INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and
Battelle Pension Management and Investment Council of the
Battelle Employees' Savings Plan
Columbus, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of Battelle Employees' Savings Plan, which comprise the statements of net assets available for benefits as of June 30, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended June 30, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Battelle Employees' Savings Plan as of June 30, 2016 and 2015, and the changes in net assets available for benefits for the year ended June 30, 2016 in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information included in the 2016 supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

BATTELLE EMPLOYEES' SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016 AND 2015

1. DESCRIPTION OF PLAN

The following description of the Battelle Employees' Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General — The Plan is a defined contribution plan covering all eligible United States-based employees of Battelle Memorial Institute ("Battelle" or "Company") and its participating electing subsidiaries, who are not covered by another defined contribution plan funded by the employer or a collective bargaining agreement, unless such agreement provides for participation in the Plan. Employees classified as salaried, regular full-time and regular part-time are eligible upon hire date for participation and may elect to make pre-tax or after-tax contributions. Employees classified as hourly or temporary hourly are eligible to enroll in the Plan after completion of a year of eligibility service in which such employees work at least 1,000 hours during the first year of employment or a subsequent Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions — Each year all eligible participants, may contribute between 1% and 75% before September 1, 2016 and between 1% to 50% after September 1, 2016 in multiples of whole percentages of pre-tax and after-tax eligible wages, up to IRS limits, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For the year ended June 30, 2016, Battelle made a matching contribution in the amount of 50% of the first 6% of each participant's contribution for employees who work for Battelle Corporate Operations. For the year ended June 30, 2016, Battelle made a matching contribution in the amount of 50% of the first 7% of each participant's contribution who work for Pacific Northwest National Laboratories. The employer match for participants who are employees of Battelle National Biodefense Institute, LLC is 50% of the first 8% of each participant's contributions. In addition to matching contributions prior to April 2, 2016, eligible employees of Battelle National Biodefense Institute, LLC receive a non-elective contribution of 3.5% of pay each payroll period whether or not they contribute to the Plan. Effective April 2, 2016 employees of the Battelle National Biodefense Institute, LLC receive a non-elective contribution of 5% of pay each payroll period whether or not they contribute to the Plan. Effective July 1, 2015, non-elective contributions were made equal to 5 percent of eligible wages for all eligible employees of Battelle Corporate Operations, Battelle Services Company, Inc., and BattelleEd.Org who do not accrue a current benefit as an active participant under the Employees' Pension Plan of Battelle Memorial Institute. Contributions are subject to certain limitations.

Participant Accounts — Each participant's account is credited with the participant's contribution and allocations of (a) Battelle's contributions and (b) Plan earnings, if any, and Plan losses, if any. Administrative plus other ad hoc charges are allocated based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments — Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting — Participants are immediately vested in their contributions, plus actual earnings and losses thereon. Vesting in Battelle's contributions, plus actual earnings and losses thereon, is based on completed months of

credited service. A participant is 100% vested after 36 months of credited service. For participants who are employees of Battelle National Biodefense Institute, LLC on or after July 1, 2011, they are 100% vested in Battelle's contributions and earnings and losses thereon. Earlier vesting may occur upon (1) retirement or disability, (2) participant attaining age 65, (3) death, (4) termination of or complete discontinuance of employer contributions, (5) termination of participation in connection with a partial termination of the Plan, (6) involuntary termination of employment for other than cause, or (7) a formal reduction in force.

Loans to Participants — Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000, minus the highest outstanding loan balance, if any, the participant had at any one time during the one-year period ending immediately before the date of the new loan, per IRS requirements or 50% of their vested account balance, if less. Loan transactions are treated as a transfer to (from) the investment funds from (to) the loan fund. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing commercial rates as determined by the Plan administrator. Interest rates on loans outstanding as of June 30, 2016 and 2015 range from 3.25% to 8.25% and 4.25% to 8.25%, respectively. Principal and interest are paid ratably through payroll deductions. Prepayment of an outstanding loan balance, payments by participants on an approved leave of absence or other nonparticipating employment status may be by wire, electronic bank transfer, money order or certified check. Loans receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as the loans are collateralized by the participants' account balances. Related fees are recorded as administrative expenses and are expenses when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits — Upon termination of service, a participant with a vested account balance in excess of \$1,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly, semiannual, or annual installments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and spouse. Alternatively, the participant may defer the distribution, but not later than the mandatory distribution age. Participants who terminate service with a vested account balance of \$1,000 or less shall receive a lump-sum payment. In certain circumstances, active participants may take hardship withdrawals as defined in the Plan. Active participants may also take in-service distributions from the Plan, subject to limitations of certain contribution accounts and a participant's age.

Forfeited Accounts — At June 30, 2016 and 2015, forfeited nonvested accounts totaled \$101,338 and \$139,182, respectively. During the year ended June 30, 2016, employer contributions were reduced by forfeitures of nonvested accounts of \$424,485 and plan expenses were reduced by forfeitures of nonvested accounts of \$7,665.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared under the accrual basis of accounting.

Risks and Uncertainties — The Plan utilizes various investments, including mutual funds, collective trusts and investment contracts. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan utilizes its trustee's external pricing service to estimate the fair value of the investments held in the Plan. The Plan's investment managers review and validate the prices utilized by the trustee to determine fair value. The Company receives audit reports of the trustee's operating controls and valuation processes. The trustee uses multiple pricing vendors for the assets held in the trust. Management has established processes and procedures for establishment and valuation of alternative investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized when earned. Dividend income is recognized on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Contributions — Participant contributions are recognized when withheld. Employer contributions are recognized at the time the related employee contributions are recognized. Forfeitures are used to reduce employer contributions.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at June 30, 2016 and 2015.

Administrative Expenses — Accounting fees, audit fees, and certain administrative, consulting, and legal fees are paid by the Plan and are expensed as incurred. Certain other administrative expenses are paid by the employer.

Use of Estimates — The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 — Inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that the observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

The following tables (amounts in thousands) set forth by level within the fair value hierarchy the Plan's assets that were accounted for at fair value on a recurring basis as of June 30, 2016 and 2015. Financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and their placement within the fair value hierarchy levels (dollars in thousands).

Fair Value Measurements at June 30, 2016				
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	2016 Total

Investments, at fair value				<u>\$ 1,233,779</u>

(a) In accordance with Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits

Fair Value Measurements at June 30, 2015

(a) In accordance with Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits

Asset Valuation Techniques — The Plan’s investments are presented at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual Funds — Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (Level 1 inputs) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trusts — The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each collective trust fund provides for daily redemptions reported at net asset value per unit share, with no advance notice requirement.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. CONTRACTS WITH INSURANCE COMPANIES

The Battelle Stable Value Fund is a blended separately managed fund comprised of two investment contracts issued by Nationwide Insurance Company (a fixed annuity and a managed separate guaranteed account) and an account managed by Vanguard Fiduciary Trust Company (the “Vanguard Managed Stable Value Fund”). This fund seeks preservation of capital, liquidity and a fixed return per quarter, which are assured by either insurance policy or wrapper contracts. This fund is fully-benefit responsive and is reported at contract value.

The fixed annuity contract is unconditionally guaranteed and backed by the general fund of Nationwide Insurance Company (“Nationwide”). The managed separate guaranteed account investment contract consists of a synthetic investment contract backed by assets managed by Nationwide and held within a separate account at Nationwide. Holdings of the separate account include fixed income investments such as corporate

bonds, mortgage-backed securities, collateral mortgage-backed securities, treasury instruments, and asset-backed securities. The Plan is only entitled to underlying assets of the managed separate guaranteed account upon termination of the synthetic investment contract. Unless the managed separate account contract were to be terminated, all transactions of the managed separate guaranteed account investment contract occur at contract value.

Nationwide's obligations under both the fixed and managed separate account contracts are reported at contract value. The contract values are guaranteed by Nationwide and reflect the exit value available to the Plan and Plan participants. Only payments resulting from termination or partial termination of the contracts will result in a market value adjustment applied to the payments. The Plan sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are probable. The contracts have no stated maturity dates. Since the contracts are not transferable, there is no market from which to obtain observable market prices for the contract held by the Plan or comparable contracts.

The Vanguard Managed Stable Value Fund consists of synthetic guaranteed investment contracts. The underlying collective trusts invest in a variety of fixed income investments such as corporate bonds, mortgage-backed securities, collateral mortgage-backed securities, treasury instruments, and asset-backed securities. In accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles" or "GAAP"), the value of the synthetic contracts is included at contract value in participant-directed investments in the statements of net assets and the statement of changes in net assets available for benefits. The Vanguard Managed Stable Value Fund also contains a money market mutual fund.

As discussed above, the Plan has entered into a fully benefit-responsive managed separate account guaranteed investment contract with Nationwide Life Insurance Company. Nationwide maintains the underlying assets of the contract in a separate account at Nationwide, specifically for the Plan. The separate account invests primarily in fixed income securities. The Plan does not hold units of the underlying separate account; however, the Plan is entitled to the greater of the market value of the assets in the separate account attributable to the Plan, less applicable fees, and the contract value of the accumulation account upon termination of the contract. The account is credited with deposits and investment return allocations at the contract rate based upon the performance of the underlying investments of the separate account or by the rate stated in fixed annuity contract itself, and charged for withdrawals and administrative expenses. There are no reserves against contract value of the issuer or otherwise. Withdrawals and transfers are ordinarily transacted at contract value. Only plan termination or partial termination would limit the ability of participants to transact at contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable. Nationwide has the option to cancel the contract at an amount different than contract value at any time. Contract value represents contributions made under the contract, plus contract earnings, less withdrawals, and administrative expenses.

The Plan has also entered into a group annuity contract with Nationwide. Withdrawals and transfers are ordinarily transacted at contract value. Only plan termination or partial termination would limit the ability of participants to transact at contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable. There are no events that would allow the issuer to terminate the contract at a value different than contract value. Contract value represents contributions made under the contract, plus contract earnings, less withdrawals, and administrative expenses. Factors that influence future interest crediting rates include, but are not limited to: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into or out of the fund and the duration of the underlying investments. Interest rates are reviewed on a quarterly basis for resetting. Upon termination of the fixed annuity contract, the Plan is entitled to the value of the account, increased or decreased for a market value adjustment determined by Nationwide, less taxes and applicable charges. There are no reserves against contract value of the issuer or otherwise.

The Plan has entered into benefit-responsive wrapper agreements (“wrapper contracts”) with various issuers. The wrapper contracts cover the stable value fund investments managed by Vanguard and include the Vanguard Total Bond Market Fund, the Vanguard Intermediate-Term Bond Trust, Metlife Separate Account, Prudential Core Conservative Bond Trust, as well as investments in Vanguard Short-Term Bond Trust (collectively, the “Vanguard Managed Stable Value Fund”). The wrapper contracts held within the Battelle Stable Value Fund provide benefit responsiveness. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset quarterly based on market rates of other similar investments, the current yield of the underlying investments, and the spread between the market value and contract value, but the rate cannot be less than 0%. Certain events, such as plan termination or a plan merger initiated by the Plan sponsor, may limit the ability of the Plan to transact at contract value or may allow for termination of the wrapper contract at less than contract value. The issuers may terminate their contracts at a value different than contract value only in certain limited events, such as contract default by the Plan. The Plan sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are probable.

At June 30, 2016, the Battelle Stable Value Fund consisted of synthetic investment contracts with contract value of \$433,023,513 and traditional contracts with contract value of \$50,487,311. At June 30, 2015, the Battelle Stable Value Fund consisted of synthetic investment contracts with contract value of \$430,235,715 and traditional contracts with contract value of \$44,530,367.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, Battelle has the right under the Plan to discontinue its contributions at any time and to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, the Plan’s assets are restricted for the sole benefit of participants or their beneficiaries. In the event of Plan termination, participants will become 100% vested in their employer contributions.

6. TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed Battelle by letter dated April 17, 2014, that the Plan, as amended, and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, Battelle and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. Some administrative expenses of the Plan are paid directly by the Company. The Plan paid certain administrative fees to the trustee, third-party administrator, the auditor, and various investment managers which qualify as party-in-interest transactions.

The Plan invests in various mutual funds and collective trusts managed by affiliates of the Plan’s recordkeeper, therefore these transactions qualify as party-in-interest. The Plan also invests in investment contracts with

Nationwide Life Insurance Company, which also qualify as party-in-interest transactions. Loans to plan participants also reflect party-in-interest transactions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of the accompanying financial statements to the Form 5500 as of June 30, 2016 and 2015, and for the year ended June 30, 2016 is as follows (dollars in thousands):

	<u>2016</u>	<u>2015</u>
Net assets available for benefits per the financial statements	\$ 1,728,940	\$ 1,763,596
Difference in value of investment in stable value fund	17,283	14,783
Loan Adjustment	<u>(600)</u>	<u>-</u>
Net assets per the Form 5500	<u>\$ 1,745,623</u>	<u>\$ 1,778,379</u>
Decrease in net assets available for benefits per the financial statements	\$ (34,656)	
Change in difference in value of investment in stable value fund	2,500	
Change in loan adjustment	<u>(600)</u>	
Net loss per the Form 5500	<u>\$ (32,756)</u>	

9. SUBSEQUENT EVENTS

Plan management has performed an evaluation of subsequent events for recognition and disclosure through April 18, 2017, which is the date the financial statements were available for issuance.

Report on the Financial Statements

We have audited the accompanying financial statements of Battelle Employees' Savings Plan, which comprise the statements of net assets available for benefits as of June 30, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended June 30, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Battelle Employees' Savings Plan as of June 30, 2016 and 2015, and the changes in net assets available for benefits for the year ended June 30, 2016 in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information included in the 2016 supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

BATTELLE EMPLOYEES' SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016 AND 2015

1. DESCRIPTION OF PLAN

The following description of the Battelle Employees' Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General — The Plan is a defined contribution plan covering all eligible United States-based employees of Battelle Memorial Institute ("Battelle" or "Company") and its participating electing subsidiaries, who are not covered by another defined contribution plan funded by the employer or a collective bargaining agreement, unless such agreement provides for participation in the Plan. Employees classified as salaried, regular full-time and regular part-time are eligible upon hire date for participation and may elect to make pre-tax or after-tax contributions. Employees classified as hourly or temporary hourly are eligible to enroll in the Plan after completion of a year of eligibility service in which such employees work at least 1,000 hours during the first year of employment or a subsequent Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions — Each year all eligible participants, may contribute between 1% and 75% before September 1, 2016 and between 1% to 50% after September 1, 2016 in multiples of whole percentages of pre-tax and after-tax eligible wages, up to IRS limits, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For the year ended June 30, 2016, Battelle made a matching contribution in the amount of 50% of the first 6% of each participant's contribution for employees who work for Battelle Corporate Operations. For the year ended June 30, 2016, Battelle made a matching contribution in the amount of 50% of the first 7% of each participant's contribution who work for Pacific Northwest National Laboratories. The employer match for participants who are employees of Battelle National Biodefense Institute, LLC is 50% of the first 8% of each participant's contributions. In addition to matching contributions prior to April 2, 2016, eligible employees of Battelle National Biodefense Institute, LLC receive a non-elective contribution of 3.5% of pay each payroll period whether or not they contribute to the Plan. Effective April 2, 2016 employees of the Battelle National Biodefense Institute, LLC receive a non-elective contribution of 5% of pay each payroll period whether or not they contribute to the Plan. Effective July 1, 2015, non-elective contributions were made equal to 5 percent of eligible wages for all eligible employees of Battelle Corporate Operations, Battelle Services Company, Inc., and BattelleEd.Org who do not accrue a current benefit as an active participant under the Employees' Pension Plan of Battelle Memorial Institute. Contributions are subject to certain limitations.

Participant Accounts — Each participant's account is credited with the participant's contribution and allocations of (a) Battelle's contributions and (b) Plan earnings, if any, and Plan losses, if any. Administrative plus other ad hoc charges are allocated based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments — Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting — Participants are immediately vested in their contributions, plus actual earnings and losses thereon. Vesting in Battelle's contributions, plus actual earnings and losses thereon, is based on completed months of

credited service. A participant is 100% vested after 36 months of credited service. For participants who are employees of Battelle National Biodefense Institute, LLC on or after July 1, 2011, they are 100% vested in Battelle's contributions and earnings and losses thereon. Earlier vesting may occur upon (1) retirement or disability, (2) participant attaining age 65, (3) death, (4) termination of or complete discontinuance of employer contributions, (5) termination of participation in connection with a partial termination of the Plan, (6) involuntary termination of employment for other than cause, or (7) a formal reduction in force.

Loans to Participants — Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000, minus the highest outstanding loan balance, if any, the participant had at any one time during the one-year period ending immediately before the date of the new loan, per IRS requirements or 50% of their vested account balance, if less. Loan transactions are treated as a transfer to (from) the investment funds from (to) the loan fund. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing commercial rates as determined by the Plan administrator. Interest rates on loans outstanding as of June 30, 2016 and 2015 range from 3.25% to 8.25% and 4.25% to 8.25%, respectively. Principal and interest are paid ratably through payroll deductions. Prepayment of an outstanding loan balance, payments by participants on an approved leave of absence or other nonparticipating employment status may be by wire, electronic bank transfer, money order or certified check. Loans receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as the loans are collateralized by the participants' account balances. Related fees are recorded as administrative expenses and are expenses when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits — Upon termination of service, a participant with a vested account balance in excess of \$1,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly, semiannual, or annual installments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and spouse. Alternatively, the participant may defer the distribution, but not later than the mandatory distribution age. Participants who terminate service with a vested account balance of \$1,000 or less shall receive a lump-sum payment. In certain circumstances, active participants may take hardship withdrawals as defined in the Plan. Active participants may also take in-service distributions from the Plan, subject to limitations of certain contribution accounts and a participant's age.

Forfeited Accounts — At June 30, 2016 and 2015, forfeited nonvested accounts totaled \$101,338 and \$139,182, respectively. During the year ended June 30, 2016, employer contributions were reduced by forfeitures of nonvested accounts of \$424,485 and plan expenses were reduced by forfeitures of nonvested accounts of \$7,665.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared under the accrual basis of accounting.

Risks and Uncertainties — The Plan utilizes various investments, including mutual funds, collective trusts and investment contracts. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan utilizes its trustee's external pricing service to estimate the fair value of the investments held in the Plan. The Plan's investment managers review and validate the prices utilized by the trustee to determine fair value. The Company receives audit reports of the trustee's operating controls and valuation processes. The trustee uses multiple pricing vendors for the assets held in the trust. Management has established processes and procedures for establishment and valuation of alternative investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized when earned. Dividend income is recognized on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Contributions — Participant contributions are recognized when withheld. Employer contributions are recognized at the time the related employee contributions are recognized. Forfeitures are used to reduce employer contributions.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at June 30, 2016 and 2015.

Administrative Expenses — Accounting fees, audit fees, and certain administrative, consulting, and legal fees are paid by the Plan and are expensed as incurred. Certain other administrative expenses are paid by the employer.

Use of Estimates — The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 — Inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that the observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

The following tables (amounts in thousands) set forth by level within the fair value hierarchy the Plan's assets that were accounted for at fair value on a recurring basis as of June 30, 2016 and 2015. Financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and their placement within the fair value hierarchy levels (dollars in thousands).

Fair Value Measurements at June 30, 2016				
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	2016 Total

Investments, at fair value				<u>\$ 1,233,779</u>

(a) In accordance with Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits

Fair Value Measurements at June 30, 2015

(a) In accordance with Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits

Asset Valuation Techniques — The Plan’s investments are presented at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual Funds — Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (Level 1 inputs) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trusts — The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each collective trust fund provides for daily redemptions reported at net asset value per unit share, with no advance notice requirement.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. CONTRACTS WITH INSURANCE COMPANIES

The Battelle Stable Value Fund is a blended separately managed fund comprised of two investment contracts issued by Nationwide Insurance Company (a fixed annuity and a managed separate guaranteed account) and an account managed by Vanguard Fiduciary Trust Company (the “Vanguard Managed Stable Value Fund”). This fund seeks preservation of capital, liquidity and a fixed return per quarter, which are assured by either insurance policy or wrapper contracts. This fund is fully-benefit responsive and is reported at contract value.

The fixed annuity contract is unconditionally guaranteed and backed by the general fund of Nationwide Insurance Company (“Nationwide”). The managed separate guaranteed account investment contract consists of a synthetic investment contract backed by assets managed by Nationwide and held within a separate account at Nationwide. Holdings of the separate account include fixed income investments such as corporate

bonds, mortgage-backed securities, collateral mortgage-backed securities, treasury instruments, and asset-backed securities. The Plan is only entitled to underlying assets of the managed separate guaranteed account upon termination of the synthetic investment contract. Unless the managed separate account contract were to be terminated, all transactions of the managed separate guaranteed account investment contract occur at contract value.

Nationwide's obligations under both the fixed and managed separate account contracts are reported at contract value. The contract values are guaranteed by Nationwide and reflect the exit value available to the Plan and Plan participants. Only payments resulting from termination or partial termination of the contracts will result in a market value adjustment applied to the payments. The Plan sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are probable. The contracts have no stated maturity dates. Since the contracts are not transferable, there is no market from which to obtain observable market prices for the contract held by the Plan or comparable contracts.

The Vanguard Managed Stable Value Fund consists of synthetic guaranteed investment contracts. The underlying collective trusts invest in a variety of fixed income investments such as corporate bonds, mortgage-backed securities, collateral mortgage-backed securities, treasury instruments, and asset-backed securities. In accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles" or "GAAP"), the value of the synthetic contracts is included at contract value in participant-directed investments in the statements of net assets and the statement of changes in net assets available for benefits. The Vanguard Managed Stable Value Fund also contains a money market mutual fund.

As discussed above, the Plan has entered into a fully benefit-responsive managed separate account guaranteed investment contract with Nationwide Life Insurance Company. Nationwide maintains the underlying assets of the contract in a separate account at Nationwide, specifically for the Plan. The separate account invests primarily in fixed income securities. The Plan does not hold units of the underlying separate account; however, the Plan is entitled to the greater of the market value of the assets in the separate account attributable to the Plan, less applicable fees, and the contract value of the accumulation account upon termination of the contract. The account is credited with deposits and investment return allocations at the contract rate based upon the performance of the underlying investments of the separate account or by the rate stated in fixed annuity contract itself, and charged for withdrawals and administrative expenses. There are no reserves against contract value of the issuer or otherwise. Withdrawals and transfers are ordinarily transacted at contract value. Only plan termination or partial termination would limit the ability of participants to transact at contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable. Nationwide has the option to cancel the contract at an amount different than contract value at any time. Contract value represents contributions made under the contract, plus contract earnings, less withdrawals, and administrative expenses.

The Plan has also entered into a group annuity contract with Nationwide. Withdrawals and transfers are ordinarily transacted at contract value. Only plan termination or partial termination would limit the ability of participants to transact at contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable. There are no events that would allow the issuer to terminate the contract at a value different than contract value. Contract value represents contributions made under the contract, plus contract earnings, less withdrawals, and administrative expenses. Factors that influence future interest crediting rates include, but are not limited to: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into or out of the fund and the duration of the underlying investments. Interest rates are reviewed on a quarterly basis for resetting. Upon termination of the fixed annuity contract, the Plan is entitled to the value of the account, increased or decreased for a market value adjustment determined by Nationwide, less taxes and applicable charges. There are no reserves against contract value of the issuer or otherwise.

The Plan has entered into benefit-responsive wrapper agreements (“wrapper contracts”) with various issuers. The wrapper contracts cover the stable value fund investments managed by Vanguard and include the Vanguard Total Bond Market Fund, the Vanguard Intermediate-Term Bond Trust, Metlife Separate Account, Prudential Core Conservative Bond Trust, as well as investments in Vanguard Short-Term Bond Trust (collectively, the “Vanguard Managed Stable Value Fund”). The wrapper contracts held within the Battelle Stable Value Fund provide benefit responsiveness. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset quarterly based on market rates of other similar investments, the current yield of the underlying investments, and the spread between the market value and contract value, but the rate cannot be less than 0%. Certain events, such as plan termination or a plan merger initiated by the Plan sponsor, may limit the ability of the Plan to transact at contract value or may allow for termination of the wrapper contract at less than contract value. The issuers may terminate their contracts at a value different than contract value only in certain limited events, such as contract default by the Plan. The Plan sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are probable.

At June 30, 2016, the Battelle Stable Value Fund consisted of synthetic investment contracts with contract value of \$433,023,513 and traditional contracts with contract value of \$50,487,311. At June 30, 2015, the Battelle Stable Value Fund consisted of synthetic investment contracts with contract value of \$430,235,715 and traditional contracts with contract value of \$44,530,367.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, Battelle has the right under the Plan to discontinue its contributions at any time and to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, the Plan’s assets are restricted for the sole benefit of participants or their beneficiaries. In the event of Plan termination, participants will become 100% vested in their employer contributions.

6. TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed Battelle by letter dated April 17, 2014, that the Plan, as amended, and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, Battelle and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. Some administrative expenses of the Plan are paid directly by the Company. The Plan paid certain administrative fees to the trustee, third-party administrator, the auditor, and various investment managers which qualify as party-in-interest transactions.

The Plan invests in various mutual funds and collective trusts managed by affiliates of the Plan’s recordkeeper, therefore these transactions qualify as party-in-interest. The Plan also invests in investment contracts with

Nationwide Life Insurance Company, which also qualify as party-in-interest transactions. Loans to plan participants also reflect party-in-interest transactions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of the accompanying financial statements to the Form 5500 as of June 30, 2016 and 2015, and for the year ended June 30, 2016 is as follows (dollars in thousands):

	<u>2016</u>	<u>2015</u>
Net assets available for benefits per the financial statements	\$ 1,728,940	\$ 1,763,596
Difference in value of investment in stable value fund	17,283	14,783
Loan Adjustment	<u>(600)</u>	<u>-</u>
Net assets per the Form 5500	<u>\$ 1,745,623</u>	<u>\$ 1,778,379</u>
Decrease in net assets available for benefits per the financial statements	\$ (34,656)	
Change in difference in value of investment in stable value fund	2,500	
Change in loan adjustment	<u>(600)</u>	
Net loss per the Form 5500	<u>\$ (32,756)</u>	

9. SUBSEQUENT EVENTS

Plan management has performed an evaluation of subsequent events for recognition and disclosure through April 18, 2017, which is the date the financial statements were available for issuance.

Report on the Financial Statements

We have audited the accompanying financial statements of Battelle Employees' Savings Plan, which comprise the statements of net assets available for benefits as of June 30, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended June 30, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Battelle Employees' Savings Plan as of June 30, 2016 and 2015, and the changes in net assets available for benefits for the year ended June 30, 2016 in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information included in the 2016 supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

BATTELLE EMPLOYEES' SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016 AND 2015

1. DESCRIPTION OF PLAN

The following description of the Battelle Employees' Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General — The Plan is a defined contribution plan covering all eligible United States-based employees of Battelle Memorial Institute ("Battelle" or "Company") and its participating electing subsidiaries, who are not covered by another defined contribution plan funded by the employer or a collective bargaining agreement, unless such agreement provides for participation in the Plan. Employees classified as salaried, regular full-time and regular part-time are eligible upon hire date for participation and may elect to make pre-tax or after-tax contributions. Employees classified as hourly or temporary hourly are eligible to enroll in the Plan after completion of a year of eligibility service in which such employees work at least 1,000 hours during the first year of employment or a subsequent Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions — Each year all eligible participants, may contribute between 1% and 75% before September 1, 2016 and between 1% to 50% after September 1, 2016 in multiples of whole percentages of pre-tax and after-tax eligible wages, up to IRS limits, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For the year ended June 30, 2016, Battelle made a matching contribution in the amount of 50% of the first 6% of each participant's contribution for employees who work for Battelle Corporate Operations. For the year ended June 30, 2016, Battelle made a matching contribution in the amount of 50% of the first 7% of each participant's contribution who work for Pacific Northwest National Laboratories. The employer match for participants who are employees of Battelle National Biodefense Institute, LLC is 50% of the first 8% of each participant's contributions. In addition to matching contributions prior to April 2, 2016, eligible employees of Battelle National Biodefense Institute, LLC receive a non-elective contribution of 3.5% of pay each payroll period whether or not they contribute to the Plan. Effective April 2, 2016 employees of the Battelle National Biodefense Institute, LLC receive a non-elective contribution of 5% of pay each payroll period whether or not they contribute to the Plan. Effective July 1, 2015, non-elective contributions were made equal to 5 percent of eligible wages for all eligible employees of Battelle Corporate Operations, Battelle Services Company, Inc., and BattelleEd.Org who do not accrue a current benefit as an active participant under the Employees' Pension Plan of Battelle Memorial Institute. Contributions are subject to certain limitations.

Participant Accounts — Each participant's account is credited with the participant's contribution and allocations of (a) Battelle's contributions and (b) Plan earnings, if any, and Plan losses, if any. Administrative plus other ad hoc charges are allocated based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments — Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting — Participants are immediately vested in their contributions, plus actual earnings and losses thereon. Vesting in Battelle's contributions, plus actual earnings and losses thereon, is based on completed months of

credited service. A participant is 100% vested after 36 months of credited service. For participants who are employees of Battelle National Biodefense Institute, LLC on or after July 1, 2011, they are 100% vested in Battelle's contributions and earnings and losses thereon. Earlier vesting may occur upon (1) retirement or disability, (2) participant attaining age 65, (3) death, (4) termination of or complete discontinuance of employer contributions, (5) termination of participation in connection with a partial termination of the Plan, (6) involuntary termination of employment for other than cause, or (7) a formal reduction in force.

Loans to Participants — Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000, minus the highest outstanding loan balance, if any, the participant had at any one time during the one-year period ending immediately before the date of the new loan, per IRS requirements or 50% of their vested account balance, if less. Loan transactions are treated as a transfer to (from) the investment funds from (to) the loan fund. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing commercial rates as determined by the Plan administrator. Interest rates on loans outstanding as of June 30, 2016 and 2015 range from 3.25% to 8.25% and 4.25% to 8.25%, respectively. Principal and interest are paid ratably through payroll deductions. Prepayment of an outstanding loan balance, payments by participants on an approved leave of absence or other nonparticipating employment status may be by wire, electronic bank transfer, money order or certified check. Loans receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as the loans are collateralized by the participants' account balances. Related fees are recorded as administrative expenses and are expenses when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits — Upon termination of service, a participant with a vested account balance in excess of \$1,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly, semiannual, or annual installments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and spouse. Alternatively, the participant may defer the distribution, but not later than the mandatory distribution age. Participants who terminate service with a vested account balance of \$1,000 or less shall receive a lump-sum payment. In certain circumstances, active participants may take hardship withdrawals as defined in the Plan. Active participants may also take in-service distributions from the Plan, subject to limitations of certain contribution accounts and a participant's age.

Forfeited Accounts — At June 30, 2016 and 2015, forfeited nonvested accounts totaled \$101,338 and \$139,182, respectively. During the year ended June 30, 2016, employer contributions were reduced by forfeitures of nonvested accounts of \$424,485 and plan expenses were reduced by forfeitures of nonvested accounts of \$7,665.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared under the accrual basis of accounting.

Risks and Uncertainties — The Plan utilizes various investments, including mutual funds, collective trusts and investment contracts. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan utilizes its trustee's external pricing service to estimate the fair value of the investments held in the Plan. The Plan's investment managers review and validate the prices utilized by the trustee to determine fair value. The Company receives audit reports of the trustee's operating controls and valuation processes. The trustee uses multiple pricing vendors for the assets held in the trust. Management has established processes and procedures for establishment and valuation of alternative investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized when earned. Dividend income is recognized on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Contributions — Participant contributions are recognized when withheld. Employer contributions are recognized at the time the related employee contributions are recognized. Forfeitures are used to reduce employer contributions.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at June 30, 2016 and 2015.

Administrative Expenses — Accounting fees, audit fees, and certain administrative, consulting, and legal fees are paid by the Plan and are expensed as incurred. Certain other administrative expenses are paid by the employer.

Use of Estimates — The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 — Inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that the observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

The following tables (amounts in thousands) set forth by level within the fair value hierarchy the Plan's assets that were accounted for at fair value on a recurring basis as of June 30, 2016 and 2015. Financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and their placement within the fair value hierarchy levels (dollars in thousands).

Fair Value Measurements at June 30, 2016				
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	2016 Total

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits

Asset Valuation Techniques — The Plan’s investments are presented at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual Funds — Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (Level 1 inputs) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trusts — The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each collective trust fund provides for daily redemptions reported at net asset value per unit share, with no advance notice requirement.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. CONTRACTS WITH INSURANCE COMPANIES

The Battelle Stable Value Fund is a blended separately managed fund comprised of two investment contracts issued by Nationwide Insurance Company (a fixed annuity and a managed separate guaranteed account) and an account managed by Vanguard Fiduciary Trust Company (the “Vanguard Managed Stable Value Fund”). This fund seeks preservation of capital, liquidity and a fixed return per quarter, which are assured by either insurance policy or wrapper contracts. This fund is fully-benefit responsive and is reported at contract value.

The fixed annuity contract is unconditionally guaranteed and backed by the general fund of Nationwide Insurance Company (“Nationwide”). The managed separate guaranteed account investment contract consists of a synthetic investment contract backed by assets managed by Nationwide and held within a separate account at Nationwide. Holdings of the separate account include fixed income investments such as corporate

bonds, mortgage-backed securities, collateral mortgage-backed securities, treasury instruments, and asset-backed securities. The Plan is only entitled to underlying assets of the managed separate guaranteed account upon termination of the synthetic investment contract. Unless the managed separate account contract were to be terminated, all transactions of the managed separate guaranteed account investment contract occur at contract value.

Nationwide's obligations under both the fixed and managed separate account contracts are reported at contract value. The contract values are guaranteed by Nationwide and reflect the exit value available to the Plan and Plan participants. Only payments resulting from termination or partial termination of the contracts will result in a market value adjustment applied to the payments. The Plan sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are probable. The contracts have no stated maturity dates. Since the contracts are not transferable, there is no market from which to obtain observable market prices for the contract held by the Plan or comparable contracts.

The Vanguard Managed Stable Value Fund consists of synthetic guaranteed investment contracts. The underlying collective trusts invest in a variety of fixed income investments such as corporate bonds, mortgage-backed securities, collateral mortgage-backed securities, treasury instruments, and asset-backed securities. In accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles" or "GAAP"), the value of the synthetic contracts is included at contract value in participant-directed investments in the statements of net assets and the statement of changes in net assets available for benefits. The Vanguard Managed Stable Value Fund also contains a money market mutual fund.

As discussed above, the Plan has entered into a fully benefit-responsive managed separate account guaranteed investment contract with Nationwide Life Insurance Company. Nationwide maintains the underlying assets of the contract in a separate account at Nationwide, specifically for the Plan. The separate account invests primarily in fixed income securities. The Plan does not hold units of the underlying separate account; however, the Plan is entitled to the greater of the market value of the assets in the separate account attributable to the Plan, less applicable fees, and the contract value of the accumulation account upon termination of the contract. The account is credited with deposits and investment return allocations at the contract rate based upon the performance of the underlying investments of the separate account or by the rate stated in fixed annuity contract itself, and charged for withdrawals and administrative expenses. There are no reserves against contract value of the issuer or otherwise. Withdrawals and transfers are ordinarily transacted at contract value. Only plan termination or partial termination would limit the ability of participants to transact at contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable. Nationwide has the option to cancel the contract at an amount different than contract value at any time. Contract value represents contributions made under the contract, plus contract earnings, less withdrawals, and administrative expenses.

The Plan has also entered into a group annuity contract with Nationwide. Withdrawals and transfers are ordinarily transacted at contract value. Only plan termination or partial termination would limit the ability of participants to transact at contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable. There are no events that would allow the issuer to terminate the contract at a value different than contract value. Contract value represents contributions made under the contract, plus contract earnings, less withdrawals, and administrative expenses. Factors that influence future interest crediting rates include, but are not limited to: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into or out of the fund and the duration of the underlying investments. Interest rates are reviewed on a quarterly basis for resetting. Upon termination of the fixed annuity contract, the Plan is entitled to the value of the account, increased or decreased for a market value adjustment determined by Nationwide, less taxes and applicable charges. There are no reserves against contract value of the issuer or otherwise.

The Plan has entered into benefit-responsive wrapper agreements (“wrapper contracts”) with various issuers. The wrapper contracts cover the stable value fund investments managed by Vanguard and include the Vanguard Total Bond Market Fund, the Vanguard Intermediate-Term Bond Trust, Metlife Separate Account, Prudential Core Conservative Bond Trust, as well as investments in Vanguard Short-Term Bond Trust (collectively, the “Vanguard Managed Stable Value Fund”). The wrapper contracts held within the Battelle Stable Value Fund provide benefit responsiveness. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset quarterly based on market rates of other similar investments, the current yield of the underlying investments, and the spread between the market value and contract value, but the rate cannot be less than 0%. Certain events, such as plan termination or a plan merger initiated by the Plan sponsor, may limit the ability of the Plan to transact at contract value or may allow for termination of the wrapper contract at less than contract value. The issuers may terminate their contracts at a value different than contract value only in certain limited events, such as contract default by the Plan. The Plan sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are probable.

At June 30, 2016, the Battelle Stable Value Fund consisted of synthetic investment contracts with contract value of \$433,023,513 and traditional contracts with contract value of \$50,487,311. At June 30, 2015, the Battelle Stable Value Fund consisted of synthetic investment contracts with contract value of \$430,235,715 and traditional contracts with contract value of \$44,530,367.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, Battelle has the right under the Plan to discontinue its contributions at any time and to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, the Plan’s assets are restricted for the sole benefit of participants or their beneficiaries. In the event of Plan termination, participants will become 100% vested in their employer contributions.

6. TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed Battelle by letter dated April 17, 2014, that the Plan, as amended, and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, Battelle and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. Some administrative expenses of the Plan are paid directly by the Company. The Plan paid certain administrative fees to the trustee, third-party administrator, the auditor, and various investment managers which qualify as party-in-interest transactions.

The Plan invests in various mutual funds and collective trusts managed by affiliates of the Plan’s recordkeeper, therefore these transactions qualify as party-in-interest. The Plan also invests in investment contracts with

Nationwide Life Insurance Company, which also qualify as party-in-interest transactions. Loans to plan participants also reflect party-in-interest transactions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of the accompanying financial statements to the Form 5500 as of June 30, 2016 and 2015, and for the year ended June 30, 2016 is as follows (dollars in thousands):

	<u>2016</u>	<u>2015</u>
Net assets available for benefits per the financial statements	\$ 1,728,940	\$ 1,763,596
Difference in value of investment in stable value fund	17,283	14,783
Loan Adjustment	<u>(600)</u>	<u>-</u>
Net assets per the Form 5500	<u>\$ 1,745,623</u>	<u>\$ 1,778,379</u>
Decrease in net assets available for benefits per the financial statements	\$ (34,656)	
Change in difference in value of investment in stable value fund	2,500	
Change in loan adjustment	<u>(600)</u>	
Net loss per the Form 5500	<u>\$ (32,756)</u>	

9. SUBSEQUENT EVENTS

Plan management has performed an evaluation of subsequent events for recognition and disclosure through April 18, 2017, which is the date the financial statements were available for issuance.
