1. DESCRIPTION OF PLAN

The following description of The Curry Automotive Group 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1994, available to all full-time employees of Curry Management Corporation and certain affiliates, as defined in the Plan document (the "Company" or "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was amended and restated effective November 13, 2015, in order to extend service requirements for eligibility purposes to certain employees that were added to the Plan due to mergers and acquisitions made by the Company. The Plan is administered by the Company. Fidelity Management Trust Company (the "Trustee") serves as the trustee to the Plan.

Eligibility

Employees who have completed one year of service, as well as employees from certain predecessor employers, based on the terms of the Plan document, are eligible to participate in the Plan.

Contributions

Each year, participants may elect to have a percentage or dollar amount deducted on a pre-tax or post-tax (Roth) basis from their compensation subject to an annual limit of the lesser of 90% of eligible compensation or the federal annual limit in a calendar year, as defined in the Plan. Additionally, a paid bonus contribution election is available, subject to certain limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants may elect to suspend their contributions and to change their elective deferral at any date. Participants direct the investment of their contributions into various investment options offered by the Plan.

Discretionary matching contributions may be made at the option of the Company's board of directors and are invested according to the participant's investment option. To be eligible for the Company contributions, employees must be credited with at least 1,000 hours of service during the Plan year, with certain other exceptions, as defined in the Plan. Qualified nonelective contributions may be made at the option of the Company. The Company elected to match 50% of the first 1% of participant's gross wages not to exceed 50% of the participant's deferral for the Plan year ended December 31, 2015.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and qualified nonelective contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting (Continued)

portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service, based on the table below, or upon normal retirement age. A participant's vesting percentage increases to 100% if, while employed with the Company, the employee dies, becomes disabled, or reaches the early retirement age of 55 with five years of credited service.

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, reduced by any outstanding loans. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions over a period of up to five years or up to 10 years for the purchase of a primary residence. Participants can have no more than two loans outstanding at any given time. At December 31, 2015, the interest rate on outstanding loans ranged from 4.25% to 7.25%, maturing on various dates through January 2021.

If a participant fails to make a payment under the terms of the note, the Plan Sponsor shall consider a loan to be in default as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. In the event of default, the note receivable shall become due and payable immediately, and interest will continue to accrue until the entire note receivable balance is repaid. The Plan will take all reasonable actions to collect the balance owed. Under certain circumstances, the defaulted note could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a note will reduce the benefit a participant would otherwise be entitled to receive from the Plan.

Upon termination of employment, the loan shall be repaid in full. In addition, the Plan allows for loan rollover, under certain circumstances as defined by the Plan documents, within 60 days of termination of employment as long as the new Plan accepts loan rollovers.

Investment Options

Participants have the option of investing in a variety of investment options offered through the Trustee of the Plan. All amounts in participant accounts are participant-directed.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments over a period of not more than their assumed life expectancy as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

1. DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $4,804 and $3,488, respectively. These amounts may be used to pay Plan expenses or to reduce employer contributions. During the year ended December 31, 2015, the Plan Sponsor used $4,700 of available forfeitures to reduce the 2014 discretionary employer matching contribution that was made to the Plan in 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines its valuation policies utilizing information provided by the investment advisers, the Trustee and insurance company. See Note 10 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in "Net depreciation in fair value of investments" in the accompanying statement of changes in net assets available for benefits.

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of Thursday, December 31, 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded, based upon the terms of the Plan document.

As of December 31, 2015, participants defaulted on loans amounting to $27,232. The Plan Trustee has issued 1099s to report the income generated from the defaulted loan balances to the participants.

Recently Adopted Accounting Pronouncements

In May 2015, FASB issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share* ("ASU 2015-07"). The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that are measured at net asset value per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with related required disclosures. The update also eliminates the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The Plan elected to early-adopt ASU 2015-07 as of December 31, 2015, as permitted, and has applied ASU 2015-07 retrospectively, as required. The Plan has presented the investment disclosure required by ASU 2015-07 in the fair value hierarchy tables for 2015 and 2014 in Note 10. There were no other impacts on the statements of net assets available for benefits as of December 31, 2015 and 2014, or the statement of changes in net assets available for benefits for the year ended December 31, 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recently Adopted Accounting Pronouncements (Continued)

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*, which simplifies the required disclosures related to employee benefit plans. Part I eliminated the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets and pooled separate accounts. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminated the requirement to disclose individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also required plans to continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of the information about fair value measurement shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015, with early adoption permitted. The Plan elected to early-adopt ASU 2015-12 as of December 31, 2015, and has applied the provisions retrospectively. The Plan has eliminated its historical disclosure of individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. There were no other impacts on the statements of net assets available for benefits as of December 31, 2015 and 2014, and the statement of changes in net assets available for benefits for the year ended December 31, 2015.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through November 28, 2016, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contribution and be entitled to the entire amount of their account balance.

5. PROHIBITED TRANSACTIONS

During the Plan year ended December 31, 2015, the Company was delinquent in remitting to the Trustee certain employee contributions totaling $252,398 within the time period set forth in ERISA Section 2510.3-102. All such delinquent participants' contributions have been remitted to the Plan. The Company intends on making a $51 contribution to the affected participants' accounts to compensate for potential lost income due to the delays.

6. TAX STATUS

The Plan uses a prototype plan document sponsored by the Trustee, which received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the prototype document satisfied the provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. The Plan administrator and the Plan's tax council believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a) of such code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Plan's Form 5500 as of December 31, 2015 and 2014:

	2015	2014
Net assets available for benefits per the financial statements	$ 16,336,059	$ 16,605,628

Add: excess contribution payable	123,865	33,771
Net assets available for benefits per Form 5500	$ 16,346,938	$ 16,442,827

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Plan's Form 5500 for the year ended December 31, 2015:

Decrease in net assets available for benefits per financial statements	$ (269,569)
Add: prior-year employer contribution receivable	196,572

Less: current-year employer contribution receivable	(112,986)
Add: current-year excess contribution payable	123,865
Decrease in net assets available for benefits per Form 5500	$ (95,889)

8. INFORMATION CERTIFIED BY THE PLAN TRUSTEE

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedules, that was prepared by the Trustee or derived from information prepared by the Trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that such information is complete and accurate.

	2015	2014

	2015
Net depreciation in fair value of investments	$ (1,273,648)
Interest and dividends	$ 906,381
Interest income on notes receivable from participants	$ 23,727

9. PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Additionally, certain Plan expenses are paid directly by the Company.

Certain Plan investment options consist of shares of mutual funds managed by the Trustee. Accordingly, these transactions qualify as party-in-interest transactions.

10. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

10. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:
