DECEMBER 31, 2015 AND 2014**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies followed in preparing the financial statements of The Fremont Company 401(k) Plan (the Plan) are presented below.

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Such financial statements present the net assets available for benefits and changes in such net assets.

Change in Accounting Principle

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I clarifies fully benefit-responsive investment contracts are limited to direct investments between the Plan and the issuer. Part I also eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt Parts I and II.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

**THE FREMONT COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of investments are recorded on a trade-date basis. Interest earned on pooled separate accounts is reflected in the value of the accounts. The net appreciation (depreciation) in fair value of investments represents the change in fair value of the accounts and includes realized and unrealized gains and losses on investments purchased, sold and held during the year.

Notes Receivable from Participants

Notes receivable from participants are secured by the participant's account balance and are stated at the amount of unpaid principal balance plus any accrued but unpaid interest. Payments of notes receivable from participants are applied to the specific accounts comprising the balance.

Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan agreement. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Payment of Benefits

Benefit payments to participants or their beneficiaries are recorded upon payment.

Administrative Expenses

Substantially all costs, including internal costs of maintaining the Plan, are absorbed by the Plan's sponsor, The Fremont Company (the Company). Any investment custodial fees charged are reported as a reduction of the net appreciation in value of investments.

Subsequent Events

Management evaluated subsequent events through November 21, 2016, the date the financial statements were available to be issued.

Ameritas Life Insurance Corporation serves as the Plan's custodian.

General

The Plan is a voluntary salary deferral 401(k) plan in which employees of the Company who are not members of a collective bargaining unit (unless the bargaining agreement provides for participation) and have completed one year of service are eligible to participate and may enter the Plan on January 1, April 1, July 1, and October 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Funding Policy

Plan participants may defer and contribute up to 23% of their annual compensation, as defined in the Plan document, subject to certain limitations as specified in the Internal Revenue Code.

The Company may make discretionary matching contributions, as defined in the Plan document. During the years ended December 31, 2015 and 2014, the Company elected to contribute 50% of an individual employee's compensation deferral contribution up to a maximum Company contribution of 2% of the employee's annual compensation. Matching contributions amounted to \$70,712 in 2015 and \$70,044 in 2014.

As a result of a decision to freeze the Company's sponsored defined benefit plan effective April 30, 2006, the Plan was amended on March 7, 2006. The amendment, which was effective January 1, 2006, provided for non-elective profit sharing contributions to the Plan by the Company. Such non-elective contributions were determined based on age and years of service of the participant, and ranged from 1% to 4% of compensation (as defined). The Plan was amended in 2014 resulting in the Company electing to cease making the non-elective profit sharing contribution effective January 1, 2014. The non-elective profit sharing contribution amounted to \$-0- in 2015 and \$14,626 in 2014, with the 2014 contribution representing correcting contributions made for certain participants relating to prior Plan year.

Investment Options

Participants may direct the investment of the assets in their individual accounts into various investment funds which have been approved by the Plan administrator and are managed by the insurance company.

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's compensation deferral contribution; the Company's matching contribution, an allocation of the Company's discretionary profit sharing contributions and an allocation of the investment earnings or loss of the funds in which the participant chooses to invest.

Participants may also elect to purchase life insurance. Annual premiums are paid by the participants from their compensation deferral.

The benefit to which a participant is entitled is the benefit that can be provided from the balance of the participant's account.

Vesting

Participants are immediately vested in their account balance, including contributions made to the Plan on the participants' behalf by the Company except for non-elective profit sharing contributions. Participants are fully vested in such contributions upon completion of three years of service.

If a participant terminates, any non-vested portion of the participant's account, relating to non-elective profit sharing contributions, is considered a forfeiture. Forfeitures are available to reduce future non-elective profit sharing contributions.

Notes Receivable from Participants

Participants may borrow from their account up to a maximum of the lesser of \$50,000 or 50% of their account balance. Loan transactions are treated as a transfer between the participant's investment accounts and the notes receivable from participants account. Loan terms may generally not extend beyond five years or the retirement of the individual participant unless secured by a personal residence. Loans are secured by the balance in the participant's account and bear interest at an annual rate commensurate with the commercial rate then being charged by local commercial lending institutions. Loans which are more than 30 days delinquent as to principal and interest are considered to be in default.

Benefits and Withdrawals

The normal retirement date is the date a participant reaches age 65. When a participant reaches the normal retirement date, or if a participant terminates employment with the Company, becomes totally disabled or dies while participating in the Plan, they are entitled to receive the amount in their individual accounts.

If a participant dies before receiving all of the benefits in their account, the surviving spouse will receive the remainder in the participant's account as an annuity, a lump-sum, or in installments. If the participant is not married at the time of death, the participant's beneficiary may elect to receive the remainder in the account in either a lump-sum or in installments.

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Benefits and Withdrawals (Continued)

If benefits are elected to be received in installments, the installments may be made quarterly, semiannually, or annually over a period not to exceed the participant's life expectancy or the joint life expectancy of the participant and designated beneficiary at the time the election is made.

A participant or beneficiary may request a distribution from the participant's account to meet an immediate financial hardship pursuant to guidelines issued by the IRS.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce non-elective or matching Company contributions, based on how the money was originally forfeited. Forfeited non-vested accounts as of December 31, 2015 and 2014 totaled \$4,790 and \$4,275, respectively. There were no forfeitures used to reduce Company contributions for the years ended December 31, 2015 and 2014.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable held at December 31, 2015 and 2014, and net appreciation in fair value of the investments and interest for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Ameritas Life Insurance Corporation, insurance company of the Plan. The fair value and contract value of the guaranteed investment account was certified by the insurance company. The cash value of life insurance and activity was not certified.

NOTE 4 FEDERAL INCOME TAXES

The Plan is placing reliance on an opinion letter dated March 31, 2014 received from the IRS on the prototype plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore, not subject to tax under current income tax law. The prototype Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows.

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The fair value measurement level of the asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets of the Plan measured at fair value at December 31, 2015 and 2014:

Pooled Separate Accounts: Valued at the net asset value (NAV) of units as determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

Cash Value of Life Insurance: Valued at cash surrender value of individual policies, which approximates fair value.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)

NOTE 6 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Ameritas Life Insurance Corporation (Insurance Company). The Insurance Company maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract meets the fully benefit-responsive investment criteria and therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers. Such interest rates are reviewed on an annual basis for resetting.

NOTE 6 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY (CONTINUED)

Certain events might limit the liability of the Plan to transact at contract value with the issuers. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or the Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity date.

NOTE 7 PLAN TERMINATION

Although the Company has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participants will become 100% vested in their account balance.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
