Notes to Financial Statements May 3, 2016

Note 1 - Description of plan

The following description of the AOL Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on December 3, 2009, and was most recently amended on August 1, 2014, by AOL, Inc. (the "Plan Sponsor" and the "Company"). The Plan was a defined contribution plan covering all employees except if the employee was a resident of Puerto Rico, a leased employee, an independent contractor, nonresident aliens and employees covered by a collective bargaining agreement. Upon meeting the eligibility requirements to participate in the Plan, an employee immediately began to participate in the Plan unless the employee had affirmatively elected otherwise. The Investment Committee determined the appropriateness of the Plan's investment offerings, monitored investment performance and reported to the Plan's management. On June 23, 2015, the Company was acquired by Verizon Communications, Inc. The Board of Directors of the Company took action as of December 28, 2015 to terminate and merge the Plan into the Verizon Savings Plan for Management Employees (the "Verizon Plan") as of a date to be determined by the sponsor of the Verizon Plan, and to freeze the Plan as to participant contributions effective as of January 1, 2016 (the "December 2015 Board Action"). Accordingly, all remaining assets were transferred to the Verizon Savings Plan for Management Employees as of May 3, 2016. Accordingly, all remaining Plan assets were distributed during the period from January 1, 2016 through May 3, 2016. Management of the Company was responsible for oversight of the Plan.

Participant contributions

Each year, participants had the ability to contribute the lesser of 75% of pretax annual eligible compensation or an amount limited by the Internal Revenue Code ("IRC") in a calendar year, as defined in the Plan. The Plan also contained automatic enrollment of 3% which was deducted from the eligible employees pay on a pre-tax basis. When a participant was automatically enrolled, the deferral contribution rate increased by 1% each year until it reached 10% of the participant's contributions. Participants could also elect to defer a whole percentage from 1% to 100% of any bonus compensation; however, the total bonus and regular deferrals were not to exceed 75% of the participant's eligible compensation. Participants who had attained age 50 by the end of the Plan year were permitted to make catch-up contributions to the Plan. During the period from January 1, 2016 through May 3, 2016, no participant contributions were made as participant contributions ceased after December 31, 2015 as per the December 2015 Board Action.

Employer contributions

The Plan Sponsor had the ability to make discretionary matching contributions to the Plan. A participant became eligible to receive employer contributions after 90 days of eligible service. The discretionary matching contribution was 50% of participant contributions up to 6% of the participant's eligible compensation per pay period, limited to defined amounts by the IRC. During the period January 1 2016 through May 3, 2016, no discretionary matching contributions were made.

Additionally, the Plan, effective January 14, 2014, reinstated the year-end "true-up" contribution. The Plan Sponsor contributed an additional amount, as a "true-up" contribution, to the extent necessary to ensure that the aggregate amount of matching contributions for the year is equal to the lesser of (i) the sum of 3% of each participant's eligible compensation, or (ii) 50% of each participant's contributions.

AOL Savings Plan

Notes to Financial Statements May 3, 2016

Participant accounts

Each participant's account was credited with the participant's contributions and Company matching contributions, as well as allocations of Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Effective January 1, 2011, the Company amended the vesting percentage of the Company's discretionary employer match contribution of their accounts plus actual earnings to immediate vesting so as long as the employee was employed on or after December 31, 2010.

Investment options

Upon enrollment in the Plan, a participant could direct the investments of their accounts in 1% increments in various investment options. In addition, participants had the option to make contributions to a self-directed brokerage account. Under the self-directed brokerage account, participants could direct investments in any number of registered investment companies offered by FMR, LLC ("Fidelity"), regardless of whether they were included as investment options offered by the Plan.

Notes receivable from participants

Participants could borrow from their fund accounts a minimum of \$1,000, up to a maximum of the lesser of 50% of their vested account balance or \$50,000, reduced by the participant's highest outstanding note balance during the 12-month period. Up to 50% of their vested account balance could be used as collateral. Note terms range from one to five years or up to 10 years for the purchase of a primary residence. The notes were secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, ranging from 4.25% to 9.25%, as determined quarterly by the Plan administrator. A participant could only have two notes outstanding at any given time. Principal and interest was paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. For termination of service for other reasons, a participant could receive the value of the vested interest in his or her account as a lump-sum distribution. In the event a participant terminated or retired and the participant's vested account balance was less than \$1,000, the balance was to be paid out as a lump sum without the participants consent.

Forfeited accounts

At December 31, 2015, forfeited nonvested accounts totaled \$163,507. These accounts were used to reduce employer contributions and pay administrative expenses. During 2016, \$205,767 was used to fund the prior year true-up contribution and the remaining balance of \$72,315 was transferred to the Verizon Plan.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

AOL Savings Plan

Notes to Financial Statements May 3, 2016

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Earnings from investments are recorded as earned using the accrual method of accounting. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and expensed when they were incurred. No allowance for credit losses had been recorded as of May 3, 2016 or December 31, 2015.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants prior to March 15, 2016.

Expenses

Administrative expenses for custodial fees are paid directly out of plan assets. Investment related expenses are included in net appreciation of fair value investments.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through December 14, 2016, the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the

AOL Savings Plan

Notes to Financial Statements May 3, 2016

lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in active markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 3, 2016 and December 31, 2015.

Self-directed brokerage accounts: Accounts primarily consist of registered investment companies and common stocks that are valued on the basis of readily determinable market prices.

Registered investment companies: Valued at the daily closing price as reported on the active market on which the individual securities are traded.

Common collective trusts: Valued based on the net asset value, "NAV," of the underlying managed assets which is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015:

	2015			Total
	Level 1	Level 2	Level 3	
Common collective trusts	\$ -	\$ 140,993,524	\$ -	\$ 140,993,524
Registered investment companies	390,922,910	-	-	390,922,910
Self-directed brokerage accounts	24,749,799	-	-	24,749,799
Total investments at fair value	<u>\$ 415,672,709</u>	<u>\$ 140,993,524</u>	<u>\$ -</u>	<u>\$ 556,666,233</u>

AOL Savings Plan

Notes to Financial Statements May 3, 2016

Fair value of investments in entities that use NAV

The following table summarized investments for which fair value is measured using NAV per share practical expedient as of December 31, 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2015				
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trusts	\$ 140,993,524	None	Daily	1 day

Note 4 - Fully benefit-responsive investment contract

The Plan held investments in the Prudential Stable Value Fund, which is a synthetic investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. Synthetic investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contract held by the Plan included wrapper contracts that provided a guarantee that the credit rate would not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance could be passed through to the Plan through adjustments to future contract crediting rates. Formulas were provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates were reviewed monthly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts was dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.

AOL Savings Plan

Notes to Financial Statements May 3, 2016

5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 5 - Related party transactions and party-in-interest transactions

The Plan's investments included registered investment companies and self-directed brokerage accounts that were managed by Fidelity Management Trust Company, trustee of the Plan. Therefore, these investments as well as notes receivable from participants qualified as party-in-interest transactions. As described in Note 2, the Plan made a direct payment to the third party administrator of \$97,783. The Plan Sponsor paid directly any other fees related to the Plan's operations.

Note 6 - Plan termination

The Board of Directors of AOL, Inc., the Plan Sponsor, voted as of December 28, 2015, to merge the Plan into the Verizon Savings Plan for Management Employees.

Note 7 - Tax status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain

investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at May 3, 2016 and December 31, 2015, and investment income and interest income on notes receivable from participants for the period ended May 3, 2016, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee of the Plan.
