# Union Employees' Retirement Benefit Plan of Indiana Glass Company

## Notes to the Financial Statements

---

### 1. Description of Plan

The Union Employees' Retirement Benefit Plan of Indiana Glass Company (Plan) is contained in the agreement dated February 2, 2005 between Dkirk, Inc., formerly known as Indiana Glass Company, (Company) and the United Steelworkers of America, AFL-CIO. Effective July 1, 2015, the Company's obligations under the Plan were assumed by Lancaster Glass Corporation as a result of the merger of the Company into Lancaster Glass Corporation. The Plan is a noncontributory defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Summary Plan Description as well as the aforementioned agreement for more complete information. See also Note 7 for amendments to benefit provisions.

At June 30, 2016 and 2015, the Plan had no active participants.

The Plan invests a significant portion of its assets in a Master Trust with other subsidiaries of Lancaster Colony Corporation whereby they pool their investment assets. Allocation of net assets, net investment income, and gains and losses to participating plans are allocated to the plans on a pro rata basis measured in terms of units. Participants should refer to the Master Pension Trust Agreement for more complete information. See Note 5 for summary information on the Master Trust. The Plan's interest in the Master Trust was approximately 59% at June 30, 2016 and 2015.

On November 1, 2002, the Company announced a partial plant shutdown. As a result of this event, Plan participants terminated during the 12-month period ending on November 26, 2002 became 100% vested in the Plan. This plant was closed and all remaining employees became fully vested and were terminated on February 28, 2009.

The Plan obtained a favorable determination letter dated June 27, 2014 from the Internal Revenue Service. The Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code including any which have become effective since the effective date of the amendments in the latest determination letter. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### 2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

*a. Basis of accounting.*

The accompanying financial statements are prepared on the accrual basis of accounting.

# Union Employees' Retirement Benefit Plan of Indiana Glass Company

## Notes to the Financial Statements

---

b. *Recent accounting pronouncements.*

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value ("NAV") per share practical expedient. Instead, the amounts measured using the NAV per share (or its equivalent) must be provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. Additionally, ASU 2015-07 removes the requirement to make certain disclosures (FASB ASC 820-10-50-6A) for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for nonpublic business entities for fiscal years beginning after December 15, 2016. The Company has not early adopted this ASU though it is permitted.

c. *Use of estimates.*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

d. *Disclosure of certain risks and uncertainties.*

The Plan invests primarily in fixed income securities, various mutual funds, and corporate stocks. Such investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with such investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

e. *Investment valuation and income recognition.*

Fair values of investments are based on the latest securities quotations available as provided by the trustee of the Plan. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

f. *Actuarial present value of accumulated plan benefits.*

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date the benefit information is presented (the

---

valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from CBIZ Benefits & Insurance Services, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2016 and 2015 were (a) life expectancy of participants (for 2016, the 2016 Static Mortality Table was used; for 2015, the 2015 Static Mortality Table was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investments return. The 2016 and 2015 valuations included an assumed average net rate of return of 6.00% and 6.21%, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Plan amendments are included in the actuarial calculation of accumulated plan benefits as of their effective date. (See also Note 7.)

g. *Payment of benefits.*

Benefit payments to participants are recorded upon distribution.

h. *Certification of Plan assets.*

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. All information relating to the statements of net assets available for benefits and changes thereto, except for contributions receivable from the Company, benefits paid to participants, and administrative expenses included in the financial statements and supplemental schedules of the Plan, was prepared and certified to be complete and accurate by the Huntington National Bank, the trustee of the Plan. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

i. *Administrative expenses.*

Substantially all administrative expenses are paid by the Plan.

j. *Events occurring after reporting date.*

The Plan has evaluated events and transactions that occurred between July 1, 2016 and March 27, 2017 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements.

## **Notes to the Financial Statements**

### **3. Funding Policy**

The Company's funding policy is to make annual contributions to the Plan at least equal to an amount based on an actuarial calculation of the Plan's minimum funding requirements under ERISA. There was no contribution required for 2016 and 2015.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and in the collective bargaining agreement as described in Note 1.

### **4. Plan Termination**

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

If the Plan terminates, the net assets of the Plan will be allocated as required by ERISA regulations. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. The PBGC guarantees are outlined in the Summary Plan Description and participants should refer to these documents for more complete information.

### **5. Investment in Employee Benefit Trust Fund**

At June 30, 2016 and 2015, a significant portion of the Plan's assets were held in a Master Trust referred to as the Employee Benefit Trust Fund. At June 30, 2016 and 2015, the Plan owned shares of the Employee Benefit Trust Fund having a fair market value of \$20,802,089 and \$21,510,310, respectively. The following summary of unaudited information was prepared by the plan administrator who obtained certification from the trustee that such information is complete and accurate.

### 6. Fair Value Measurements

ASC 820-10 *Fair Value of Measurements and Disclosure* defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. ASC 820-10 does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobserved inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Level 1: The securities classified as Level 1 include money market funds and mutual funds. Quoted market prices in active markets are available for investments in this category.

Level 2: The securities classified as Level 2 include U.S. government securities, corporate obligations, mortgage obligations and municipal obligations. The valuation methods for Level 2 assets are developed and maintained by third party pricing services that use a number of standard inputs in their valuation models. These inputs, listed in approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. The third party pricing services may prioritize inputs differently on any given day for any security based on market conditions, and not

## Notes to the Financial Statements

all inputs listed are available for use in the evaluation process for each security on any given day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the level, within the fair value hierarchy, the Master Trust's assets and other plan investments at fair value as of June 30, 2016 and 2015:

### **7. Plan Amendments**

There are no scheduled increases to the monthly pension benefit rate payable to participants at retirement. The collective bargaining agreement expired March 16, 2009.

### **8. Parties-in-Interest**

Parties-in-interest are defined under the Department of Labor's Rules and Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. The Plan holds investment interest in the Employee Benefit Trust Fund (Master Trust). The Plan's trustee, Huntington National Bank, is the trustee of the Master Trust and the trustee of the investments held by the Master Trust (Note 5). Accordingly, the Plan's investments in the Master Trust qualify as party-in-interest transactions.

In addition, certain employees of Lancaster Colony Corporation, Plan Administrator, provide administrative and investment services, some of which may be fiduciary in nature, to the Plan; however, the Plan does not provide any compensation for these services.

# Union Employees' Retirement Benefit Plan of Indiana Glass Company

## Notes to the Financial Statements

---

### 1. Description of Plan

The Union Employees' Retirement Benefit Plan of Indiana Glass Company (Plan) is contained in the agreement dated February 2, 2005 between Dkirk, Inc., formerly known as Indiana Glass Company, (Company) and the United Steelworkers of America, AFL-CIO. Effective July 1, 2015, the Company's obligations under the Plan were assumed by Lancaster Glass Corporation as a result of the merger of the Company into Lancaster Glass Corporation. The Plan is a noncontributory defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Summary Plan Description as well as the aforementioned agreement for more complete information. See also Note 7 for amendments to benefit provisions.

At June 30, 2016 and 2015, the Plan had no active participants.

The Plan invests a significant portion of its assets in a Master Trust with other subsidiaries of Lancaster Colony Corporation whereby they pool their investment assets. Allocation of net assets, net investment income, and gains and losses to participating plans are allocated to the plans on a pro rata basis measured in terms of units. Participants should refer to the Master Pension Trust Agreement for more complete information. See Note 5 for summary information on the Master Trust. The Plan's interest in the Master Trust was approximately 59% at June 30, 2016 and 2015.

On November 1, 2002, the Company announced a partial plant shutdown. As a result of this event, Plan participants terminated during the 12-month period ending on November 26, 2002 became 100% vested in the Plan. This plant was closed and all remaining employees became fully vested and were terminated on February 28, 2009.

The Plan obtained a favorable determination letter dated June 27, 2014 from the Internal Revenue Service. The Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code including any which have become effective since the effective date of the amendments in the latest determination letter. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### 2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

#### a. *Basis of accounting.*

The accompanying financial statements are prepared on the accrual basis of accounting.

# Union Employees' Retirement Benefit Plan of Indiana Glass Company

## Notes to the Financial Statements

---

b. *Recent accounting pronouncements.*

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value ("NAV") per share practical expedient. Instead, the amounts measured using the NAV per share (or its equivalent) must be provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. Additionally, ASU 2015-07 removes the requirement to make certain disclosures (FASB ASC 820-10-50-6A) for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for nonpublic business entities for fiscal years beginning after December 15, 2016. The Company has not early adopted this ASU though it is permitted.

c. *Use of estimates.*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

d. *Disclosure of certain risks and uncertainties.*

The Plan invests primarily in fixed income securities, various mutual funds, and corporate stocks. Such investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with such investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

e. *Investment valuation and income recognition.*

Fair values of investments are based on the latest securities quotations available as provided by the trustee of the Plan. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

f. *Actuarial present value of accumulated plan benefits.*

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date the benefit information is presented (the

# Union Employees' Retirement Benefit Plan of Indiana Glass Company

---

valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from CBIZ Benefits & Insurance Services, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2016 and 2015 were (a) life expectancy of participants (for 2016, the 2016 Static Mortality Table was used; for 2015, the 2015 Static Mortality Table was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investments return. The 2016 and 2015 valuations included an assumed average net rate of return of 6.00% and 6.21%, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Plan amendments are included in the actuarial calculation of accumulated plan benefits as of their effective date. (See also Note 7.)

g. *Payment of benefits.*

Benefit payments to participants are recorded upon distribution.

h. *Certification of Plan assets.*

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. All information relating to the statements of net assets available for benefits and changes thereto, except for contributions receivable from the Company, benefits paid to participants, and administrative expenses included in the financial statements and supplemental schedules of the Plan, was prepared and certified to be complete and accurate by the Huntington National Bank, the trustee of the Plan. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

i. *Administrative expenses.*

Substantially all administrative expenses are paid by the Plan.

j. *Events occurring after reporting date.*

The Plan has evaluated events and transactions that occurred between July 1, 2016 and March 27, 2017 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements.

## **Notes to the Financial Statements**

### **3. Funding Policy**

The Company's funding policy is to make annual contributions to the Plan at least equal to an amount based on an actuarial calculation of the Plan's minimum funding requirements under ERISA. There was no contribution required for 2016 and 2015.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and in the collective bargaining agreement as described in Note 1.

### **4. Plan Termination**

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

If the Plan terminates, the net assets of the Plan will be allocated as required by ERISA regulations. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. The PBGC guarantees are outlined in the Summary Plan Description and participants should refer to these documents for more complete information.

### **5. Investment in Employee Benefit Trust Fund**

At June 30, 2016 and 2015, a significant portion of the Plan's assets were held in a Master Trust referred to as the Employee Benefit Trust Fund. At June 30, 2016 and 2015, the Plan owned shares of the Employee Benefit Trust Fund having a fair market value of \$20,802,089 and \$21,510,310, respectively. The following summary of unaudited information was prepared by the plan administrator who obtained certification from the trustee that such information is complete and accurate.

### 6. Fair Value Measurements

ASC 820-10 *Fair Value of Measurements and Disclosure* defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. ASC 820-10 does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobserved inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Level 1: The securities classified as Level 1 include money market funds and mutual funds. Quoted market prices in active markets are available for investments in this category.

Level 2: The securities classified as Level 2 include U.S. government securities, corporate obligations, mortgage obligations and municipal obligations. The valuation methods for Level 2 assets are developed and maintained by third party pricing services that use a number of standard inputs in their valuation models. These inputs, listed in approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. The third party pricing services may prioritize inputs differently on any given day for any security based on market conditions, and not

## Notes to the Financial Statements

all inputs listed are available for use in the evaluation process for each security on any given day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the level, within the fair value hierarchy, the Master Trust's assets and other plan investments at fair value as of June 30, 2016 and 2015:

### **7. Plan Amendments**

There are no scheduled increases to the monthly pension benefit rate payable to participants at retirement. The collective bargaining agreement expired March 16, 2009.

### **8. Parties-in-Interest**

Parties-in-interest are defined under the Department of Labor's Rules and Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. The Plan holds investment interest in the Employee Benefit Trust Fund (Master Trust). The Plan's trustee, Huntington National Bank, is the trustee of the Master Trust and the trustee of the investments held by the Master Trust (Note 5). Accordingly, the Plan's investments in the Master Trust qualify as party-in-interest transactions.

In addition, certain employees of Lancaster Colony Corporation, Plan Administrator, provide administrative and investment services, some of which may be fiduciary in nature, to the Plan; however, the Plan does not provide any compensation for these services.

## Notes to the Financial Statements

---

### 1. Description of Plan

The Union Employees' Retirement Benefit Plan of Indiana Glass Company (Plan) is contained in the agreement dated February 2, 2005 between Dkirk, Inc., formerly known as Indiana Glass Company, (Company) and the United Steelworkers of America, AFL-CIO. Effective July 1, 2015, the Company's obligations under the Plan were assumed by Lancaster Glass Corporation as a result of the merger of the Company into Lancaster Glass Corporation. The Plan is a noncontributory defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Summary Plan Description as well as the aforementioned agreement for more complete information. See also Note 7 for amendments to benefit provisions.

At June 30, 2016 and 2015, the Plan had no active participants.

The Plan invests a significant portion of its assets in a Master Trust with other subsidiaries of Lancaster Colony Corporation whereby they pool their investment assets. Allocation of net assets, net investment income, and gains and losses to participating plans are allocated to the plans on a pro rata basis measured in terms of units. Participants should refer to the Master Pension Trust Agreement for more complete information. See Note 5 for summary information on the Master Trust. The Plan's interest in the Master Trust was approximately 59% at June 30, 2016 and 2015.

On November 1, 2002, the Company announced a partial plant shutdown. As a result of this event, Plan participants terminated during the 12-month period ending on November 26, 2002 became 100% vested in the Plan. This plant was closed and all remaining employees became fully vested and were terminated on February 28, 2009.

The Plan obtained a favorable determination letter dated June 27, 2014 from the Internal Revenue Service. The Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code including any which have become effective since the effective date of the amendments in the latest determination letter. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### 2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

#### a. *Basis of accounting.*

The accompanying financial statements are prepared on the accrual basis of accounting.

# Union Employees' Retirement Benefit Plan of Indiana Glass Company

## Notes to the Financial Statements

---

b. *Recent accounting pronouncements.*

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value ("NAV") per share practical expedient. Instead, the amounts measured using the NAV per share (or its equivalent) must be provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. Additionally, ASU 2015-07 removes the requirement to make certain disclosures (FASB ASC 820-10-50-6A) for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for nonpublic business entities for fiscal years beginning after December 15, 2016. The Company has not early adopted this ASU though it is permitted.

c. *Use of estimates.*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

d. *Disclosure of certain risks and uncertainties.*

The Plan invests primarily in fixed income securities, various mutual funds, and corporate stocks. Such investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with such investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

e. *Investment valuation and income recognition.*

Fair values of investments are based on the latest securities quotations available as provided by the trustee of the Plan. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

f. *Actuarial present value of accumulated plan benefits.*

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date the benefit information is presented (the

---

valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from CBIZ Benefits & Insurance Services, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2016 and 2015 were (a) life expectancy of participants (for 2016, the 2016 Static Mortality Table was used; for 2015, the 2015 Static Mortality Table was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investments return. The 2016 and 2015 valuations included an assumed average net rate of return of 6.00% and 6.21%, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Plan amendments are included in the actuarial calculation of accumulated plan benefits as of their effective date. (See also Note 7.)

g. *Payment of benefits.*

Benefit payments to participants are recorded upon distribution.

h. *Certification of Plan assets.*

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. All information relating to the statements of net assets available for benefits and changes thereto, except for contributions receivable from the Company, benefits paid to participants, and administrative expenses included in the financial statements and supplemental schedules of the Plan, was prepared and certified to be complete and accurate by the Huntington National Bank, the trustee of the Plan. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

i. *Administrative expenses.*

Substantially all administrative expenses are paid by the Plan.

j. *Events occurring after reporting date.*

The Plan has evaluated events and transactions that occurred between July 1, 2016 and March 27, 2017 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements.

## **Notes to the Financial Statements**

### **3. Funding Policy**

The Company's funding policy is to make annual contributions to the Plan at least equal to an amount based on an actuarial calculation of the Plan's minimum funding requirements under ERISA. There was no contribution required for 2016 and 2015.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and in the collective bargaining agreement as described in Note 1.

### **4. Plan Termination**

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

If the Plan terminates, the net assets of the Plan will be allocated as required by ERISA regulations. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. The PBGC guarantees are outlined in the Summary Plan Description and participants should refer to these documents for more complete information.

### **5. Investment in Employee Benefit Trust Fund**

At June 30, 2016 and 2015, a significant portion of the Plan's assets were held in a Master Trust referred to as the Employee Benefit Trust Fund. At June 30, 2016 and 2015, the Plan owned shares of the Employee Benefit Trust Fund having a fair market value of \$20,802,089 and \$21,510,310, respectively. The following summary of unaudited information was prepared by the plan administrator who obtained certification from the trustee that such information is complete and accurate.

### 6. Fair Value Measurements

ASC 820-10 *Fair Value of Measurements and Disclosure* defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. ASC 820-10 does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobserved inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Level 1: The securities classified as Level 1 include money market funds and mutual funds. Quoted market prices in active markets are available for investments in this category.

Level 2: The securities classified as Level 2 include U.S. government securities, corporate obligations, mortgage obligations and municipal obligations. The valuation methods for Level 2 assets are developed and maintained by third party pricing services that use a number of standard inputs in their valuation models. These inputs, listed in approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. The third party pricing services may prioritize inputs differently on any given day for any security based on market conditions, and not

## Notes to the Financial Statements

all inputs listed are available for use in the evaluation process for each security on any given day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the level, within the fair value hierarchy, the Master Trust's assets and other plan investments at fair value as of June 30, 2016 and 2015:

### **7. Plan Amendments**

There are no scheduled increases to the monthly pension benefit rate payable to participants at retirement. The collective bargaining agreement expired March 16, 2009.

### **8. Parties-in-Interest**

Parties-in-interest are defined under the Department of Labor's Rules and Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. The Plan holds investment interest in the Employee Benefit Trust Fund (Master Trust). The Plan's trustee, Huntington National Bank, is the trustee of the Master Trust and the trustee of the investments held by the Master Trust (Note 5). Accordingly, the Plan's investments in the Master Trust qualify as party-in-interest transactions.

In addition, certain employees of Lancaster Colony Corporation, Plan Administrator, provide administrative and investment services, some of which may be fiduciary in nature, to the Plan; however, the Plan does not provide any compensation for these services.
