INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan (the "Plan") which comprise the statements of net assets available for benefits as of February 29, 2016 and February 28, 2015 and the related statements of changes of net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee, as of February 29, 2016 and February 28, 2015 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

To the Plan Administrator and Participants
Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan

Emphasis of Matter

As discussed in Note 2 to the financial statements, during the year ended February 29, 2016 the Plan adopted new accounting guidance related to the investments. Prior year disclosures have been revised to reflect the retrospective application of adopting these changes in accounting. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

OSHKOSH CORPORATION SALARIED AND CLERICAL EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended February 29, 2016 and February 28, 2015

NOTE 1 - Plan Description

The following brief description of the Oshkosh Corporation Salaried and Clerical Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for more complete information.

General

The Plan is a defined benefit plan, which includes all salaried and clerical employees of Oshkosh Corporation (the "Company") not covered by a plan maintained pursuant to a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan was closed to new participants as of September 30, 2012 and benefits were frozen for all participants effective December 31, 2012. Beginning January 1, 2013, a participant no longer earns additional pension benefits; however will continue to earn service credit for vesting and eligibility requirements. The benefit multiplier in effect on the date of a participant's retirement, or other termination of employment with the Company (including affiliates of the Company), but no later than December 31, 2012, times years of service is the minimum benefit payable to a participant.

Contributions

The Company's funding policy is to make contributions to the Plan generally based on amounts required to be funded under provisions of ERISA. No voluntary employee contributions are permitted. The Plan was in compliance with these minimum funding requirements for the plan years ended February 29, 2016 and February 28, 2015.

Vesting

Employees earn one year of vesting service for each plan year that they provide at least 1,000 hours of service. If an employee transfers to an affiliate of the Company, the employee continues to earn benefit and vesting service under the Plan for his or her employment with that affiliate. Participants vest in their accrued benefits if they reach the age of 65 while employed by the Company or according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
Less than five	0%
Five or more	100%

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended February 29, 2016 and February 28, 2015

NOTE 1 - Plan Description (cont.)

Retirement Benefits

Normal retirement is age 65. Employee participants may elect early retirement between the ages of 55 and 65 with a minimum of five years of service. Benefits are received at normal retirement age or, if elected, at early retirement. Benefits are determined based upon years of benefit service, Social Security benefits, and monthly salary, averaged over the highest five consecutive years of service, but shall not be less than an amount calculated by multiplying a benefit multiplier by years of service. A vested participant who terminates for any reason other than retirement, disability, or death is entitled to the monthly vested termination benefits beginning on the participant's normal retirement date in the amount of his or her accrued benefit or early retirement date, in which case benefits will be reduced by multiplying the accrued benefit by the appropriate early retirement factor set forth by the Plan. Participants may elect to receive their distributions, subject to certain Plan provisions, in the following forms, which include a single life method, a joint and 50%, 75% or 100% survivor method, a five-year or ten-year certain and life method, a survivor benefit method, and a lump-sum payment. A participant may elect to receive a lump-sum payment when the distribution amount is less than \$10,000 but more than \$1,000. If the participant's accrued benefit is less than \$1,000, the participant is paid a lump sum. If a participant becomes disabled before retirement, the participant may receive benefit payments at the time the participant qualifies for Social Security Disability Benefits.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan. These expenses include Pension Benefit Guaranty Corporation ("PBGC") premiums, investment management fees, and trustee fees.

Plan Amendment

The Plan was amended in April 2014 to provide for a lump sum distribution or immediate monthly annuity option for a limited period to certain terminated vested Plan participants, and to certain surviving spouses, surviving domestic partners and alternate payees. Eligible participants, spouses, domestic partners, and alternate payees had the option to elect a lump sum distribution or immediate monthly annuity during a limited period of time starting in July 2014 and ending approximately September 2014. Those electing the lump sum option forfeited their rights to participate in the Plan, including their rights to any other benefits that may be available through continuing to participate in the Plan.

Termination of Plan

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

NOTE 2 - Summary of Significant Accounting Policies

Termination of Plan (cont.)

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Accounting Estimates

The preparation of these financial statements requires the use of certain estimates by Plan management in determining the Plan's assets, liabilities, and changes therein, and the actuarial present value of accumulated benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments

The Plan's primary investment is its interest in the Oshkosh Corporation Employees' Retirement Trust (the "Master Trust"). The Master Trust is a multiple-plan trust. Historically, interest in the Master Trust was divided among individual plans sponsored by the Company and its subsidiaries based on allocated units of participation. Each participation unit has a value equal to the total fair value of the Master Trust's net assets divided by the total participation units outstanding. The Master Trust net assets and net gain or loss is allocated to the individual plans based on units of participation.

Beginning in November 2015, the Plan began to implement a liability driven investment strategy. The objective of this strategy is to more closely align the pension plan assets with the pension plan liabilities in terms of how both respond to changes in interest rates. Plan assets are allocated to two investment categories, including a category containing high quality fixed income securities and another category comprised of traditional securities and alternative asset classes. Assets are managed externally according to guidelines approved by Plan management. Over time, the Plan intends to reduce assets allocated to the return seeking category and correspondingly increase assets allocated to the high quality fixed income category to align more closely with the pension plan obligations. The change in investment strategy resulted in the Plan's interest in the Master Trust becoming segregated and specifically identifiable from the investments that support the Company's other sponsored plans that participate in the Master Trust. For the remainder of the investments within the Master Trust, the investment strategy continues to be based on an expectation that, over time, equity securities will provide higher returns than debt securities. The Master Trust primarily minimized the risk of larger losses under this strategy through diversification of investments by asset class, by investing in different styles of investment management within the classes and by using a number of different investment managers.

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended February 29, 2016 and February 28, 2015

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Valuation of Investments (cont.)

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of investments in common stocks, corporate bonds and notes, mutual funds, and money market funds are determined by quoted market prices on the last business day of the Plan year. Fair value of investments in government and agency bonds are determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Fair value of investments in common collective funds are determined using the net asset value ("NAV") per share (or its equivalent) practical expedient.

Security transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Master Trust invests in common stocks, bonds, money market funds, mutual funds, common collective funds, and a venture capital closely held limited partnership. Investment securities are exposed to various risks, including, but not limited to, interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts recorded in the financial statements.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Retirement Benefits

The Plan's actuarial present value of accumulated benefits includes such increases in the first actuarial valuation after the benefits are effective.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the NAV per share (or its equivalent) practical expedient under Accounting Standards Codification ("ASC") 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016 with early adoption permitted. Plan management has elected to early adopt ASU 2015-07 in the Plan year ended February 29, 2016. As of February 29, 2016, \$104,370,354 of investments held by the Master Trust that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy in Note 4 of the Notes to Financial Statements. No Plan, or Master Trust, assets utilized the NAV per share (or its equivalent) practical expedient as of February 28, 2015.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Recent Accounting Pronouncements (cont.)

In June 2015, the FASB issued ASU No. 2015-10, *Technical Corrections and Improvements*. ASU 2015-10 amends a wide range of ASC topics to make clarifying changes, correct unintended application of guidance and make minor changes that are not expected to have a significant effect on current accounting practice or create a significant administrative cost on most entities. As part of this amendment, the FASB changed the definition of Readily Determinable Fair Value. This change was effective upon issuance. The adoption of ASU 2015-10 has been applied to the financial statements and related disclosures.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part I of the ASU requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the NAV per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor ("DOL") Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Parts I and III are not applicable to the Plan. Plan management has elected to early adopt ASU 2015-12 in the Plan year ended February 29, 2016 to reduce complexity in employee benefit plan accounting, consistent with the FASB's Simplification Initiative. Accordingly, these provisions were retrospectively applied.

Reclassification

For comparability, certain 2015 amounts have been reclassified to conform with classifications adopted in 2016.

NOTE 3 - Information Certified by the Trustee (Unaudited)

Prior to November 1, 2015, the assets of the Plan were commingled and not segregated in the accounts of the Master Trust. Although assets of the Plan were commingled in the Master Trust, the trustee maintained supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income or loss of the investment assets were allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. Effective November 1, 2015, the assets of the Plan were segregated in the Master Trust and the net investment income or loss of the investment assets were separately reported.

NOTE 4 - Fair Value Measurement

The FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. ASC Topic 820 requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e. inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets

Level 3 - Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management is responsible for the determination of fair value. Accordingly, Plan management performs periodic analysis on prices received from the pricing services to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, Plan management has not historically adjusted the prices obtained from the pricing services.

The following is a description of the valuation methodologies used to measure the Master Trust's assets at fair value. There have been no changes in the methodologies used at February 29, 2016 and February 28, 2015.

Common Stocks, Money Market Funds, Mutual Funds, and Corporate Bonds and Notes: Valued at fair value based on quoted market prices on the last business day of the Plan year.

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended February 29, 2016 and February 28, 2015

NOTE 4 - Fair Value Measurement (cont.)

Government and Agency Bonds: Valued at fair value based on discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Common Collective Funds: Valued at fair value based on NAV per share (or its equivalent) practical expedient.

Venture Capital Closely Held Limited Partnership: These investments finance new and rapidly growing companies and do not have readily determinable market values given the specific investment structures involved and the nature of the underlying investments. Valuation is determined by various sources such as issuer, investment manager, etc.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of February 29, 2016, the fair values of the Master Trust's investments are as follows:

	Level 1	Level 2	Level 3	Total

- (a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Notes to Financial Statements.

The following table sets forth additional disclosures for the fair value measurement of the fair value of the Master Trust assets that calculate fair value based on NAV per share (or its equivalent) practical expedient as of February 29, 2016:

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Common collective trust	<u>\$ 104,370,354</u>	<u>\$ -</u>	<u>N/A</u>	<u>15 days</u>

The change in the fair value of the Master Trust's Level 3 investment assets for the years ended February 29, 2016 and February 28, 2015 was not significant.

NOTE 5 - Actuarial Present Value of Accumulated Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on years of benefit service, Social Security benefits, and monthly salary, averaged over the highest five consecutive years of service. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

OSHKOSH CORPORATION SALARIED AND CLERICAL EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended February 29, 2016 and February 28, 2015

NOTE 5 - Actuarial Present Value of Accumulated Benefits (cont.)

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Aon Hewitt, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in the valuation as of March 1, 2015, are as follows:

- > Mortality basis - RP-2014 fully generation mortality table for annuitants and non-annuitants projected forward using MP-2015
- > Actuarial cost method - Standard unit credit cost method
- > Normal retirement age - Active Participants: Graduated rates between age 55 and age 65
- Terminated Vested Participants: Age 62
- > Interest rate used in accrued benefit calculations - 4.45% (4.50% as of March 1, 2014)

The foregoing assumptions are based on the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits and changes in accumulated plan benefits, as of and for the year ended March 1, 2015, are as follows:

Vested benefits	
Participants and beneficiaries currently receiving benefits	\$ 49,736,302
Other participants	<u>72,801,599</u>
Total Vested Benefits	122,537,901
Nonvested benefits	<u>2,456,083</u>
Actuarial Present Value of Accumulated Plan Benefits	<u>\$ 124,993,984</u>
Actuarial Present Value of Accumulated Benefits, at the Beginning of Year	\$ 132,108,516
Increase (decrease) during the year attributable to	
Benefits accumulated	(1,285,915)
Change in actuarial assumptions	940,785
Benefits paid	(12,437,520)

Net Decrease	<u>(7,114,532)</u>
Actuarial Present Value of Accumulated Benefits, at the End of Year	<u>\$ 124,993,984</u>

The effect of past Plan amendments on accumulated plan benefits is recognized during the year in which such amendment provisions become effective.

NOTE 6 - Reimbursement of Plan Benefit Payments

Beginning March 1, 2001 and continuing through July 1, 2016, a retiree of the Company received a monthly retirement benefit from the Plan. In late calendar 2015, the trustee of the Plan conducted an audit of the payees of the Plan and identified the retiree was a contractor and not an employee of the Company. Contractors are not eligible to participate in any qualified retirement plan and as a result the Company was required to reimburse the Master Trust for the cumulative benefit payments plus a reasonable estimate of any earnings. On September 2, 2016 the Company reimbursed the Master Trust \$490,329, of which \$435,604 was due as of February 29, 2016.

NOTE 7 - Exempt Party-In-Interest Transactions

The Plan's investments are administered under a contract with the trustee of the Plan. Contributions are held and managed by the trustee who invests cash received, interest, and dividend income and makes distributions to participants. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

NOTE 8 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated June 12, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of February 29, 2016 and February 28, 2015, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - Subsequent Events

Management of the Plan has evaluated subsequent events through December 15, 2016, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age. Two different groups, participants with under 30 years of service at retirement and participants with 30 or more years of service at retirement, are used to develop the average. Based on the current active population, approximately 60% of the participants retire with 30 or more years of service. Therefore, the estimated weighted average retirement age is 61 (60% x 60.73 + 40% x 61.91).

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	The plan was established effective March 1, 1972. Amended and restated effective March 1, 2001. The plan was frozen effective December 31, 2012.
Covered Employees	All salaried and clerical employees. Employees covered by a plan maintained pursuant to a collective bargaining agreement and Directors are excluded from participation. The plan was amended for immediate participation as of March 1, 2004. The plan was closed to new entrants effective September 30, 2012 and frozen effective December 31, 2012.
Transfers	Transfers in and out of the plan will accrue vesting and benefit service earned before and after transfer (but not after December 31, 2012), but compensation will be limited to the time actually covered by the plan (but not after December 31, 2012). The accrued benefit will be offset by the benefit accrued under other plan(s).
Normal Retirement Eligibility	An employee is eligible for normal retirement benefits at the end of the month in which age 65 is attained.
Benefit	The monthly normal retirement benefit is equal to the larger of (a) and (b) where: (a) Is 50% of average monthly compensation less 45% of primary Social Security, multiplied by 1/30 for each benefit accrual year of service (maximum 30 years); and (b) Is the multiplier in effect for Oshkosh Truck Corporation Hourly Employees Pension Plan times each year of benefit service (maximum 45 years). The multiplier is \$31 as of October 1, 2012. The normal retirement benefit will in no event be less than the largest early retirement benefit. All benefit accruals are frozen effective December 31, 2012.

Early Retirement
Eligibility

An employee is eligible for early retirement upon attainment of age 55 if he has a minimum of five years of service.

Benefit

The monthly benefit is equal to the normal retirement benefit based on service projected to age 65 multiplied by the product of (a), (b) and (c) where:

(a) Is a fraction equal to (1) divided by (2) below:

- (1) The number of years of benefit service at date of retirement.
- (2) The number of years of benefit service the employee would have had at age 65 if he had remained in service.

(b) Is equal to the participant's vested percentage; and

(c) Is equal to 1.00; minus

- (1) 1/180 for each month that payments commence prior to age 65 (but in no event more than 60 months); plus
- (2) 1/360 for each month that payments commence prior to age 60.

However, for a participant who retires on or after age 62 and has completed at least 30 years of benefit accrual service, the reductions in (c) above are at the rate of 1/360 for each month that payments commence prior to age 65.

All benefit accruals are frozen effective December 31, 2012.

Late Retirement
Eligibility

Retirement after age 65, but not beyond age 70.5 except with the consent of the employer.

Benefit

Benefits will be calculated at age 65 and will increase actuarially thereafter. Retirement benefits will not be paid if an employee continues to work at Oshkosh Corporation.

Disability Retirement
Eligibility

An employee is eligible if, after having completed five years of service, he is unable to perform his employment duties.

Benefit

The monthly benefit commencing immediately is equal to the actuarial equivalent of his vested accrued normal retirement benefit. This benefit is calculated in the same manner as for early retirement using service at date of disability in the proration factor.

Vesting
Eligibility

Five years of continuous service.

Benefit

The monthly benefit is equal to the vested accrued normal retirement benefit earned to the date of termination. This benefit is calculated in the same manner as for early retirement using service at date of termination in the proration factor. In no event shall payments commence prior to age 55.

Preretirement Surviving Spouse's Benefit
Eligibility

Active employees must have completed five years of continuous service at death and married at least one year.

Benefit

For employees eligible for early retirement, the benefit is equal to 50% of the amount the participant would have received had the participant retired on the day before his death and elected the 50% spouse's annuity.

For employees not eligible for early retirement, the benefit is equal to 50% of the amount the participant would have received had the participant terminated on the date of death, survived to his early retirement age and retired with an immediate 50% spouse's annuity. The spouse's benefit will begin on the date the participant would have reached his early retirement age.

Normal Form of Payment

Life annuity for single participants, and an actuarially equivalent 50% joint and survivor annuity for married participants.

Optional Form of Payment

Optional forms provided are: five year certain and life, 10-year certain and life, 66⅔%, 75% and 100% joint and survivor annuities.

Source of Contribution

The company pays the entire contribution.

Compensation	Compensation is the amount reported on Internal Revenue Service Form W-2, including section 125 and section 401(k) deferrals and excluding bonuses and income from restricted stocks. The earnings are limited each year by the IRS Code section 401(a)(17) limit on recognizable pay. Compensation after December 31, 2012 is not recognized.
Average Monthly Compensation	Average monthly compensation is the sum of the highest five consecutive completed calendar years' compensation prior to the participant's normal retirement age or other date of termination, divided by 60.
Hours of Service	For purposes of this plan, hours of service will be determined on the basis of actual hours for which an employee is paid or entitled to payment.
Year of Service	For purposes of eligibility, vesting, and benefit accrual, 1,000 hours will constitute a year of service. Years of service for purposes of benefit accruals are frozen effective December 31, 2012.
Primary Social Security Benefit	Based on law in effect at earlier of date of termination of employment or normal retirement date. Estimates of amounts payable at normal retirement age will assume that earnings continue to age 65 at the same rate as was in effect at date of termination.
Limit on Benefits	All benefits are limited by IRS Code section 415.
Actuarial Equivalence Small-Amount Cashouts	Section 417(e)(3) "applicable mortality table" and the "applicable interest rate".
Annuity Payment Forms	6.00% interest and the RP2000CH table projected to 2028, weighted 85% male.

Plan Changes Since the Prior Year

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
