MILACRON EMPLOYEE RETIREMENT SAVINGS PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of Milacron Employee Retirement Savings Plan (the Plan) are prepared under the accrual basis.

Accounting Standards Update

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plan (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 31, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Plan management has decided to adopt Part II early.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

MILACRON EMPLOYEE RETIREMENT SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Reclassifications

Certain reclassifications were made to the 2014 amounts in order to be consistent with the classifications adopted for reporting in 2015. These reclassifications had no effect on net income.

Related Party Transactions

Several employees of Milacron LLC, (the "Company" and the "Plan Sponsor") provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

Certain Plan investments are managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the asset custodian and trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Expenses

Certain Plan expenses are paid by the Plan Sponsor, and accordingly, are not reflected in the Plan's financial statements. Certain investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Event Evaluation

The Plan Sponsor has evaluated all events subsequent to the balance sheet date through December 1, 2016, which is the date the financial statements were available to be issued.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company, excluding contract employees, leased employees, non-resident aliens, co-op employees, intern employees, or temporary employees. The Plan has no age or service requirement for eligibility purposes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

MILACRON EMPLOYEE RETIREMENT SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Contributions

Each year, participants may contribute up to 100% of pre-tax or post-tax compensation, as defined in the Plan document. However, pre-tax and Roth contributions may not exceed limits established under Section 402(g) of the Internal Revenue Code of 1986 as amended (\$18,000 for 2015). If participants do not elect otherwise, their compensation will automatically be reduced by 3% and this amount will be contributed to the Plan as elective contributions due to the Plan's auto enrollment feature. The deferral percentage will automatically increase by 1% each year until it reaches 6%. The Plan permits catch-up elective deferrals for participants over 50 years of age subject to Internal Revenue Code (IRC) limitations (\$6,000 for 2015). Participants designate the percentage of their total contributions invested in each account and may make transfers between accounts anytime during the year. The Plan Sponsor may, at its discretion, make matching or non-elective contributions for its employees.

Self-Directed Brokerage Accounts

Participants are permitted to elect to self-direct their account and may work with the investment advisor of their choice.

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another qualified employee benefit plan to the Plan on a tax-free basis.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and a pro-rata allocation of the Plan's earnings. The pro-rata allocation is based upon the proportion of individual account balances to total participants' account balances in the respective investment funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions, including rollovers, plus actual earnings thereon. In addition, participants are immediately vested in Company contributions plus actual earnings thereon in the event that a participant is employed on his or her normal retirement date, the date the individual becomes disabled, or the date of death. Notwithstanding one of these events, vesting in the Plan Sponsor's discretionary non-elective and matching contributions is based on years of continuous service. A participant is 0% vested with less than three years of service and becomes 100% vested after three years of service. Effective September 1, 2015, the Plan was amended and restated. With this amendment and restatement, vesting was changed to 0% with less than one year of service, and 100% vesting after one year of service.

Forfeited Accounts

Forfeitures are retained in the Plan and may be used to reduce future employer contributions or pay plan expenses. At December 31, 2015 and 2014, the balance in the forfeiture account was \$248,367 and \$91,108, respectively. There were no forfeitures allocated to offset employer contributions or used to pay plan expenses in 2015. Effective September 1, 2015, the Plan was amended and restated. With this amendment and restatement, forfeitures now can only be used to offset employer contributions.

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits

Upon a participant's retirement after age 65, death, other termination of employment with the Plan Sponsor, or termination of the Plan, the participant's account is distributed under several options.

In-service distributions from pre-tax and Roth accounts are permissible for participants that have attained the age of 59 1/2. Participants electing in-service distribution may elect to receive all or a portion of their vested benefit in a lump sum payment. Distributions are permitted from a participant's rollover or after-tax account at any time.

In conditions of financial hardship a participant may apply to the Plan administrator for approval to withdraw that portion of his pre-tax and Roth account balance necessary to meet the financial hardship, subject to the limitations of the Plan and the IRC.

Upon termination of the Plan, the assets will be distributed to participants in accordance with the Plan's provisions and existing laws and regulations.

Notes Receivable from Participants

Notes receivable from participants are available on amounts in the participant's account. Each participant may have one outstanding note at a time. The minimum note receivable amount is \$1,000 and the maximum is \$50,000 or 50% of their vested account balance. All notes shall bear a reasonable rate of interest as determined by the Plan administrator. All notes receivable must be repaid within five years except in the case of a note receivable for the purpose of acquiring a home.

NOTE 3 TAX STATUS

The Plan obtained its latest determination letter on May 28, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 6 FAIR VALUE MEASUREMENTS

GAAP provisions for accounting for Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP provisions for accounting for Fair Value Measurements are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 6 FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation approaches used for assets measured at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission ("SEC"). These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

Common/collective trust fund: Investment fund formed by the pooling of investments by institutional investors, such as a group of not necessarily affiliated pension or retirement plan, typically with the intention of achieving cost savings over similar investment options such as mutual funds. Common/collect trusts are similar to mutual funds, with a named investment manager and documented investment objective. These investments, however, are not registered with the SEC (unlike mutual funds, which are registered) and participation is not open to the public. The NAV is measured by the custodian or investment manager as of the close of regular daily trading. These investments are classified within Level 2 of the fair value hierarchy. When measuring the fair value of such funds, the NAV, as provided by the fund sponsor, is corroborated with observable inputs provided by pricing services for the securities. In certain instances, NAVs may require adjustments to more appropriately reflected the fair value. No adjustments to NAVs were required.

Variable annuity fund: Valued at the NAV per unit based on the quoted market price of the underlying investments held in the fund at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The existence of certain conditions may limit the Plan's ability to transact at contract value of the Vanguard Retirement Savings Trust III (Trust), a common/collective trust. Specifically, any event outside the normal operation of the Trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the Trust or a unitholder, tax disqualification of the Trust or unitholder, and certain Trust amendments if issuers' consent is not obtained. As of December 31, 2015, the occurrence of an event outside the normal operation of the Trust that would cause a withdrawal from an investment contract is not considered to be probable.

Certain events may have limited the ability of the Plan to transact with participants at fair value of the Putnam Stable Value Fund, a common/collective trust. Such events included: employer-initiated transaction provisions including percentage allowances for targeted layoffs, bankruptcy resulting in employee job loss, reorganization, spin-offs, and Plan termination. Due to the size of the fund and the specific percentage allowances negotiated by the fund, it is highly unlikely (not probable) that any event would occur that would limit the fund's ability to transact at contract value with each issuer under these events.
