Definitions

Accrued Benefit: The benefit determined under the formula used to calculate the Normal Retirement Benefit, based on Base Annual Rate and years of Benefit Service as of the date of determination. The accrued benefit is frozen as of October 31, 2015.

Actuarially Equivalent: Equality in value such that the present value of the amount under any form of payment is essentially the same as the present value of the amount under the normal form of annuity payment for single participants. In general, for purposes other than determining lump sum amounts, Actuarially Equivalent factors are based on the 1971 Group Annuity Male Mortality table, with a two-year age setback for participants and a six-year setback for contingent annuitants, and an interest rate of 6.5%. For purposes of determining lump sum amounts, Actuarially Equivalent factors are based on the mortality table specified in IRS Notice 2013-49 for the Plan Year of distribution and the statutory three-tier segment interest rates in effect for the month of October prior to the Plan Year of distribution.

Base Annual Rate: The lower of the highest Base Rate of Pay determined on any given July 1 and the average annual Compensation during the highest 60 consecutive months of service ending on date of termination (Compensation paid in the month following termination is excluded). For Transitioned Employees, Compensation for the Prior Plan is included. The Base Annual Rate is frozen as of October 31, 2015.

Base Rate of Pay: Annualized salary by multiplying monthly salary by 12 or hourly rate by number of normally scheduled hours worked (2080 hours) determined as of July 1. Annual Base Rate of Pay may not exceed the inflation-adjusted limit specified for each Plan Year as specified by the IRS.

Benefit Service: After the initial month of employment, credit is earned for each month worked. In the initial month of employment, credit is earned if hired on or before the 15th of a month (16th for 31-day months). For Transitioned Employees, Benefit Service includes service under the Prior Plan as of February 11, 2014. Benefit service is frozen as of October 31, 2015.

Compensation: Regular base earnings, including any reductions pursuant to IRC 401(k), 125 and 132(f)(4) plus overtime pay, shift differential, premium pay, commissions and other similar items, but excluding bonuses (signing bonuses and retention bonuses), spot awards, non-cash awards, reimbursements of business expenses and other similar items. Annual Compensation may not exceed the inflation-adjusted limit specified for each Plan Year as specified by the IRS.

Covered Compensation Level: The average annual Social Security wage base during the last 35 years ending on December 31st of the preceding July 1, rounded to the nearest multiple of \$600. The Covered Compensation Level does not vary by participant and remains in effect from July 1 to June 30. The Covered Compensation Level in effect July 1, 2015 to October 31, 2015 is \$70,200.

Plan Effective Date: February 12, 2014.

Plan Year: The 12-month period beginning January 1 and ending December 31. The initial plan year was from February 12, 2014 to December 31, 2014.

Prior Plan: The Allegheny Energy Retirement Plan within the FirstEnergy Corp. Pension Plan in effect on February 11, 2014.

Transitioned Employees: An employee of FirstEnergy immediately prior to February 12, 2014, employed on February 12, 2014, and a member of UWUA Local 102 Lake Lynn on February 12, 2014.

No partial years of Vesting Service are credited. For Transitioned Employees, Vesting Service includes service under the Prior Plan as of February 11, 2014.
