1. DESCRIPTION OF THE PLAN

The following description of the **Werres Corporation** (Employer/Sponsor) **Savings Plan** (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a prototype non-standardized defined contribution and profit sharing plan covering all employees meeting certain eligibility requirements as outlined in the Plan document. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Management is responsible for oversight of the Plan including determining the appropriateness of the investment offerings and monitoring investment performance.

Contributions: Each year, participants may contribute pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 21 pooled separate accounts, 3 mutual funds, and 5 guaranteed interest accounts with various maturity dates. The Plan includes auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated investment fund until changed by the participant. The Plan Sponsor may make a discretionary matching contribution up to 50 percent of the first 5 percent of compensation that a participant contributes to the Plan. Additional discretionary profit sharing contributions may be contributed at the option of the Sponsor's board of directors. The Plan Sponsor's board of directors did not approve a discretionary matching or profit sharing contribution for the years ended June 30, 2016 and 2015. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contribution, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant's elective deferrals and compensation, as defined. Allocations of Plan earnings and administrative expenses are based on participant's account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and the Sponsor's discretionary matching contributions, plus actual earnings thereon. Vesting in the Sponsor's discretionary profit sharing contributions portion of their accounts, plus actual earnings thereon is based on years of continuous services. A participant is fully vested after 6 years of credited service.

In addition, participants become automatically fully vested when they (a) meet the age and service requirements for early retirement, (b) reach age 65 while employed, or (c) terminate employment due to total disability or death.

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the vested balance in the participants' accounts and bear interest at a rate that is commensurate to that charged by commercial lenders for a similar loan, fixed at the inception of the loan. Principal and interest is paid ratably through payroll deductions, and outstanding loans are recognized as taxable distributions upon termination of the participant's employment.

Payment of benefits: When a participant terminates service to the Employer due to death, disability, or retirement, the Plan offers optional forms of benefits, including monthly annuity payments, a series of flexible income payments, or a lump sum payment equal to the value of the participant's vested account. For termination of service for other reasons, a participant may receive the value of the vested interest in the account as a lump-sum distribution or leave the account in the Plan and continue to participate in the Plan investments until death or retirement. If the vested account of a participant has never exceeded $5,000, the entire vested account shall be payable in a single lump sum as of the earliest of death, retirement, or termination.

Forfeited accounts: All forfeited amounts will first be used to pay the administrative costs of the Plan then may be used to offset sponsor contributions, and any remaining forfeitures will be reallocated among participants. There were no forfeitures during the years ended June 30, 2016 and 2015.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Significant estimates include fair value determinations provided by the custodians.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of mutual funds are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Recently Adopted Authoritative Guidance: In May 2015, the FASB issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value (NAV) per share practical expedient under ASC 820. ASU 2015-07 is effective for fiscal year-ends beginning after December 15, 2016 with early adoption permitted. The Plan elected early adoption of this new guidance and the updated disclosures are included in the accompanying financial statement disclosures (Note 4). The adoption of this guidance had no impact on the Plan's financial statement, other than as described in Note 4.

In July 2015, the FASB issued ASU 2015-12, Defined Contribution Pension Plans (Topic 962), (Part II) Plan Investment Disclosures. ASU 2015-12 eliminates the requirements to disclose individual investments that represent 5 percent or more of the net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The Plan elected early adoption of this new guidance and the updated disclosures are included in the accompanying financial statement disclosures. The adoption of this guidance had no impact on the Plan's financial statement.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2016 and 2015. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate funds: Valued at the NAV of units of pooled separate accounts. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchased and sales) may occur daily.

Guaranteed interest account: Valued at fair value which represents the amount the Participant would receive if they terminated the contract at the reporting date which is book value less an early withdrawal charge. None of these investments are considered to be fully-benefit responsive.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

June 30, 2016	TOTAL	LEVEL 1	LEVEL 2	LEVEL 3
Investment contract	$ 243,274	$ -	$ -	$ 243,274

Quantitative information about significant unobservable inputs used in level 3 fair value measurements: The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

INSTRUMENT	FAIR VALUE	PRINCIPAL VALUATION TECHNIQUE	UNOBSERVABLE INPUTS	RANGE OF SIGNIFICANT INPUT VALUES	WEIGHTED AVERAGE
Short term fixed income	$ 243,274	Discounted Cash Flow	Interest Rates Payout Date	.10% - 1.40% 6/30/15 - 6/30/19	.10% or 1.30%

5. ROLLOVER CONTRIBUTIONS

The participants' account rollovers for the year ended June 30, 2016 are from employees who rolled their balances from previous employers into the Plan.

6. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Principal Life Insurance Company or its affiliates who is the recordkeeper as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management and recordkeeping services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. PLAN TERMINATION

Although it has not expressed intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and the related trust are designated in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC; and therefore, believe the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Code and Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at June 30, 2016 and 2015, and net appreciation in fair value of investments, interest and dividends for the years ended June 30, 2016 and 2015, was obtained and derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Life Insurance Company and Principal Trust Company, the custodians of the Plan.

10. SUBSEQUENT EVENTS

The Plan has evaluated events and transactions subsequent to June 30, 2016 through December 6, 2016, the date these financial statements were available to be issued. Based on the definitions and requirements of accounting principles generally accepted in the United States of America, management has identified the following event requiring disclosure.

The Plan will merge with the existing plan of the new parent company of Werres Corporation, The Raymond Corporation. On December 31, 2016 all Werres Corporation Savings Plan assets will be rolled into the plan of The Raymond Corporation (Werres Corporation parent company). All qualified plan assets will be transferred in cash for receipt by Fidelity Investments, the successor trustee and recordkeeper, on January 1, 2017 (trade date plus one).
