DEN-TEX CENTRAL, INC. EMPLOYEE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2016

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Den-Tex Central, Inc. ("Company") Employee 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a participant directed defined contribution 401 (k) profit sharing plan covering salaried employees (excluding highly-compensated individuals and hourly employees) of Den-Tex Central, Inc. (the Plan sponsor) who have attained six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA), and is ERISA 404(c) compliant.

The trustees oversee governance of the Plan, the appropriateness of the Plan's investment offerings, and monitor investment performance.

Employee Contributions

Each year, participants may contribute up to 30% of their total compensation, defined as W-2 wages, to the 401(k) Plan deferral, subject to federal limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Rollover contributions are accepted by the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled, separate accounts and an insurance investment contract as investment options for participants. Contributions are subject to certain statutory limitations.

Employer Contributions

The Company made discretionary matching contributions of twenty-five cents ($0.25) for each dollar contributed up to a maximum of the first 4% of compensation deferred.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, and allocations of (a) the Company's matching contribution and (b) Plan earnings and losses. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Eligible participants can enter the Plan on the first day of the next calendar quarter of the Plan year following six months of employment.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. In the event of termination of employment for reasons other than death, retirement, or disability, a participant shall have a vested right in all Company generated portions of his or her account based on years of continuous employment with the Company as follows:

25% after 2 Years of Service
50% after 3 Years of Service
75% after 4 Years of Service
100% after 5 Years of Service

If a participant is not fully vested in the employer matching contribution on the date of separation, the non-vested portion will be forfeited and used to pay plan expenses or reduce future employer matching contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts and repay the amount borrowed, with interest, into their 401(k) account through payroll deductions. Participants may borrow a minimum of $1,000 from their accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. Loans may be repaid over a maximum period of five years. Any loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with market rates for similar loans. See the separate written loan policy for specific loan information regarding amounts, interest, and terms.

Payment of Benefits

After election by the participant or their representative, benefits are payable upon termination of employment or by death, retirement or disability of the participant in a lump sum amount equal to the value of the participant's vested interest in his or her account as soon as it is administratively feasible.

If a participant ceases employment with a vested account balance of $5,000 or less, the amount will be paid at that time. If the vested amount is greater than $5,000, there are options available regarding payout.

Deferred contributions may be available for withdrawal due to financial hardship, as defined by the plan.

Distributions of vested or rollover amounts are permitted in – service after age $59^{1/2}$ (limited to one withdrawal during any one-year period).

Forfeited Accounts

In the event of a forfeited non-vested account balance, forfeitures may be used to pay Plan expenses. Any forfeiture dollars remaining after paying plan expenses may be used to offset employer contributions. At March 31, 2016 and 2015, forfeited non-vested accounts totaled $1,299 and $1,331, respectively. Employer contributions were reduced by $2,394 from forfeited non-vested accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Administrative Expenses

Administrative costs of the Plan other than the asset fees or fees directly charged to a participant for a benefit payment are paid directly by the Company and are therefore excluded from the financial statements.

Investment Options

The assets of the Plan are allocated to the various funds at the discretion of the participant. There are over twenty investment options available for the investment of the participants' elective and matching contributions and can be seen individually in the accompanying supplemental schedule.

Basis of Accounting

The financial statements of the plan are prepared on a modified cash basis, which is a comprehensive basis of accounting other than generally accepted accounting principles.

There were no adjustments necessary to the modified cash basis for the years ending March 31, 2016 and 2015 in order to reflect the balances on the financial statements on the accrual basis.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit –responsive investment contracts. Contract value is equal to fair value on these statements, and the statements are considered to be disclosed on the modified cash basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income recognition

The Plan's assets are held in pooled, separate funds and a contract with an insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the modified cash basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains or losses on investments bought and sold as well as held during the year.

The investments in all of the funds are presented at fair value, based on quoted market prices of the underlying securities within each fund at March 31, 2016 and 2015. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged to the borrowing participant's account and are included in administrative expenses when incurred. As of March 31, 2016 and 2015, no allowance for credit losses has been recorded. Delinquent notes receivable from participants are recorded as benefit payments based upon a default determination by the Plan administrator and the terms of the Plan document, and the corresponding loan balance is reduced.

Date of Management's Review

Subsequent events were evaluated through January 12, 2017, which is the date the financial statements were available to be issued.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - INVESTMENTS

The following presents investments that represent five-percent or more of the Plan's net assets as of March 31, 2016 and 2015:

Principal Large Cap Growth II Separate	120,717	116,413
Principal S & P 500 Index Separate	294,384	279,886
Principal International I	-	61,568

There are no reportable conditions that need to be disclosed in conjunction with Federal Form 5500, Schedule H, part 4, line 4j.

NOTE 4 – TAX STATUS

The Internal Revenue Service has determined and informed the Company, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

The Plan document is a prototype non-standardized profit sharing plan provided by Principal Financial Group, a related entity to Principal Life Insurance Company.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 5 - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the Plan's custodian, has certified that the following data included in the accompanying financial statements and schedule is complete and accurate:

a) Investments, as presented in the accompanying statements of net assets available for benefits as of March 31, 2016 and 2015.

b) Net appreciation in fair value of investments and interest income, as presented in the accompanying statements of changes in net assets available for benefits (modified cash basis) for the year ended March 31, 2016 and 2015.

c) The schedules of assets held for investment purposes at March 31, 2016 and 2015, as presented on the accompanying supplemental schedule.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Principal Life Insurance Company manages all investments of the Plan. As Principal Life Insurance Company is the custodian of the Plan, these transactions qualify as party-in-interest transactions. Principal Life Insurance Company has not engaged in any non-exempt transactions that would be required to be reported. Fees paid by the Plan for recordkeeping and investment management services amounted to $20,374 for the year ended March 31, 2016. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts and their balances would be distributed in accordance with the Plan agreement. There are no intentions to terminate the Plan as of the date of these financial statements.

NOTE 8 - INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

At March 31, 2016 and 2015, the Plan's investments were held by the Trustee. The Plan's financial information is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at March 31, 2016 and 2015 as reported by the trustee is detailed in the accompanying supplemental schedules of assets held for investment purposes.

NOTE 9 - FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1).

Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 and Level 2 inputs were not available.

Level 1 Fair Value Measurements-

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The funds must publish their daily net asset value and transact at that price. Mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded. There were no level 1 assets held by the Plan as of March 31, 2016 and 2015.

Level 2 Fair Value Measurements-

The fair value of corporate bonds and U.S. government securities are valued using a market approach on yields currently available on comparable securities of issuers with similar credit ratings. The pooled, separate accounts are considered level 2 investments (see note 10 for additional information).

Level 3 Fair Value Measurements-

Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. Most participant transactions are executed using contract value without adjustment. For these types of contracts, the contract value is a good proxy for fair value.

The Plan administrator determines the fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

In determining the reasonableness of the methodology, a variety of factors are evaluated including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of March 31:

Fair value measurements at the end of the reporting period using other observable inputs (Level 2):

	2016	2015
Level 1	$ -	$ -
Level 2 (Pooled Separate Accounts)		
Balanced/Asset Allocation	499,665	403,569
Fixed Income	300,542	267,913
International Equity	62,185	62,981
Large U.S. Equity	415,340	396,563
Small/Mid U.S. Equity	88,782	87,657
Other	743	962
	1,367,257	1,219,645
Level 3		
Short-Term Fixed Income	287,150	275,511
	$ 1,654,407	$1,495,156

Level 3 inputs are unobservable and appropriate valuation techniques are used to determine the fair value of the investments.

EFFECT OF LEVEL 3 INPUTS ON NET ASSETS OR LIABILITIES

The following table shows the effect that Level 3 investments have on the plan's financial activity for the years ended March 31:

Investment Contract-Short Term Fixed Income

		2016	2015
Beginning balance	$	275,511	272,946
Total gain or loss		140	202
Interest credited		2,171	2,386
Purchases		61,192	57,391
Sales		51,864	57,414
Ending balance		287,150	275,511
Transfer in (out) level 3		-	-
Unrealized gain or (loss)	$	140	202

NOTE 10 - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan includes a non-benefit responsive investment contract called the Guaranteed Interest Account. The fund is credited with participant and matching contributions and interest earnings and is charged for participant withdrawals. Benefit payments are made at fair value (no termination or surrender charge adjustments) for plan benefit events and investment transfers initiated by plan participants. There is a possible surrender charge when funds are withdrawn prior to their maturity. The fund provides a guarantee of principal and interest. The general account assets of Principal Life Insurance Company back these guarantees. The contract is included on the financial statements at fair value.

The Guaranteed Interest Account is a general account product. Contributions and transfers allocated to this investment option will be credited interest at a guaranteed interest rate Principal Life Insurance Company declares for a specified period of time as determined, or allowed, by the plan sponsor's retirement plan (the guarantee period). Guaranteed interest rates for new allocations are subject to change daily, and each amount allocated to the guaranteed interest account will earn interest based on this guaranteed interest rate in effect for the date that the amount is allocated to this guaranteed interest account.

The unallocated, pooled separate accounts are maintained in a group annuity contract. As an insurance company, Principal Life offers many group annuity contracts for retirement plans. These are not investment options, but an obligation of Principal Life to pay a benefit that is supported by a diversified, multi-billion dollar general account which is, mostly, everything that Principal Life owns that is not a separate account. Principal Life is regulated by state agencies and they certify both the accuracy and completeness of each plan's activity in the group annuity contracts.

Pooled separate accounts are accounts maintained by an insurance company that are used for the collective investment of plan funds from more than one employee benefit plan. Separate accounts are credited with income, gains, or losses resulting from the assets allocated to that specific account only. The return on separate accounts is not guaranteed as the value of an interest in a separate account increases or decreases based on the value of the assets held in the separate account.

NOTE 11 – RISK AND UNCERTAINTIES

The Plan invests in a variety of investment securities. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits (modified cash basis).
