1. DESCRIPTION OF PLAN

The following description of the Kel-Tec CNC Industries Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was amended and restated through 2015 to reflect the amendments of Fidelity prototype plan with Fidelity Management Trust Company as trustee. All provisions of the Plan remained the same.

General - The Plan is a defined contribution plan covering all employees of the Company who are age 21 or older and meet the minimum service for participation of 12 months. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, the participants may contribute pretax annual compensation, as defined in the Plan within the limits of IRC Section 401K. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company contributes 100% of the first 4% of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions and the company's matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeited Accounts - At December 31, 2015 and 2014 forfeited non-vested accounts totaled $2,067 and $2,067, respectively. These accounts may be used to reduce future employer contributions, reduce administrative costs, and any excess may be allocated to participants. In 2015, employer contributions were reduced by $0 from forfeited non-vested accounts, administrative costs were reduced by $0 and $0 was allocated to participants.

Participant Loans - Participants may borrow from their fund accounts a minimum of $ 1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 5.25% which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

1. DESCRIPTION OF PLAN (continued)

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or through partial payments with a minimum amount of $5,000. For termination of service to due other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes Receivable from Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of Fair Value Measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - Expenses of maintaining the Plan are paid by the Company, if forfeitures are not available. See Note 1 - *Vesting and Forfeited Accounts.*

3. FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Plan assets had Level 1 fair market measurements available and, therefore, were used.

Level 1-Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets. This level includes common stocks, corporate bonds or mutual funds based on the closing price reported in the active market where the securities are traded.

Level 2-Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted for identical or similar assets or liabilities in *inactive* markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation, or other means.

Level 3-Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair values of all of the trading securities listed below as of December 31, 2015 and 2014 are based on unadjusted, quoted prices in active markets as of the measurement date (often referred to as Level 1 inputs).

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 3 1 , 2015, are reported in net depreciation in fair value of investments.

No changes in valuation techniques or related inputs have occurred as a result of adopting the new reporting requirements on fair value measurement in ASU 2011-04, as per FASB ASC 820.

7. TAX STATUS

The Internal Revenue Service ("IRS") determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since the original determination, the Plan administrator and tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's tax returns are generally subject to examination by the Internal Revenue Service and the Department of Labor for three years after filing. Therefore, years 2015, 2014, 2013 and 2012 are still subject to such regulation.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee for the year ended December 31, 2015

Investments in marketable securities	$ $1,913,937
Loans to participants	$ 97,162
Investment income	$ 96,447
Net increase in investment market value	$ 124,553

10. PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Participant loans held by the Plan also reflect party-in-interest transactions (related-party transactions).

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

11. DATE OF MANAGEMENT'S REVIEW

Subsequent events were evaluated through November 7, 2016 which is the date of financial statements were available to be issued.

1. DESCRIPTION OF PLAN

The following description of the Kel-Tec CNC Industries Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was amended and restated through 2015 to reflect the amendments of Fidelity prototype plan with Fidelity Management Trust Company as trustee. All provisions of the Plan remained the same.

General - The Plan is a defined contribution plan covering all employees of the Company who are age 21 or older and meet the minimum service for participation of 12 months. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, the participants may contribute pretax annual compensation, as defined in the Plan within the limits of IRC Section 401K. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company contributes 100% of the first 4% of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions and the company's matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeited Accounts - At December 31, 2015 and 2014 forfeited non-vested accounts totaled $2,067 and $2,067, respectively. These accounts may be used to reduce future employer contributions, reduce administrative costs, and any excess may be allocated to participants. In 2015, employer contributions were reduced by $0 from forfeited non-vested accounts, administrative costs were reduced by $0 and $0 was allocated to participants.

Participant Loans - Participants may borrow from their fund accounts a minimum of $ 1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 5.25% which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

1. DESCRIPTION OF PLAN (continued)

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or through partial payments with a minimum amount of $5,000. For termination of service to due other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes Receivable from Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of Fair Value Measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - Expenses of maintaining the Plan are paid by the Company, if forfeitures are not available. See Note 1 - *Vesting and Forfeited Accounts.*

3. FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Plan assets had Level 1 fair market measurements available and, therefore, were used.

Level 1-Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets. This level includes common stocks, corporate bonds or mutual funds based on the closing price reported in the active market where the securities are traded.

Level 2-Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted for identical or similar assets or liabilities in *inactive* markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation, or other means.

Level 3-Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair values of all of the trading securities listed below as of December 31, 2015 and 2014 are based on unadjusted, quoted prices in active markets as of the measurement date (often referred to as Level 1 inputs).

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 3 1 , 2015, are reported in net depreciation in fair value of investments.

No changes in valuation techniques or related inputs have occurred as a result of adopting the new reporting requirements on fair value measurement in ASU 2011-04, as per FASB ASC 820.

7. TAX STATUS

The Internal Revenue Service ("IRS") determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since the original determination, the Plan administrator and tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's tax returns are generally subject to examination by the Internal Revenue Service and the Department of Labor for three years after filing. Therefore, years 2015, 2014, 2013 and 2012 are still subject to such regulation.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee for the year ended December 31, 2015

Investments in marketable securities	$ $1,913,937
Loans to participants	$ 97,162
Investment income	$ 96,447
Net increase in investment market value	$ 124,553

10. PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Participant loans held by the Plan also reflect party-in-interest transactions (related-party transactions).

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

11. DATE OF MANAGEMENT'S REVIEW
