1. Description of Plan

The following description of the Vocalocity 401(k) Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan qualifying under Section 401(k) of the Internal Revenue Code ("IRC") and subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established for the purpose of providing eligible employees of Vocalocity, Inc. (the "Company") and their beneficiaries, funds for retirement.

Eligibility

Prior to January 1, 2015, the date upon which the Plan was terminated, an employee of the Company became an eligible participant in the Plan the first day of the month following their date of hire and attainment of a minimum age of 21.

Employee Contributions

Prior to January 1, 2015, an employee participating in the Plan could annually contribute through payroll deductions, amounts as determined by the Internal Revenue Service ("IRS") and could contribute amounts representing distributions from other qualified plans. Any participant, age 50 or over, could make an additional "catch-up" contribution as determined by the IRS, which was not to exceed $6,000 and $5,500 for the period ended January 30, 2015 and the year ended December 31, 2014, respectively. Under the Plan, participants could also make Roth elective contributions. Participants directed the investment of their contributions into one of more investment options offered by the Plan.

Employer Contributions

Prior to January 1, 2015, the Company made matching contributions equal to 100 percent of the salary deferrals on the first 3 percent of eligible employee compensation plus 50 percent of the salary deferrals up to 5 percent of eligible employee compensation.

Rollover Contributions

Prior to January 1, 2015, the Plan allowed participants to make rollover contributions of amounts received from other qualified retirement plans.

Participant Accounts

Individual accounts were established for each participant. The Plan offered a variety of pooled separate accounts with varying investment objectives as investment options. Each participant's account was credited with the participant's pre-tax and Roth contributions, if any, the employer contributions and the proportionate share of dividends, interest and investment gains since the preceding valuation date. The participant's account is reduced by withdrawals, losses on investments and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

A participant was, at all times, fully vested in both the portion of his account attributable to participant contributions, including earnings thereon, as well as that which is attributable to employer safe harbor matching contributions. As such, there were no forfeitures into the Plan upon termination of an employee.

Participant Loans

Loans were not permitted under the Plan.

Distributions and Withdrawals
Prior to age 59 ½, distributions and withdrawals were not permitted from the Plan except in the instances of death, disability or termination of employment. After attaining age 59 ½, participants could elect to withdraw an amount equal to any whole percentage not to exceed 100 percent of the participant's vested account for any reason. In the event of termination of employment, a participant would have received, as a lump-sum distribution, the value of their contributed account balances as adjusted for earnings or losses thereon.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures including contingencies. Accordingly, actual results may differ from those estimates.

Valuation of Investments and Income Recognition
Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Services
All administrative expenses of the Plan were paid by the Company, except fees charged by John Hancock, the Plan's custodian, for any distribution transactions and fees paid to Qualified Plans, LLC, the third party administrator. Certain investment related expenses have been offset within net investment income and are not readily determinable.

Payment of Benefits
Benefits were recorded when paid.

Risks and Uncertainties
The Plan provided participants with the option to invest in various investment securities. All investment securities were exposed to some type of risk, including, but not limited to, exposure to changes in interest rates, market fluctuations, economic conditions and currency devaluation. Due to the level of risk associated with certain investment securities, it is possible that changes in the near term could materially affect certain participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Information Certified by Custodian (Unaudited)

No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by John Hancock Life Insurance Company (U.S.A.) ("John Hancock") for the period ended January 30, 2015 and year ended December 31, 2014, except for comparing such information with the related information included in the financial statements. Based on information provided and certified by the custodian, there are no fixed income obligations, leases or debt instruments in default or deemed uncollectible, as defined by ERISA, for the period January 1, 2015 to January 30, 2015 and year ended December 31, 2014.

The following information as of January 30, 2015 and for the period January 1, 2015 to January 31, 2015 and as of December 31, 2014 and for the year ended December 31 2014, was prepared from reports certified by the custodian:

	2015	2014
Investments at fair value		
Pooled separate accounts	$ --	$ 3,209,985
Net depreciation in fair value of investments	$ (43,205)	

The following presents investments at December 31 that represent 5 percent or more of the Plan's net assets:

	2015	2014
Invesco Advisers, Inc. Value Fund	$ --	$ 161,022
John Hancock 500 Index Fund	--	302,102
John Hancock Retirement Choices at 2030	--	208,919
John Hancock Retirement Choices at 2035	--	199,416
John Hancock Retirement Choices at 2040	--	373,411
John Hancock Retirement Choices at 2045	--	283,170
John Hancock Retirement Choices at 2050	--	764,894
JP Morgan Investment Advisors, Inc. Large Cap Growth Fund	--	168,822

During the period January 1, 2015 to January 30, 2015, the investments in pooled separate accounts, including gains and losses on investments bought and sold, as well as held during the year, depreciated in value by $43,205.

4. Fair Value Measurements

The Financial Accounting Standards Board has established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Such inputs include quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such quoted prices for similar securities or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the securities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The securities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used for the periods presented in these financial statements.

Pooled separate accounts: Underlying investments included shares of pooled separate accounts that were valued based upon quoted market prices determined by John Hancock which represent the net asset value of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts				
Equity funds	$ --	$ 701,324	$ --	$ 701,324
Fixed income funds	--	64,739	--	64,739

Index/sector funds	--	330,288	--	330,288
Total	$ --	$ 3,209,985	$ --	$ 3,209,985

The following table sets forth a summary of the Plan's investments for which fair value is estimated using net asset value per share as of January 30, 2015 and December 31, 2014:

5. Plan Termination

The Company reserved the right to modify, amend or terminate the Plan at any time. In the event of termination of the Plan, all participants shall receive a total distribution of their accounts as described in the Plan.

Effective January 30, 2015, the Plan was terminated and all assets were transferred to the Vonage 401(K) Retirement Plan.

6. Tax Status

The Plan obtained its latest opinion letter on March 31, 2008, in which the IRS stated that the proto-type Plan, as then designed, was in compliance with the applicable sections of the IRC. There have been no amendments to the Plan since receiving the opinion letter and, accordingly, the Plan administrator believes that the Plan's design and operation are in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of the period January 1, 2015 to January 30, 2015 and the year ended December 31, 2014 there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits in progress for any tax periods. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

7. Party-In-Interest Transactions

Certain Plan investments are shares of pooled separate accounts managed by John Hancock or its subsidiaries or affiliates. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Qualified Plans, LLC is the third party administrator, and therefore, transactions qualify as party-in-interest transactions. There were no third party administrative fees paid to Qualified Plans, LLC for the period January 1, 2015 to January 30, 2015. Third party administrative investment transactions and other fees incurred by the Plan are absorbed in investment loss and are not readily determinable.

8. Form 5500 - Late Filing

At the date the financial statements were available to be issued, the Plan has not filed Form 5500, which has a filing due date of November 15, 2015.

9. Subsequent Events

Subsequent events were evaluated through January 16, 2017, which is the date the financial statements were available to be issued. Based on this evaluation, the Plan has determined that no subsequent events have occurred that require disclosure in or adjustment to the financial statements.
