the basis of nature, characteristics, and risks.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN ASSETS

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that were prepared by the Trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the Trustee that such information is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of January 31, 2016 and 2015.
- Investment income (loss) and interest on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended January 31, 2016.
- Note 4: All investment balances.
- The schedule of assets held at end of year as of January 31, 2016, as shown on Form 5500, Schedule H, Part IV, Line 4i.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of January 31, 2016 and 2015.

Mutual Funds. Valued at quoted market price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of January 31, 2016 and 2015. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Assets at Fair Value as of January 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 19,112,134	$ -	$ -	$ 19,112,134

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS (Concluded)

	Assets at Fair Value as of January 31, 2015

Total investment assets at fair value	$ 19,176,514	$ -	$ -	$ 19,176,514

NOTE 5 – PLAN TERMINATION

While the Company has not expressed any intent to discontinue its contributions or terminate the Plan, it is free to do so at any time, subject to the provisions of ERISA and the Plan Agreement. In the event of Plan termination, all participants will become fully vested in all their accounts.

NOTE 6 – EXEMPT PARTY-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by the Trustee, Fidelity Management Trust Company. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

NOTE 7 – INCOME TAX STATUS

The Plan as adopted is a prototype nonstandardized profit sharing plan. The sponsoring organization has received an opinion letter covering the prototype plan, dated March 31, 2008. A separate determination providing that the Parkview Orthopaedic Group, LLC 401(k) Plan, as adopted, and the related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC") has not been sought from the Internal Revenue Service. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of stocks, bonds, fixed income securities, registered investment companies and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Parkview Orthopaedic Group, S.C. Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of Parkview Orthopaedic Group, LLC (the "Company" or "Employer"), and related entities through common control, who are at least 21 years old and have two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The assets of the Plan are managed and administered under the terms of an agreement between the Employer and Fidelity Management Trust Company (the "Trustee"). The Trustee is responsible for the investment of such assets and the accounting for all related receipts and disbursements.

Contributions. The Plan is funded through participant contributions, as well as Company matching and profit sharing contributions. Participants may contribute up to 20% of their compensation on a pre-tax basis and up to 100% of bonuses. Roth after-tax deferrals are also permitted. Total contributions are subject to Internal Revenue Service limits. The Plan also provides for Employer discretionary matching and profit sharing contributions. The Company did not elect to make any matching contributions for the year ended January 31, 2016. The Company elected to make a profit sharing contribution of $581,497 for the year ending January 31, 2016.

A participant must be employed on the last day of the plan year in order to share in Employer discretionary profit sharing contributions for the Plan year unless the participant retires at or after age 65, dies or becomes permanently disabled during the year.

The Plan accepts rollovers and transfers in accordance with certain rules. Rollover contributions consist of contributions from other qualified plans which participants have elected to include with the Company's Plan.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocation of the Employer contributions, if any. Plan earnings or losses and administrative fees are allocated to participant accounts based on their proportionate share of identified fund balances and other Plan assets.

Investment Options. Participants may direct their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions.

Vesting. Participants are immediately fully vested in their contributions. Employer contributions are fully vested after completing five years of service.

Notes Receivable from Participants. The Plan provides that a participant may borrow from their vested account balance. Outstanding loans may not exceed the lesser of 50% of the participant's vested balance or $50,000. Loan terms shall not exceed five years unless used to purchase a primary residence. Payments are to be made not less frequently than quarterly. The loans are secured with up to 50% interest in the vested portion of the account balance and bear a reasonable rate of interest as determined by the plan administrator.

Forfeitures. At January 31, 2016 and 2015, forfeited nonvested accounts totaled $11,009 and $3,287, respectively. These accounts may be used first to pay administrative expenses and then to reduce future Company contributions. During the year ended January 31, 2016, no forfeitures were used to pay administrative expenses or reduce Company contributions.

Benefits. Benefit payments are generally made in lump sum upon termination, death, retirement, or resignation. The plan permits hardship withdrawals and in-service distributions if certain criteria are met.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual method of accounting.

Estimates and Assumptions. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Concentrations of Credit Risk. Substantially all the Plan's assets are held by the Trustee.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefit Payments. Benefits are recorded when paid.

Administrative Expenses. Administrative expenses pertaining to the operation of the Plan are primarily paid by the Company. Additionally, various administrative, legal, and accounting services are performed by Company personnel on behalf of the Plan for which no charges are made to the Plan, and for which the Company does not intend to obtain reimbursement. Investment expenses, however, are charged against the Plan's investment income.

New Accounting Pronouncements. The Plan early adopted the provisions of ASU 2015-12, *Plan Accounting.* Under Part II of ASU 2015-12, certain disclosures regarding plan investments are no longer required, such as the disclosure of individual investments that exceed 5% of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type. Other disclosures regarding plan investments have been simplified and require investments to be grouped only by general type rather than on the basis of nature, characteristics, and risks.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN ASSETS

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that were prepared by the Trustee of the Plan, and furnished to the plan administrator. NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of January 31, 2016 and 2015.

Mutual Funds. Valued at quoted market price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of January 31, 2016 and 2015. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Assets at Fair Value as of January 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 19,112,134	$ -	$ -	$ 19,112,134
Total investment assets at fair value	$ 19,112,134	$ -	$ -	$ 19,112,134

NOTE 5 – PLAN TERMINATION

While the Company has not expressed any intent to discontinue its contributions or terminate the Plan, it is free to do so at any time, subject to the provisions of ERISA and the Plan Agreement. In the event of Plan termination, all participants will become fully vested in all their accounts.

NOTE 6 – EXEMPT PARTY-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by the Trustee, Fidelity Management Trust Company. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

NOTE 7 – INCOME TAX STATUS

The Plan as adopted is a prototype nonstandardized profit sharing plan. The sponsoring organization has received an opinion letter covering the prototype plan, dated March 31, 2008. A separate determination providing that the Parkview Orthopaedic Group, LLC 401(k) Plan, as adopted, and the related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC") has not been sought from the Internal Revenue Service. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of stocks, bonds, fixed income securities, registered investment companies and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
