Note 1 – Description of Plan

The following description of the Employees' Savings Plan of Glasstech, Inc. (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan.

General

The Plan is a defined contribution plan established to provide income upon retirement to all eligible employees of Glasstech, Inc. (the Company and Plan Administrator). It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participant Accounts

Participant accounts are adjusted daily for a pro rata share of income and expenses of each fund, determined by the percentage that the participant's account balance bears to the total of all participants' account balances at that date prior to such adjustment. Participant contributions vest immediately. Company contributions plus actual earnings (losses) thereon vest 20% after one year of credited service (as defined in the Plan), 40% after two years, 60% after three years, 80% after four years, and 100% after five years of credited service. Company contributions are reduced by participant forfeitures. The forfeiture account balance was \$866 at June 30, 2016 and \$26 at June 30, 2015.

Notes Receivable from Participants

The Plan permits participants to borrow up to a maximum of \$50,000, or 50%, of their vested account balance once their total account balance reaches \$2,000. Loans are made subject to certain conditions and limitations specific in the Plan document and are repaid in biweekly installments, including interest, over periods of between one to five years or up to ten years for the purchase of a primary residence. A participant is entitled to a maximum of two loans outstanding at a given time; however, the loans must be 12 months apart. Participant loans are collateralized by their account balances. The rate at which loans bear interest is established at the inception of the borrowing, based on the prime rate then being charged by the Trustee plus 1%. Repayments of loans, including the interest portion thereof, are reinvested on the participants' behalf in accordance with their current choice of investment options. If a participant terminates employment from the Company, the loans must be paid in full; otherwise, the outstanding account balance will be treated as a distribution to the participant in 60 days.

Note 1 – Description of Plan (continued)

Contributions

The Plan provides for company and nonelective company contributions at the discretion of the Company's Board of Directors. The Company made no contributions during the 2016 or 2015 plan year. Eligible employees may make pretax and/or after-tax contributions in specific percentages, up to the lesser of 60% of eligible compensation for pretax and 10% of eligible compensation for after-tax, or the maximum permitted per the Internal Revenue Service (IRS) limitations. Participants direct their contributions, company contributions, if any, and any earnings thereon to any of the Plan's fund options.

Payment of Benefits

The Plan provides generally that upon retirement, death, disability, or termination, in the case of vested benefits, the standard form of payment will be a lump-sum payment. Other forms of payment may be elected, including installments. In the event the participant's vested benefit upon retirement, death, disability, or termination is less than \$1,000, a lump-sum distribution will be made. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan's termination, the participants' accounts become fully vested.

Administrative Expenses

Substantially all expenses for plan administration are paid by the Company.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used. The Plan's investments are held by Fidelity Management Trust Company (the Trustee).

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the net asset value.

Common/collective trust funds (CCTs) represent investments with various investment managers. Units held in CCTs, including stable value funds, are fair valued at the net asset value (NAV). The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The Plan held shares of the Wells Fargo Stable Value Fund C as of June 30, 2016 and 2015.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent outstanding loans and are measured at their unpaid principal balance plus accrued interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using net asset value per share as a practical expedient. For nonpublic business entities, ASU 2015-07 is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted and should be applied retrospectively. The Plan has elected to early adopt ASU 2015-07, which only impacts financial statement disclosures. Accordingly, investments for which fair value is measured using net asset value per share as a practical expedient have not been categorized within the fair value hierarchy.

In July 2015, FASB issued ASU 2015-12, *Amendments to Plan Accounting*, under Topics 960, 962, and 965. The ASU affects fully benefit-responsive investment contracts and plan investment disclosures. The ASU designates contract value as the only required measure for fully benefit-responsive investment contracts. Contract value is considered relevant because that is the amount at which plan participants would transact. The ASU eliminates the measurement and presentation of fair value disclosures for fully benefit-responsive investment contracts. The ASU also eliminates the requirement for an entity to disclose: individual investments that represent 5% or more of net assets available for benefits; the net appreciation or depreciation for investments by general type; and disaggregated investment information based on nature, characteristics and risks under Topic 820. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted and should be applied retrospectively. The Plan has elected to early adopt part (ii) of ASU 2015-12. Parts (i) and (iii) are not applicable to this Plan.

Reclassifications

Certain 2015 amounts have been reclassified to conform to the 2016 presentation.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at June 30, 2016 and 2015, net appreciation (depreciation) of investments, and dividends and interest for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

Note 4 – Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value, as of June 30, 2016 and 2015. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investments at Fair Value as of June 30, 2016

Note 5 – Restrictions on Net Assets

The investment in the Wells Fargo Stable Value Fund is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

Note 6 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2014, that the Fidelity Basic Plan Document No. 17 (the volume submitter plan of the Trustee upon which the Plan is based) qualifies under Section 401 of the Internal Revenue Code (the Code) and the related trust is, therefore, not subject to tax under present income tax law. Subsequent to this ruling the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 – Subsequent Events

Management has evaluated subsequent events through March 27, 2017, the date the financial statements were available to be issued, and determined that no events have occurred that require recognition or disclosure.

Note 6 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2014, that the Fidelity Basic Plan Document No. 17 (the volume submitter plan of the Trustee upon which the Plan is based) qualifies under Section 401 of the Internal Revenue Code (the Code) and the related trust is, therefore, not subject to tax under present income tax law. Subsequent to this ruling the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 – Subsequent Events

Management has evaluated subsequent events through March 27, 2017, the date the financial statements were available to be issued, and determined that no events have occurred that require recognition or disclosure.
