Note A. Description of the Plan

The following brief description of the Piatti Restaurant Company 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan was established on May 16, 2000 as a defined contribution retirement plan covering all employees of Piatti Restaurant Company, L.P. (the "Employer") who have attained age twenty-one, completed six months of service, and are not highly compensated. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Employer is the Plan's named fiduciary and administrator.

Contributions

Each year participants may contribute up to 20 percent of their pretax annual compensation, as defined in the Plan, subject to the Internal Revenue Code ("IRC") limitation of \$17,500 for 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions of up to \$5,500 for 2013. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings and charged with an allocation of investment losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. The investment direction for the account is provided by the participant.

Vesting

Participants become immediately vested in their elective deferrals, rollover and transfer contributions, plus actual earnings thereon. Each participant's account is credited with the participant's contribution and Plan earnings.

Notes Receivable from Participants

Participants may borrow from their account balances, subject to certain limits set forth in the Plan document and the IRC, and the approval of the Employer. The loans bear an interest rate of one percent above the prime rate as published in the Wall Street Journal at the time of issuance. Loan repayments are made by payroll deductions in equal installments over the life of the loan.

Note A. Description of the Plan (continued)

Payment of Benefits

Plan benefits are recorded when paid. In the event of termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum payment in an amount equal to the value of the participant's account balance. In the event of termination of employment before retirement, a participant will be entitled to receive his or her account balance. If a terminated participant's account balance is greater than \$1,000 such participant may leave his or her funds in the Plan. If the terminated participant's account balance is equal to or less than \$1,000 the Employer may elect to distribute the participant's funds without consent. Participants may withdraw all or a portion of their account balances for specific hardship reasons, subject to the approval of the Employer.

Note B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accounting principles generally accepted in the United States ("GAAP") require the statement of net assets available for plan benefits to present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with GAAP require the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Notes to Financial Statements

Year Ended December 31, 2013 and as of December 31, 2012

Note B. Summary of Significant Accounting Policies (continued)

Investment Valuation

The Plan's investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a discussion of fair value measurements.

Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed). Net appreciation in fair value of investments includes the change in market value of all Plan investments (including investments bought and sold as well as those held during the year) and all gains, including amounts reinvested.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. An administrator fee is directly charged to participants' accounts and is included in administrative expenses. Investment related expenses are included as a reduction in net appreciation of fair value of investments.

Note C. Information Certified and Provided by Minnesota Life

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013 that was prepared by or derived from information provided by Minnesota Life Insurance Company ("Minnesota Life") and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Minnesota Life that information provided to the Plan Administrator is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets at December 31:

	2013	2012
Pooled separate accounts	\$ 469,695	\$ 386,680
Guaranteed investment account	6,791	6,143
Notes receivable from participants	2,660	-

Minnesota Life also certified the completeness and accuracy of \$76,227 of net appreciation in the fair value of investments and \$300 of interest income related to the assets listed above for the year ended December 31, 2013.

Notes to Financial Statements

Year Ended December 31, 2013 and as of December 31, 2012

Note D. Investments

The following are investment fund balances that represent five percent or more of the Plan's net assets as of December 31:

PIMCO Total Return A	29,330	28,203

** Fund was not 5% or more of net assets at year end

Note E. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability ("exit price") in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. GAAP requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs to determine the exit price. The Plan categorizes its financial instruments, based on the priority of inputs to the valuation technique, into a three-level hierarchy, as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements

Year Ended December 31, 2013 and as of December 31, 2012

Note E. Fair Value Measurements (continued)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Pooled separate accounts are valued based on the fair value of the underlying securities. The guaranteed investment account is valued by discounting the related cash flows based on current yields of similar instruments with comparable durations. There was no change in the methodologies used to determine fair value during 2013.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value as of:

December 31, 2013	Level 1	Level 2	Level 3	Total
Pooled separate accounts

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	General Account
Beginning balance January 1, 2013	\$ 6,143
Unrealized gains	73
Purchases	575
Ending balance December 31, 2013	\$ 6,791

Note F. Investment Contract with Minnesota Life

In 2009, the Plan entered into a fully benefit-responsive investment contract with Minnesota Life. Minnesota Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Minnesota Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Notes to Financial Statements

Year Ended December 31, 2013 and as of December 31, 2012

Note F. Investment Contract with Minnesota Life (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 was equivalent to contract value. The crediting interest rate is based upon a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed investment contract does not permit Minnesota Life to terminate the agreement prior to the scheduled maturity date.

Average yields	2013	2012
Based upon actual earnings	0.10%	0.11%
Based upon interest rate credited to participants	0.10%	0.11%

Note G. Related Party Transactions

Certain Plan assets are managed by Minnesota Life, the Plan's custodian. Minnesota Life performs administrative functions such as handling contributions and benefit payments. Accordingly, such transactions qualify as party-in-interest transactions.

Note H. Plan Termination

Although the Employer has not expressed any intent to do so, it has the right under the Plan to discontinue, amend or modify and terminate the Plan without any liability for such termination subject to the provisions of ERISA.

Note I. Income Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter dated July 21, 2004 that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Notes to Financial Statements

Year Ended December 31, 2013 and as of December 31, 2012

Note I. Income Tax Status (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or reduce an asset) if the Plan has taken an uncertain position that is not likely to be sustained upon examination by the taxing authorities. The Plan Administrator has evaluated the tax positions taken by the Plan, and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or reduction of an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note J. Risks and Uncertainties

The Plan invests in several funds which hold various investment securities. Investment securities are exposed to interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

As of the date the financial statements were available to be issued, the Plan had not performed testing to demonstrate compliance with certain IRC requirements and limits on elective deferrals. These requirements must be satisfied in order for the Plan to maintain its qualified status. The accompanying financial statements do not include any adjustments that might result from this uncertainty. The Plan intends to perform these tests and prepare and file a submission under the Voluntary Correction Program established by the Internal Revenue Service, if required.

Note K. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of December 31, 2013 net assets available for plan benefits as reported in the financial statements to Schedule H of Form 5500:

Note L. Nonexempt Transactions

It was noted that in 2013 and 2012 there were delays by the Employer in submitting employee contributions and loan payments in the aggregate amount of \$29,505 to Minnesota Life. The Employer intends to reimburse the Plan for lost interest.

Note M. Subsequent Events

The Plan has evaluated subsequent events through October 27, 2016, the date on which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
