Notes to Financial Statements

1. Description of the Plan

The following description of the 2008 Restated Profit Sharing/401(k) Plan and Trust of Medical Service Company (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a profit sharing retirement plan established February 28, 1980 to provide deferred compensation benefits to eligible employees of Medical Service Company (the Company) as allowed under Section 401(k) of the Internal Revenue Code (IRC). An employee becomes eligible to enter the Plan after three months of service in which they attain 250 hours of service and the attainment of age 20½. Employees may enter the Plan on the earlier of the first March 1, June 1, September 1, or December 1, on or after eligibility is met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Subject to limitations contained in the Plan and under the Internal Revenue Code, participants may elect to have from 1% to 100% of their compensation deferred to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. All employee contributions are made through payroll deductions. The Company makes a matching contribution of 25% of the first 6% of wages, if deferred by the participant, for a maximum contribution of 1.5%.

The Company, at its discretion, may also contribute an additional amount to the participants' accounts. In order to be eligible for the profit sharing contribution, the participant must be employed by the Company on the last day of the Plan year, and have completed one year of service. There was no profit sharing contribution for the year ended February 28, 2016.

Participant accounts

Each participant's account increases or decreases accordingly with the participant's contributions and allocations of the Company's matching and profit sharing contributions, withdrawals, and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are vested in the Company matching and discretionary contributions plus actual earnings thereon ratably over a six-year period with 20% being vested upon two years of service, 20% for each year of service thereafter, and full vesting after the sixth year of service. For vesting purposes, a Plan year during which a participant has completed 1,000 hours of service is a year of service.

2008 Restated Profit Sharing/401(k) Plan and Trust of Medical Service Company

Notes to Financial Statements

Benefit payments

Funds are not permitted to be withdrawn from the Plan except in the event of death, disability, termination, normal retirement, or financial hardship. Payments are made in a lump-sum amount.

The Plan includes an automatic rollover provision as defined by the IRC with respect to distributions. If the vested balance is \$1,000 or less and the participant does not make an election to receive or to roll over the distribution, the vested balance must be distributed as a single lump-sum payment.

Financial hardship withdrawals of participants' voluntary deferral contributions are permitted in specialized circumstances of immediate and heavy financial need. These withdrawals may be subject to a 10% penalty. A participant who receives a hardship distribution of voluntary contributions shall be prohibited from making elective deferrals for six months after receipt of distribution.

Notes receivable from participants

Loans are permitted to be made to active participants. The notes receivable documenting the loans are secured by the participant's vested interest in the Plan and must be for a minimum of \$1,000 up to the lesser of one half of the participant's account balance or \$50,000 reduced by the highest outstanding loan balance for reasons defined by the Plan document. The loans are secured by the balance in the participant's account and currently bear interest at a range from 4.25% to 5.25%, which is commensurate with local prevailing rates at the origination of the loan as determined by the Plan administrator. The loan repayment period may not be less than one year and may not exceed five years unless the loan is used to purchase a participant's principal residence for which the period may not exceed ten years. Interest is charged at a reasonable rate determined by the administrative committee. Principal and interest are paid ratably through bi-weekly payroll deductions. If a participant is married, their spouse must consent to any loan received from the Plan. Upon termination of employment, loans are immediately due and payable.

Forfeitures

Forfeited non-vested accounts are used to offset Company matching contributions and to pay administrative expenses. The balance of forfeited non-vested accounts, if any, shall be held in suspense and used to reduce future matching contributions in the next Plan year, and each succeeding Plan year, if necessary. The Company used \$15,481 in forfeitures to reduce employer matching contributions during the year ended February 29, 2016.

Administration

The Plan is administered by Rehmann Retirement Builders. John Hancock Life Insurance Company receives and holds Plan assets, and makes distributions to participants in accordance with the Plan document. As of March 1, 2016, the Plan changed custodians from John Hancock Life Insurance Company to Great-West Life and Annuity Insurance Company.

2. Summary of Significant Accounting Policies

The financial statements are prepared on the accrual basis of accounting.

Notes to Financial Statements

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted, and retrospectively applied, the accounting guidance related to the presentation of the Plan's investments.

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensus of the FASB Emerging Issues Task Force. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient for measuring plan assets similar to the practical expedient provided to employers in ASU No. 2015-04, Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan has adopted ASU No. 2015-12 for the plan year ended February 29, 2016 and has applied the applicable amendments retrospectively. As a result, the footnote disclosing investments as of or greater than 5% as of February 28, 2015 was removed. Additionally, the disaggregation of investments as of February 28, 2015 was removed.

Valuation of investments and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements as of February 29, 2016.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Depreciation and Appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan.

2008 Restated Profit Sharing/401(k) Plan and Trust of Medical Service Company

Notes to Financial Statements

Risks and uncertainties

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefit payments to participants are recorded when paid.

Expenses

All reasonable expenses of administration of the Plan may be paid out of the Plan's assets unless paid by the Plan Sponsor.

Subsequent events

The Plan has evaluated subsequent events through December 6, 2016, the date the financial statements were available to be issued.

3. Certified Information

John Hancock Life Insurance Company is the custodian of the Plan. The plan administrator has obtained certification from the custodian that all investment and notes receivable from participant's information provided as of February 29, 2016 and February 28, 2015 and for the year ended February 29, 2016 is complete and accurate. Information included in the accompanying financial statements and supplemental schedule as to investments, investment income, and notes receivable is presented solely in reliance upon those certificates.

4. Fair Value Measurements

The ASC Fair Value Measurements and Disclosure defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. Fair Value Measurements and Disclosure does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

2008 Restated Profit Sharing/401(k) Plan and Trust of Medical Service Company

Notes to Financial Statements

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 28, 2015, and 2014.

Pooled separate accounts: The fair values of participation units in the pooled separate accounts were based upon the net asset values (NAV) of such accounts which are provided by the custodians. The net asset value is based on the underlying assets owned by the account less liabilities and then divided by the number of shares outstanding. The accounts allow for daily redemptions and contributions.

Guaranteed interest accounts: The non-fully benefit responsive guaranteed interest accounts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issue. Interest rates are established on the first day of the calendar month and apply to any ongoing contributions made to the guaranteed account in that month. At the end of each reporting year, a "composite rate" of interest is determined for each participant account depending on the amounts contributed and the rate in effect on the day of allocation. There is no contract rate and no minimum or "floor" rate under the guaranteed interest accounts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any point and to terminate the Plan subject to the provisions of

Notes to Financial Statements

ERISA. In the event of termination, participants become fully vested in the employer match and discretionary contribution portions of their accounts.

6. Tax Status

The Plan uses a prototype plan document sponsored by Ulmer & Berne, LLP (Ulmer). Ulmer obtained a determination letter from the Internal Revenue Service (IRS) dated March 31, 2008, which stated the prototype document satisfies the applicable requirements of the IRC. The Plan itself, as amended, received a determination letter from the IRS dated September 7, 2010, stating that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of February 29, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Transactions with Parties-in-Interest

Plan investments are managed by the custodian. These investments are considered party-in-interest transactions. The Plan's management has approved these investment options.
