NOTE A - DESCRIPTION OF THE PLAN

The following description of the Supreme Great Lakes Salary Savings Plan (the Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions. Refer to Note F for information regarding the Plan's termination.

1. General

The Plan was a defined contribution profit sharing and 401(k) plan covering eligible employees of Supreme Great Lakes Sales (the Company). Employees were eligible to participate upon completion of six consecutive months of service, defined as 500 hours of service, and attaining age 19. Enrollment was subject to semi-annual plan entry dates. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective February 25, 2016, the Plan's net assets were transferred to The Core Group 401(k) Plan, as discussed in Note F.

2. Contributions

The Plan was funded by voluntary contributions of participants and discretionary matching and profit sharing contributions of the Company. Participants were able to contribute to the Plan, through regular payroll deductions, an amount subject to limitations imposed by the Internal Revenue Code. Participants were also able to roll over amounts representing distributions from other qualified employee benefit plans. There were no participant or Company contributions during the period January 1, 2016 through February 25, 2016.

3. Investment Options

Participants were permitted to direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants were allowed to change their investment options at any time.

NOTE A - DESCRIPTION OF PLAN (Continued)

4. Participant Accounts

Each participant's account was credited with the participant's contribution, an allocation of the Company's discretionary matching and profit sharing contributions, and an allocation of plan earnings. The Company's discretionary matching contribution was allocated based on a percentage of the participant's contribution. The Company's discretionary profit sharing contribution was allocated as of the last day of the plan year and was based on a ratio of each eligible participant's compensation to total compensation for all eligible participants. Plan earnings were allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account balance.

5. Vesting

Due to the plan termination, as described in Note F, participants were immediately fully vested in all contributions.

Prior to the plan termination, participants were immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions became 20% vested after two years of service and continued to vest at the rate of 20% for each successive year until 100% vested after six years of service. In the event of death, disability, or retirement at designated ages, participants became fully vested.

6. Payment of Benefits

On termination of service, a participant may have elected to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time, or a direct rollover distribution. Hardship withdrawals were also permitted by the Plan.

7. Administrative Expenses

Certain expenses incurred maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Investment-related expenses were included in net depreciation of fair value of investments.

NOTE A - DESCRIPTION OF PLAN (Continued)

8. Forfeitures

At February 25, 2016 and December 31, 2015, unallocated plan assets resulting from forfeited nonvested accounts totaled \$0 and \$3,661, respectively. Forfeitures of \$3,661 were used to pay Plan expenses or were transferred to another qualified benefit plan during 2016.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan were prepared on the liquidation basis of accounting, which approximated fair value.

2. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

- * Quoted prices for similar assets or liabilities in active markets;
- * Quoted prices for identical or similar assets or liabilities in inactive markets;
- * Inputs other than quoted prices that are observable for the asset or liability;
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. **Fair Value Measurements** (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value at December 31, 2015. As discussed further in Note F, the Plan did not have any investments at February 25, 2016.

Pooled separate accounts: Valued at net asset value (NAV) per unit as determined by the insurance company or contract administrator. Such NAV is based on the value of the underlying assets and liabilities of the account. Participants may transfer in and out of such trusts on a daily basis without any prohibitive restrictions.

Variable group annuity contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note D). Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Trustees evaluate a variety of factors, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015. As discussed further in Note F, the Plan did not have any investments at February 25, 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

The fair value amounts presented in this table for such investments are intended to permit reconciliation of the fair value hierarchy to the investments, at fair value line item presented in the statements of net assets in liquidation available for benefits.

The following table summarizes investments for which fair value was measured using the NAV per share practical expedient as of December 31, 2015. As discussed further in Note F, the Plan did not have any investments at February 25, 2016. There were no participant redemption restrictions for these investments; the redemption notice period was applicable only to the Plan.

2. **Fair Value Measurements** (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investment for the period January 1, 2016 through February 25, 2016.

	<u>Level 3 Investment</u> <u>January 1, 2016 through February 25, 2016</u>

Sales	(23,905)
Transfers out to The Core Group 401(k) Plan	<u>(307,344)</u>
Balance, end of year	\$ <u><u>-</u></u>

3. **Investment Valuation and Income Recognition**

Investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determined the Plan's valuation policies utilizing information provided by the custodian. See Note B-2 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Net depreciation included the Plan's gains and losses on investments purchased and sold as well as held during the year.

4. **Use of Estimates**

In preparing the Plan's financial statements, management was required to make estimates and assumptions that affected the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Payment of Benefits

Benefits were recorded when paid.

6. Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America required plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

7. Adoption of New Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the NAV practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard for the 2015 plan year as it simplified the disclosures relating to investments measured using the NAV practical expedient.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

Management elected to adopt Part II early for the 2015 plan year. Parts I and III were not applicable to this Plan.

NOTE C - INFORMATION CERTIFIED BY MINNESOTA LIFE INSURANCE COMPANY

The following is a summary of the Plan's asset information as of February 25, 2016 and December 31, 2015, and for the period January 1, 2016 through February 25, 2016, included throughout the Plan's financial statements, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental information related to the following assets:

	February 25, 2016	December 31, 2015
Investments, at fair value		
Pooled separate accounts	\$ -	\$ 3,201,219
Variable group annuity contract	-	328,916
	<u>\$ -</u>	<u>\$ 3,530,135</u>

The custodian also certified the completeness and accuracy of \$253,424 of net depreciation in fair value of investments and \$1,144 of interest income related to the aforementioned assets for the period January 1, 2016 through February 25, 2016.

NOTE D - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan held an investment contract with Minnesota Life Insurance Company (the custodian) through a General Account, which was reported at contract value and approximated fair value. Contract value represented contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses.

Supreme Great Lakes Salary Savings Plan
NOTES TO FINANCIAL STATEMENTS
February 25, 2016 and December 31, 2015

NOTE D - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Minnesota Life Insurance Company maintained the contributions in its General Account. Minnesota Life Insurance Company guaranteed the Plan a return of principal and interest under the terms of the contract. The interest crediting rating was updated annually based upon contract provisions, and could not be less than 1.50%. Minnesota Life Insurance Company's General Account was credited with earnings on the underlying investments and was charged for participant withdrawals and administrative expenses. Participants were ordinarily able to direct the withdrawal of all or a portion of their investments at contract value; however, transfer provisions in the contract dictated that the full amount of a participant's balance in the investment may not be accessible at one time. As a result, the contract was not considered to be fully benefit-responsive.

The contract did not provide for any conditions or circumstances under which distributions from the contract would be payable at amounts below contract value. Upon discontinuance of the contract, contract value would be paid 60 days from the date the sponsor provides notice to discontinue. During the period ended February 25, 2016, the contract was liquidated and the ending balance was \$0 at February 25, 2016.

NOTE E - INCOME TAX STATUS

Effective January 1, 2015, the Plan adopted a standardized form of a prototype plan sponsored by Minnesota Life Insurance Company. The prototype plan received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter was relied upon by this Plan. The Plan Administrator believes that the Plan was designed and operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE F - PLAN TERMINATION

During 2015, the Plan Sponsor entered into an agreement to merge with an unrelated party in October 2015. On October 29, 2015, the Plan Sponsor resolved to terminate the Plan. As a result of the termination, participants became 100% vested in all employer contributions and all contributions to the Plan ceased effective in October 2015. Participants were provided the option to receive a lump-sum distribution, or transfer their account balance to another qualified benefit plan or IRA designated by the participant. The liquidation of the Plan's net assets was completed on or before February 25, 2016.

Supreme Great Lakes Salary Savings Plan
NOTES TO FINANCIAL STATEMENTS
February 25, 2016 and December 31, 2015

NOTE G - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

Plan investments were managed by Minnesota Life Insurance Company. Minnesota Life Insurance Company was the custodian, as defined by the Plan; therefore, these transactions qualified as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment.

NOTE I - PLAN AMENDMENT AND RESTATEMENT

Effective January 1, 2015, the Plan was amended and restated. Significant provisions of the amended and restated plan document are consistent with those of the prior plan document. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

NOTE J - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through December 1, 2016, the date that these financial statements were available to be issued. Plan management has determined that no events or transactions have occurred subsequent to the statement of net assets in liquidation available for benefits date that require disclosure in the financial statements.
