NOTE A - DESCRIPTION OF PLAN

Plan Description - The following description of MaintenX 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan, established January 1, 2004, is a defined contribution plan covering substantially all employees of MaintenX International Service Management Group, Inc. (the Company) who become eligible for participation in the Plan at the age of twenty-one on the first day of the month following three months of employment, as defined by the Plan document. Subject to certain limitations on annual additions, each participant's account is credited with employee elective deferrals, safe harbor matching contributions, and an allocation of Plan earnings and charged with certain administrative expenses. The allocations are based on participant account balances, as defined. Participants may modify investment elections, transfer existing account balances, and obtain information regarding the investments on a daily basis. Great West Trust Company, LLC (Great West), holds the Plan's investment assets as of December 31, 2014, and executes investment transactions for the Plan effective June 9, 2014. Principal Life Insurance Company held the Plan's investment assets as of December 31, 2013, and executed investment transactions for the Plan through June 8, 2014. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan also allows for a safe harbor matching contribution by the Company. The match is equal to 100% of the elective deferral that does not exceed 3% of compensation, plus 50% of the elective deferral that exceeds 3% of compensation but does not exceed 5% of compensation.

Excess Contributions - The Plan undergoes an annual Actual Deferral Percentage test (ADP) that will show excess contributions, if any, made by Plan participants. Such contributions are to be distributed from the Plan to the respective participants. There were no excess contributions at December 31, 2014 or 2013. Excess contributions are recorded as an accrued liability on the statements of net assets available for benefits and will be refunded to the respective participants in the following Plan year.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's safe harbor matching contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - CONTINUED

Vesting - Participants are immediately vested in their contributions and safe harbor matching contributions plus actual earnings thereon.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's vested account. Notes receivable from participants, as of December 31, 2014 and 2013, have rates ranging from 3.25% to 5.25%. Principal and interest is paid ratably through payroll deductions and are reinvested in the participant accounts according to individual investment elections.

Payment of Benefits - Upon normal retirement age, death, disability, or termination, a participant's benefit is payable in a lump-sum amount equal to 100% of the participant's vested account balance. The participant also has the option of transferring his or her vested interest to a personal retirement account. Hardship withdrawals are permitted in the Plan. Hardship withdrawals from the Plan are allowed up to a maximum of the vested portion of the participant's account balance. Hardship withdrawals and withdrawals for those that have not attained age 59 ½ are subject to income tax.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. ***Basis of Accounting***

   The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

2. ***Use of Estimates***

   The preparation of financial statements in conformity with US GAAP requires the plan administrator to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

3. ***Investment Valuation and Income Recognition***

   Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See ***NOTE D*** for discussion of fair value measurements. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

4. ***Notes Receivable from Participants***

   Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan.

5. ***Payment of Benefits***

   Benefits are recorded when paid.

6. ***Administrative Expenses***

   The Company pays administration expenses except for transaction-based fees, which are paid for directly by participants.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great West and Principal, the custodians, have certified that the following data included in the accompanying financial statements and supplementary information is complete and accurate.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

NOTE D - FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

The financial statements are prepared in accordance with an accounting standard which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE D - FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS - CONTINUED

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

Mutual funds: Valued at net asset value (NAV) of shares held by the Plan at year-end as quoted in the active market.

Group fixed annuity contract: Valued at contract value. Contract value approximates fair value.

Common collective trust (CCT): Valued at contract value based on the contractual terms of the underlying guaranteed investment (GIC). These CCT's are priced daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Fair Value Measurements at Reporting Date Using:

NOTE E - INVESTMENTS

The following presents investments at December 31, 2014 and 2013 that represent 5% or more of the Plan's net assets available for benefits:

	2014	***2013***

Principal Lifetime 2030	*	102,612
Principal Capital Appreciation	*	82,580

* Investment does not represent 5% or more of the net assets available for benefits during the respective Plan year.

NOTE F - GROUP FIXED ANNUITY CONTRACT WITH INSURANCE COMPANY

During 2014, the Plan held a benefit-responsive investment contract (group fixed annuity contract) with Great West. The insurance company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the insurance company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described above in ***NOTE D***, because the guaranteed investment contract is benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the insurance company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Great West. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that any events would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreements prior to the scheduled maturity date.

The average yield earned by the Plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rates for the fund over the year. The average for 2014 is 1.25%.

The actual average yield earned by the Plan for the benefit responsive fund can be derived by averaging the plan's quarterly interest rates. The actual average for 2014 is 1.25%.

NOTE G - COMMON COLLECTIVE TRUST

During 2013, one of the investment options offered by the Plan is the Principal Stable Value Signature (the Fund), a common collective trust. The Fund invests in a pool of fixed income securities such as government securities, private and public mortgage-backed securities, other asset-backed securities, investment grade obligations, and other securities. These securities are "wrapped" by synthetic investment contracts issued by banks or insurance companies.

The Fund is fully benefit-responsive, therefore contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Fund. Contract value represents invested principal plus accrued interest. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Fair value is the sum of the market value of all of the Fund's investments, fixed income investments, synthetic wraps, and traditional guaranteed investment contracts.

There are no reserves against the contract value for credit risk of the contract issuer or others. Average yields for the contract are as follows:

	2013
Based on rate credited to participants	.44%
Based on actual earnings	.58%

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value. The plan administrator does not believe the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE I - TAX STATUS

Effective April 1, 2014, the Plan is based on and has adopted the Penservco, Inc. Prototype Non-Standardized Cash or Deferred Profit Sharing Plan (Penservco). As of December 31, 2013 and through March 31, 2014, the Plan was based on and adopted the Datair Mass-Submitter Prototype Non-Standardized Cash or Deferred Profit Sharing Plan (Datair). Penservco and Datair received favorable opinion letters dated March 31, 2008, from the Internal Revenue Service (the IRS), that the prototype plans are designed in accordance with applicable sections of the Internal Revenue Code (IRC) for the Plan. The Company believes the Plan, as adopted and amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE I - TAX STATUS - CONTINUED

US GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan's federal returns are generally open for examination for three years following the date filed.

NOTE J - RELATED PARTY TRANSACTIONS

Certain plan investments are units of a cash equivalent account or shares of mutual funds managed by Great West, the custodian of the Plan. These transactions and notes receivable from participants qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $5,667 for the year ended December 31, 2014.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE L - RECONCILIATION OF THE FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2014 and 2013:

NOTE M - DELINQUENT CONTRIBUTIONS

During 2014, employee contributions of $59,180 were considered delinquent in being remitted to the Plan. The delay was unintentional and the Company intends to remit lost earnings calculated following the DOL guidelines for late deposits.

NOTE N - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 15, 2015, the date the financial statements were available and issued and is not aware of any other subsequent events which would require recognition or disclosure in the financial statements.
