Note 1. Plan Description

The following brief description of the DuPage Machine Products Employee Savings and Protection Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of DuPage Machine Products, Inc. (the Company) who have completed six months of service and are age eighteen or older. Participants can enter the Plan on the first day of each plan year and the first day of the seventh month of each year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to contribute 2 to 20 percent of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contributions plans (rollover). The Company makes a discretionary matching contribution each pay period. In 2016, the Company matched 25% of participant contributions up to 6% of participant's compensation, as defined in the Plan document, for those participants who have completed less than 5 years of service. For those participants who have completed 5 or more years of service, in 2016, the Company matched 100% of participant contributions up to 6% of participant's compensation, as defined in the Plan document. The Company may make an annual discretionary profit sharing contribution in an amount to be determined at plan year-end by the Board of Directors. For the year ended March 31, 2016, the Company did not make any profit sharing contributions to the Plan. Contributions are subject to certain limitations.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching contribution, if any, as well as allocations of the Company's profit sharing contributions, if any, and Plan earnings/losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Participants who terminate employment due to death or disability are 100 percent vested in their account balances.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $15,000 or 50 percent of their account balance, whichever is less. The loan repayment period is not to exceed five years except for the purchase of a principal residence in which case the repayment period is not to exceed ten years. The loans are secured by the balance in the participant's account. The loan interest rate is determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans (7.00 percent at March 31, 2016). Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Note 1. Plan Description (Continued)

Forfeited accounts: At March 31, 2016 and 2015, there were no balances in the forfeited non-vested accounts. Funds forfeited are to be used to pay for Plan expenses. Any funds not used to pay for Plan expenses are to be reallocated to participants.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. The amendments in this update removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also removed the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Plan management has elected to early adopt the ASU.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

Note 2. Summary of Accounting Policies (Continued)

• The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

• The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management has elected to adopt the ASU as applicable.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through January 9, 2017 the date these financial statements were available to be issued.

Note 3. Information Certified or Provided by the Custodians

The Plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians have certified the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of March 31, 2016 and 2015
- Notes receivable from participants, as shown in the statement of net assets available for benefits as of March 31, 2016 and 2015
- Interest and dividend income and net gain on investment activity, as shown in the statement of changes in net assets available for benefits for the year ended March 31, 2016.
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of March 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2016 and 2015.

Shares of registered investment companies – Valued at the net asset value (NAV) of shares held by the Plan at year-end as traded on a national securities exchange.

Pooled separate accounts - Valued at the NAV daily based on the market value of the underlying net assets in each separate account. The majority of the underlying net assets have observable level 1 and/or 2 quoted pricing inputs which are used to determine the unit value of the pooled separate accounts which are not publicly quoted. The redemption frequency of each of the pooled separate accounts is daily and there are not redemption restrictions.

Common/collective trusts - Common/collective trusts invest in collective trust funds as well as variety of separate accounts and mutual funds. The fair values of all these investments are used in determining the NAV of the collective investment trusts, which are not publicly quoted. In general, the majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are generally based on publically quoted prices, the NAV of each individual Common /collective trust is not valued using publically quoted prices. Common/collective trusts can be redeemed on a daily basis and each common/collective trust has its own investment strategy. There are no restrictions, terms or conditions under which the investments may be redeemed or sold.

Note 4. Fair Value Measurements (Continued)

Insurance company general account - Valued at the amount Plan participants would receive if they were to withdraw or transfer funds within the Plan prior to maturity or an event other than death, disability, termination or retirement. The fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed credit ratings. The investment contracts maintained by the Plan have not been deemed to be fully benefit-responsive. As such, the statement of changes in net assets available for benefits reflects income credited to participants in the Plan and net appreciation or depreciation in the fair value of those investment contracts. A surrender charge may apply to transfers or withdrawals from the guaranteed interest fun. The rate used to determine if a charge applies is quail to the Treasury rate plus 0.5%. A charge applies when the reference rate is higher than the rate being credited to the non-matured fund being transferred or withdrawn. The amount of the surrender charge is calculated as follows: 1) the difference between the Treasury rate on the date of surrender and Guaranteed Interest Rate, multiplied by 2) the number of years and fractional parts of a year left in the guarantee period, multiplied by 3) the amount being surrendered. A surrender charge does not apply to withdrawals due to retirement, termination or employment, disability, or death.

The average yield and crediting interest rates were between 0.10% and 1.19%, respectively, for the year ended March 31, 2016 and 0.10% and 1.80%, respectively, for the year ended March 31, 2015. The crediting interest rate is based on a formula agreed upon with the Plan. Interest rates are reviewed for resetting and there are no unfunded commitments.

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended March 31, 2016.

	Level 3 Assets Year Ended March 31, 2016 Guaranteed Interest Fund

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits

Transfers between Levels

For years ended March 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Note 5. Related Party Transactions

The Plan's investments consist of an insurance company general account underwritten by the custodian, as well as pooled separate accounts and common/collective trust funds, which are managed by the custodians. Transactions in such investments qualify as party in interest transactions as defined by ERISA. In addition, notes receivable from participants are also treated as party in interest transactions.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan received its most recent determination letter from the Internal Revenue Service (IRS) dated June 1, 2012, which covered the Plan document and amendments executed through December 28, 2011. In this determination letter, the IRS indicated that the Plan, as designed, was incompliance with applicable regulations under Section 401(a) of the Internal Revenue Code (IRC), and thus, was exempt from income taxes. The Plan has since been amended; however, the plan administrator believes that the Plan is currently designed in compliance with the applicable requirements of the IRC, and the Plan administrator will take all appropriate actions to ensure that the Plan maintains compliance with IRS regulations. Consequently, no provision for income taxes has been included in the Plan's financial statements. The plan administrator believes the Plan is in compliance with the IRC and is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
