NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Direct Energy US 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering certain employees of Centrica U.S. Holdings, Inc. and certain other related companies (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2015, the Astrum Solar, Inc. 401(k) was merged into the Plan, with assets of approximately $1,150,000 transferring on February 2, 2015.

Contributions - Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. In addition, newly eligible employees automatically have 3% deducted from their compensation as a contribution to the Plan and each year the automatic deferral percentage is increased by 1% up to a maximum of 10%, unless otherwise elected. The Company makes a safe harbor contribution equal to 100% of the first 3% of eligible compensation, and 50% of the next 2% of eligible compensation and a discretionary matching contribution limited to 4% of the participant's eligible compensation for the Plan year. Participants must have one year of service with 1,000 hours to be eligible for the discretionary matching contribution. There were no discretionary matching contributions in 2015. The Plan allows participants to direct their contributions and contributions made on their behalf to any of the investment options provided by the Plan. In addition, participants over the age of 50 are permitted an additional "catch-up" contribution. Participants are allowed to make rollover contributions (contributions transferred to the Plan from other qualified retirement plans), subject to certain requirements. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and Company safe harbor and discretionary matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions, safe harbor contributions, employer matching contributions, and "catch up" contributions plus actual earnings thereon. Vesting in employer discretionary contributions occurs after one year of service.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Loans are required to be repaid through payroll deductions within five years, except those loans used in the purchase of a primary residence. Residential loans must be repaid within a reasonable period of time, determined at the time the loan is executed. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate plus 1% at the time of the loan. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Benefits provided by the Plan are paid from assets available for benefits at retirement, disability, death or termination of employment. Payments may be in the form of a lump-sum payout of the participant's account balance, purchase of an annuity or periodic cash payments, or rolled over to another qualified plan. Hardship withdrawals are permitted by the Plan and are limited to employee elective deferrals plus any rollover amounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Forfeitures - Forfeitures of terminated participants' nonvested accounts are used to reduce future Company contributions. Any remaining forfeitures shall be used to offset Plan administrative expenses. Forfeitures remaining amounted to approximately $115,000 and $77,000 at December 31, 2015 and 2014, respectively. During 2015, approximately $33,000 in forfeitures was used to offset administrative expenses.

Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative fees. The remainder of the expenses are paid out of Plan assets. Investment-related expenses are included in net depreciation in fair value of investments.

The Plan administrator has evaluated subsequent events through January 24, 2017, the date on which the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY THE TRUSTEE

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest income on notes receivable from participants, interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee of the Plan.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contributions.

NOTE 5 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 20, 2012 stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and, therefore, the related trust is tax-exempt. The Plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan option letter. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for tax years prior to 2012.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 - FAIR VALUE MEASUREMENT

The Plan discloses the category of assets and liabilities measured at fair value into one of three different levels, depending on the assumptions (i.e., inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. Financial assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement. The fair value hierarchy is defined as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 or 2014.

Registered Investment Companies - Valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common Collective Trust - Valued at net asset value (NAV) of units of a common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) occur daily. At December 31, 2015 and 2014, there were no unfunded commitments and investments are redeemable on a daily basis and without restriction.

The preceding methods described might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - FAIR VALUE MEASUREMENT (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2015			
	Level 1	Level 2	Level 3	Total
Registered Investment Companies	$ 200,734,798	-	-	$ 200,734,798
Investments measured at net asset value (a)				4,390,485
Total investments at fair value				$ 205,125,283

	2014			
	Level 1	Level 2	Level 3	Total
Registered Investment Companies	$ 176,606,169	-	-	$ 176,606,169
Investments measured at net asset value (a)				2,986,434
Total investments at fair value				$ 179,592,603

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques might require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2015 or 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

NOTE 8 - RELATED-PARTY TRANSACTIONS

The Plan invests in registered investment companies and a common collective trust managed by Fidelity. These transactions qualify as party-in-interest transactions that are allowable under ERISA.

RE: Direct Energy US 401(k) Plan – Plan 002 Form 5500
Plan Year: 2015
EIN: 26-0029908

Dear Sir,

Please accept this letter of apology for not filing the 2015 Form 5500 for Direct Energy US 401(k) Plan by the extension deadline of October, 31, 2016.

The circumstances surrounding this late filing are unknown to me as I am the new Director of Benefits for Direct Energy as of January 16, 2017. The prior Director and Manager both resigned in 2016 and as we are a company owned by a UK based company, Centrica, the next manager level up is a UK citizen and had no knowledge of US regulatory rules – though I have been educating him since my arrival.

As you can see, I arrived on January 16, 2017 and once I became aware of the missed filing, I immediately began working with the auditors and the recordkeeper to complete the filing as quickly as possible.

I do apologize for the late filing and can guarantee that, under my direction, Direct Energy will not have any more late filings.

We respectfully request that any late filing penalty fees be waived with the understanding that we will never have this issue again.

Regards,

Judy H Bircher
Director Benefits North America
