INDEPENDENT AUDITORS' REPORT

To the Participants and Plan Administrator of the PPG Industries, Inc. Retirement Plan E:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the PPG Industries, Inc. Retirement Plan E (Plan), which comprise the statement of net assets available for benefits as of July 31, 2016 and December 31, 2015, and the related statement of changes in net assets available for benefits for the seven-month period ended July 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by Bank of New York Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the trustee as of July 31, 2016 and December 31, 2015 and for the seven-month period ended July 31, 2016, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Merger
As discussed in Note 2 to the financial statements, the Employee Benefits Committee of PPG Industries, Inc., the Plan's sponsor, voted on June 13, 2016 to merge the Plan with a separate plan sponsored by PPG Industries, Inc. effective July 31, 2016. Our opinion is not modified with respect to this matter.

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the PPG Industries, Inc. Retirement Plan E (Plan) is provided for general information purposes only. Participants should refer to the Plan document for complete information.

General and Eligibility - The Plan was a defined benefit pension plan that was established on January 28, 2013 and provided benefits for participants whose benefits were previously provided under the PPG Industries, Inc. Retirement Income Plan who were not employed by PPG Industries, Inc. (Company) immediately prior to January 28, 2013 and who terminated from the PPG Fiber Glass Strategic Business Unit. Benefits attributable to such participants in the PPG Industries, Inc. Retirement Income Plan were transferred to the Plan effective January 28, 2013. Eligibility was determined based upon the requirement as defined in each appendix of the Plan document. The Plan was frozen to newly hired employees. Additionally, employees no longer accrue benefits as of December 31, 2011 or December 31, 2020 depending upon the employees' combined age and service to the Company.

The Global Director of Compensation and Benefits of the Company was the Plan administrator who controlled and managed the operation and administration of the Plan. Expenses of the Plan were paid by either the Plan or the Company. The Bank of New York Mellon, N.A. (BNY Mellon) served as the trustee of the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Benefits - Employees became vested after five years of continuous service and were entitled to pension benefits upon retirement as defined by the Plan document. The Plan provided for normal retirement upon reaching normal retirement age, as defined in the Plan document, and had provisions for early retirement and disability benefits for those persons who were eligible to receive such benefits. Monthly benefits under the Plan for all former hourly employees were equal to those benefits determined under terms of the participant's former plan, as amended to the date of retirement or termination. Monthly benefits under the Plan for all salaried employees varied depending on the employee's date of retirement, final average monthly earnings and the years of continuous service, as defined by the Plan document. Such benefits were reduced by early retirement, survivor benefits, or other elected options.

NOTE 2 - PLAN MERGER

On June 13, 2016, the Company made the decision to merge the Plan with the PPG Industries, Inc. Retirement Plan F (Plan F) effective July 31, 2016. All of the Plan's net assets and benefit obligations were transferred from the Plan to Plan F.

Certain benefits under the Plan were insured by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guaranteed most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC did not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan were guaranteed at the level in effect on the date of the Plan's merger with Plan F.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements is as follows:

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting - The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Accounting Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, the actuarial present value of accumulated plan benefits and the changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investment in the PPG Industries, Inc. Pension Plan Trust Commingled Fund (Trust) is reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's U.S. Benefits Investment Committee determined the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurement.

Purchases and sales of securities were recorded on a trade-date by the Trust. Interest income was recorded on the accrual basis by the Trust. Dividends were recorded on the ex-dividend date by the Trust. Net appreciation/depreciation included the Trust's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan utilized various investment instruments, including U.S. government securities, corporate debt investments and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions were made, and the actuarial present value of accumulated plan benefits were reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payment of Benefits - Benefit payments to participants were recorded upon distribution.

Administrative Expenses - The Plan's expenses were paid either by the Plan or the Company, as provided by the Plan document. Certain expenses incurred in connection with the general administration of the Plan that were paid by the Plan were recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses were included in Plan interest in PPG Industries, Inc. Pension Plan Trust Commingled Fund investment loss presented in the accompanying statement of changes in net assets available for benefits.

The Plan administrator has evaluated subsequent events through February 22, 2017, the date on which the financial statements were available to be issued.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits were those future periodic payments, including lump-sum distributions, that were attributable under the Plan's provisions to the service that employees have rendered as of the valuation date. Accumulated plan benefits included benefits expected to be paid to (a) retired, terminated or transferred employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan were based upon years of continuous service. (See Note 1.) Benefits payable under all circumstances, including retirement, death, disability and termination of employment, were included to the extent that they are deemed attributable to employee service rendered to the date upon which the benefit information is presented.

Due to the plan merger, the transfer of the Plan's assets and the associated obligation as described in Note 2, as of July 31, 2016, the actuarial present value of accumulated plan benefits was $-0-. At December 31, 2015 the actuarial present value of accumulated plan benefits was as follows:

Vested benefits:		
Inactive participants with deferred benefits	$	9
Inactive participants receiving benefits		110
	$	119

The changes in the actuarial value of accumulated plan benefits for the seven-month period ended July 31, 2016 was as follows:

Actuarial present value of accumulated plan benefits		
Beginning of period, January 1, 2016	$	119
Increase (decrease) during the year attributable to:		
Benefits accumulated and losses		2
Increase for interest due to the discount period		4
Change in assumptions		2
Benefits paid		(8)
Change in liability due to 4044 true-up		18
Transfer of benefit obligation to Plan F		(137)
Net decrease		(119)
Actuarial present value of accumulated plan benefits		
End of period, July 31, 2016		-

The actuarial present value of accumulated plan benefits was determined by the Plan's actuary, Mercer, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected dates of payment.

The significant actuarial assumptions used in determining accumulated plan benefits were (a) the Mercer-modified RP-2014 mortality table (MRP-2007) and the Mercer-modified MP-2014 generational projection scale (MMP-2007) at July 31, 2016 and December 31, 2015, (b) an assumed average retirement age of 61 at July 31, 2016 and December 31, 2015 and (c) an interest rate of 6.50% and 6.75% as of July 31, 2016 and 2015, respectively.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

As described in Note 1, the Plan was created in January 2013, and the estimated actuarial value of the accumulated plan benefits transferred to this Plan was determined under ERISA Section 4044. A true-up of this transfer was conducted and completed in July 2016, resulting in an adjustment to the accumulated plan benefits during the seven-month period ended July 31, 2016.

NOTE 5 - INTEREST IN PPG INDUSTRIES, INC. PENSION PLAN TRUST COMMINGLED FUND

The Plan's investments were in the Trust, which was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Trust. The assets of the Trust are held by BNY Mellon. The Trust was established prior to the creation of the Plan, and since the date of the creation of the Plan, the Plan was allocated its interest in the assets and earnings of the Trust. The investment assets of the Plan consist of an undivided interest in the Total Combined PPG Fund (Fund) of the Trust. Use of the Fund permits the commingling of the Trust assets of the pension plans of the Company for investment and administrative purposes.

The value of the Plan's interest in the Trust is based on the beginning of year value of the Plan's interest in the Trust plus actual contributions and allocated investment income/loss, less actual distributions and allocated administrative expenses. Investment losses and administrative expenses relating to the Trust are allocated to the individual plans based upon the amount of time that the Plan's assets were invested in the Trust. At December 31, 2015, the Plan's interest in the net assets of the Trust was approximately 5.7%. As a result of the Plan's merger with Plan F, the Plan ceased participation in the Trust on July 31, 2016. The Plan's average interest in the Trust was approximately 5.7% through the Plan's merger with Plan F on July 31, 2016.

The net assets of the Trust as of December 31, 2015 were as follows:

Assets of the total Combined PPG Fund:		
Investments:		
Common trust funds	$	1,075
U.S. government securities		258
Mutual funds		33
Corporate debt		1,041
Common stock - PPG Industries, Inc.		87
Interest-bearing cash		11
Pooled separate accounts		81
Other governmental debt obligations		99
Corporate stock - preferred		22
Corporate stock - common		71
Securities lending collateral		104
Total investments		2,882
Non-interest-bearing cash		-
Receivable for investments sold		61
Payable for investments purchased		(133)
Obligation to return securities lending collateral		(104)
Income receivable		16
Net assets available for benefits	$	2,722

NOTE 5 - INTEREST IN PPG INDUSTRIES, INC. PENSION PLAN TRUST COMMINGLED FUND (Continued)

The net earnings/losses of the Trust were allocated monthly to each plan participating in the Trust based on the relationship of the undivided interest of each plan in the Trust at the end of the month to the total of the undivided interests of the five plans participating in the Trust. The investment income recognized in the Trust's changes in net assets for the seven-month period ended July 31, 2016 was as follows:

Net appreciation in fair value of investments	$	95
Interest and dividends		39
Investment advisory and management fees		(5)
Net investment income	$	129

Accounting guidance on fair value measurement establishes a hierarchy of inputs employed to determine fair value measurement, which consists of three levels. Level 1 inputs are quoted prices in active markets for identical assets and liabilities, are considered to be the most reliable evidence of fair value, and should be used whenever available. Level 2 inputs are observable prices that are not quoted on active exchanges. Level 3 inputs are unobservable inputs employed for measuring the fair value of assets and liabilities.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common Stock - PPG Industries, Inc., Corporate Stock-Common and Corporate Stock-Preferred - Valued at the closing price reported on the active market on which the individual security is traded.

Common Trust Funds and Pooled Separate Accounts - Valued at the net asset value (NAV). The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the investment, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. Redemption frequency and redemption notice periods range from daily to one quarter.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Government Securities - Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate Debt and Governmental Debt Obligations - Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that might not be observable, such as credit and liquidity risks or a broker quote if available.

NOTE 5 - INTEREST IN PPG INDUSTRIES, INC. PENSION PLAN TRUST COMMINGLED FUND (Continued)

Interest-Bearing Cash - Valued using NAV, which approximates fair value based upon the short-term nature of this investment.

Other - Consists primarily of interest rate, credit default and currency swaps, which are valued using pricing models based on the prevailing forward exchange rate of the underlying currencies taking into account the counterparties' creditworthiness.

The assets of the Trust that are reported at fair value on a recurring basis as of December 31, 2015 are as follows:

	Level 1	Level 2	Level 3	Total
U.S. government securities	$ 171	$ 87	-	$ 258
Mutual funds	33	-	-	33
Corporate debt	-	916	$ 125	1,041
Common stock - PPG Industries, Inc.	87	-	-	87
Interest-bearing cash	-	11	-	11
Governmental debt obligations	72	27	-	99
Corporate stock - preferred	22	-	-	22
Corporate stock - common	71	-	-	71
Securities lending collateral:				
Interest-bearing cash	-	73	-	73
U.S. government securities	-	31	-	31
Total securities lending collateral	-	104	-	104
Total assets in the fair value hierarchy	456	1,145	125	1,726
Investments measured at net asset value (a)	-	-	-	1,156
Investments at fair value	$ 456	$ 1,145	$ 125	$ 2,882

(a) In accordance with the Plan's adoption of ASU 2015-07, certain investments were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of fair value hierarchy line items presented in the statements net assets available for benefits.

NOTE 6 - SECURITIES LENDING

The Trust is authorized to engage in the lending of certain investments under the terms of a Securities Lending Authorization Agreement. Securities lending is an investment management enhancement that utilizes certain existing securities of the Trust to earn additional income. Securities lending involves the loaning of securities to approved banks and broker/dealers. In return for the loaned securities, the trustee, prior to or simultaneous with the delivery of the loaned securities to the borrower, receives collateral in the form of cash or U.S. government securities as a safeguard against possible default of any borrower on the return of the loan under terms that permit the Trust to repledge or sell the securities. The collateral is marked to market on a daily basis. In the event the counterparty is unable to meet its contractual obligation under the securities lending arrangement, the Plan may incur losses equal to the amount by which the market value of the securities differ from the amount of collateral held. The Plan mitigates credit risk associated with securities lending arrangements by monitoring the fair value of the securities loaned on a daily basis, with additional collateral obtained or refunded as necessary.

NOTE 6 - SECURITIES LENDING (Continued)

The Trust maintains full ownership rights to the securities loaned and accordingly, classifies loaned securities as investments. Because the securities received as collateral may be repledged or sold, the Trust recognizes the amount of collateral received and a corresponding obligation to return such collateral on the statement of net assets. (See Note 5.) The fair value of securities on loan was approximately $101 and the fair value of collateral was approximately $104 at December 31, 2015.

	Gross Amounts of Recognized Liabilities	Net Amount of Liabilities Presented in the Financial Statements	Gross Amounts Not Offset in Financial Statements		
			Financial Instruments	Cash Collateral Pledged	Net Amount
Securities Lending Authorization Agreement Mellon Bank, N.A.	$104	$104	$101	N/A	$3

NOTE 7 - FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy was to make contributions to the Plan based upon the calculations of the Plan's actuary using the unit credit cost method, which consists of normal cost, plus amortization of unfunded prior service costs over a 40-year period or less.

The Company was not required to make a minimum contribution for the seven-month period ended July 31, 2016.

NOTE 8 - TAX STATUS

The Plan had applied to obtain a determination letter from the Internal Revenue Service (IRS); however, as of the date that the financial statements were available to issued, the Plan had not yet received notification of its favorable determination from the IRS. The Plan administrator believes that the Plan, prior to the merger with Plan F, was designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 31, 2016 and December 31, 2015, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invested in certain funds managed by BNY Mellon, the trustee of the Plan. The Trust also holds the common stock of PPG Industries, Inc., the Plan sponsor. Therefore, these transactions qualify as party-in-interest transactions. The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

NOTE 10 - CERTIFIED INVESTMENTS (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2015, and investment income for the seven-month period ended July 31, 2016 that is disclosed in the accompanying financial statements, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by BNY Mellon, the trustee of the Plan.

Schedule SB, Part V — Summary of Plan Provisions

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through the measurement date, are included in this valuation.

- **Most recent plan amendment included:** Amendments adopted by the valuation date or effective by the end of the plan year are included in this valuation.
- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
- *Active participants:* Current active participants over normal retirement age are valued using their accrued benefit. PPG provides suspension of benefit notices so actives are not entitled to late retirement increased until after age 70.5. Therefore, late retirement actuarial increases are deemed to be immaterial for the purposes of this valuation.
- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Plan Provision Changes Since Prior Valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2015 to 2016.
- The benefit accrual freeze as of December 31, 2015 for Oak Creek participants was lifted during 2015 negotiations. These participants will have ongoing benefit accruals until December 31, 2020.
- Benefits were negotiated with Lake Charles in 2015 to freeze accruals at December 31, 2020.

In early 1998, employees at Tipton were offered a voluntary limited program of severance. Any employee who applied for the limited program of severance who was eligible for a retirement benefit under the pension plan on the date of severance, was eligible for a monthly special pension benefit. The monthly special pension benefit was an amount equal to the accrued pension benefit the employee has earned under the pension plan provisions at the date of severance. The monthly special pension benefit is payable through the end of the month the employee becomes 62 years of age. The special pension benefit payable to an employee under this program is capped at one and one-half times (1-1/2) the severance benefit.

Employees who elected to participate in the voluntary limited program of severance and who were eligible to receive the special pension benefit shall be eligible to receive the special early retirement benefit upon attainment of age 62. The special early retirement benefit is payable from age 62 to age 65 under the provisions of the pension plan. At age 65, the pension benefit will be adjusted to normal rates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value the current and the last year preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- This plan provides benefits that are not a function of a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the ratio of the participant's service at the beginning of the plan year to their service at each decrement age and is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- This plan provides disability/death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Rationale for Significant Economic and Demographic Assumptions

Segment Rates for funding purposes

- The segment rates for funding purposes are prescribed by the IRS.

Healthy mortality for funding purposes

- The mortality table for funding purposes is prescribed by the IRS.

Expected Return on Assets for funding purposes

- The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's *Capital Markets Outlook* for the plan's target asset mix. The expected return on assets assumption is net of an adjustment for investment expenses assumed to be paid from plan assets.

Retirement assumption

- The retirement rates are based on an experience study undertaken in 2014 using data from 2009, 2010, 2011, 2012 and 2013 and the expectation that the future patterns and circumstances of the employer will not differ significantly from the period studied.

Schedule SB, Line 15 - Reconciliation of differences between valuation results and amounts used to calculate AFTAP
