NOTES TO FINANCIAL STATEMENTS

January 1, 2016 and July 31, 2015

NOTE 1 – SUMMARY OF PLAN

The ITL, LLC 401(k) Plan (the “Plan”) is a defined contribution plan covering eligible employees of ITL Corp. (“ITL” or the “Company”).

The Plan was established to provide retirement benefits to eligible employees in conformity with the minimum standards for eligibility, vesting, and funding required by the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). On February 20, 2015 the stockholders of the Company approved an asset purchase agreement with Duck Acquisition, LLC (“DA”), a wholly-owned subsidiary of Northwest Hardwoods, Inc., in which substantially all of the properties, business and assets of ITL Corp. were acquired by DA, whose name was subsequently changed to ITL, LLC and the name of the Plan was changed to the ITL, LLC 401(k) Plan. Effective January 1, 2016, the Plan was merged into the Northwest Hardwoods, Inc. 401(k) Plan. In conjunction with the merger, net assets of \$14,032,633 were transferred to the Northwest Hardwoods, Inc. 401(k) Plan.

Below is a summary of the Plan’s provisions. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Eligibility

All employees of the Company, as defined by the Plan, were eligible to participate in the Plan upon the completion of one year of service and attaining age 21. A year of service is defined as any Plan year in which the employee performs at least 1,000 hours of service.

Contributions

The Plan included a 401(k) option, which allowed all eligible participants to contribute up to 20% of their annual compensation, limited by requirements of the Internal Revenue Code (“IRC”). The Plan also allowed participants to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans to the Plan. Effective June 19, 2015, the Plan added a Roth option.

The Plan provided for Company matching contributions on a discretionary basis as determined by the Board of Directors of the Company. During the period from August 1, 2015 to January 1, 2016, the Company matched 50% of employee contributions, up to 4% of the employee’s compensation (i.e., maximum match equals 2% of employee’s compensation).

The Plan also provided for annual Company profit sharing contributions on a discretionary basis as determined by the Board of Directors of the Company. Discretionary profit sharing contributions from the Company were accrued when approved by the Board of Directors. Such accrued contributions were funded by the Company prior to filing its federal income tax return, including extensions. There were no discretionary profit sharing contributions for the period from August 1, 2015 to January 1, 2016.

Participant Accounts

Each participant’s account was credited with the participant’s contribution and the Company’s matching contribution and allocations of the Company’s discretionary profit sharing contribution and plan earnings or losses. Allocations were based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant’s vested account. Participants directed the investment of their accounts into the various investment options offered by the Plan.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

January 1, 2016 and July 31, 2015

NOTE 1 – SUMMARY OF PLAN – CONTINUED

Vesting Requirements

The Plan provided for 100% immediate vesting of all participant contributions plus actual earnings thereon. The Company contribution portion of the participant's account vested at the rate of 20% after two years and 20% per year thereafter. Thus, a participant was 100% vested at the completion of six years of service. At January 1, 2016 and July 31, 2015, forfeited non-vested accounts totaled \$7,464 and \$7,367, respectively. These accounts could be used to reduce future Company contributions, as defined by the Plan. No forfeited non-vested accounts were used to reduce Company contributions during the period from August 1, 2015 to January 1, 2016.

Notes Receivable from Participants

The provisions of the Plan provided that participants could borrow from their accounts up to 50% of their vested account balance not to exceed \$50,000. Such borrowings were secured by the participant's vested account balance. Only one loan could be outstanding per participant. Loan repayment periods were not to exceed five years, or up to 15 years in the case of a loan for the use of acquiring a principal residence. Loans bore interest at a fixed rate equal to the prime lending rate plus one percent at the time the loan was made. As of July 31, 2015, the interest rate on participant loans was 4.25%. In conjunction with the merger, \$249,797 of participant loans were transferred to the Northwest Hardwoods, Inc. 401(k) Plan.

Notes receivable from participants were measured at their unpaid balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed as incurred. No allowances for credit losses have been recorded as of January 1, 2016 or July 31, 2015. If a participant ceased to make loan repayments and the Plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRC are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the July 31, 2015 excess contributions to the applicable participants prior to October 15, 2015. Excess contributions payable of \$13,566 at January 1, 2016 were included in the net assets transferred to the Northwest Hardwoods, Inc. 401(k) Plan.

Distribution of Benefits

Upon attainment of normal retirement age of 65, or termination of employment, a participant, or in the case of death, the participant's beneficiary, would receive the vested portion of the amounts credited to the participant's account. The participant could elect to be paid benefits as (1) a lump sum or (2) periodic payments, as defined by the Plan.

Administrative Expenses

Certain expenses of maintaining the Plan were paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and are included in administrative expenses.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

January 1, 2016 and July 31, 2015

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is principal plus accrued interest. The Statements of Net Assets Available for Benefits present the fair value of investment contracts as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Benefit Payments

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Included in investments of the Plan as of July 31, 2015 is the Income Advantage Fund ("IAF"), a stable value collective trust fund. The underlying investments of the IAF are primarily traditional Guaranteed Investment Contracts ("GICs"), Synthetic Investment Contracts ("SICs") and money market funds. Investments in GICs represent deposits that guarantee a stated interest rate for the term of the contract. The fair value of GICs is determined based on the present value of the contract's expected cash flows, discounted at current market interest rates for like quality and duration investments. SICs are comprised of an underlying pool of securities combined with a wrapper instrument issued by a separate entity that allows for participants to transact at contract value for qualified withdrawals. The securities supporting the SICs are valued by independent pricing sources. The fair value of the wrap contracts is determined by the ABN AMRO Investment Trust Company based on the change in the present value of the contract's expected cash flows, discounted at current market rates. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the IAF at contract value. The fair value of the IAF is adjusted to contract value. Contract value represents contributions made under the contract, plus earnings and transfers in, less participant withdrawals, administrative expenses and transfers out. Certain events or conditions could potentially limit the ability of the IAF to transact at contract value. Examples of such events or conditions include, but are not limited to, partial or complete legal termination of the IAF or the Plan, tax disqualification of the IAF or the Plan, or withdrawal of the Plan Sponsor. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

January 1, 2016 and July 31, 2015

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 3 – INVESTMENTS

Investments that represent 5% or more of the Plan's net assets as of July 31, 2015 are as follows:

American Balanced Fund	\$ 2,470,776
Fidelity Magellan Fund	1,948,737
Selected American Fund	1,362,421
Fidelity Contra Fund	1,757,764
ClearCourse Group Variable Annuity	1,407,794
Other Investments less than five percent of the Plan's net assets	<u>5,080,748</u>
Total Investments at fair value	<u>\$ 14,028,240</u>

During the period from August 1, 2015 to January 1, 2016, the Plan's investments (including investments bought and sold, as well as held during the year) depreciated in fair value by \$826,007 as follows:

Mutual funds	\$ (802,795)
Group variable annuity	<u>(23,212)</u>
Net depreciation in fair value of investments	<u>\$ (826,007)</u>

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

January 1, 2016 and July 31, 2015

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Money market fund: Valued at quoted market prices and represents the net asset value ("NAV") of shares held by the Plan.

Mutual funds: Valued at quoted market prices and represents the NAV of shares held by the Plan.

Group variable annuity: Valued daily by Genworth Life and Annuity Insurance Company using the quoted market price of the underlying mutual fund less the applicable asset charge.

Stable value collective trust fund: Stated at fair value and then adjusted to contract value. Fair value is the NAV per unit based on the fair value of the underlying investments (primarily guaranteed investment contracts, synthetic investment contracts, and money market funds). Contract value is principal plus accrued interest.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

January 1, 2016 and July 31, 2015

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of July 31, 2015:

	July 31, 2015			
	Level 1	Level 2	Level 3	Total

NOTE 8 – TAX STATUS

The Internal Revenue Service (“IRS”) issued a determination letter dated February 3, 2005, stating that the Plan and related trust are designed in accordance with applicable sections of the IRC and therefore are tax-exempt. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 1, 2016 and July 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan’s investments were exposed to various risks such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities could have occurred in the near term and that such changes have materially affected participants’ account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
