Notes to the Financial Statements

1. DESCRIPTION OF THE PLAN

The following brief description of the SIFCO Industries, Inc. Salaried Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan sponsored by SIFCO Industries, Inc. (the Company) covering substantially all non-union employees of the Company's U.S. operations hired before attaining age 60 and before March 1, 2003. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension Benefits

The accrual of future benefits under the Plan ceased effective February 28, 2003 as a result of a Plan amendment. All participants in the Plan became fully vested in the pension benefit earned as of that date. As a result of this Plan amendment, there have been no new Plan participants since February 28, 2003. The participants' fully vested pension benefit was calculated using a formula provided in the Plan document.

Participants are entitled to a monthly pension benefit beginning at normal retirement age 65. The Plan permits early retirement after age 60 and 15 years of service, or if the sum of age and service equals 75 or more. Participants who leave the Company prior to meeting these requirements, must wait until age 65 to start receiving retirement benefits. Participants, who meet the preceding requirements for receiving benefits, may elect to receive their pension benefits in the form of an annuity or a lump-sum distribution. Effective March 1, 2014, the Plan was amended to allow for reduction of lump-sum benefit payments based on Plan funding status.

Death and Disability Benefits

Beneficiaries of participants dying after becoming vested in their retirement benefit or satisfying the age and service requirements for early retirement, become eligible to receive a death benefit equal to 50% of the benefits participants would have received on the day prior to death. There are no disability benefits payable from the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Quantitative Management Associates, a registered investment advisor and wholly owned subsidiary of Prudential Financial, Inc., manages the Plan's investments according to the Plan's investment guidelines. The Plan's assets are invested in pooled separate accounts and common/collective trusts through contracts with The Prudential Insurance Co. of America (the custodian) and The Prudential Trust Company (the trustee), respectively. The Plan's investments and investment activity were certified as complete and accurate by the custodian and trustee.

The Plan's investments in pooled separate accounts and common/collective trusts are stated at fair value. See Note 4 for a discussion on fair value measurements. The investment income earned by the pooled separate accounts and common/collective trusts is net of investment management expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to service rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) present employees, (b) retired or terminated employees with vested rights, and (c) beneficiaries of present, deceased, retired or terminated employees. Benefits payable under all circumstances (retirement, death, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Benefit Payments

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain administrative and management advisory fees were paid by the Plan during the years ended February 29, 2016 and February 28, 2015. The Plan's other administrative expenses were paid by the Company.

Notes to the Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Reclassifications

Certain reclassifications have been made to the 2015 financial statements to conform with the 2016 financial statement presentation. Such reclassifications had no effect on net assets available for benefits, and changes therein, as previously reported.

Subsequent Events

The Company has evaluated events and transactions that occurred through November 28, 2016 the date the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. FUNDING POLICY

Contributions are made by the Company based on guidelines set by the Plan's independent actuary. The Company's funding policy is to contribute an amount at least equal to the minimum required contribution under ERISA. The Company's contributions for fiscal years 2016 and 2015 met the minimum funding requirements.

4. FAIR VALUE MEASUREMENTS

The Plan provides disclosures consistent with the Financial Accounting Standards Board (FASB) fair value measurement guidance, which establishes a framework. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy gives the highest priority to observable inputs (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 – Observable inputs such as quoted prices in an active market for identical assets or liabilities.

Level 2 – Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 – Inputs to the valuation methodology that are unobservable and supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

SIFCO Industries, Inc.
Salaried Retirement Plan

Notes to the Financial Statements

4. FAIR VALUE MEASUREMENTS – CONTINUED

The fair value measurement level of assets and liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description based on information provided to the Company by the custodian of the pooled separate accounts and the trustee of the common/collective trusts of the valuation methodologies used to measure assets at fair value as of February 29, 2016 and February 28, 2015.

The Plan holds investments in pooled separate accounts and common/collective trusts, in which the fair value of assets of the underlying funds are determined in the following ways:

- U.S. stock funds are comprised of domestic equities that are priced using the closing price of the applicable nationally recognized stock exchange.
- International stock funds are comprised of international equities. These securities are priced using the closing price from the applicable foreign stock exchange.
- U.S. bond funds are comprised of domestic fixed income securities that are measured by interactive data using inputs such as benchmark yields, reported trades, broker/dealer quotes, or issuer spreads. The fair value of investments classified as Level 3 involves the use of a discounted cash flow model.
- International bond funds are comprised of international fixed income securities that are measured by interactive data using inputs such as benchmark yields, reported trades, broker/dealer quotes, or issuer spreads.
- Short-term investment fund is comprised of short-term securities and cash equivalent securities, which seek to provide high current income consistent with the preservation of principal and liquidity. Securities are valued at cost.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. However, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

The following table sets forth by measurement level, within the fair value hierarchy, the Plan's assets at fair value as of February 29, 2016:

	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts	\$ 5,497,301	\$ 947,147	\$ 6,444,448
Common/collective trusts	<u>3,742,333</u>	<u>-</u>	<u>3,742,333</u>

4. FAIR VALUE MEASUREMENTS – CONTINUED

The following table sets forth by measurement level, within the fair value hierarchy, the Plan's assets at fair value as of February 28, 2015:

	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts	\$ 6,779,520	\$ 925,820	\$ 7,705,340
Common/collective trusts	<u>3,982,722</u>	<u>-</u>	<u>3,982,722</u>
Total assets at fair value	<u>\$ 10,762,242</u>	<u>\$ 925,820</u>	<u>\$ 11,688,062</u>

Changes in the fair value of the Plan's Level 3 investments during the years ended February 29, 2016 and February 28, 2015 were as follows:

	<u>2016</u>	<u>2015</u>
Balance at the beginning of the year	\$ 925,820	\$ 875,864
Actual return on plan assets	21,327	52,956
Sales	<u>-</u>	<u>(3,000)</u>
Balance at the end of the year	<u>\$ 947,147</u>	<u>\$ 925,820</u>

5. INVESTMENTS

During the years ended February 29, 2016 and February 28, 2015, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	<u>2016</u>	<u>2015</u>
Pooled separate accounts	\$ (546,835)	\$ 859,237
Common/collective trusts	<u>(243,297)</u>	<u>67,754</u>
	<u>\$ (790,132)</u>	<u>\$ 926,991</u>

6. ACTUARIAL PRESENT VALUE OF ACCUMULATED BENEFITS

The significant assumptions underlying the actuarial computation as of February 29, 2016 and February 28, 2015 are as follows:

	<u>2016</u>	<u>2015</u>
Effective interest rate	4.29% per year	4.42% per year
Mortality basis	RP 2014 Mortality Table	RP 2014 Mortality Table
Retirement	Weighted average retirement age 64	Weighted average retirement age 64

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, who uses the projected unit credit method to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits information as of February 29, 2016 and February 28, 2015 is as follows:

	<u>2016</u>	<u>2015</u>
Vested benefits:		
Participants currently receiving benefits	\$ 2,866,505	\$ 3,197,102
Other participants	<u>7,183,366</u>	<u>7,577,744</u>
	10,049,871	10,774,846
Non-vested benefits	<u>1,644</u>	<u>3,826</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 10,051,515</u></u>	<u><u>\$ 10,778,672</u></u>

**SIFCO Industries, Inc.
Salaried Retirement Plan**

Notes to the Financial Statements

6. ACTUARIAL PRESENT VALUE OF ACCUMULATED BENEFITS – CONTINUED

The following highlights the effect of certain events on the actuarial present value of accumulated plan benefits:

	<u>2016</u>	<u>2015</u>
Actuarial present value of accumulated plan benefits - beginning of year	\$ 10,778,672	\$ 10,536,973
Increase (decrease) during the year attributable to:		
Additional benefits accumulated (including gains and losses)	106,425	89,670
Increase for interest due to the decrease in discount period	650,946	661,801
Change in actuarial assumptions	(578,289)	244,231
Benefits paid	<u>(906,239)</u>	<u>(754,003)</u>
Actuarial present value of accumulated plan benefits - end of year	<u>\$ 10,051,515</u>	<u>\$ 10,778,672</u>

The actuarial present value of accumulated plan benefits decreased \$727,157 during the 2016 Plan year, in part as a result of a change in actuarial assumptions. The reasons for the change in the current liability is due to (i) the update on the mortality rates used; and (ii) the interest rate changes, which were updated to the rates required for the current Plan year under the Highway and Transportation Funding Act.

7. INCOME TAX STATUS

The Plan's latest determination letter is dated June 20, 2011. The Internal Revenue Service (IRS) determined that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan continues to qualify as exempt from income taxes and that consequently, no provision for income taxes has been included in the Plan's financial statements.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

SIFCO Industries, Inc.
Salaried Retirement Plan

Notes to the Financial Statements

8. PLAN TERMINATION (continued)

The Pension Benefit Guaranty Corporation (the PBGC) insures certain benefits under the Plan if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of a participant's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

9. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments and related transactions include shares of the custodian of the pooled separate accounts as well as shares of the trustee of the common/collective trusts. Therefore, these transactions are considered to be party-in-interest transactions.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is calculated based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the process of developing such estimations and assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the Plan's financial statements.

Notes to the Financial Statements

11. CHANGE IN ACCOUNTING PRINCIPLE

For the year ended February 29, 2016, Plan management has elected to adopt the provisions of *ASU No. 2015-12 – Plan Accounting: Defined Benefit Pension Plans (Topic 960)*, which reduces the complexity of Plan investment disclosures. Under the update, the Plan may present investments measured using fair value aggregated by general type, rather than present detailed categories under each general type. In addition, the Plan is no longer required to separately present those investments that represent 5% or more of Plan net assets. The updated disclosures have been applied as of and for the years ended February 29, 2016 and February 28, 2015, and have no effect on the changes in net assets as previously reported.
