1. Description of the Plan

The following description of the FiberLight, LLC 401(k) Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of FiberLight, LLC (the Company), who have completed three months of service and have attained the age of 21, except union employees and non-resident aliens. Enrollment is allowed on the first day of month following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In May 2016, the Plan was merged into the Insperity 401(k) Plan. All assets were transferred to the Insperity 401(k) Plan as of June 30, 2016 (Merger Date). The accompanying statement of net assets available for benefits is for the six-months ended June 30, 2016.

Contributions

Prior to the Merger Date, all eligible employees were automatically enrolled into the Plan and pre-tax contributions were withheld at 3% of eligible compensation unless the participant elects differently. Under an automatic deferral increase program, once an employee was enrolled, the deferral percentage automatically increased by 1% on an annual basis until the deferral percentage reached 10%. Each participant could make pre-tax and/or after-tax Roth contributions of up to 100% of eligible compensation as defined by the Plan, not to exceed a maximum of $18,000 in 2016. Eligible employees who had attained age 50 could make "catch up" contributions of up to $6,000 in 2016. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

Prior to the Merger Date, the Company could make contributions at the discretion of the Board of Directors. The discretionary employer contributions would be allocated to active participants' accounts based on compensation. No discretionary contributions were made during the period ended June 30, 2016.

Participant Accounts

Prior to the Merger Date, each participant's account was credited with the participant's contributions, Company contributions, and earnings or losses on the investments in their account and was charged with specific transaction charges. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered 10 common collective trusts, 5 pooled separate accounts, 11 mutual funds and one fixed income guaranteed option as investment options. Participants could change their investment options on a daily

basis. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting

Prior to the merger date, participants were immediately vested in their contributions and rollovers plus earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. Participants vested 20% after one year of service, then 20% per year thereafter until they were 100% vested after 5 years. All amounts would have become fully vested upon the participant's attainment of normal retirement age, disability, or death.

Forfeitures

As of June 30, 2016 and December 31, 2015, there were no forfeited non-vested accounts. Forfeitures may be used to pay Plan expenses or reduce employer contributions.

Notes Receivable from Participants

Prior to the Merger Date, participants could borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. Each participant was limited to two outstanding loans at a time. The loan was secured by the balance in the participant's account and bears interest at a rate of prime plus 1%. During the period ended June 30, 2016, loans had fixed rates of 2.00% for the term of the loan, not to exceed five years. Principal and interest were paid through payroll deductions.

Payment of Benefits

Prior to the Merger Date, at the time of death, disability, termination of service or retirement, the participant or their beneficiary could receive payment of the vested balance in their account as a lump sum distribution. Participants were eligible to receive hardship withdrawals when certain conditions were met.

Administrative Expenses

The Company paid substantially all administrative expenses on behalf of the Plan. Transaction fees related to distributions and loans were charged directly to the participants' accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Contributions

Participant contributions were considered payable to the Plan upon the withholding of contributions from the participant's paycheck.

Investment Valuation and Income Recognition

The investments of the Plan were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Net change in fair value of investments includes interest, dividends, and realized and unrealized gains and losses on investments.

Notes Receivable from Participants

Participant loans were carried at their outstanding balance. Interest income was recognized when received. No allowance for credit losses was recorded as of June 30, 2016 or December 31, 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through December 13, 2016, which is the date the financial statements were available to be issued.

3. Information Certified by Custodian

All information regarding investments and notes receivable from participants, including investments held and notes receivable from participants at June 30, 2016 and December 31, 2015, net change in fair value of investments, and interest income for the period ended June 30, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Trust Company (Principal), the Plan's custodian.

4. Investments

Certain Plan investments included units of pooled separate accounts, a guaranteed interest account and common collective trusts managed by Principal. Transactions in these investments qualify as party-in-interest transactions.

Investments were exposed to various risks such as interest rate, currency, market and credit risks. It was at least reasonably possible that changes in their fair value could occur in the near term and that such changes could materially affect participants' account balances.

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other observable data, including quoted prices for identical assets in inactive markets

Level 3 – unobservable inputs

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

Following is a description of the valuation methodologies used for assets measured at fair value.

Investments in mutual funds were stated at quoted market prices for the identical security in an active market (Level 1).

Investments in common collective trusts and pooled separate accounts were valued daily using net asset value (NAV). The NAVs were based on fair value determined daily based on the fair value of the mutual funds and other securities in the accounts. The common collective trusts and pooled separate accounts could be traded daily at their NAV (Level 1).

The Guaranteed Interest Option investment was a fully-benefit responsive investment contract and is a general obligation of Principal. Principal is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value of the Guaranteed Interest Option represented deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate as of December 31, 2015 was 1.85%. Interest rates were reviewed on a semi-annual basis for resetting.

The following table summarizes the Plan's investments based on the inputs used to determine their fair values as of December 31, 2015:

	Level 1
	2015
Mutual funds	$ 50,012
Pooled separate accounts	100,755
Common collective trusts	1,483,482
Total investments at fair value	$ 1,634,249

5. Income Tax Status

The Plan was based on the Principal Financial Group Prototype Basic Savings Plan. The prototype plan received a favorable opinion letter from the IRS dated March 31, 2014 stating that the prototype plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan did not obtain an individual determination. However, the Plan administrator believed the Plan was designed and being operated in compliance with the applicable requirements of the IRC and had no income subject to unrelated business income tax. The Plan's income tax returns for the past three years are subject to examination by tax authorities and may change upon examination.
