Notes to Financial Statements

December 31, 2015 and 2014

Note 1 - Description of the Plan

The following description of the Precision Wire Components LLC 401(K) Profit Sharing Plan & Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan covering all eligible non-union employees of Precision Wire Components LLC (the "Company") who have three months of service and have attained the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Employee salary deferral contributions are made voluntarily, subject to certain limits set by the Internal Revenue Code. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary contributions. The Company made no discretionary contributions for the year ended December 31, 2015.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100 percent vested in their deferred salary contributions plus actual earnings thereon at all times. Vesting in benefits derived from employer contributions and earnings thereon is based on years of service in accordance with a graduated scale. A participant is 100 percent vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through periodic payroll deductions.

Notes to Financial Statements (Continued)

December 31, 2015 and 2014

Note 1 - Description of the Plan (continued)Payment of benefits

Benefits equal to the vested value of participants' accounts are payable upon retirement, termination, permanent disability, or death. Partial or full withdrawal of participants' account balances are also available under certain circumstances described in the Plan document. Dependent on the circumstances, participants may be able to elect lump sum or installment payments.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the accounts of all affected participants will be fully vested.

Forfeitures

Forfeitures of unvested employer discretionary contributions will occur on the earlier of the date of an employee's death (if employment had ceased prior to such date) or the employee's forfeiture date. Any unvested account balance will be forfeited if, after the employee ceases to be employed, the employee receives a distribution of the employee's entire vested account. Forfeitures are allocated to each qualifying participant's individual account based on an allocation formula as defined by the Plan. There are no employer discretionary contributions in the Plan as of December 31, 2015.

Note 2 - Summary of significant accounting policiesBasis of accounting

The accompanying financial statements have been prepared on the accrual basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets. Actual results could differ from those estimates.

Notes to Financial Statements (Continued)

December 31, 2015 and 2014

Note 2 - Summary of significant accounting policies (continued)Payment of benefits

Benefits are recorded when paid.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment earnings include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net investment earnings.

Note 2 - Summary of significant accounting policies (continued)Recently adopted accounting pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820): Disclosure in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the practical expedient.

ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The Plan elected to adopt ASU No. 2015-07 in 2015 in an effort to simplify its accounting and disclosure requirements.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient.

Part I eliminates the requirement to measure fully benefit-responsive investment contracts at fair value and provide a reconciliation to the contract value. Under the amendment, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value.

Part II eliminates the requirement to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type. However, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, Part II states the disclosure of information about fair value measurements shall be provided by general type of plan asset.

However, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Part III is not applicable to the Plan.

ASU No. 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan elected to adopt ASU No. 2015-12 in 2015 in an effort to simplify its accounting and disclosure requirements.

Note 3 - Certified financial data

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank & Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2015 and 2014, the schedule of net assets (held at end of year) and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

Note 4 - Fair value measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under

Note 4 - Fair value measurement (continued)

Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the net asset value of units of a bank collective trust. The net asset value, as provided by the custodian, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy is based on

(a) In accordance with FASB ASC 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 5 - Tax status

The Plan adopted a prototype plan designed to be qualified and exempt from income taxes under applicable Sections of the Internal Revenue Code ("IRC"). The prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Notes to Financial Statements (Continued)

December 31, 2015 and 2014

Note 5 - Tax status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examination for years prior to 2009.

Note 7 - Party-in-interest transactions

Some of the Plan's assets are invested in funds offered by State Street Global Advisors which is related to the custodian of the Plan's assets. Therefore, transactions involving these investments qualify as party-in-interest. Substantially all administrative expenses related to operating and maintaining the Plan are paid by the Company. Administrative expenses paid to parties-in-interest totaled \$5,088 in 2015. In addition, the trustee of the Plan is a participant in the Plan.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statement of net assets available for benefits.

Note 9 - Net assets available for benefits

Net assets available for benefits consists of the following:

	<u>2015</u>	<u>2014</u>
Amounts allocated to active participants	\$ 3,592,604	\$ 3,315,866

Note 10 - Subsequent events (continued)

Effective April 1, 2016, the Plan was amended and restated. The Plan sponsor's name was changed to Precision Wire Components LLC dba Creganna Medical. The Plan's name was also changed to Precision Wire Components LLC dba Creganna Medical 401k Profit Sharing Plan & Trust. A discretionary match was added for all eligible participants employed by the Company on December 31 who have completed at least 1,000 hours of service during the year. The hours of service requirement is determined based on the actual hours of service method.
