WALSH UNIVERSITY TIAA-CREF RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015

NOTE 1 DESCRIPTION OF PLAN

The following description of Walsh University TIAA-CREF Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Walsh University (the University) established a defined contribution plan to provide employees with a systematic means of savings and investing for the future. The Plan is a defined contribution plan originally effective September 1, 1963. The Plan has been amended throughout the years to comply with tax legislation and most recently amended effective June 1, 2011. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for the oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Directors.

Eligibility

All permissible employees of the University, as defined in accordance with the universal availability standards and the Plan's adoption agreement, are eligible to enroll in the Plan on their date of hire. Employees are eligible to receive the employer match and nondiscretionary employer contribution after completing one year of eligible service or 1,000 hours of eligible service and reaching the age of 18.

Contributions

The Plan participants may voluntarily defer up to 100% of their eligible pre-tax annual compensation subject to the Internal Revenue Service (IRS) limits, as defined in the Plan document. Participants who have attained age 50 by the end of the Plan year may make catch up contributions, subject to IRS limits, defined in the Plan's adoption agreement.

The University makes matching contributions equal to 100% of the elected deferral, up to 3% of the eligible compensation and a nondiscretionary contribution equal to 4% of the eligible compensation.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Participants may change their investment options anytime throughout the year via direct phone access to TIAA-CREF or internet access through TIAA-CREF website.

Participant Accounts

Each participant's account is credited with the participant's contributions, the University's matching and nondiscretionary contribution, and an allocation of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, or participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions and University contributions plus actual earnings thereon.

Plan Loans

Participants may borrow from Teachers Insurance and Annuity Association – College Retirement Equities Fund (Insurance Company). The loans are not distributed from the participants' accounts. The minimum loan is \$1,000 and may be up to the lesser of \$50,000 or 50% of the value of the participants' vested balance. The loans historically bear interest at a rate commensurate with local prevailing rates as determined periodically by TIAA-CREF. Principal and interest shall be paid ratably through level periodic payments by the participants directly to TIAA-CREF. The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions.

At December 31, 2016 and 2015, there were \$6,239 and \$7,780, respectively, held within participant accounts in the TIAA Traditional Fixed Account on the statements of net assets available for benefits, which served as collateral against outstanding Plan loan balances.

Benefit Payments

Upon termination of service due to death, disability, or retirement, a participant may elect to receive the value of the vested interest in his or her account in the form of a lump-sum distribution, installments, or annuity payments. The Plan allows for in-service distributions if a participant reaches age 62 and hardship distributions subject to Plan provisions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

WALSH UNIVERSITY TIAA-CREF RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The University generally pays all costs of administering the Plan, with any remaining costs paid by the Plan. Officers or employees of the University perform certain administrative functions. No such officer or employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through April 17, 2017, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Certain information related to the investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at June 30, 2016 and 2015, and net appreciation (depreciation) in fair value of investments and interest income for the years ended June 30, 2016 and 2015, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Insurance Company.

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at June 30, 2016 and 2015.

Sub-Accounts of Variable Annuities: Valued at the net asset value (NAV) of shares, which are valued by TIAA-CREF at accumulation unit value based on the estimated value of the underlying investments, held by the Plan at year-end.

Pooled Separate Account: Valued based on the NAV of units, which are based on market prices of the underlying investments, held by the Plan at year-end.

Non-Benefit Responsive Fixed Accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. The Valuation approaches are reviewed on an ongoing basis and revised as necessary based on changing market conditions to ensure values represent a reasonable exit price.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of June 30:

Instrument	Fair Value		Valuation Technique	Significant Unobservable Inputs	Range
	2016	2015			
TIAA Traditional Fixed Account	\$ 13,287,521	\$ 12,575,330	Discounted Cash Flow	Risk -Adjusted Discount Rate Applied	RA- 3.25% - 5.00% SRA - 3.00% - 4.25% GRA- 3.25% - 5.00%
			Theoretical Transfer (Exit Value)		GSRA - 3.00% - 4.25% RC - 3.60% - 5.35% RCP - 2.85% - 4.60%

NOTE 5 GUARANTEED ANNUITY CONTRACT WITH INSURANCE COMPANY

Certain Traditional Fixed Account individual annuity contracts meet the fully benefit-responsive criteria and therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Upon termination of the investment contract, the lump sum liquidation value of the guaranteed account portion of the participant's accumulation value shall be equal to the product of (a) the participant's guaranteed account accumulation value on the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain Traditional Fixed Account individual annuity contracts are considered to be non benefit-responsive. These contracts are included in the financial statements at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. These contracts are subject to a 10-year withdrawal period. Upon termination of the contracts, the amount of each transfer payout annuity payment will be determined as of the annuity starting date for the transfer payout annuity by the amount of the Traditional Fixed Account accumulation and the interest rates in the rate schedules under which any premiums, additional amounts, and internal transfers were applied to the account.

NOTE 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

WALSH UNIVERSITY TIAA-CREF RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their University contributions.

NOTE 8 PLAN TAX STATUS

The Plan is required to operate in conformity with the Internal Revenue Code (IRC) to maintain its tax exemption. The Plan adopted a nonstandardized form of a prototype plan sponsored by the Insurance Company. The prototype plan terms were drafted in reliance on the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan Administrator intends to apply for a determination letter on the Plan when the government opens such a program.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken or expected to be taken, and has concluded that as of June 30, 2016 there is no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of variable annuity contracts and a guaranteed annuity contract sponsored and managed by Teachers Insurance and Annuity Association – College Retirement Equities Fund. Teachers Insurance and Annuity Association – College Retirement Equities Fund is the Insurance Company as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

NOTE 10 RECLASSIFICATIONS

Certain amounts in the 2015 financial statements have been reclassified to conform with the 2016 presentation. These reclassifications do not affect net assets available for benefits as previously reported.
