INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Sysintelli Inc.
401(k) Plan,
San Diego, CA

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Sysintelli Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis of Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Paychex, the custodian of the plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis of Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence, to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, which is the responsibility of the plan management, is presented for the purpose of additional analysis and is not required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SYSINTELLI INC.
401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014

Note 1 - Description of Plan

Volume Submitter Profit Sharing Plan with CODA - the Plan adopted by Sysintelli Inc. is acceptable under section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. The following description of the Sysintelli Inc. 401(k) Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

Nature of Activities

Sysintelli Inc. is a global software development and consulting firm. The company develops, delivers and supports enterprise wide IT solutions to their customers. They have certified experts from all areas of software development working all over the world as a part of their team, providing efficient solutions for varied business needs, such as, Software Development and Deployment, Research and Development, Engineering Design and development etc.

General

The plan is a defined contribution plan covering all full-time employees of Sysintelli Inc. Employees aged 21 and older are eligible to participate in the plan. 1000 Hours of Service shall be required to constitute a Year of Eligibility Service.

Contributions

Each year participants may contribute up to 96% of annual compensation in increment of 1% as defined in the plan. The law limits the amount of 401(k) elective deferral contributions in any tax year. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds as investment options for participants. Sysintelli Inc. contributes additional profit-sharing amounts at the option of the board of directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer Profit Sharing Contribution and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested in the range of 20%-100% progressively on completing two years of service. A participant is 100 percent vested after six years of credited service. 1000 Hours of Service shall be required to constitute a Year of Vesting Service.

Note 1 - Description of Plan (Cont'd)

Participant Loans

Loans shall be made available to all Participants on a reasonably equivalent basis. Loans must be adequately secured and bear a reasonable interest rate. No Participant loan shall exceed the Present Value of the Vested portion of a Participant's Individual Account. If the Participant's Individual Account contains both Pre-Tax Elective Deferrals and Roth Elective Deferrals, the specific rules governing the loan program may also designate the extent to which Pre-Tax Elective Deferrals, Roth Elective Deferrals, or a combination of both will 1) be used to calculate the maximum amount available for a loan, or 2) be available as a source from which loan proceeds may be taken or which may be used as security for a loan. To the extent permitted by law and related regulations, these rules established by the Plan Sponsor may specify the ordering rules to be applied in the event of defaulted loan.

Payment of Benefits

A Participant's Elective Deferrals, Qualified Nonelective Contributions, Qualified Matching Contributions, and earnings attributable to these contributions shall be distributed on account of the Participant's severance from employment. A Participant who has not incurred a Severance from Employment is entitled to request an in-service withdrawal from the Plan of that portion of the Participant's Individual Account attributable to Elective Deferrals, Qualified Nonelective Contributions, and Qualified Matching Contributions if the participant has attained age 59½. In-service distributions will be available from Pre-Tax and/or Roth Elective Deferrals.

Forfeited Accounts

At December 31, 2014 there were no forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Cont'd)

Investment Valuation and Income Recognition

The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the Company. A portion of the administrative cost is distributed amongst participants.

Note 3 - Information Certified by Custodian

In accordance with Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Paychex certified the accuracy and completeness of all investments as of December 31, 2014, and investment transactions entered into for the year ended December 31, 2014, which was used in the preparation of the accompanying financial statements and supplemental schedule, including investments held and net appreciation/depreciation in fair value of investments and interest and dividends.

Note 4 - Investments

The plan's investments are held in a mutual fund by the Paychex, the plan custodian. The following presents investments that represent 5 percent or more of the plan's net assets available for benefits as of December 31, 2014 and 2013 were as follows:

	2014	2013
VANGRD FTSE SOC INDEX	$ 29,533	$ 14,067
VANGRD DIVIDEND GR	23,713	16,469
VANGRD EQUITY - INC	19,925	15,462
VANGRD US GR	26,055	-
VANGRD WELLESLEY INC	98,745	93,501
VANGRD PRIME MMKT	27,817	15,820
Total	$ 225,788	$ 155,319

Note 4 - Investments (Cont'd)

During 2014, the plan's investments (including investments bought, sold, and held during the year) appreciated in value by $13,893.

Note 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820-10-3539 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded, and are classified as level 1 investments in the fair value hierarchy.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Note 6 - Party-in-Interest Transactions

Certain Plan investments are managed by Paychex. Paychex is the custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, Sysintelli Inc. has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as SMASE may determine.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013 as per Form 5500:

	2014	2013
Net assets available for benefits per the financial statement	$ 396,651	$ 249,922
Net assets available for benefits per the Form 5500	$ 396,651	$ 249,922

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2014 and 2013 to Form 5500:

Benefits paid to participants per the financial statements	$ 20,717	$ 9,826
Benefits paid to participants per the Form 5500	$ 20,717	$ 9,826

Note 9 - Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Subsequent Events

For the year ended December 31, 2014, Sysintelli Inc. has evaluated subsequent events for potential recognition and disclosure through March 17, 2017, the date the financial statements were available to be issued and have determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor have any subsequent events occurred, the nature of which would require disclosure.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Sysintelli Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis of Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Paychex, the custodian of the plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

General

The plan is a defined contribution plan covering all full-time employees of Sysintelli Inc. Employees aged 21 and older are eligible to participate in the plan. 1000 Hours of Service shall be required to constitute a Year of Eligibility Service.

Contributions

Each year participants may contribute up to 96% of annual compensation in increment of 1% as defined in the plan. The law limits the amount of 401(k) elective deferral contributions in any tax year. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds as investment options for participants. Sysintelli Inc. contributes additional profit-sharing amounts at the option of the board of directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer Profit Sharing Contribution and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested in the range of 20%-100% progressively on completing two years of service. A participant is 100 percent vested after six years of credited service. 1000 Hours of Service shall be required to constitute a Year of Vesting Service.

Note 1 - Description of Plan (Cont'd)

Participant Loans

Loans shall be made available to all Participants on a reasonably equivalent basis. Loans must be adequately secured and bear a reasonable interest rate. No Participant loan shall exceed the Present Value of the Vested portion of a Participant's Individual Account. If the Participant's Individual Account contains both Pre-Tax Elective Deferrals and Roth Elective Deferrals, the specific rules governing the loan program may also designate the extent to which Pre-Tax Elective Deferrals, Roth Elective Deferrals, or a combination of both will 1) be used to calculate the maximum amount available for a loan, or 2) be available as a source from which loan proceeds may be taken or which may be used as security for a loan. To the extent permitted by law and related regulations, these rules established by the Plan Sponsor may specify the ordering rules to be applied in the event of defaulted loan.

Payment of Benefits

A Participant's Elective Deferrals, Qualified Nonelective Contributions, Qualified Matching Contributions, and earnings attributable to these contributions shall be distributed on account of the Participant's severance from employment. A Participant who has not incurred a Severance from Employment is entitled to request an in-service withdrawal from the Plan of that portion of the Participant's Individual Account attributable to Elective Deferrals, Qualified Nonelective Contributions, and Qualified Matching Contributions if the participant has attained age 59½. In-service distributions will be available from Pre-Tax and/or Roth Elective Deferrals.

Forfeited Accounts

At December 31, 2014 there were no forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Cont'd)

Investment Valuation and Income Recognition

The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the Company. A portion of the administrative cost is distributed amongst participants.

Note 3 - Information Certified by Custodian

In accordance with Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Paychex certified the accuracy and completeness of all investments as of December 31, 2014, and investment transactions entered into for the year ended December 31, 2014, which was used in the preparation of the accompanying financial statements and supplemental schedule, including investments held and net appreciation/depreciation in fair value of investments and interest and dividends.

Note 4 - Investments

The plan's investments are held in a mutual fund by the Paychex, the plan custodian. The following presents investments that represent 5 percent or more of the plan's net assets available for benefits as of December 31, 2014 and 2013 were as follows:

	2014	2013
VANGRD FTSE SOC INDEX	$ 29,533	$ 14,067
VANGRD DIVIDEND GR	23,713	16,469
VANGRD EQUITY - INC	19,925	15,462
VANGRD US GR	26,055	-
VANGRD WELLESLEY INC	98,745	93,501
VANGRD PRIME MMKT	27,817	15,820
Total	$ 225,788	$ 155,319

Note 4 - Investments (Cont'd)

During 2014, the plan's investments (including investments bought, sold, and held during the year) appreciated in value by $13,893.

Note 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820-10-3539 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded, and are classified as level 1 investments in the fair value hierarchy.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Note 6 - Party-in-Interest Transactions

Certain Plan investments are managed by Paychex. Paychex is the custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, Sysintelli Inc. has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as SMASE may determine.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013 as per Form 5500:

	2014	2013
Net assets available for benefits per the financial statement	$ 396,651	$ 249,922
Net assets available for benefits per the Form 5500	$ 396,651	$ 249,922

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2014 and 2013 to Form 5500:

Benefits paid to participants per the financial statements	$ 20,717	$ 9,826
Benefits paid to participants per the Form 5500	$ 20,717	$ 9,826

Note 9 - Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Subsequent Events

For the year ended December 31, 2014, Sysintelli Inc. has evaluated subsequent events for potential recognition and disclosure through March 17, 2017, the date the financial statements were available to be issued and have determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor have any subsequent events occurred, the nature of which would require disclosure.
