1. Description of the Plan

The Plan is a noncontributory defined benefit pension plan to which the Plan Sponsor, Parker-Hannifin Corporation (the Company), contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to its participants. Normal retirement is at age 65 provided the employee has at least five years of service. The Plan also provides for early retirement upon reaching established age and service levels, certain disability benefits, death benefits and certain termination provisions. Participants should refer to the appropriate summary plan description or the plan document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA), as amended, the Pension Protection Act of 2006 (PPA), as amended and corrected, and the Moving Ahead for Progress in the 21st Century Act (MAP-21).

As of April 1, 2004, automatic participation in the Plan by new employees of the Company was restricted to certain employees. Most new employees of the Company are automatically enrolled in a defined contribution plan in lieu of their participation in the Plan. Existing employees as of April 1, 2004 who elected to participate in the defined contribution plan had their pension benefits frozen at June 30, 2004.

For the plan year ended June 30, 2015, the Plan was amended to offer one-time lump-sum pension benefit distributions to some participants. These benefit distributions were recorded and paid during the plan year ended June 30, 2015 in the amount of $81,496,000.

2. Summary of Significant Accounting Policies

Basis of Accounting The accompanying financial statements are prepared on the accrual basis of accounting, however, benefit payments are recorded when paid.

Investment Valuation Investments are measured at fair value. Quoted market prices, net asset values or other observable inputs are used to determine the estimated fair value of the underlying investments of the Plan. Purchases and sales of securities are reflected on a trade-date basis.

Income Recognition Dividend income is recorded on the ex-dividend date. Interest is recorded as earned on an accrual basis. Gain or loss on disposition of securities is based on average cost of the investments. Net appreciation (depreciation) in the fair value of its investments reported in the statements of changes in net assets available for benefits consists of the realized gains (losses) from the sale of investments and the unrealized appreciation (depreciation) on those investments.

Contributions Company contributions meet the minimum funding requirements of ERISA , the PPA and MAP-21 and are designed to fund the Plan's current service costs on a current basis and to fund over the applicable time period the estimated accrued benefit cost arising from qualifying past service. The Company was not required to make any contributions for the years ended June 30, 2016 and 2015. Discretionary cash contributions of $200,000,000 were made during the year ended June 30, 2016. The investment income of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan.

Expenses The Plan’s expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements.

2. Summary of Significant Accounting Policies (cont'd)

Risk and Uncertainties The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Other The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events The Plan has evaluated subsequent events that have occurred through the date these financial statements were available to be issued. No subsequent events occurred that required adjustment to these financial statements.

3. Benefits

Accumulated plan benefits were calculated by consulting actuaries at July 1, 2015, the most recent benefit information date. Had the valuation been performed as of June 30, 2015, there would be no material differences in the accumulated plan benefits. The valuation was performed using the RP-2014 tables, projected using generational scale MP-2016, an updated projection scale issued by the Society of Actuaries in 2016. Accumulated plan benefits represent those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected dates of payments.

3. Benefits (cont'd)

The significant assumptions for Plan reporting requirements underlying the Plan's actuarial computations at July 1, 2015 are as follows:

Actuarial Cost Method	Standard unit credit cost method
Interest Rate	7.5%
Mortality	Healthy - RP-2014 tables using projection scale MP-2016 with no collar adjustments for males and blue collar adjustments for females . Disabled - RP-2014 table using projection scale MP-2016. (Previously; Disabled - RP-2000 disabled retiree mortality table)
Retirement Age	The incidence of retirement ranges from 0% to 100% for active participants who are 55 or older.
Benefit Commencement Age - Terminated Vested	62

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

These amounts are being presented in the tables above to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

5. Fair Value Measurements (cont'd)

Cash equivalents, which include repurchase agreements and other short-term investments, are valued at cost, which approximates fair value.

Equity securities consist of common stock of both U.S. and foreign corporations and are valued at the closing price reported on the active market on which the individual securities are traded.

Government securities and corporate bonds are valued using both market observable inputs for similar assets that are traded on an active market and the closing price on the active market on which the individual securities are traded.

Mutual funds are valued using the closing market price reported on the active market on which the fund is traded. The funds primarily provide exposure to U.S. and international equities, high-yield and emerging market fixed income securities, real estate and commodities.

Miscellaneous includes a long term private placement investment and a life insurance product which are measured at fair value using observable inputs.

Investments measured at net asset value include non-exchange traded mutual funds, common/collective trusts and limited partnerships. Non-exchange traded mutual funds consist primarily of fixed income securities available to institutional clients. Common/collective trusts primarily consist of equity and fixed income funds and provide exposure to large, mid and small cap U.S. equities, international large and small cap equities, emerging market equities, and U.S., international and emerging market debt securities. Non-exchange traded mutual funds can be redeemed daily and without restriction. Common/collective trust investments can be redeemed after giving appropriate notice to the issuer. The Plan has the ability to liquidate these investments after giving appropriate notice to the issuer. At June 30, 2016 and 2015, the Plan had no unfunded commitments related to these investments. Limited partnerships include hedge funds which can be redeemed either monthly or quarterly and without restriction after giving appropriate notice to the issuer. The Plan has the ability to liquidate its limited partnership investments after giving appropriate notice to the issuer. Generally, the common/collective trusts require no more than a 60 day redemption notice while the limited partnership investments require no more than a 95 day redemption notice. At June 30, 2016 and 2015, the Plan had no unfunded commitments related to these investments. Hedge funds provide exposure to a variety of hedging strategies including long/short equity, relative value, event driven and global macro.

6. Tax Status

The Plan obtained its latest determination letter on March 31, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. No provision for income taxes has been included in the Plan's financial statements.

United States generally accepted accounting principles require the plan administrator to evaluate uncertain tax positions taken by the Plan. The plan administrator has concluded that as of June 30, 2016, there were no uncertain tax positions taken or expected to be taken by the Plan. The Plan has not recognized any interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Termination Priorities

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by, and the financial condition of, the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

8. Party-In-Interest

Certain Plan investments that are held by the Plan are cash equivalents managed by Bank of New York Mellon (BNY). BNY is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan also holds shares of Parker-Hannifin Corporation common stock. Investment activity related to these shares qualify as party-in-interest transactions.

9. Trustee Certification

The information used as a basis for the financial statements which was certified or provided by the trustee is as follows: Statements of Net Assets Available for Benefits – at fair value; Statements of Changes in Net Assets Available for Benefits – all additions except for employer contributions and Note 4.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month look-back (as of March 2015), each adjusted as needed to fall within the 25-year average interest rate corridor under HATFA.
1st Segment Rate	4.72%.
2nd Segment Rate	6.11%.
3rd Segment Rate	6.81%.
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month look-back (as of March 2015), without regard to interest rate stabilization.
1st Segment Rate	1.25%.
2nd Segment Rate	4.08%.
3rd Segment Rate	5.15%.
Salary Increases	
Minimum Funding Target Normal Cost Maximum Tax Expected Benefit Increase	The merit amount shown in Table 1 plus 4.0%.
Social Security Wage Base Increases	Future wage indices are based on a national wage increase of 3.50% per year.
Social Security COLA Increases	3.00%.
Optional Payment Form Election Percentage	
Former Wynn Participants	90% lump sum; 10% life annuity.
Former STI Participants	10 year certain and life for Autoclave benefit; 100% life annuity for all other benefits.
All Others	100% life annuity. 50% joint survivor for RMA and TPS benefits.

Optional Payment Form Conversion Interest Rate	7.0% for RMA accounts. 6.0% for profit sharing accounts (prior plan balances). Same as funding interest rates above for lump sums.
Optional Payment Form Conversion Mortality	The mortality table described in Revenue Ruling 2001-62 for RMA accounts. The UP-1984 Unisex mortality table for profit sharing accounts (prior plan balances). Current IRC section 417(e) table for lump sums
Retirement Age	
Active Participants	See Tables 2–7.
Terminated Vested Participants	Age 62.
Mortality Rates	
Healthy	2015 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e).
Disabled	2015 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) for all participants except former Snap-tite plan participants. Revenue Ruling 96-7 mortality table for disability after December 31, 1994 is used for former Snap-tite plan participants.
Withdrawal Rates	See Table 8.
Disability Rates	See Tables 9–10.
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).

Surviving Spouse Benefit	For all participants except former Snap-tite plan participants, it is assumed that 85% of males and 50% of females have an eligible spouse, and that males are three years older than their spouses. For former Snap-tite plan participants, it is assumed that 85% of males and 85% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of $210,000 and the IRC section 401(a)(17) compensation limit of $265,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2013 Plan Year	8.00%, limited to 6.76%.
2014 Plan Year	7.50%, limited to 6.99%.
2015 Plan Year	7.50%, limited to 6.81%.
Trust Expenses Included in Target Normal Cost	$4,408,000 plus PBGC premiums. Based on prior year expenses rounded to the nearest $1,000.
Actuarial Method	Standard unit credit cost method.
Valuation Date	July 1, 2015.

1st Segment Rate	4.72%.
2nd Segment Rate	6.11%.
3rd Segment Rate	6.81%.
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month look-back (as of March 2015), without regard to interest rate stabilization.
1st Segment Rate	1.25%.
2nd Segment Rate	4.08%.
3rd Segment Rate	5.15%.
Salary Increases	
Minimum Funding Target Normal Cost Maximum Tax Expected Benefit Increase	The merit amount shown in Table 1 plus 4.0%.
Social Security Wage Base Increases	Future wage indices are based on a national wage increase of 3.50% per year.
Social Security COLA Increases	3.00%.
Optional Payment Form Election Percentage	
Former Wynn Participants	90% lump sum; 10% life annuity.
Former STI Participants	10 year certain and life for Autoclave benefit; 100% life annuity for all other benefits.
All Others	100% life annuity. 50% joint survivor for RMA and TPS benefits.

Optional Payment Form Conversion Interest Rate	7.0% for RMA accounts. 6.0% for profit sharing accounts (prior plan balances). Same as funding interest rates above for lump sums.
Optional Payment Form Conversion Mortality	The mortality table described in Revenue Ruling 2001-62 for RMA accounts. The UP-1984 Unisex mortality table for profit sharing accounts (prior plan balances). Current IRC section 417(e) table for lump sums
Retirement Age	
Active Participants	See Tables 2–7.
Terminated Vested Participants	Age 62.
Mortality Rates	
Healthy	2015 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e).
Disabled	2015 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) for all participants except former Snap-tite plan participants. Revenue Ruling 96-7 mortality table for disability after December 31, 1994 is used for former Snap-tite plan participants.
Withdrawal Rates	See Table 8.
Disability Rates	See Tables 9–10.
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).

Surviving Spouse Benefit	For all participants except former Snap-tite plan participants, it is assumed that 85% of males and 50% of females have an eligible spouse, and that males are three years older than their spouses. For former Snap-tite plan participants, it is assumed that 85% of males and 85% of females have an eligible spouse, and that males are three years older than their spouses.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2013 Plan Year	8.00%, limited to 6.76%.
2014 Plan Year	7.50%, limited to 6.99%.

Former Retirement Plan (Sub-Plan 050)

Effective Date	June 10, 1953, as restated July 1, 2007 and amended through the valuation date, most recently by Amendment 16.
Eligibility	All salaried employees at locations covered by the plan will become plan participants on the first day of the month after they have had 12 continuous months of employment (and worked 1,000 hours in a 12 month period).
Vesting Service	Prior to June 30, 1976, vesting service was based on continuous and uninterrupted employment, and after that date a year's credit is given for each 12 month period (beginning on July 1 each year) of employment. Prorated service is granted (to the nearest one-tenth) for periods less than a full year.
Benefit Service	Continuous and uninterrupted employment as an eligible employee up to June 30, 1976, plus credit after that date for each one-tenth of a year of employment during which the employee is eligible to receive benefit service credit (used to determine the amount of the benefit determined under the salary formula).
Basic Service	Continuous and uninterrupted employment as an eligible employee up to June 30, 1976 plus a full year's credit for each plan year thereafter in which at least 1,700 hours of service are performed. If less than 1,700 hours are worked during a year, then fractional credit to nearest one-tenth is granted for each 170 hours worked (used to determine the minimum benefit).
Average Monthly Compensation	Average of the highest five consecutive calendar years compensation including base salary, bonuses, overtime, incentive, etc., but excluding other compensation such as overseas allowances or moving expenses. Compensation exceeding the IRC section 401(a)(17) limit in the year of retirement or termination ($200,000 retroactively starting with the 2002 plan year) will be excluded when the average monthly compensation is determined.

Normal Retirement

Eligibility is attainment of age 65.

The monthly benefit is equal to 26.25% of average monthly compensation up to Social Security covered compensation, plus 47.60% of average monthly compensation in excess of the Social Security benefit base, reduced proportionately if benefit service is under 35 years, plus 0.5% of average monthly compensation multiplied by the number of benefit service years in excess of 35 (maximum five years). A minimum benefit based on the benefit unit table below times basic service (maximum 40 years) will be paid. The portion of benefit payable for service prior to July 1, 1976 cannot be less than the monthly amount actuarially equivalent to the value of the profit sharing balance at age 65. Social Security covered compensation is the average of the taxable wage bases under Social Security during the 35 years ending with the employee's Social Security retirement age.

Date of Retirement		Minimum
On or After	But Before	Benefit Unit
07-01-89	01-01-01	$12.50
01-01-01	01-01-02	$15.00
01-01-02	01-01-03	$18.00
01-01-03		$21.00

In addition to the regular plan benefit described above, a retiree medical account (RMA) benefit is also payable to participants at RMA eligible locations. The main provisions of the RMA are summarized in the Appendix.

Early Retirement

Eligibility is attainment of age 55 and completion of 10 years of vesting service.

Benefit is equal to either: (i) Deferred benefit payable at age 65 equal to the normal pension but using average monthly compensation at time of early retirement and using his years of service only to the retirement date, or (ii) An immediate pension equal to (i) but reduced 0.5% for each month that early retirement precedes normal retirement date.

	In addition to the regular plan benefit described above, a retiree medical account (RMA) benefit is also payable to participants at RMA eligible locations. The main provisions of the RMA are summarized in the Appendix. If certain eligibility conditions are satisfied, a temporary pension supplement (TPS) is payable to participants at TPS eligible locations retiring prior to normal retirement. The main provisions of the TPS are summarized in the Appendix.
Termination	Eligible after three or more years of vesting service (five years prior to July 1, 2008). Deferred vested benefit equal to the normal retirement benefit payable at age 65, or payable as early as age 55, if reduced as for early retirement.
Prior Profit Sharing Plan	All participants in the Profit Sharing Plan, which was converted to this plan on June 30, 1976, are fully vested in their account balance on that date. Thereafter, the account balance (with interest at 6% per year) will be paid to the employee (or beneficiary) at his retirement, termination or death. Payment of the account balance at retirement or termination (or a withdrawal or transfer of the account balance to the Parker Savings Plan before retirement or termination) will actuarially reduce the pension payable from the plan. The actuarial reduction for this purpose is determined using the UP 1984 Unisex Mortality Table and a 6% interest rate.
Preretirement Spouse's Benefit	Eligible upon the death of an active employee while eligible for a vested retirement benefit providing the employee had been married for one year preceding his date of death. The benefit payable to the surviving spouse is determined as though the employee had retired the day before he died, taken early retirement, and accepted the 50% joint and survivor option.
Post Termination Spouse's Benefit	Eligible upon the death of a former employee while eligible for a vested benefit providing the employee had been married for one year preceding his date of death.

	If the former employee dies after the attainment of age 55, the benefit payable to the surviving spouse is determined as though the former employee had commenced payments the day before he died and accepted the 50% joint and survivor option. If the former employee dies prior to the attainment of age 55, the benefit payable to the surviving spouse is determined as though the former employee had survived to age 55 and commenced payments on his fifty-fifth birthday under the 50% joint and survivor option.
Pension Increase for Retirees	Retired participants as of June 1, 2001 received a one time ("Millennium") pension increase. The Millennium increase amounts are summarized in the Appendix.
Retirement Income Account (RIA)	Plan participation was frozen as of April 1, 2004 to newly hired (and rehired) employees. Participants as of June 30, 2004 were given the following plan coverage choices: (A) Continued participation and full benefit accrual under the Consolidated Pension Plan; or (B) Frozen participation and accrued benefit amounts as of June 30, 2004 under the Consolidated Pension Plan, with future plan coverage and benefit accruals payable under a new Retirement Income Account (RIA) Plan. Note that service credits towards TPS benefit and RMA accruals and interest credits continue under the Consolidated Pension Plan to eligible participants as of the June 30, 2004 choice date.
Forms of Payment	A married employee shall receive his benefit on a 50% joint and survivor actuarially equivalent reduced basis unless the employee elects (with spousal consent) a life annuity. A single employee shall receive the benefit on a life annuity basis. Other options are available: ▪ 50%, 75%, or 100% joint and survivor ▪ 5, 10, or 15 year certain and life ▪ 50% joint and survivor with 10 year certain and life

Participants on June 30, 1994	Employees who were participants in the Parker Hannifin Corporation Retirement Plan as of June 30, 1994 are entitled to benefits based on the greater of (A) and (B) below: (A) The monthly benefit based on the normal retirement formula as outlined above for all years of benefit service. (B) The sum of (i) and (ii) below: (i) The monthly benefit accrued as of June 30, 1994 for years of benefit service prior to July 1, 1994. Appendix—RMA and TPS Benefits

RMA Benefits (Active Participants)

A retiree medical account (RMA) opening balance was established on the opening balance date for all active participating employees as of the effective date at RMA eligible locations. This opening balance was calculated as follows:

- An annual RMA credit is assumed to be granted to each RMA eligible participant on each December 31 from the RMA accrual date to the opening balance date.
- Each annual RMA credit is accumulated using a 6% annual interest rate from the December 31 date. It is credited to the opening balance date.

After the establishment of the opening balance, interest will be credited to the RMA at the end of each month based on a 6% annual interest rate. These monthly interest credits will continue until the date of benefit commencement.

Each eligible participant will also receive an annual RMA credit on each December 31 as long as the participant remains an employee. The annual RMA credit, which is based on the age of the participant at the RMA accrual date, will be the same annual RMA credit that was used to determine the opening balance. The RMA accrual date is generally the participant's original date of hire or the credited service date for some acquisitions.

The table below shows the annual RMA credit based on several sample participant ages on their accrual dates:

Age on RMA Accrual Date	Annual RMA Credit
25	$185
30	$230
35	$295
40	$380
45	$510
50	$500
55	$850
60	$850

Upon benefit commencement, the accumulated RMA balance is converted to a monthly annuity as follows:

- For unmarried participants, the benefit will be paid as a life annuity.
- For married participants, the benefit will be paid as a 50% qualified joint and survivor annuity (without any actuarial reduction).

The basis upon which the RMA balance is converted to a monthly annuity is the 1994 Group Annuity Reserving Table, a 7% annual rate of interest, plus a 10% increase in the resulting annuity conversion factor. The conversion factors are based on the participant's age at benefit commencement.

A preretirement survivor benefit is available if the participant is not eligible for early retirement at the time of death, but has completed five or more years of vesting service. This RMA preretirement survivor benefit is payable as early as the date the participant would have attained age 55 in an amount equal to 50% of the benefit that would have been payable had the participant survived until the earliest possible retirement age under the plan. If the participant is eligible for early retirement at the time of death, the RMA preretirement survivor benefit is payable immediately and is equal to 50% of the benefit that would have been payable had the participant retired the day before death.

RMA Benefits (Retired Participants on June 1, 2001)

The RMA benefit for this group is an additional monthly pension paid effective June 1, 2001. Retirees in payment status (or deferred retirees) on June 1, 2001 who were eligible for retiree medical now receive an RMA benefit based on their years of service at termination. The amount of the monthly RMA benefit is determined by the table below:

Years of Service	RMA Benefit
10–19	$120
20–29	$160
30 and Over	$200

Surviving spouses in payment status on June 1, 2001 receive one half of the RMA that the participant would have received based the participant's service.

TPS Benefits (Active Participants)

A participant may also be eligible to receive a temporary pension supplement (TPS) at benefit commencement if retiring from active service prior to normal retirement and meeting certain eligibility conditions. Participants retiring under normal, early or disability retirement, will receive the TPS payable until age 65 if the participant retires at age 60 with 10 or more years of service, or at age 55 with 20 or more years of service. Participants retiring under normal, early or disability retirement who were at least age 50 with five or more years of service on July 1, 2001 will be eligible for the supplement if the participant retires on or after age 55 with 10 or more years of service. For this latter group of participants, the supplement will continue to be paid through the later of the month prior to the participant's sixty-fifth birthday or the spouse's sixty-fifth birthday. The TPS is payable as a life annuity for participants who are not married at the time of commencement and as a 50% qualified joint and survivor annuity (without any actuarial reduction) for participants who are married at the time of commencement.

The amount of the monthly TPS is determined by the table below:

Years of Service	**Monthly TPS to Age 65**
10–14	$180
15–19	$230
20–24	$300
25–29	$370
30–34	$450
35–39	$500
40 and Over	$550

A preretirement survivor benefit is available if the participant is eligible for the TPS at the time of death; the surviving spouse will receive a benefit equal to 50% of the TPS amount that the participant would have been entitled to had the participant retired the day before death. This preretirement survivor TPS benefit is payable until the month prior to the former participant's sixty-fifth birthday. If the employee was age 50 or older with five or more years of service on July 1, 2001 and died after attaining age 55 with at least 10 years of service, the preretirement survivor TPS benefit payable to the surviving spouse continues until the later of the month prior to the participant's sixty-fifth birthday or the surviving spouse's sixty-fifth birthday.

TPS Benefits (Retired Participants on June 1, 2001

Retirees who were under age 65 or retirees who have spouses who were under age 65 as of June 1, 2001 receive the TPS to the later of the month before the retiree or spouse turns age 65. The amount of the TPS is determined by the table below:

Years of Service	TPS Benefit
10–19	$210
20–29	$330
30 and Over	$450

Retirees at the Stratoflex locations (HRIS codes 27400, 27800, 28400 and now receive a TPS benefit, which is payable only until the later of the month before the retiree or spouse turns age 65. The amount of the TPS is based on the table below:

Years of Service	Stratoflex TPS Benefit
10–19	$270
20–29	$410
30 and Over	$550

If a retiree in pay status as of June 1, 2001 subsequently dies, the surviving spouse will continue to receive one half of the RMA plus one half of the TPS, if applicable. Surviving spouses in pay status on June 1, 2001 receive one half of the TPS that the participant would have received based on his or her age and service.

Millennium Increase	The "Millennium Increase" is a one-time pension (Retired Participants on June 1, 2001) increase for all normal, early and disabled retirees, plus surviving spouses, who had attained age 65 as of June 1, 2001 and in who were payment status on that date. The pension increase was 2% for each year the participant was over age 65 (or retirement date, if later), with a maximum increase of 10%. The minimum benefit increase was $5.00 per month for each year the participant was over age 65 (or retirement date, if later), or at least $25.00 per month.

Plan Changes Since the Prior Year

The funding valuations reflect the following plan changes.

- Many locations had an increase in the multiplier used in the benefit formula and/or an increase in the maximum years of participation. See the Plan Provisions section for details.
  - For the funding valuation, any multiplier changes adopted on or before September 1, 2015 were reflected in the valuation as allowed through an optional election under the Pension Protection Act of 2006. The multiplier becoming effective during the current plan year was used in the benefit formula and was considered effective as of the beginning of the plan year, in accordance with the Pension Protection Act of 2006.
- The legislated increase in the Section 401(a)(17) recognizable pay limit changed from $260,000 for 2014 to $265,000 for 2015.
- A lump sum window was offered to certain groups of terminated vested participants during 2015.
- Certain groups of participants were offered an early retirement window with enhancement benefits during 2015.
- A change in the mortality for determining minimum lump sum payments under IRC section 417(e)(3) to the applicable rates for the current plan year.

(C) In addition to the regular plan benefit described above, a retiree medical account (RMA) benefit is also payable to participants at RMA eligible locations. The main provisions of the RMA are summarized in the Appendix. (D) If certain eligibility conditions are satisfied, a temporary pension supplement (TPS) is payable to participants at TPS eligible locations retiring prior to normal retirement. The main provisions of the TPS are summarized in the Appendix.

Basic Service	Continuous and uninterrupted employment as an eligible employee up to June 30, 1976 plus a full year's credit for each plan year thereafter in which at least 1,700 hours of service are performed. If less than 1,700 hours are worked during a year, then fractional credit to nearest one-tenth is granted for each 170 hours worked (used to determine the minimum benefit).
Average Monthly Compensation	Average of the highest five consecutive calendar years compensation including base salary, bonuses, overtime, incentive, etc., but excluding other compensation such as overseas allowances or moving expenses. Compensation exceeding the IRC section 401(a)(17) limit in the year of retirement or termination ($200,000 retroactively starting with the 2002 plan year) will be excluded when the average monthly compensation is determined.

In addition to the regular plan benefit described above, a retiree medical account (RMA) benefit is also payable to participants at RMA eligible locations. The main provisions of the RMA are summarized in the Appendix.

Early Retirement

Eligibility is attainment of age 55 and completion of 10 years of vesting service.

Benefit is equal to either: (i) Deferred benefit payable at age 65 equal to the normal pension but using average monthly compensation at time of early retirement and using his years of service only to the retirement date, or (ii) An immediate pension equal to (i) but reduced 0.5% for each month that early retirement precedes normal retirement date.

	In addition to the regular plan benefit described above, a retiree medical account (RMA) benefit is also payable to participants at RMA eligible locations. The main provisions of the RMA are summarized in the Appendix. If certain eligibility conditions are satisfied, a temporary pension supplement (TPS) is payable to participants at TPS eligible locations retiring prior to normal retirement. The main provisions of the TPS are summarized in the Appendix.
Termination	Eligible after three or more years of vesting service (five years prior to July 1, 2008). Deferred vested benefit equal to the normal retirement benefit payable at age 65, or payable as early as age 55, if reduced as for early retirement.
Prior Profit Sharing Plan	All participants in the Profit Sharing Plan, which was converted to this plan on June 30, 1976, are fully vested in their account balance on that date. Thereafter, the account balance (with interest at 6% per year) will be paid to the employee (or beneficiary) at his retirement, termination or death. Payment of the account balance at retirement or termination (or a withdrawal or transfer of the account balance to the Parker Savings Plan before retirement or termination) will actuarially reduce the pension payable from the plan. The actuarial reduction for this purpose is determined using the UP 1984 Unisex Mortality Table and a 6% interest rate.
Preretirement Spouse’s Benefit	Eligible upon the death of an active employee while eligible for a vested retirement benefit providing the employee had been married for one year preceding his date of death. The benefit payable to the surviving spouse is determined as though the employee had retired the day before he died, taken early retirement, and accepted the 50% joint and survivor option.
Post Termination Spouse’s Benefit	Eligible upon the death of a former employee while eligible for a vested benefit providing the employee had been married for one year preceding his date of death.

	If the former employee dies after the attainment of age 55, the benefit payable to the surviving spouse is determined as though the former employee had commenced payments the day before he died and accepted the 50% joint and survivor option. If the former employee dies prior to the attainment of age 55, the benefit payable to the surviving spouse is determined as though the former employee had survived to age 55 and commenced payments on his fifty-fifth birthday under the 50% joint and survivor option.
Pension Increase for Retirees	Retired participants as of June 1, 2001 received a one time (“Millennium”) pension increase. The Millennium increase amounts are summarized in the Appendix.
Retirement Income Account (RIA)	Plan participation was frozen as of April 1, 2004 to newly hired (and rehired) employees. Participants as of June 30, 2004 were given the following plan coverage choices: (A) Continued participation and full benefit accrual under the Consolidated Pension Plan; or (B) Frozen participation and accrued benefit amounts as of June 30, 2004 under the Consolidated Pension Plan, with future plan coverage and benefit accruals payable under a new Retirement Income Account (RIA) Plan. Note that service credits towards TPS benefit and RMA accruals and interest credits continue under the Consolidated Pension Plan to eligible participants as of the June 30, 2004 choice date.
Forms of Payment	A married employee shall receive his benefit on a 50% joint and survivor actuarially equivalent reduced basis unless the employee elects (with spousal consent) a life annuity. A single employee shall receive the benefit on a life annuity basis. Other options are available: ▪ 50%, 75%, or 100% joint and survivor ▪ 5, 10, or 15 year certain and life ▪ 50% joint and survivor with 10 year certain and life

Participants on June 30, 1994	Employees who were participants in the Parker Hannifin Corporation Retirement Plan as of June 30, 1994 are entitled to benefits based on the greater of (A) and (B) below: (A) The monthly benefit based on the normal retirement formula as outlined above for all years of benefit service. (B) The sum of (i) and (ii) below: (i) The monthly benefit accrued as of June 30, 1994 for years of benefit service prior to July 1, 1994. Early Retirement
Non-Union

Eligibility for the past service benefit piece varies depending on formula used in determining benefit on December 31, 1988. Eligibility for all other pieces is attainment of age 55 and completion of 10 years of vesting service.

Prior to January 1, 1997, benefit is comprised of the sum of the following two pieces: an early retirement past service benefit and an early retirement future service benefit.

- The early retirement past service benefit is the early retirement monthly benefit as of December 31, 1988 (including appropriate early retirement reduction factors) based on the plan provisions then in effect.
- The early retirement future service benefit is the normal retirement future service benefit multiplied by the ratio of credited service (earned after December 31, 1988) over credited service (earned after December 31, 1988) at normal retirement and further reduced by an early retirement factor described below.

After December 31, 1996, the early retirement benefit is the greater of (A) and (B) below:

(A) The monthly benefit equal to the early retirement benefit at December 31, 1996 as calculated above plus the normal retirement future Parker benefit as calculated above with the exception of average monthly compensation and credited service calculated at the time of retirement multiplied by an early retirement factor described below.

(B) The monthly benefit equal to the normal retirement Parker formula as calculated above with the exception of average monthly compensation and credited service calculated at the time of retirement multiplied by an early retirement factor described below.

Early Retirement

Eligible at age 62 with 15 years of vesting service.

The monthly benefit is the accrued benefit (as determined under normal retirement above) based on pension service at termination reduced based on the chart below for early commencement:

Age	Reduction Factor
62	0.7528
63	0.7253
64	0.9072

Termination

Eligible at any age with five years of vesting service.

The accrued pension is payable at normal retirement date as determined in normal retirement above based on pension service at termination. A participant with 15 years of vesting service may elect to commence the benefit at age 62 reduced as for early retirement.

Disability Retirement

Eligible at any age with 10 years of vesting service.

A benefit is payable after six months of disability computed as in termination above based on pension service at date of disability. The benefit is payable without reduction for early commencement.

Preretirement Spouse's Benefit	Surviving spouses of married participants who die after having completed five years of vesting service are eligible. The benefit payable to the surviving spouse equals the accrued benefit (as determined in normal retirement above) at date of participant's death based on pension service at date of death. This benefit is then reduced to the actuarial equivalent of this benefit had the participant lived to early retirement (or age of death, if death occurs after early retirement), retired with a qualified 50% joint and survivor annuity and then died.
Forms of Payment	Optional forms of payment are: ▪ 50%, 75%, or 100% joint and survivor ▪ 5, 10, or 15 year certain and Life ▪ 50% joint and survivor with 10 year certain and life

The plan was merged into the Consolidated Pension Plan as of June 30, 2013.

Participation	Eligible salaried employees participate in the noncontributory portion of the plan upon date of hire. Participation in the contributory portion of the plan is dependent upon the employee's agreement to make the required contributions. Effective with the January 1, 2001 amendment to the plan, participation is closed as of the applicable freeze date.
Service	Before January 1, 1976, service for all purposes is credited from last date of hire to nearest one-fourth year. Service after January 1, 1976 for all purposes is credited on the basis of full years and month of employment completed as of a participant's applicable freeze date.
Accrual of Benefits	A participant has accumulated a benefit payable at normal retirement date based on compensation and benefit service as of the applicable freeze date.
Employee Contributions	Employees are required to make contributions equal to 3% of compensation (not to exceed $200,000, as adjusted) to receive contributory benefit accruals.

	Employee contribution requirements were suspended as of the applicable freeze date.
Compensation	Compensation for contribution and pension calculation purposes is equal to 1/12th of the average of basic annual rate of compensation (not to exceed $200,000 as adjusted) as of each January 1 for the highest five consecutive years of contributory benefit service granted prior to the applicable freeze date.
Normal Retirement	Eligible at age 65 or the fifth anniversary of plan participation, if later. The monthly benefit is equal to the sum (1) and (2): (1) Noncontributory benefit amount determined as a monthly benefit equal to $100.00, reduced by 1/15th for each year of service less than 15 years at the employee's normal retirement date. In no event shall the noncontributory benefit of an employee who was an active participant on December 31, 1982 be less than $3.50 times credited service at his freeze date. (2) Contributory benefit amount determined as follows: a. 2⅓% of monthly plan compensation times benefit service (not to exceed 15 years); plus b. 1% of monthly plan compensation times benefit service in excess of 15 years. For purposes of determining the contributory benefit at the freeze date, benefit service means that period of credited service during which the participant made employee contributions as required by the contributory portion of the plan.
Early Retirement	Eligible at age 55 and five years of service. The early retirement benefit is the accrued retirement benefit reduced 1/180 for each of the first 60 months and 1/360 for each additional month by which the early retirement date precedes the normal retirement date.
Termination	Participants who were active employees at the applicable freeze date became eligible for 100% of their accrued retirement benefit payable at their normal

	retirement date. A participant with five years of service may elect to commence their benefit as early as age 55 reduced as for early retirement.
Spouse Pension	Upon death of an unmarried contributory participant or a married participant with non-vested benefit, the beneficiary receives the participant's accumulation payable in a lump sum. The surviving spouse of a vested participant receives the spouse's portion of a 100% survivor annuity reduced for early commencement and payable at the earliest retirement age of the participant or later date if elected by the spouse.
Disability Retirement	Eligible at age 55 and five years of credited service. The disability retirement benefit is the accrued retirement benefit reduced for early payment.

A single life annuity, 10 year certain annuity, and 50% joint and survivor annuity are also available options.

Appendix—RMA and TPS Benefits

RMA Benefits (Active Participants)

A retiree medical account (RMA) opening balance was established on the opening balance date for all active participating employees as of the effective date at RMA eligible locations. This opening balance was calculated as follows:

- An annual RMA credit is assumed to be granted to each RMA eligible participant on each December 31 from the RMA accrual date to the opening balance date.
- Each annual RMA credit is accumulated using a 6% annual interest rate from the December 31 date. It is credited to the opening balance date.

After the establishment of the opening balance, interest will be credited to the RMA at the end of each month based on a 6% annual interest rate. These monthly interest credits will continue until the date of benefit commencement.

Each eligible participant will also receive an annual RMA credit on each December 31 as long as the participant remains an employee. The annual RMA credit, which is based on the age of the participant at the RMA accrual date, will be the same annual RMA credit that was used to determine the opening balance. The RMA accrual date is generally the participant's original date of hire or the credited service date for some acquisitions.

The table below shows the annual RMA credit based on several sample participant ages on their accrual dates:

Age on RMA Accrual Date	Annual RMA Credit
25	$185
30	$230
35	$295
40	$380
45	$510
50	$500
55	$850
60	$850

Upon benefit commencement, the accumulated RMA balance is converted to a monthly annuity as follows:

- For unmarried participants, the benefit will be paid as a life annuity.
- For married participants, the benefit will be paid as a 50% qualified joint and survivor annuity (without any actuarial reduction).

The basis upon which the RMA balance is converted to a monthly annuity is the 1994 Group Annuity Reserving Table, a 7% annual rate of interest, plus a 10% increase in the resulting annuity conversion factor. The conversion factors are based on the participant's age at benefit commencement.

A preretirement survivor benefit is available if the participant is not eligible for early retirement at the time of death, but has completed five or more years of vesting service. This RMA preretirement survivor benefit is payable as early as the date the participant would have attained age 55 in an amount equal to 50% of the benefit that would have been payable had the participant survived until the earliest possible retirement age under the plan. If the participant is eligible for early retirement at the time of death, the RMA preretirement survivor benefit is payable immediately and is equal to 50% of the benefit that would have been payable had the participant retired the day before death.

RMA Benefits (Retired Participants on June 1, 2001)

The RMA benefit for this group is an additional monthly pension paid effective June 1, 2001. Retirees in payment status (or deferred retirees) on June 1, 2001 who were eligible for retiree medical now receive an RMA benefit based on their years of service at termination. The amount of the monthly RMA benefit is determined by the table below:

Years of Service	RMA Benefit
10–19	$120
20–29	$160
30 and Over	$200

Surviving spouses in payment status on June 1, 2001 receive one half of the RMA that the participant would have received based the participant's service.

TPS Benefits (Active Participants)

A participant may also be eligible to receive a temporary pension supplement (TPS) at benefit commencement if retiring from active service prior to normal retirement and meeting certain eligibility conditions. Participants retiring under normal, early or disability retirement, will receive the TPS payable until age 65 if the participant retires at age 60 with 10 or more years of service, or at age 55 with 20 or more years of service. Participants retiring under normal, early or disability retirement who were at least age 50 with five or more years of service on July 1, 2001 will be eligible for the supplement if the participant retires on or after age 55 with 10 or more years of service. For this latter group of participants, the supplement will continue to be paid through the later of the month prior to the participant's sixty-fifth birthday or the spouse's sixty-fifth birthday. The TPS is payable as a life annuity for participants who are not married at the time of commencement and as a 50% qualified joint and survivor annuity (without any actuarial reduction) for participants who are married at the time of commencement.

The amount of the monthly TPS is determined by the table below:

Years of Service	Monthly TPS to Age 65
10–14	$180
15–19	$230
20–24	$300
25–29	$370
30–34	$450
35–39	$500
40 and Over	$550

A preretirement survivor benefit is available if the participant is eligible for the TPS at the time of death; the surviving spouse will receive a benefit equal to 50% of the TPS amount that the participant would have been entitled to had the participant retired the day before death. This preretirement survivor TPS benefit is payable until the month prior to the former participant's sixty-fifth birthday. If the employee was age 50 or older with five or more years of service on July 1, 2001 and died after attaining age 55 with at least 10 years of service, the preretirement survivor TPS benefit payable to the surviving spouse continues until the later of the month prior to the participant's sixty-fifth birthday or the surviving spouse's sixty-fifth birthday.

TPS Benefits (Retired Participants on June 1, 2001

Retirees who were under age 65 or retirees who have spouses who were under age 65 as of June 1, 2001 receive the TPS to the later of the month before the retiree or spouse turns age 65. The amount of the TPS is determined by the table below:

Years of Service	TPS Benefit
10–19	$210
20–29	$330
30 and Over	$450

Retirees at the Stratoflex locations (HRIS codes 27400, 27800, 28400 and now receive a TPS benefit, which is payable only until the later of the month before the retiree or spouse turns age 65. The amount of the TPS is based on the table below:

Years of Service	Stratoflex TPS Benefit
10–19	$270
20–29	$410
30 and Over	$550

If a retiree in pay status as of June 1, 2001 subsequently dies, the surviving spouse will continue to receive one half of the RMA plus one half of the TPS, if applicable. Surviving spouses in pay status on June 1, 2001 receive one half of the TPS that the participant would have received based on his or her age and service.

Millennium Increase	The “Millennium Increase” is a one-time pension (Retired Participants on June 1, 2001) increase for all normal, early and disabled retirees, plus surviving spouses, who had attained age 65 as of June 1, 2001 and in who were payment status on that date. The pension increase was 2% for each year the participant was over age 65 (or retirement date, if later), with a maximum increase of 10%. The minimum benefit increase was $5.00 per month for each year the participant was over age 65 (or retirement date, if later), or at least $25.00 per month.

Plan Changes Since the Prior Year

The multiplier becoming effective during the current plan year was used in the benefit formula and was considered effective as of the beginning of the plan year, in accordance with the Pension Protection Act of 2006.
- The legislated increase in the Section 401(a)(17) recognizable pay limit changed from $260,000 for 2014 to $265,000 for 2015.
- A lump sum window was offered to certain groups of terminated vested participants during 2015.
- Certain groups of participants were offered an early retirement window with enhancement benefits during 2015.
- A change in the mortality for determining minimum lump sum payments under IRC section 417(e)(3) to the applicable rates for the current plan year.
