NEW VISION CO-OP 401(K) SALARY SAVINGS AND PROFIT SHARING PLAN

Notes to Financial Statements

August 31, 2016 and 2015

A. Description of the Plan

The following description of the New Vision Co-op ("The Company") 401(k) Salary Savings and Profit Sharing Plan ("The Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering certain employees of the Company who have completed six months of service. On-call employees and seasonal employees are not eligible for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

Each year, participants may contribute up to 15% of pretax compensation, as defined in the Plan, beginning six months after their hire date. The aggregate sums of contributions from compensation are subject to an annual limit. The Company will contribute a matching contribution equal to 100% of the salary reduction deferral elected on the first 3% of compensation. Each year, the Company may make a discretionary profit sharing contribution to active participants who have at least 500 hours of service. Participants may elect their deferrals to a traditional (pretax) account or to a Roth (after tax) account.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on the total of an Employee's countable Periods of Service without regard to Hours of Service. A participant is 100% vested after 5 years of credited service. Forfeitures of non-vested benefits are used to reduce the Company's matching contribution.

The Plan's investments are stated at fair value. The value of each account is based on the market value of the securities in the account. Net earnings on investments include realized and unrealized gains and losses and interest and dividends recorded on an accrual basis.

Notes Receivable – Participant Loans

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications to the 2015 financial statements may have been made to conform to the 2016 presentation.

Adoption of New Accounting Standard

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820), Disclosure for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the public business hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years beginning after December 15, 2016, with early application permitted. Management has elected to early adopt ASU 2015-07.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted. Management has elected to early adopt ASU 2015-12 Part II. Part I and III are not applicable to this plan.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). This hierarchy consists of three broad levels:

Level 1 – Quoted prices in active markets for identical financial instruments that are accessible at the measurement date.

Level 2 – Quoted prices in active markets for similar financial instruments, quoted prices for identical or similar financial instruments in markets that are not active, and models and other valuation methodologies using inputs other than quoted prices that are observable.

Level 3 – Models and other valuation methodologies using significant inputs that are unobservable for financial instruments.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2016 and 2015.

Mutual Funds

The fair value of mutual funds is based on net asset values (NAV) of the shares held by the Plan at year-end. The NAV is a quoted price in an active market.

Pooled Separate Accounts

Pooled separate accounts are valued based on the fund's daily NAV, which is considered by plan management to be the best approximation of fair value. The unit value of the fund is calculated daily. Underlying holdings are primarily valued using independent appraisals or independent pricing sources.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits:

		Fair Value Measurements Using		
		Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
August 31, 2016	Fair Value			
Mutual Funds	\$ --	--	--	--
Investment Contract with Insurance Company	188,400	--	--	188,400
Total Assets in the Fair Value Hierarchy	188,400	--	--	188,400
Investments Measured at Net Asset Value	7,266,350	--	--	--
Total	<u>\$ 7,454,750</u>	<u>--</u>	<u>--</u>	<u>188,400</u>
August 31, 2015				
Mutual Funds	\$ --	--	--	--
Investment Contract with Insurance Company	243,885	--	--	243,885
Total Assets in the Fair Value Hierarchy	243,885	--	--	243,885
Investments Measured at Net Asset Value	6,858,184	--	--	--
Total	<u>\$ 7,102,069</u>	<u>--</u>	<u>--</u>	<u>243,885</u>

In accordance with FASB ASC 820-10, the pooled separate accounts are measured at fair value using the net asset value per share practical expedient and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The method used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

FASB Accounting Standards Codification 820-10, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 3 Fair Value Measurements

Guaranteed investment contracts with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of the Level 3 fair value measurements:

	<u>Investment Contract</u>
August 31, 2016	
Beginning Balance	\$ 243,885
Earnings (Losses)	4,280
Purchases, Issuance and Settlements	(52,225)
Transfers In (Out) of Level 3	<u>(7,540)</u>
Ending Balance	<u>\$ 188,400</u>

Net Asset Value (NAV) per Share

The plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of August 31, 2016 and 2015. The following tables for August 31, 2016 and 2015, set forth a summary of the Trust's investments with a reported NAV.

Fair Value Estimated Using Net Asset Value Per Share					
August 31, 2016					
<u>Investment</u>	<u>Fair Value*</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>

<u>Investment</u>	<u>Fair Value*</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Pooled					
Separate Accounts	\$6,858,184	None	Daily	None	None

*The fair values of the investments have been estimated using the net asset value of the investment.

The pooled separate accounts are funds designed to meet the needs of a plan participant that wants an investment option suited to the participant's particular investment time horizon and risk tolerance. The funds generally invest in the other open-ended mutual funds, insurance company separate accounts, and collective trust funds that are considered appropriate based on the remaining time horizon of the particular Fund and expected risk tolerance of those investors associated with that time horizon.

D. Investments

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<u>2016</u>	<u>2015</u>
Pooled Separate Accounts	<u>\$ 414,567</u>	<u>79,790</u>

E. Guaranteed Interest Contract with Principal Life

The Plan entered into a contract with Principal Life, which guarantees interest on money as it is deposited. The rate credited is the rate declared at the beginning of each calendar quarter and is guaranteed on all deposits made during that quarter until the end of the 12-month period following the beginning of that calendar quarter. The contract is not benefit responsive and is reported at fair value.

F. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

G. Certification

The Company has obtained certification from Principal Life Insurance Company that the following information is complete and accurate:

Earnings from Investments
Investment Valuations

H. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been restated since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

I. Related Party Transactions

Certain plan investments and an investment contract with Principal Life Insurance Company are managed by Principal Life Insurance Company and qualify as party-in-interest transactions. These transactions are exempt from the prohibited transactions rules of ERISA.

J. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

K. Subsequent Event

The Plan has evaluated events and transactions occurring after August 31, 2016, for potential items required to be recognized or disclosed in the financial statements. Subsequent events were evaluated through February 15, 2017, the date the financial statements were issued.
