1. Description of the Plan

The following description of the Active Wellness 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreements for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution plan sponsored by Active Wellness, LLC (the "Company") pursuant to Section 401(a) of the Internal Revenue Code ("IRC"), was established on June 15, 2014. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination or financial hardship. The Plan covers all employees of the Company who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Plan administration

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Custodial services are provided by Delaware Charter Guarantee and Trust Company dba Principal Trust Company ("Principal Trust Company"), a member of the Principal Financial Group, and Principal Life Insurance Company. Recordkeeping services are provided by Principal Life Insurance Company. Certain administrative expenses of the Plan, including recordkeeping and auditing expenses, were paid by the Company for the year ended December 31, 2015. Other administrative expenses are paid out of the assets of the Plan. Investment fees, which may vary according to the individual funds selected, are paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

Eligibility

The Plan covers all employees, except for (a) employees whose employment is governed by a collective bargaining agreement in which retirement benefits were the subject of good faith bargaining; (b) employees who are non-resident aliens who do not receive earned income from us which constitutes income from sources within the United States; (c) anyone who is a leased employee; and (d) anyone who is an independent contractor who is later determined by the Internal Revenue Service ("IRS") to be an employee, as defined by the Plan, become eligible to participate in the Plan on the first day of the quarter after reaching the age of 21 and completing one year of service, as defined by the Plan.

1. Description of the Plan (continued)

Participant contributions

Participants may elect to contribute through payroll deductions amounts up to 100% of their annual compensation, as defined in the Plan, up to a maximum amount allowed by the IRC. Maximum allowed deferral amounts were $18,000 for 2015. Participants over the age of 50 may also contribute an additional $6,000 catch up contribution to the Plan for 2015. Participants are also allowed to rollover contributions from other qualified retirement plans.

Participants direct the investment of all their contributions into various investment options offered by the Plan.

Employer contributions

The Company has the option to make discretionary matching contributions and discretionary contributions. No employer contributions were made by the Company for 2015.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their tax-deferred contributions and rollovers plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions, plus earnings thereon, is based on years of continuous service, as defined by the Plan. Participants are 100% vested after five years of service.

Notes receivable from participants

Under the terms of the Plan, participants may borrow amounts from their accounts subject to a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or may exceed 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a fixed rate equal to the local prevailing rate at the time of the loan. Loans outstanding during 2015 carried interest rates of 5.25%. Principal and interest is paid ratably through payroll deductions.

1. Description of the Plan (continued)

Payment of benefits

Distributions and withdrawals are payable upon retirement, termination, financial hardship, disability or death. If a participant's account balance is equal to or less than $1,000, the balance is distributed immediately in a lump-sum cash payment unless a direct rollover into another qualified benefit plan is requested. Balances between $1,000 and $5,000 will be rolled over to an individual retirement plan designated by the administrator if the participant has not requested a lump-sum cash payment or a direct rollover into another qualified benefit plan. If the account balance is over $5,000, the participant can consent to either a distribution paid in the form of a lump-sum cash payment, a direct rollover into another qualified plan, a specified series of installments equal to the value of their vested account balance or postpone payment to a later date and remain in the Plan as described in the Plan documents.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting and in accordance with ERISA.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the Unites States of America ("U.S. GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value, except for fully-benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements and Note 5 for discussion of fully benefit responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. There were no delinquent participant loans as of December 31, 2015 or 2014.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of benefits

Benefits are recorded when paid.

Adoption of accounting standard

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I simplifies the measurement and presentation of fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part I and Part II is to be applied retrospectively. Management has elected to adopt Part I and Part II early.

2. Summary of Significant Accounting Policies (continued)

Subsequent events

The Plan has evaluated subsequent events through April 5, 2017, the date the financial statements were available to be issued. No subsequent events have occurred that would have a material impact on the presentation of the Plan's financial statements.

3. Information Prepared and Certified by Custodians

In accordance with Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Principal Trust Company has certified information regarding the cost and fair value of all investments and notes receivable from participants assets, except for the common/collective trusts, held at December 31, 2015 and 2014, and investment and notes receivable from participant transactions, except for transactions related to the common/collective trust, entered into during 2015. Principal Life Insurance Company has certified information regarding the cost and fair value of the common/collective trusts held at December 31, 2015 and 2014, and investment transactions related to the common/collective trusts entered into during 2015. This information was used in the preparation of the accompanying financial statements and supplemental schedules.

4. Fair Value Measurements

The Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: inputs are unobservable inputs for the asset or liability.

4. Fair Value Measurements (continued)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2015 and 2014.

*Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Common/collective trusts*: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

Investments measured at fair value on a recurring basis

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2015 and 2014:

| Fair Value Measurements | December 31, 2015 | | | |
|---|---|---|---|---|
| Using Input Type | Level 1 | Level 2 | Level 3 | Total |
| Mutual funds | $256,274 | $ - | $ - | $ 256,274 |

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Fair Value Measurements (continued)

Investments measured using the net assets value per share practical expedient

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share practical expedient as of December 31, 2015 and 2014, respectively.

| 2015 | Fair Value | Unfunded Commitments | Redemption Frequency (if currently eligible) | Redemption Notice Period |
|---|---|---|---|---|
| Common/collective trusts | $2,415,129 | n/a | Daily | 30 days |

| 2014 | Fair Value | Unfunded Commitments | Redemption Frequency (if currently eligible) | Redemption Notice Period |
|---|---|---|---|---|
| Common/collective trusts | $2,089,213 | n/a | Daily | 30 days |

5. Investment Contract with Insurance Company

The Plan holds a traditional investment contract, the Principal Fixed Income Guaranteed Option. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the investment contract at December 31, 2015 and 2014, was $9,802 and $541, respectively.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The traditional investment contract held by the Plan is a guaranteed investment contract ("GIC"). The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

6. Income Tax Status

Effective June 15, 2014, the Plan adopted Principal's Prototype Non-Standardized Profit Sharing Plan. The Internal Revenue Service ("IRS") has determined and informed the Plan sponsor by a letter dated March 31, 2014, that its Prototype Plan is designed in accordance with applicable sections of the IRC, and that any employer adopting this form of the Prototype Plan will be considered to have a plan qualified under applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and is tax-exempt.

U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon an examination by the IRS. No uncertain positions have been identified that would require the recognition of a tax liability or disclosure in the financial statements as of December 31, 2015 and 2014. The Plan is subject to routine audits by applicable taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Party-in-Interest Transactions

Certain Plan investments were managed by Principal Trust Company and Principal Life Insurance Company for the plan year ended December 31, 2015. Principal Trust Company and Principal Life Insurance Company are custodians as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

9. Prohibited Transactions

During the year ended December 31, 2015, the Company failed to remit to the Plan's custodians certain participant loan repayments totaling $123. During the year ended December 31, 2014, the Company failed to remit to the Plan's custodians certain employee contributions totaling $66,018. Delay in remitting contributions to the Plan's custodians were due to administrative errors. The Company computed lost earnings related to the 2014 errors totaling $160 and credited participant accounts during 2016.
