ROA 401(k) Plan
Notes to Financial Statements
December 31, 2015

1. Description of the Plan

The following description of the ROA 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a multiple-employer defined contribution plan, which was adopted to provide retirement benefits for employees of adopting affiliates (Participating Employers). The Plan covers substantially all full-time employees (participants) of Participating Employers. Age and service eligibility is determined by each Participating Employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Participating Employers are responsible for the administration of the Plan and have entrusted the maintenance of records and the day-to-day administration to TAG Resources, LLC (TAG), who processes transactions through Transamerica Life Insurance Company or Transamerica Financial Life Insurance Company (collectively Transamerica), agent for Reliance Trust Company (the Trustee).

Contributions

Participating employees may defer 401(k) contributions subject to the Internal Revenue Code (IRC) limitations. In addition, participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers); there were no participant rollovers to the Plan during 2015.

Participating Employers each have unique funding arrangements, but generally these arrangements consist of one or more of the following types of contributions: discretionary matching, matching, safe harbor matching, discretionary profit sharing and qualified nonelective.

Participant contributions to the Plan are made through periodic payroll deductions. Both the participant contributions and the Participating Employers' contributions are remitted to TAG, who remits to Transamerica. Receivables from the Participating Employers for contributions are unsecured. Participant contributions have not always been remitted to the Plan in a timely manner; refer to the Schedule of Delinquent Participant Contributions for details.

Participant Accounts

Participants may allocate their employee and Participating Employers' contributions among various investment options as listed in the schedule of assets (held at end of year). Participants have the opportunity to change the investment options previously elected at any time.

ROA 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts (continued)

Each participant's account is credited with the participant's contributions and, where applicable, the Participating Employers' contributions and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and, where applicable, the Participating Employer's safe harbor matching contributions, qualified nonelective contributions plus actual earnings on these contributions. Vesting in the Participating Employers' discretionary matching contribution, matching contribution and discretionary profit sharing contribution portion of their accounts plus related earnings thereon is based on years of vesting service and is determined by each individual Participating Employer.

Participant Notes Receivable

Participating Employers have the option of allowing participants to borrow part of the value of their contributions from the Plan. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the remaining vested balance in the participant's account. The notes are required to bear interest and to be repaid over periods not exceeding five years.

Payment of Benefits

If the participant's vested benefit in the Plan does not exceed \$1,000 at the time of termination of employment, the participant's benefit must be distributed in a single lump-sum payment as soon as administratively feasible. If the participant's vested benefit in the Plan exceeds \$1,000 at the time of termination of employment, the participant may elect to either maintain their account in the Plan, receive a lump-sum distribution or rollover their account balance into another individual retirement account. Participants may also withdraw their vested account balances at any time on or after the age of 59½, or upon retirement, death or disability.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. During 2015, forfeitures generated totaled \$28,030 and forfeitures totaling \$62,928 were used to reduce Participating Employers' contributions. The Plan has a forfeiture balance of \$13,523 and \$49,248 as of December 31, 2015 and 2014, respectively, available to reduce future Participating Employers' contributions or pay Plan expenses.

ROA 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis, as are annual returns filed under applicable provisions of ERISA and the Internal Revenue Code (IRC).

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures and changes therein. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for its benefit-responsive investment contract, which is valued at contract value (Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Participating Employer's management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

ROA 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Notes Receivable from Participants (continued)

Upon default of participant notes receivable, the entire outstanding principal and interest shall be immediately due and payable. If a distributable event, as defined by the IRC, has occurred, the note receivable will be foreclosed on and be offset against the participant's account balance. If a participant's note receivable is in default, the participant shall be treated as having a taxable deemed distribution, whether or not a distribution event has occurred.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Participating Employers. Expenses paid by the Participating Employers are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Recently Issued Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. During 2015, management has elected to adopt Parts I and II early.

2. Significant Accounting Policies (continued)

Subsequent Events

In preparation of the accompanying financial statements, subsequent events that have occurred since the statement of net assets available for benefits date have been evaluated through February 16, 2017, the date the financial statements were available for issuance.

Subsequent to year-end, the Plan had distributions of approximately \$5,600,000, which includes one Participating Employer who elected to terminate their plan.

Reclassifications

Certain amounts in the prior year have been reclassified to conform with 2015 classifications.

3. Certified Information (Unaudited)

Transamerica, agent for the Trustee, holds the Plan's investment assets and executes transactions therein. Financial information relating to those assets, including investments and notes receivable from participants, is included in the accompanying financial statements based on information provided to the Plan administrator and certified as complete and accurate by Transamerica. That information, which has not been audited by independent auditors, is summarized below:

The value of investments is as follows as of December 31:

	2015	2014
Investments at fair value	\$23,272,122	\$19,836,062
Investment at contract value	1,312,898	1,106,318
Total investments	<u>\$24,585,020</u>	<u>\$20,942,380</u>

Participant notes receivable total \$670,580 and \$662,249 as of December 31, 2015 and 2014, respectively. Interest earned on participant notes receivable totaled \$24,515 in 2015.

Net depreciation in investments totaled \$141,354 in 2015. Interest income from the stable value advantage option totaled \$17,052 in 2015.

Fees paid by the Plan to parties-in-interest totaled \$234,516 in 2015.

ROA 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts: Valued daily using publicly available quoted market prices of the underlying investments held by the pooled separate account at year-end.

Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following table sets forth by level, within the fair value hierarchy, the Plan's investments as of December 31:

	Level 1	Level 2	Level 3	Total
2015:				
Pooled Separate Accounts	\$22,562,456	\$ 709,666	\$ –	\$23,272,122
2014:				
Pooled Separate Accounts	\$16,921,076	\$2,914,986	\$ –	\$19,836,062

ROA 401(k) Plan

Notes to Financial Statements (continued)

5. Stable Value Advantage Option

The Plan invests in a fully benefit-responsive traditional investment contract held in the Transamerica Stable Value Advantage Option (Stable Value Advantage Option). The contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Transamerica is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with Transamerica. Such events include amendments to the Plan documents (including complete or partial plan termination or merger with another plan), changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, bankruptcy of a Participating Employer or other plan sponsor events that cause a significant withdrawal from the Plan, or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

6. Plan Transfers

Upon termination or new entrance of a Participating Employer, funds are transferred to or from other qualified plans as instructed by the Participating Employer. Transfers in from other qualified plans were \$2,546,210 in 2015.

7. Excess Contributions Payable

Amounts payable to participants totaling \$12,646 for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability, with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

8. Related Party Transactions and Party-in-Interest Transactions

Plan investments are in accounts of Transamerica Life Insurance Company or Transamerica Financial Life Insurance Company, agent for Reliance Trust Company, the trustee, and therefore, these transactions qualify as party-in-interest transactions. Related party transactions include contributions from the Participating Employers.

ROA 401(k) Plan

Notes to Financial Statements (continued)

9. Plan Termination

The Participating Employers expect to continue the Plan indefinitely but reserve the right, subject to the provisions of ERISA, to terminate the Plan in whole or in part at any time upon giving written notice to all parties concerned. In the event of Plan termination, participants will become 100% vested in their accounts.

10. Income Tax Status

The IRS has ruled the prototype plan from which the Plan was prepared qualifies under provisions of the IRC and is, therefore, not subject to tax under present income tax law. Although the Plan has been amended since receiving the advisory letter, the Plan Administrator believes the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

11. Risks and Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.
