Additional amounts may be contributed at the option of the Company. There was no discretionary contribution by the Company for the year ended June 30, 2016.

Participants' investment options

Participants may direct their contributions to a selection of mutual funds determined by Merrill Lynch, the investment manager, and approved by Bank of America, N.A., the trustee of the Plan, in accordance with the Fiduciaries Powers Act of the State of New York. Merrill Lynch recommends mutual funds for selection and groups such funds into various "lifestyle portfolios" that are also eligible for selection by the participants. In addition, participants are also given the option of (i) placing a portion or all of their assets into a self-directed account whereby the participant is responsible for all investment decisions or (ii) investing in a common collective trust.

Participants are provided with a report each quarter from the investment manager disclosing the performance of the various fund categories. Additionally, participants may change their contribution percentage to the Plan quarterly (i.e., January 1, April 1, July 1 and October 1).

Participant accounts
Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution plus actual earnings thereon is based on years of continuous service and vests 20% and 100% upon completion of two and three years, respectively.

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is determined by the Plan administrator at a rate commensurate with local prevailing rates, as defined. Principal and interest are paid ratably through payroll deductions.

Payment of benefits
Upon termination of service due to death, disability, attaining the age of 59 1/2 or retirement, participants or their designated beneficiary, as applicable, may, in accordance with the Plan provisions, elect to receive their participating vested interest in a lump sum or the form of an annuity.

Forfeitures
Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. There were $11,518 and $22 in forfeitures at June 30, 2016 and 2015, respectively. For the year ended June 30, 2016, the Company utilized $17,613 of forfeitures to offset Company contributions in accordance with the Plan provisions.

Plan termination
Although it has not expressed any intent to do so, the Company reserves the right to amend or terminate the Plan subject to the provisions set forth in ERISA. Upon termination of the Plan, all assets of the Plan vest and become distributable to the participants.

Note 2 - Summary of significant accounting policies

Basis of accounting
The Plan's financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Adoption of accounting standards
In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (“NAV”) per share. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV

per share. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The Plan has elected to early adopt this ASU.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. The Plan has elected to adopt Part II of this ASU.

Payment of benefits
Benefits are recorded when paid.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reported period. Actual results could differ from those estimates

Investment valuation and income recognition
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2016 or 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative expenses
Certain expenses of administrating the Plan are paid directly by the Plan. Management fees and operating expenses charged to the Plan for investments in the mutual funds and common collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Other administrative expenses are paid for by the forfeiture account, as allowed by the Plan document. The aggregate amount of such expenses was $3,203 for the year ended June 30, 2016.

Subsequent events
The Plan has evaluated subsequent events through December 13, 2016, the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820, *Fair Value Measurements*, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborate by observable market data or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at daily closing price as reported by the fund. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed accounts: Common stocks, which are held through the Plan's self-directed account, are valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trust fund: Valued at the NAV of units of a collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require one day's notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at fair value at June 30, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,952,832	$ -	$ -	$ 9,952,832
Self-directed accounts	107,506	-	-	107,506
Common collective trust fund	-	-	-	2,139,890
Total investments, at fair value	$ 10,060,338	$ -	$ -	$ 12,200,228

	Assets at fair value at June 30, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,130,855	$ -	$ -	$ 10,130,855
Self-directed accounts	99,075	-	-	99,075
Common collective trust fund	-	-	-	2,255,214
Total investments, at fair value	$ 10,229,930	$ -	$ -	$ 12,485,144

There have been no changes in the methodologies used at June 30, 2016 and 2015.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Net asset value per share

The following tables present the Plan's investments with a reported NAV at June 30, 2016 and 2015:

June 30, 2016	Fair value	Unfunded commitment	Redemption frequency (if currently eligible)	Redemption notice period
Common collective trust Invesco Stable Value Retirement Fund**	$ 2,139,890	None	Daily	1 Day

June 30, 2015	Fair value	Unfunded commitment	Redemption frequency (if currently eligible)	Redemption notice period
Common collective trust Invesco Stable Value Retirement Fund**	$ 2,255,214	None	Daily	1 Day

** The fund's strategy is to invest in an actively managed portfolio of investment grade, fixed and floating rate securities.

Note 5 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at June 30, 2016 and 2015, and investment income and interest income on notes receivable from participants for the year ended June 30, 2016, that are disclosed in the accompanying financial statements and supplemental schedules, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Bank of America, N.A., the trustee of the Plan.

Note 6 - Related party transactions and party-in-interest transactions

Certain trustees of the Plan are also employees of the Company and may be participants in the Plan. They do not receive any fees associated with being trustees to the Plan. Also, certain administrative functions are performed by the officers and employees of the Company (who may also be participants in the Plan) at no cost to the Plan.

Through the Plan's self-directed accounts, certain participants purchased shares of Orbit's common stock. The total number of shares held as of June 30, 2016 and 2015 was 16,538.

The Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.

Note 7 - Plan tax status

The prototype plan document, which the Plan has adopted via a non-standardized adoption agreement, obtained its latest opinion letter on March 31, 2014 in which the Internal Revenue Service stated that the prototype plan and related trust are designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to June 30, 2013.

Note 8 - Risks and uncertainties

The Plan's assets are invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Nonexempt transactions

As reported on the supplemental schedule of delinquent participant contributions (Schedule H, Line 4a), certain Plan contributions were not remitted to the Plan within the time frame specified by 29 CFR 2510.3-102 of the Department of Labor's Rules and Regulations for reporting under ERISA, thus constituting nonexempt transactions between the Plan and the Plan sponsor for the year ended June 30, 2016. There were delays by the Plan sponsor submitting employee deferral and repayments totaling $21,652 for the year ended June 30, 2015. The Plan sponsor calculated and remitted lost earnings of $20 on these transactions in November 2015. There were no delinquent participant contributions affecting the 2016 Plan year.

Note 10 - Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2016 and 2015 to Form 5500:

	2016	2015
Net assets available for benefits per the financial statements	$ 12,379,130	$ 12,696,979
Plus: difference between the valuation of certain investments in the financial statements and Form 5500	56,279	34,730
Net assets available for benefits per Form 5500	$ 12,435,409	$ 12,731,709

The following is a reconciliation of net decrease in net assets per the financial statements for the year ended June 30, 2016 to Form 5500:

Decrease in net assets per the financial statements	$ (317,849)
Adjustment for change in the difference between the valuation of certain investments in the financial statements and Form 5500	(21,549)
Net decrease in net assets per Form 5500	$ (296,300)
