The following brief description of Global Tungsten & Powders Corp. Savings and Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code and is sponsored by Global Tungsten & Powders Corp. (the Company). The Plan is funded by participant and employer contributions and covers substantially all eligible employees. An employee is eligible to participate in the Plan upon hire date. A temporary employee is eligible to participate in the Plan after completing one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The assets of the Plan are maintained in investment funds held by Principal Life Insurance Company (Principal) who also serves as the third party administrator.

Contributions: Each year, participants may contribute up to 25% of pretax annual compensation, as defined in the Plan. In addition, participants may contribute employee after-tax contributions up to 25% of compensation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis. Contributions are subject to certain limitations.

Participants who do not complete a salary deferral agreement are automatically enrolled in the Plan. The Plan automatically withholds 3% of these participant's compensation as a salary deferral. Participants may change their deferral agreement at any time or elect not to defer in the Plan.

The Company contributes a matching contribution of 50% of a participant's deferral up to a maximum of 6% of base compensation. The Company also contributes an employer retirement contribution based on an eligible participant's years of continuous employment.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts is based on years of continuous service. In the event of death or disability, the participants will become fully vested in their account. The Plan utilizes a grade vesting scale as follows:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
Two years	40%
Three years	60%
Four years	80%
Five years	100%

NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years or up to a reasonable period of time for purchase of a principal residence. The loans are secured by the participant's account and bear interest at prevailing commercial rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly or bi-weekly payroll deductions.

Benefit Payments: Participants (or their beneficiaries) are eligible to receive vested benefits upon retirement, death, permanent disability, upon attainment of age 59½, or when they cease to be an employee of the Company. In addition, a participant can withdraw all or any portion of his or her elective contributions and rollover contributions in the event of financial hardship. The normal form of benefit payments are made in the form of a lump-sum distribution.

Forfeitures: At February 29, 2016 forfeited nonvested accounts totaled \$0 (\$3 – 2015). Amounts forfeited by participants are available to offset the Company's matching contribution or to pay administrative expenses. Forfeitures used to offset the employer matching contribution for the year ended February 29, 2016 amounted to \$25,509 (\$177,711 – 2015).

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses have been recorded as of February 29, 2016 or February 28, 2015. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits: Benefits are recorded when paid.

Operating Expenses: Investment fees and administrative expenses are paid either by the Plan or the Plan sponsor.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the Statements of Net Assets Available for Benefits.

Recent Accounting Pronouncements: In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Under the amendments, fully benefit-responsive investment contracts are measured, presented, and disclosed at contract value. It also clarifies the definition of what is considered a fully benefit-responsive investment contract. Part II eliminates the requirements to disclose individual investments that represent 5 percent of more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurement shall be provided by general type of plan asset. Part I & III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has elected to early adopt Part II.

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (Or its Equivalent). This ASU removes the requirement to make certain disclosures as well as categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value as a practical expedient. The amendments in ASU 2015-07 are effective for nonpublic business entities for fiscal years beginning after December 15, 2016, with early adoption permitted. The amendments are to be applied retrospectively. Management has elected to early adopt the amendments in ASU 2015-07.

Subsequent Event: These financial statements have not been updated for subsequent events occurring after December 9, 2016, which is the date these financial statements were available to be issued.

NOTE 3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

NOTES TO FINANCIAL STATEMENTS

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. quoted prices for similar assets or liabilities in active markets;
- b. quoted prices for identical or similar assets or liabilities in inactive markets;
- c. inputs other than quoted prices that are observable for the asset or liability;
- d. inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 29, 2016 and February 28, 2015.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is the closing price reported on the active market on which the securities are traded. Shares of registered investment companies are classified as level 1 investments.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices. Self-directed brokerage accounts are classified as level 1 investments.

Common/collective trust: Valued based on the NAV per unit of the fund provided by the trust. Unit values are determined by dividing the fund's net assets, which represents the fair value of the underlying investments, by its units outstanding at the valuation date. The Principal Stable Value Fund is a stable value fund. The fund invests principally in guaranteed interest contracts (GICs) issued by insurance companies, investment contracts issued by banks, synthetic investment contracts (SICs) issued by banks, insurance companies and other issuers, and securities supporting such SICs, and other similar instruments which are intended to maintain a constant net asset value.

Common stocks: Stated at fair value as measured by quoted market prices in an active market on which the individual securities are traded. Common stocks are classified at level 1 investments.

Exchange Traded Funds (ETF's): Valued at the closing price reported on the active market on which the individual securities are traded. Exchange traded funds are classified as Level 1 investments.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is the closing price reported on the active market on which the securities are traded. Shares of registered investment companies are classified as Level 1 investments.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of February 29, 2016 and February 28, 2015:

Assets at Fair Value as of February 29, 2016

- (a) In accordance with FASB 820-10, certain investment that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

NOTE 7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 21, 2015, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Administration Committee believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of February 29, 2016 and February 28, 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process.
