Community Care Physicians, P.C.
Profit Sharing Plan

Notes to Financial Statements
September 30, 2016 and 2015

Note 1 - Description of Plan

The Community Care Physicians, P.C. Profit Sharing Plan (Plan) was formed effective January 2, 1985. The Plan is sponsored by Community Care Physicians, P.C. (Company). Effective October 1, 2014, the Plan was amended and restated to reflect the provisions of the Pension Protection Act of 2006.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a profit sharing plan with a 401(k) feature, covering all eligible full-time and part-time employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan assets are held by the Trustee, Principal Trust Company, a member of Principal Financial Group. Company contributions, participant elective deferrals, and participant accounts are held and administered by the Trustee, who invests cash received and income from investments based on written instructions from the Company and participants, and makes distributions to participants. The Company's Pension Committee and investment advisor are responsible for oversight of the Plan and for determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

b. New Accounting Pronouncements

During May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also limits certain disclosures to investments for which the entity has elected to measure the fair value using the practical expedient. This ASU requires retrospective application and is effective for nonpublic business entities for fiscal years beginning after December 15, 2016; however, early adoption is permitted. The Plan has adopted this ASU effective October 1, 2015.

During July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts; (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force).* This ASU simplifies several aspects of plan accounting. This ASU requires retrospective application and is effective for nonpublic business entities for fiscal years beginning after December 15, 2015; however, early adoption is permitted. The Plan has adopted this ASU effective October 1, 2015.

Note 1 - Description of Plan - Continued

c. Plan Eligibility

In general, employees are eligible to participate in the Plan after attaining age 21, completing 12 months of service, and having been credited with 1,000 hours of service during the eligibility computation period. The "eligibility computation period" is defined as the twelve-month period that begins with the date the employee was hired. If the employee does not meet the service requirements during the first year following the date of hire, the eligibility period becomes the Plan year. The requirements may then be met during the Plan year. Eligibility requirements are waived for full-time employees. A full-time employee is defined as having a regular work schedule of at least 30 hours per week. Full-time employees are eligible to participate after completion of one month of service. Terminated employees are eligible for employer contributions during the year of termination when credited with at least 500 hours of service during the period. The entry dates of the Plan are April 1 and October 1.

d. Contributions

Each year, participants may contribute a percentage or fixed dollar amount of their pre-tax annual compensation to the Plan, subject to certain limitations as defined by the Internal Revenue Code (IRC). The maximum participant deferral was $18,000 and $17,500 for the years ended September 30, 2016 and 2015, respectively. Unless the employee elects otherwise, 1% of his/her eligible compensation will be automatically deferred into the Plan for the benefit of the employee. The Plan was amended effective October 1, 2016 to adjust the automatic deferral rate to 3% for employees hired on or after October 1, 2016. Participants may also make Roth contributions into the Plan. Participants who have attained age fifty before the end of the Plan year are eligible to make "catch-up" contributions. Participants may also contribute rollover amounts representing distributions from other qualified retirement plans.

Participants receive a profit sharing contribution from the Company based on a class allocation formula. Classes for the profit sharing contribution are currently as follows:

Class 1	Physicians who own 30 or more shares of Company stock
Class 2	Physicians who own at least one, but less than 30 shares of Company stock
Class 3	Non-owner physicians and management
Class 4	Non-physician providers
Class 5	All other employees

Contributions allocated to each class are discretionary and determined annually by the Board of Directors. The contributions were determined to be nondiscriminatory under the Internal Revenue Code. Contributions allocated by class were as follows:

	Years Ended September 30,	
	2016	2015
Class 1	$ 27,973	$ 27,700
Class 2	7%	7%
Class 3	4%	4%
Class 4	2%	2%
Class 5	2%	2%

Note 1 - Description of Plan - Continued

d. Contributions - Continued

For the 401(k) feature, the Company makes a 3%, nonelective contribution, pursuant to a "safe harbor" election. The Company's nonelective contribution is based on the employees' compensation during the Plan year up to a maximum of $265,000 and $260,000 for the years ended September 30, 2016 and 2015, respectively. As defined, a nonelective safe harbor contribution is a minimum contribution made by the Company that allows the Plan to be exempt from nondiscrimination tests.

Participants direct their elective deferral amounts and Company contributions to any of several investment options, which are held and administered by the Trustee of the Plan.

e. Participant Accounts

Each participant's account is credited with: the participant's contribution; the Company's profit sharing and non-elective safe harbor contributions; an allocation of forfeitures of terminated participants' nonvested accounts in excess of administrative expenses paid by the Plan; and the Plan's investment earnings (losses) net of investment expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

f. Vesting

Participants are immediately vested in their elective deferral amounts, rollover contributions, and the Company's nonelective contribution, plus actual earnings thereon.

Vesting in the Company's profit sharing contribution is based on years of continuous service. A participant is 100% vested upon: (1) attaining six years of credited service; (2) disability; (3) death; (4) normal retirement at age 59½ and five years of service; or (5) termination of the Plan. If a participant's employment with the Company is terminated before age 59½ for any reason other than disability or death, the participant shall be entitled to an amount equal to the "vested percentage" of his or her account balance.

A participant shall have a vested and nonforfeitable interest in his or her account balance determined by the number of years of service as follows:

Years of Service	Vesting %
Less than 2	0
2 but less than 3	20
3 but less than 4	40
4 but less than 5	60
5 but less than 6	80
6 or more	100

Note 1 - Description of Plan - Continued

g. Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. In addition, the 50% limit is reduced by the highest outstanding loan balance of any previous loans made in the previous twelve months. Participant notes are secured by the balance in the participants' accounts and bear interest at a rate commensurate with rates of commercial lending institutions for loans which would be made under similar circumstances, which range from 3.25% to 3.50%. Principal and interest are paid ratably through regular payroll deductions. In general, loans must be repaid within five years; however, if the loan is used to purchase a principal residence, the term may be longer.

h. Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in their account as a lump sum distribution, or defer distribution until a later date. However, if the vested portion of a participant's account balance is $5,000 or less (excluding rollover balances), this amount will be paid as a lump-sum distribution as soon as possible following termination, retirement, disability, or to the beneficiary following death.

i. Forfeitures

Forfeitures may be first used to pay administrative expenses under the Plan. Forfeitures not used to pay administrative expenses shall be used to reduce the employer's discretionary profit sharing contribution and allocated in the same manner. The Plan used $6,835 and $44,620 of forfeitures to pay administrative expenses during the years ended September 30, 2016 and 2015, respectively. The Company used $53,092 and $65,239 to reduce the employer's discretionary profit sharing contribution for the years ended September 30, 2016 and 2015, respectively. There was $80,537 and $8,471 in remaining forfeitures as of September 30, 2016 and 2015, respectively, which was used to reduce employer discretionary profit sharing contributions to the Plan after year-end.

Note 2 - Summary of Significant Accounting Policies

a. Basis of Accounting

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) for defined contribution plans.

b. Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies - Continued

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants on the measurement date. The Plan Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and Trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Participant Notes Receivable

Participant notes receivable are stated at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. If a participant ceases to make loan repayments, the loan is deemed to be in default. Defaulted loan balances are taxable income to the participant in the year of default. Defaulted loans remain Plan assets until the loan is repaid or the participant has a distributable event. Loans treated as distributions totaled $62,850 and $54,646 for the years ended September 30, 2016 and 2015, respectively.

e. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants subsequent to the Plan year-end.

f. Payment of Benefits

Benefits are recorded when paid.

g. Expenses

Certain Plan fees are paid from Plan assets, and other expenses of the Plan are paid directly by the Company. Administrative costs paid by the Plan are paid from forfeitures or are transaction expenses allocated to participants for processing loans and distributions.

h. Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure through March 22, 2017, the date the financial statements were available to be issued.

Note 3 - Information Certified and Provided by Trustee (Unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee as complete and accurate, except for comparing such information certified by the Trustee to the information included in the Plan's financial statements and supplemental schedule:

	September 30,	
	2016	2015
Investments, at fair value	$ 153,918,788	$ 134,228,791
Participant notes receivable	1,323,187	1,061,989
Investment income		
Interest and dividends	1,167,975	1,075,299
Net appreciation in fair value of investments	12,376,627	662,285
Interest income from participant notes receivable	37,728	29,935

Note 4 - Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 - Investments and Fair Value Measurements - Continued

Following is a description of the valuation methodologies used for assets measured at fair value at September 30, 2016 and 2015. There have been no changes to the methodologies at September 30, 2016 and 2015.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: Valued based upon the units of such pooled separate accounts held by the Plan at year end multiplied by the respective unit value. The unit value is calculated daily based on the net asset value of shares of the underlying fund, and includes the underlying investments' daily performance investment income and related administrative and investment fees assessed. The NAV is not a publicly quoted price in an active market and is computed in accordance with investment company measurement principles. The pooled separate accounts can be redeemed at NAV as of the measurement date.

Corporate Stock: Valued at the closing price reported on the active market on which individual securities are traded. Corporate stock is held within the self-directed brokerage accounts.

Self-Directed Brokerage Accounts: Accounts consist of mutual funds and corporate stock that are valued on the basis of readily determinable market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets measured at fair value:

	September 30, 2016			
	Level 1	Level 2	Level 3	Total
Mutual Funds	88,801,803	-	-	88,801,803

Note 4 - Investments and Fair Value Measurements - Continued

Investments measured at NAV (a):

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5 - Related Party and Party-In-Interest Transactions

The Company paid expenses in connection with the administration of the Plan totaling $54,492 and $49,088 for the years ended September 30, 2016 and 2015, respectively. In addition, certain administrative functions are performed by employees of the Company who do not receive compensation from the Plan for such functions.

Pooled separate accounts offered as investment options are managed by Principal Trust Company, the Trustee of the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan terminates, participants will become 100% vested in their accounts, and the remaining net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Upon termination of the Plan, the Trustee will continue to hold the Plan assets and will make distributions of the Plan benefits in accordance with the instructions of the Plan Administrator and the Plan provisions.

Note 7 - Tax Status

The IRS has ruled that the Volume Submitter Profit Sharing Plan with Cash or Deferred Arrangement (CODA) offered by the Plan Trustee and adopted by the Plan on October 1, 2014, constitutes a qualified plan under Section 401(a) of the IRC and is, therefore, exempt from federal income taxes under the provisions of Section 501(a). The volume submitter plan has received an opinion letter dated July 1, 2014 from the IRS as to the Plan's qualified status. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.
