PETERSEN ALUMINUM CORPORATION
MONEY PURCHASE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2016 AND 2015

(1) DESCRIPTION OF PLAN:

The following brief description of the Petersen Aluminum Corporation Money Purchase Pension Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General -

The Plan, established July 1, 1990, is a defined contribution plan covering all eligible employees. An employee becomes eligible to participate upon completion of one year of company service as defined in the Plan and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan benefits all eligible employees of Petersen Aluminum Corporation (Company), and Petersen Finishing Corporation, an affiliated company through common ownership.

Funding -

Company contributions to the Plan are a fixed percentage of eligible wages, as defined in the Plan document. The Company's funding policy is to provide 100% of required contributions. The Company has met the ERISA minimum funding requirements as of June 30, 2016 and 2015. There are no employee contributions made to the Plan.

Participant Accounts -

Each participant's account is credited with the Company's contribution and an allocation of Plan earnings. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures -

At June 30, 2016 and 2015, forfeited non-vested accounts totaled \$10,833 and \$13,499, respectively. These accounts will be used to reduce future employer contributions. During the year ended June 30, 2016 and 2015, the Plan used \$10,762 and \$10,000, respectively of forfeitures to reduce employer contributions.

(1) DESCRIPTION OF PLAN (continued):

Payment of Benefits -

Under the provisions of the Plan, a participant, who is terminated by reason of death, disability or retirement, shall receive the amount in their separate account in the form of a qualified joint and survivor annuity, an annuity for the life of the participant or as a lump sum payment. The Trustees shall determine the manner in which distribution is to be made after consulting with the participant or beneficiary.

Vesting -

Vesting is based on years of continuous service. A participant is 100% vested after six years of credited service.

Plan Termination -

Although the Company has not expressed any interest in discontinuing its contributions or in terminating the Plan, it may do so at any time subject to the provisions as set forth in the Plan. In the event of Plan termination, participants will become 100% vested in their accounts.

Administration of Plan's Assets -

The Plan provides for Trustees to administer the Plan's assets. The assets of the Plan are invested in accordance with the policies established by the Plan Agreement and the Trustees. The Trustees also process and distribute benefit payments to separated participants or their beneficiaries based on information furnished to them by the Company. The Trustees receive no compensation for their services to the Plan.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting –

The accompanying financial statements are prepared using the accrual method of accounting.

JPMCB Stable Asset Income Fund-

The JPMCB Stable Asset Income investment is considered an investment contract. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract basis. There was no adjustment from fair value to contract value necessary at June 30, 2016.

Use of Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Tax Status -

Earnings from Plan investments and employer's contributions are exempt from federal income taxes under Section 501(a) of the Internal Revenue Code.

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Investment Valuation and Income Recognition -

Investments are reflected at fair value. Gains and losses from sales of investments are netted with unrealized appreciation or depreciation in the statement of changes in net assets available for benefits (See Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits -

Benefits are recorded when paid.

(3) INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	<u>June 30, 2016</u>	<u>June 30, 2015</u>
Investments, at fair value	\$ 17,776,629	\$ 17,917,648
Investment income (loss)	(39,377)	619,474

(4) TRANSACTIONS WITH PARTIES-IN-INTEREST:

Certain legal and accounting fees and other administrative fees of the Plan are paid by the Company. Other than as described above, the Plan has had no transactions with any parties-in-interest.

(5) FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC are described as follows: The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 and Level 2 inputs were not available. The Plan did not use Level 2 inputs for the year ending June 30, 2015 or Level 3 inputs for the years ending June 30, 2016 and 2015.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(5) FAIR VALUE MEASUREMENTS (continued):

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2016 and 2015.

Registered Investment Companies: valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Stable Asset Portfolio (Guaranteed Investment Contract): Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 6). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

(5) FAIR VALUE MEASUREMENTS (continued):

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of June 30, 2016:

	Fair Value	Level 1	Level 2
Registered investment companies	\$17,575,044	\$17,575,044	\$ -
Stable asset portfolio	201,585	-	201,585
Total	\$17,776,629	\$17,575,044	\$ 201,585

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of June 30, 2015:

	Fair Value	Level 1
Registered investment companies	\$17,917,648	\$17,917,648

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended June 30, 2016 and 2015 are reported in net appreciation (depreciation) in fair value of investments as follows:

	2016	2015
Registered investment companies	\$ (611,497)	\$ (65,463)
Stable asset portfolio	585	-
Total	\$ (610,912)	\$ (65,463)

(6) STABLE ASSET PORTFOLIO:

The Plan has a stable asset portfolio option that is considered a benefit responsive guaranteed investment contract with JPMorgan. JPMorgan maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

(6) STABLE ASSET PORTFOLIO (continued):

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The stable asset portfolio is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by JPMorgan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2016 was \$201,585. The crediting interest rate is based on a formula agreed upon with the issuer. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(8) RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(9) TERMINATED PARTICIPANTS:

Net assets available for benefits at June 30, 2016 and 2015, include approximately \$944,000 and \$1,400,000 respectively, allocated to the accounts of participants who are no longer active in the Plan as of that date.

(10) SUBSEQUENT EVENTS:

The Plan has evaluated subsequent events through March 10, 2017, the date which the financial statements were available to be issued. No significant events were discovered.
