ENTISYS SOLUTIONS, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2015

Note 1 - Description of plan

General

This description of the Entisys Solutions, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Entisys Solutions, Inc. (the "Company", “Plan Administrator”, and "Plan Sponsor") has adopted a volume submitter defined contribution 401(k) plan (the "Plan") covering all eligible employees of the Company who are over the age of 18.

The Plan was amended in 2015 to conform to the provisions of the Pension Protection Act.

Administration

The Company has appointed the Manager of Human Resources (the "Administrator") to manage the operations and administration of the Plan. The Company has contracted with Mass Mutual Life Insurance Company (“Mass Mutual”) to act as the custodian of the Plan’s assets in the guaranteed interest account and State Street Bank and Trust Company (“State Street”) to act as the custodian of the Plan’s assets in the pooled separate accounts. Mass Mutual also acts as the third-party administrator to process and maintain the records of participant data and monitor compliance with governmental regulatory requirements.

Contributions

Each year, participants may elect to defer up to 100% of their annual gross compensation as defined in the Plan document. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan document also permits Roth 401(k) contributions into the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers investments in pooled separate accounts and a fixed income contract to its participants. The Company is allowed to make discretionary matching contribution as defined in the Plan document. There were no matching contributions for the year ended December 31, 2015. All contributions are subject to certain IRS limitations.

Participant accounts

Each participant’s account is credited with the participant’s contributions, Plan Sponsor matching contributions, as well as allocations of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Note 1 - Description of plan (continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the employer discretionary contribution portion of their accounts is based on years of continuous service using a six-year graded vesting schedule. Employees become 100 percent vested in the employer portion of their accounts when they reach retirement age, die, or become disabled, while employed with the Company, as defined in the Plan document.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime plus 1%. Loan terms range up to five years or may not exceed 30 years for the purchase of a primary residence. A participant may only have one loan outstanding at any given time. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payment of benefits

Upon reaching the age of 59½ years and at the discretion of the participant or upon termination of service due to death, disability, or retirement, a participant or the designated beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Upon termination, if the participant's or beneficiary's vested account balance is $5,000 or less, the Plan allows the trustee to distribute the vested account balance to an Individual Retirement Account ("IRA") for the participant's benefit. Vested balances of $1,000 or less will be distributed as a lump-sum amount without the participant's consent.

Forfeited accounts

Forfeited nonvested accounts will be used to pay Plan administrative expenses. Any forfeitures remaining after paying Plan expenses are used to offset employer contributions. At December 31, 2015, the amount of forfeited nonvested accounts is insignificant to the financial statements.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Note 2 - Summary of accounting policies (continued)

Change in accounting principle

In July 2015, the Financial Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part Ill) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and management has elected to adopt Parts I and II early. Part Ill is not applicable to the Plan.

Use of estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates. Significant estimates used in preparing these financial statements include the fair value of investments in pooled separate accounts, contract value of the fixed income contract, and management’s estimate of the allowance for losses on participants’ notes receivable.

Investment valuation and income recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are valued at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s Trustee determines the Plan’s valuation policies utilizing information provided by the investment advisor and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan Document.

Note 2 - Summary of accounting policies (continued)

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and issuance of distributions as well as a monthly asset-based charge calculated at 55 basis points on the average monthly investment balances in the participant's account are charged directly to the participant's account and are reflected in administrative expenses of $31,852 for the year ended December 31, 2015. Additionally, investment-related expenses are also paid through the Plan and included in net depreciation or appreciation in fair value of investments.

Subsequent events

In preparing its financial statements, the Plan has evaluated subsequent events through April 13, 2017, which is the date the financial statements were available to be issued.

Note 3 - Certified investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2015, and net depreciation or appreciation in fair value of investments, interest, and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Mass Mutual and State Street, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Quoted prices in active markets.

Level 2 Other observable inputs which include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

The Plan's investments in pooled separate accounts are measured daily at Unit Value. The Unit Value is calculated based on the observable Net Asset Value of the underlying investments. The underlying investments are comprised of mutual funds which have observable Level 1 inputs.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

No assets were valued at Levels 1 and 3 as of December 31, 2015 and 2014.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015 (Audited)			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 5,427,830	$ -	$ 5,427,830
Investments at fair value	$ -	$ 5,427,830	$ -	$ 5,427,830

	Assets at Fair Value as of December 31, 2014 (Compiled)			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 4,869,382	$ -	$ 4,869,382
Investments at fair value	$ -	$ 4,869,382	$ -	$ 4,869,382

Note 5 - Guaranteed interest account

The Plan holds a Guaranteed Interest Account investment option that is comprised of a group annuity contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The group annuity contract held by the Plan is a guaranteed investment contract that is invested in long-term bonds, mortgage loans, short-term investments and cash. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3%. The average yield earned by the Plan and average interest rate credited to participants (net of applicable expenses) for the year ended December 31, 2015 was 2.63%. The crediting rate is reviewed on a semi-annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

i. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code

ii. Premature termination of the contracts

iii. Plan termination or merger

iv. Changes to the Plan's prohibition on competing investment options

v. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

i. An uncured violation of the Plan's investment guidelines

ii. A breach of material obligation under the contract

iii. A material misrepresentation

iv. A material amendment to the agreements without the consent of the issuer.

Note 6 - Rollover contributions

During 2015, rollover contributions of $15,782 from other plans came from three active participants.

Note 7 - Related party transactions and party-in-interest transactions

Plan investments in the fixed income contract and pooled separate accounts are managed by Mass Mutual and State Street, respectively. Mass Mutual and State Street are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net depreciation or appreciation in fair value of investments. Refer to **Note 2 Expenses** for expenses paid directly by the participant. Pursuant to a revenue sharing arrangement with the Plan's investment advisor, Mass Mutual pays asset-based fees calculated at 25 basis points of Plan assets invested with Mass Mutual. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 8 - Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 9 - Tax status

The Internal Revenue Service has informed the third-party administrator by letter dated March 31, 2014 that the Volume Submitter 401(k) Plan adopted by the Plan Sponsor is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the opinion letter. However, the Plan's third-party administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date and subsequent to year-end.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position not likely to be sustained upon examination by taxing authorities and government agencies. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits in progress for any tax periods.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Reconciliation of the financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2015 and 2014:
