Notes to the Financial Statements For the Three-Month Period Ended March 31, 2016

1. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments and notes receivable from participants are stated at fair value. All Plan assets were transferred to The Raymond Corporation Consolidated Dealers Savings Plan before the close of business on March 31, 2016. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determined the Plan's valuation policies utilizing information provided by the Plan's trustee. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold during the three-month period ended March 31, 2016, as well as gains and losses on investments held during the period until they were transferred to The Raymond Corporation Consolidated Dealers Savings Plan before the close of business on March 31, 2016.

Notes Receivable from Participants

Notes receivable from participants include the unpaid principal balance plus any accrued but unpaid interest. If a participant stopped making note receivable payments and the Plan administrator determined the note was in default, the note receivable balance was reduced and a benefit payment was recorded. Interest income on notes receivable from participants is recorded on the accrual basis.

Payment of Benefits

Benefits are deducted when paid.

Expenses

Certain expenses of maintaining the Plan were paid directly by the Plan sponsor, Heubel Material Handling, Inc. (Company) and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's accounts when incurred and included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

2. Description of Plan

The following description of the Heubel Material Handling, Inc. Incentive Savings Plan & Trust (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Merger

In accordance with an agreement between the Company and its parent, The Raymond Corporation, effective March 31, 2016 all Plan assets were transferred to The Raymond Corporation Consolidated Dealers Savings Plan (Raymond Plan).

General

The Plan was a defined contribution plan covering all full-time employees of the Company who met the following eligibility requirements: 1) completion of three months of service and 2) at least 20½ years old. An employee could have elected to become a participant in the Plan on the first day of the month coincident with or immediately following the date they became eligible. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator was responsible for oversight of the Plan, determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions

Participants specified the amount of eligible compensation to be contributed to the Plan (participant salary deferral contributions). Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Discretionary employer matching contributions of 50% of participant deferrals, not to exceed 2% of eligible compensation, were made during the three-month period ending March 31, 2016. Participants could direct contributions to any of the various investment options offered by the Plan. Contribution amounts could only be changed on the first day of each month. Allocation changes and fund transfers could be done daily. Contributions were subject to certain IRS limitations.

Participant Accounts

Each participant's directed account was credited/charged with an allocation of the directed investment's earnings/losses and credited with the participant's contributions and employer matching contributions. Investment earnings/losses were credited/charged to each participant's directed account based on the actual earnings/losses of the investments in that participant's directed account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. Description of Plan (continued)

Vesting

Participants vested immediately in their contributions plus actual earnings/losses thereon. Upon death, disability, attainment of normal retirement age or plan termination, a participant also became fully vested in all accounts attributable to discretionary employer matching contributions; otherwise, the participant became fully vested in employer matching contributions in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20
3	40
4	60
5	80
6	100

Notes Receivable from Participants

Prior to the transfer of the plan's assets to the Raymond Plan, participants could borrow from their account a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balance. Note terms ranged from one to five years except notes for the purchase of a primary residence could be for a longer term. The notes were secured by the balance in the participant's account. The interest rate charged on notes was determined by Plan management and was 8.25% for outstanding notes at December 31, 2015 and outstanding notes immediately prior to the transfer to The Raymond Plan on March 31, 2016. Principal and interest were paid ratably through payroll deductions prior to the transfer.

Payment of Benefits

On termination of service, participants could elect to receive their distribution in a lump-sum payment or they could make a qualified rollover. If a participant's benefits were \$5,000 or less but greater than \$1,000, the participant could elect to receive a lump-sum distribution or make a qualified rollover and, if no election was made, the vested benefit amount was automatically rolled into an Individual Retirement Account. If a participant's benefits were less than \$1,000, a lump sum payment was automatically made as soon as administratively feasible unless the participant elected to receive a qualified rollover. Under terms of the Plan, normal retirement age was the date the participant attains age 65.

Forfeited Accounts

Forfeited nonvested matching contributions were first used to pay administrative expenses of the Plan and any remaining forfeitures were used to reduce employer matching contributions.

3. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following investments and notes receivable from participants certified by Fidelity Management Trust Company (Fidelity), the trustee of the Plan, as complete and accurate, except for comparing the certified information to the related information included in the Plan's financial statements. The following table includes the fair values of the Plan's investments and notes receivable from participants at March 31, 2016 and December 31, 2015 as certified by Fidelity.

	<u>2016</u>	<u>2015</u>
Investments (participant directed):		
Mutual funds at fair value	\$ -	\$ 8,494,941

Total investments at fair value	<u>\$ -</u>	<u>\$ 8,565,878</u>
Notes receivable from participants	<u>\$ -</u>	<u>\$ 215,644</u>

The trustee also certified the completeness and accuracy of the following investment income and interest on notes receivable from participants for the three-month period ending March 31, 2016:

Investment income:	
Net appreciation in fair value of investments	\$ 18,950
Interest and dividends	<u>4,396</u>

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820, Fair Value Measurement, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. All investments in the fair value hierarchy are valued using Level 1 inputs.

Following is a description of the valuation methodologies used to determine the fair value of investments. There have been no changes in the methodologies used at March 31, 2016 and December 31, 2015.

- Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- The stable value collective investment trust fund is composed primarily of fully benefit-responsive investment contracts and is valued at the NAV of the fund as reported by the investment advisor using the audited financial statements of the collective investment trust at December 31, 2015. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it was determined to be probable that the Plan will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate full redemption of the collective investment fund, the investment advisor generally reserves the right to temporarily delay withdrawal from the fund to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding valuation methods described may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

4. Fair Value Measurements (continued)

The following table includes the fair values of investments by level within the fair value hierarchy at March 31, 2016 and December 31, 2015:

	<u>2016</u>	<u>2015</u>
Mutual funds (level 1):	\$ <u> -</u>	\$ <u>8,494,941</u>
Total investments in the fair value hierarchy	-	8,494,941
Collective investment trust (a)	<u> -</u>	<u> 70,937</u>
Total investments at fair value	\$ <u> -</u>	\$ <u>8,565,878</u>

- (a) In accordance with FASB ASC 820-10, certain investments measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for Plan benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. For the three-month period ended March 31, 2016, there were no transfers between fair value levels.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>December 31,</u> <u>2015</u>	<u>Fair Value</u>	<u>Unfunded</u> <u>Commitments</u>	<u>Redemption</u> <u>Frequency</u>	<u>Redemption</u> <u>Notice Period</u>
Stable Value Collective Investment Trust Fund	\$ <u>70,937</u>	N/A	Daily	12 months

5. Party-In-Interest Transactions

Certain Plan investments were shares of mutual funds managed by Fidelity. These investments and transactions in these investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan to Fidelity were \$474 for the three-month period ended March 31, 2016.

6. Tax Status

The Plan adopted a prototype plan, which received an opinion letter dated March 31, 2008 from the Internal Revenue Service (IRS) indicating that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan was amended after receiving the opinion letter; however, the Plan administrator believes the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan was qualified and tax-exempt as of the financial statement date and no provision for income taxes has been recorded in the financial statements.

HEUBEL MATERIAL HANDLING, INC. INCENTIVE SAVINGS PLAN & TRUST

Notes to the Financial Statements For the Three-Month Period Ended March 31, 2016

6. Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2016 and December 31, 2015, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. Risks and Uncertainties

The Plan allowed participants to invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risk. Due to the transfer of all Plan investments and assets to the Raymond Plan on March 31, 2016, these risks were also transferred to the Raymond Plan.

8. Reconciliation to Form 5500

The following is a reconciliation of net assets available for Plan benefits per the financial statements to the Form 5500 at March 31, 2016 and December 31, 2015:

	<u>2016</u>	<u>2015</u>
Net assets available for Plan benefits per the financial statements	\$ -	\$ 8,781,522
Adjustment from contract value to fair value for the collective investment trust	<u>-</u>	<u>679</u>
Net assets available for benefits per the Form 5500	\$ <u>-</u>	\$ <u>8,782,201</u>

The following is a reconciliation of the changes in net assets available for Plan benefits per the financial statements to the Form 5500 for the three-month period ended March 31, 2016:

Net increase in net assets available for Plan benefits per the financial statements	\$ 186,970
Adjustment from contract value to fair value for the collective investment trust	<u>(679)</u>
Net increase in net assets available for Plan benefits per the Form 5500	\$ <u>186,291</u>

9. Subsequent Events

The Plan has evaluated subsequent events through January 12, 2017, the date the financial statements were available to be issued.
