## **COMMUNICATIONS WITH THOSE CHARGED WITH GOVERNANCE AND INTERNAL CONTROL RELATED MATTERS**

To the Plan Administrators  
Healthcare Resource Group, Inc.  
Employee Stock Ownership Plan and Trust

We have audited the financial statements and supplementary information of Healthcare Resource Group Inc. Employee Stock Ownership Plan and Trust (Plan) as of and for the year ended December 31, 2014, and have issued our report thereon dated October 14, 2016. Professional standards require that we provide you with the following information related to our audit

### **Our Responsibility under Auditing Standards Generally Accepted in the United States of America**

As stated in our engagement letter dated June 23, 2016, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United State of America. Our audit of the financial statements does not relieve you or management of your responsibilities.

Our responsibility is to plan and perform the audit in accordance with auditing standards generally accepted in the United States of America and to design the audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we considered the Plan's internal control solely for the purposes of determining our audit procedures and not to provide assurance concerning such internal control.

We are also responsible for communicating significant matters related to the financial statement audit that, in our professional judgment, are relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

You should understand that our audit is not specifically designed for, and should not be relied upon, to disclose matters affecting Plan qualifications or compliance with the ERISA and Internal Revenue Code requirements.

## **Other Information in Documents Containing Audited Financial Statements**

The American Institute of Certified Public Accountant (AICPA)'s Audit and Accounting Guide for Employee Benefit Plans requires that, before an auditor's report on the Plan's financial statements can be included with a filed Form 5500 (including any related schedules), the auditor must review Form 5500 and consider whether there are any material inconsistencies between the other information in the form and the audited financial statements or any material misstatement of fact.

Our responsibility for other information in Form 5500 does not extend beyond the financial information identified in our report. We do not have an obligation to perform any procedures to corroborate other information contained in the form, except as described above. However, we have read the information contained in Form 5500 and nothing came to our attention that caused us to believe that such information or its manner of presentation is materially inconsistent with the information as it is presented in the financial statements.

## **Planned Scope and Timing of the Audit**

We performed the audit according to the planned scope and timing previously communicated to you in our engagement letter dated June 23, 2016.

## **SIGNIFICANT AUDIT FINDINGS**

### **Qualitative Aspects of Accounting Practices**

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements.

There were no changes in the application of existing accounting policies during the year. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

## **Significant Accounting Estimates**

Accounting estimates may be an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates may be particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimate affecting the financial statements is management's estimate of the accumulated benefit obligation, which is based on an actuarial valuation. We evaluated the key factors and assumptions used to develop the accumulated benefit obligation in determining that it is reasonable in relation to the financial statements taken as a whole.

## **Financial Statement Disclosures**

The disclosures in the financial statements are consistent, clear, and understandable. Certain financial statement disclosures may be particularly sensitive because of their significance to financial statement users.

We did not note any disclosures in the financial statements that we consider sensitive to potential users.

## **Significant Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing and completing our audit.

## **Corrected and Uncorrected Misstatements**

Professional standards require us to accumulate all misstatements identified during the audit. Management has determined the effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. The following summarizes uncorrected misstatements of the financial statements:

As a result of recordkeeping changes related to the update of release of shares method, the prior year interest expense is understated by \$16,768 due to a recalculated loan amortization schedule in conjunction with recordkeeping changes.

## **Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

## **Management Representations**

We have requested certain representations from management that are included in the management representation letter dated October 14, 2016.

## **Management Consultation with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" in certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

## **Other Significant Audit Findings or Issues**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

## COMMUNICATION OF INTERNAL CONTROL RELATED MATTERS

Our responsibility under auditing standards with respect to internal control is described above.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described above and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

We were pleased to serve and be associated with the Plan as the independent auditors for 2014. We provide the above information to assist you in performing your oversight responsibilities.

## REPORT OF INDEPENDENT AUDITORS

To the Trustees  
Healthcare Resource Group, Inc.  
Employee Stock Ownership Plan and Trust

### **Report on Financial Statements**

We have audited the accompanying financial statements of Healthcare Resource Group, Inc. Employee Stock Ownership Plan and Trust (Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

**REPORT OF INDEPENDENT AUDITORS**  
**(continued)**

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

***Report on Supplementary Information***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2014, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

### Note 1 – Plan Description and Basis of Presentation

**History and general** – Healthcare Resource Group, Inc. (Company) established Healthcare Resource Group, Inc. Employee Stock Ownership Plan and Trust (Plan) effective January 1, 2005. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a committee appointed by the Board of Directors of the Company. The Plan document should be referred to for specific information regarding benefits and other Plan matters.

The Plan purchased Company common shares using the proceeds of a note payable to the Company (see Note 7) and holds the stock in a trust established under the Plan. All shares were allocated to participants as of December 31, 2013, and the note payable was paid in full as of December 31, 2014.

The borrowing is collateralized by the unallocated shares of Company common stock and is guaranteed by the Company. As the Plan makes each payment of principal, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The lenders have no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2014 and 2013, and for the year ended December 31, 2014, present separately the assets and liabilities therein pertaining to:

- a) The accounts of employees with rights in allocated stock (allocated); and
- b) Stock not yet allocated to employees (unallocated).

**Eligibility** – Employees of the Company who are not covered under collective bargaining agreements, who are not nonresident aliens, and who work 1,000 or more hours annually are eligible to participate in the Plan following the completion of one year of service and the attainment of age 21. In the initial year of the Plan, eligible employees who were employed on January 1, 2005, became participants effective January 1, 2005.

**Participant accounts** – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustees from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation relative to total eligible compensation. Net earnings and losses from the Plan's investments, except common stock of the Company, are allocated to each participant's account based on the ratio that participant's account bears to the total of all participants' account balances, as of the beginning of the Plan year. Net earnings and losses from the investment in common stock of the Company, including unrealized appreciation and depreciation in fair value, are allocated to each participant's account based on the actual number of shares of common stock allocated thereto.

**Note 1 – Plan Description and Basis of Presentation (continued)**

**Vesting** – Participant accounts vest according to the following schedule:

All contributions made after January 1, 2007:

<u>Credited Years of Service</u>	<u>Percentage Vested</u>
Less than three years	0%
Three years	100%

A participant's account shall fully vest upon death, disability, or attainment of age 62.

**Payment of benefits** – Distributions shall be made, in accordance with the Plan's distribution policy, based upon the circumstances of their termination of employment and the value of their account. A participant's account shall be distributed in the form of a lump-sum distribution or annual installments over a period, not exceeding five years, as determined by the Company.

Upon a participant's termination date, the participant or their beneficiary will be entitled to receive payment from the participant's ESOP account, based on the value of the participants vested percentage. The value of a participant's ESOP account will be based on the value in the participants account as of the end of the Plan year prior to the date of payment. Upon termination of service, a participant will receive a lump-sum distribution of their account balance, without the participant's consent, if their vested balance does not exceed \$5,000. Distributions are generally made in the year following the fifth year of separation from the Company. Any stock allocated to participant accounts, which was due to an outstanding loan, need not be distributed until the close of the Plan year in which the loan has been fully repaid.

**Participant accounts and forfeitures** – Company common stock allocations and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. During 2014, forfeitures totaling \$176,769 were reallocated to remaining participants' accounts. There were no balances in forfeited nonvested accounts at December 31, 2014 or 2013.

**Diversification** – Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in the Company common stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less all amounts previously diversified. In the sixth year, the percentage increases to 50%. Participants who elect to diversify receive a cash distribution.

### Note 1 – Plan Description and Basis of Presentation (continued)

**Voting rights** – Each participant is entitled to exercise certain voting rights attributable to the shares allocated to his or her account and is notified by the Company prior to the time that such rights may be exercised.

**Plan termination** – Although the Company has expressed no intent to do so, it reserves the right to terminate the Plan at any time, subject to the Plan provisions. Upon complete or partial termination of the Plan, the entire interest of each of the affected participants shall become 100% vested. The trustees shall distribute the interest of each participant in the trust fund to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Advisory Committee shall direct the trustees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

**Put option** – Under federal income tax regulations, Company common stock that is held by the Plan and its participants must include a put option if it is not readily tradable on an established market or is subject to trading limitations. The put option is a right to demand the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

### Note 2 – Summary of Significant Accounting Policies

**Basis of accounting** – The financial statements of the Plan are prepared using the accrual method of accounting.

**Use of estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

**Investment valuation** – Investments are reported at fair value. See Note 6 for discussion of fair value measurements.

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. The net appreciation in fair value of the Company's common stock consists of both the realized gains or losses and unrealized appreciation and depreciation of the Company common stock.

**Payment of benefits** – Benefits are recorded when paid.

**Note 2 – Summary of Significant Accounting Policies (continued)**

**Administrative expenses** – The Company pays the administrative expenses of the Plan.

**Subsequent events** – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 14, 2016, which is the date the financial statements were available to be issued.

**Note 3 – Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated July 26, 2013, the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 4 – Administration of Plan Assets**

The Plan assets, which consist of Company common stock, are held by the trustees of the Plan.

Company contributions are held and managed by the trustees, which invest cash received, interest, and dividend income and make benefit payments to participants. The trustees also administer the payment of interest and principal on the loan, which is reimbursed to the trustees through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

### Note 5 – Investments

In a transaction on January 1, 2005, the Plan acquired 495,000 shares of the Company's outstanding common stock for \$10.34 per share, which was the estimated fair value, as determined by an independent appraisal at the time of acquisition. The estimated fair value, as determined by independent appraisal as of December 31, 2014 and 2013, was \$15.96 and \$15.75 per share, respectively. The estimated fair value in Company common stock as of December 31, 2014 and 2013, was \$7,900,200 and \$7,796,250, respectively, with a cost of \$5,120,000.

Employer contributions are generally made in the form of sponsor company common stock and cannot be diversified until certain criteria are met. As the participant lacks the ability to exercise independent control over these funds, they are defined as nonparticipant-directed. A portion of the sponsor company common stock is participant-directed (those who have met diversification criteria, as defined in Note 1). Accordingly, 100% of the sponsor company common stock held by the Plan has been presented as nonparticipant-directed. During 2013, 57,113 shares were committed to be released and allocated to participants, resulting in all shares being allocated to participants as of December 31, 2013.

Nonparticipant-directed investments as of December 31, are as follows:

	<u>2014</u>	<u>2013</u>
Sponsor company common stock	\$ 7,900,200	\$ 7,796,250

### Note 6 – Fair Value Measurements

The Plan adheres to authoritative guidance on fair value measurements. The guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date.

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

**Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

# HEALTHCARE RESOURCE GROUP, INC. EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

## NOTES TO FINANCIAL STATEMENTS

### Note 6 – Fair Value Measurements (continued)

**Level 2** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table discloses by level the fair value hierarchy:

Investment Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Healthcare Resource Group, Inc. common stock	\$ -	\$ -	\$ 7,900,200	\$ 7,900,200

  

Investment Assets at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total
Healthcare Resource Group, Inc. common stock	\$ -	\$ -	\$ 7,796,250	\$ 7,796,250

The following table discloses the summary of changes in the fair value of the Plan's Level 3 investment assets:

	Common Stock
Balance, December 31, 2013	\$ 7,796,250
Unrealized gain	103,950
Balance, December 31, 2014	\$ 7,900,200

Unrealized gains included in changes in net assets for the period above are reported in net appreciation in the fair value of Company common stock in the statement of changes in net assets available for benefits.

### Note 6 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The fair market value of the Company common stock held by the Plan is valued based upon an independent appraisal. Similar to prior years, this appraisal was based upon a the discounted cash flow method, which uses ten year cash flow forecasts based on management's projections and expectations, in combination with an analysis of historical results and trends.

The valuation process involves Plan management selecting an independent appraiser. Plan management accumulates the data for the appraiser from audited financial statements of the Company and financial information and transactions through the Company's year end of December 31. The appraiser prepares a preliminary report that Plan management, along with the ESOP trustees, review in detail, discuss, and approve. The results of this process are documented in the minutes of the Plan fiduciaries.

The preceding methods described may produce a fair market value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair market value measurement at the reporting date.

The following table sets forth the basic valuation techniques and inputs used in arriving at fair value:

Instrument	Valuation Techniques	Unobservable Input
Company common stock	Discounted cash flow	Weighted-average cost of capital Long-term revenue growth rate Projected gross profit

### Note 7 – Note Payable

During the year ended December 31, 2005, the Company and the Plan entered into a stock purchase agreement with Colleen Hays to purchase 495,000 shares of common stock for \$5,120,000. The note calls for monthly installments of \$57,000 at 6.0% interest. During the year ended December 31, 2010, the original note to Colleen Hays was refinanced and paid off. A new note agreement was signed between the Plan and the Company with the same terms as the original note. The note is secured by the unallocated Company stock. The note was paid in full on September 16, 2014.
