Effective April 1, 2016, the Board of Directors passed a resolution to merge the N.J. Malin & Associates Retirement Savings Plan into the Raymond Corporation Consolidated Dealers Savings Plan, thus terminating the Plan. All assets were transferred out of the Plan and into the Raymond Corporation Consolidated Dealers Savings Plan on March 31, 2016.

Administration

The Plan is sponsored by the Company. Bank of America Merrill Lynch, N.A. (the "Trustee" and the "Recordkeeper") serves as the Plan's trustee and recordkeeper and The Raymond Corporation serves as the Plan's administrator.

Eligibility

An employee of the Company is eligible to participate in the Plan upon the attainment of 21 years of age and completion of 3 months of service. An employee will become a participant on the day following the completion of the eligibility requirements.

Contributions

Participants may contribute up to 50% of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation until changed by the participant. Participants who are age 50 or older can make additional pre-tax contributions known as "Catch-Up Contributions", subject to certain limitations. The Company provided a matching contribution of 30% of the participants' contributions up to the first 5% of a participant's compensation for 2016 and 2015. In accordance with the Plan, participant and Company contributions are limited to amounts established by Federal income tax laws.

The Company may make discretionary profit sharing contributions to the Plan as determined by its Board of Directors. No discretionary contributions were made during the three month period ended March 31, 2016.

Participant Accounts

Each participant account is credited with the participant's and the Company's contributions and an allocation of net Plan earnings. Participants may direct the investment of their account balances into various investment options offered by the Plan.

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. Participants become 100% vested in their Employer's matching contributions after completion of 2 years of service. Participants become 100% vested in their profit sharing contributions after completion of 3 years of service.

Payment of Benefits

In the event of termination of service due to death, disability, retirement or separation from service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan also allows participants to make hardship withdrawals, subject to certain limitations, as defined by the Plan.

Forfeitures

Forfeitures are used to reduce future Company matching contributions and pay administrative expenses. Forfeited invested accounts totaled $21,762 at December 31, 2015. There were no forfeitures at March 31, 2016.

Notes Receivable from Participants

Participants may borrow up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000. The loans are secured by the balance in the participant's account and bear interest ranging from 4.25% to 8.00% as of December 31, 2015. The interest rate is set by the Plan's Investment Committee. The loans are repaid ratably through payroll deductions over a period of five years or less.

Administrative Expenses

Certain costs and expenses of the Plan and its administration, including recordkeeping service fees, accounting services, trustee services and audit expenses, are paid by the Company. Participants are responsible for their own loan fees and withdrawal charges.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis.

Investment contracts held by a defined contribution plan are required to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in common collective trust investments held by the Plan. However, contract value, which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses, is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts through common/collective trust funds. The contract values for these common/collective trust funds were based on the net asset value of the fund as reported by the investment advisor. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust fund relating to indirect investments in fully benefit responsive investment contracts. The statements of changes in net assets available for benefits are prepared on a fair value basis.

Notes Receivable from Participants

Loans to participants are carried at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of March 31, 2016 as repayments of principal and interest are received through payroll deductions and the notes are fully collateralized by the participants' account balances.

Contributions and Contribution Receivables

Contributions are recorded on the accrual method of accounting. Contribution receivables are obligations arising from amounts owed to the Plan from participants that have not been included in the Plan's investments at year end. Contribution receivables are recorded at cost, which approximates their fair value. There were no contribution receivables at March 31, 2016 or December 31, 2015.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan provides for various investment options of specified registered investment companies. The underlying investments held by the registered investment companies may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent) which will amend Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurement. This amendment removes the requirement to categorize investments for which fair value is measured using the net asset value per share practical expedient within the fair value hierarchy. For non-public companies, this amendment is effective retrospectively for fiscal years beginning after December 15, 2015. The Plan has adopted the new pronouncement.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting (Topics 960, 962, and 965)—(I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient which will reduce complexity in employee benefit plan accounting under ASC Topic 962, Plan Accounting - Defined Contribution Pension Plans. The amendments (i) require fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value, not fair value; (ii) simplify the investment disclosure requirements; and (iii) provide a measurement date practical expedient for employee benefit plans. For non-public companies, this amendment is effective retrospectively for fiscal years beginning after December 15, 2015. The Plan has adopted the new pronouncement.

3. Fair Value Measurements

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Basis of Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds

Mutual funds are investments registered under the Investment Company Act of 1940. The fair value of the fund is based on its calculated net asset value ("NAV") at the close of business of the appropriate exchange, considering the value of the fund assets at that time. The values of the assets are generally based on market quotations or official closing prices. The NAV is readily available on the appropriate exchange. These funds are classified as Level 1.

Money Market Funds

Money market funds are mutual funds that invest in short-term debt securities such as U.S. Treasury Bills and commercial paper. The NAV of the funds is based on calculations performed by the Trustee using the underlying investments. As such, the hierarchical level for the fair value inputs of these funds is based on the appropriate level of the investments contained in the fund. The underlying investments consist primarily of mutual funds with the characteristics described above. Further, the NAV of the funds are readily available on the appropriate exchange. As a result, these funds are classified as Level 1.

Common Collective Trusts

The common collective trusts consist of a stable value fund that is composed primarily of fully benefit responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Effective March 31, 2016, the Plan merged with another plan, and the Plan assets were transferred into that plan; therefore, there are no Plan assets to report at March 31, 2016.

The following tables set forth by level within the fair value hierarchy the Plan investment assets at fair value as of December 31, 2015. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. There were no plan liabilities at December 31, 2015.

December 31, 2015

	Investment Assets at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,011,677	$ -	$ -	$ 11,011,677
Money market funds	697	-	-	697
Total assets in the fair value hierarchy	11,012,374	-	-	11,012,374
Common collective trusts measured at NAV*	-	-	-	2,983,600
Investments at fair value	$ 11,012,374	$ -	$ -	$ 13,995,974

* Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

4. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate.

- Investments and notes receivable from participants, as reflected in the Statements of Net Assets Available for Benefits as of March 31, 2016 and December 31, 2015;
- Net investment income, as reflected in the Statement of Changes in Net Assets Available for Benefits for the 3 month period ended March 31, 2016 as follows:

Dividends and interest	**$ 11,668**
Interest on participant notes receivable	**$ 5,674**
Appreciation in fair value of investments	**$ 170,495**

- Investment values disclosed in Note 3.

The Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements.

5. Related Party Transactions

There are no Plan investments that are considered related party transactions with the exception of notes receivable from participants.

6. Income Tax Status

The Plan is qualified and the Trust established under the Plan is exempt from federal income taxes as provided by the appropriate sections of the IRC. The Company adopted the Prototype Non-standardized Profit Sharing Plan with CODA, a prototype plan of the Trustee, which has received a favorable opinion letter from the Internal Revenue Service ("IRS") dated January 1, 2006, stating that the prototype plan is designed in accordance with the applicable sections of the IRC. As of March 31, 2016, the Plan does not have a determination letter from the IRS confirming its exemption from federal income tax and its status as a qualified trust. However, the Plan administrator and management believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. Subsequent Events

In preparation of its financial statements, the Plan considered subsequent events through January 13, 2017, which was the date the Plan's financial statements were available to be issued.
