NOTES TO FINANCIAL STATEMENTS
July 31, 2016 and December 31, 2015

Note 1 DESCRIPTION OF PLAN

The following description of the Classic Industrial Services, Inc. 401(k) Profit Sharing Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all nonunion employees of Classic Industrial Services, Inc. and Quality Integrated Services, Inc. (the Companies). Employees are eligible to participate on the first day of the month immediately following or coinciding with the day the employee reaches age 19 and has completed twenty calendar days of eligible service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company has appointed Wells Fargo Bank, N.A. (Wells Fargo) to be the trustee and invest the assets of the Plan. The trustee is responsible for oversight of the Plan.

CONTRIBUTIONS

Participants have the option to participate in the Plan through a salary deferral contribution and Company matching contributions. The salary deferral contribution can be any whole percentage of a participant's eligible earnings up to a maximum threshold as defined by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company's matching contribution is equal to 100 percent of each participant's elective deferrals not exceeding three percent of eligible compensation, plus 50 percent of each participant's elective deferrals in excess of three percent but not in excess of five percent of participant's compensation. Contributions are subject to certain IRS limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contributions and allocation of the Company's matching contributions and Plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately 100 percent vested in all accounts.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as lump sum distribution. Hardship distributions are allowed from participants pre-tax elective deferral accounts. In-service distributions are allowed for participants 59 ½ or older from their pre-tax vested account balance.

PLAN STRUCTURE AND INVESTMENT OPTIONS

Wells Fargo Bank, N.A. manages the Plan's assets. Participants are allowed to invest in a variety of investment choices, as more fully described in the Plan's literature. All funds vary in type of investment, rate of return and investment risk. Participants may elect on a daily basis to have all or part of their account balances and future contributions transferred from one fund to another or in any combination. The Plan does not provide for participant loans. However, the Plan does allow existing loans to transfer into the Plan as a result of mergers of related plans. Loans transferred into the Plan are repaid based on existing loan terms at the time of transfer.

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are presented with principles generally accepted in the United States of America. In connection with a plan merger, the Plan adopted the liquidation basis of accounting as of July 31, 2016.

USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

ADMINISTRATIVE EXPENSES

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net depreciation of fair value of investments.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through May 9, 2017, the date the financial statements were available to be issued.

Note 3 INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The trustee, Wells Fargo Bank, N.A., has certified that the following information included in the accompanying financial statements are complete and accurate:

1. Investments reported on the statements of net assets available for benefits as of July 31, 2016 and December 31, 2015.
2. Investment activity reported on the statement of changes in net assets available of benefits for the year ended July 31, 2016.

Note 4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy FASB's authoritative guidance are as follows:

Level 1- Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs that are unobservable for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 31, 2016 and December 31, 2015.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Mutual funds: Mutual funds are valued at quoted prices available in an active market.

Common/collective trusts (1)(2)	\$8,270,716	n/a	Daily	Up to 12 months

(1) The objective of the preservation fund is to provide investors with a moderate level of stable income without principal volatility. To achieve this, the fund invests in high quality investment contracts, and the associated portfolio of underlying assets.

(2) The objective of the index fund is to seek a total return, before deduction of fees and expenses, of the Standard & Poor's 500 Index. To achieve this, the fund invests in equity securities.

Note 6 RELATED-PARTY TRANSACTION AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. (Wells Fargo). Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator and investment advisor totaling \$5,081. The Company pays directly any other fees related to the Plan's operations.

Note 7 TRANSFER OF PLAN ASSETS DUE TO MERGER

Effective July 1, 2016, the Plan was merged with a related plan. Assets held by the Plan were transferred to the related plan. Transfers related to the Plan merger were completed by July 31, 2016.

The Company adopted a prototype non-standardized plan which received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the non-standardized plan and related trust, as then designed, was in compliance with applicable requirements of the Internal Revenue Code.

Note 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 1 DESCRIPTION OF PLAN

The following description of the Classic Industrial Services, Inc. 401(k) Profit Sharing Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all nonunion employees of Classic Industrial Services, Inc. and Quality Integrated Services, Inc. (the Companies). Employees are eligible to participate on the first day of the month immediately following or coinciding with the day the employee reaches age 19 and has completed twenty calendar days of eligible service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company has appointed Wells Fargo Bank, N.A. (Wells Fargo) to be the trustee and invest the assets of the Plan. The trustee is responsible for oversight of the Plan.

CONTRIBUTIONS

Participants have the option to participate in the Plan through a salary deferral contribution and Company matching contributions. The salary deferral contribution can be any whole percentage of a participant's eligible earnings up to a maximum threshold as defined by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company's matching contribution is equal to 100 percent of each participant's elective deferrals not exceeding three percent of eligible compensation, plus 50 percent of each participant's elective deferrals in excess of three percent but not in excess of five percent of participant's compensation. Contributions are subject to certain IRS limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contributions and allocation of the Company's matching contributions and Plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately 100 percent vested in all accounts.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as lump sum distribution. Hardship distributions are allowed from participants pre-tax elective deferral accounts. In-service distributions are allowed for participants 59 ½ or older from their pre-tax vested account balance.

PLAN STRUCTURE AND INVESTMENT OPTIONS

Wells Fargo Bank, N.A. manages the Plan's assets. Participants are allowed to invest in a variety of investment choices, as more fully described in the Plan's literature. All funds vary in type of investment, rate of return and investment risk. Participants may elect on a daily basis to have all or part of their account balances and future contributions transferred from one fund to another or in any combination. The Plan does not provide for participant loans. However, the Plan does allow existing loans to transfer into the Plan as a result of mergers of related plans. Loans transferred into the Plan are repaid based on existing loan terms at the time of transfer.

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are presented with principles generally accepted in the United States of America. In connection with a plan merger, the Plan adopted the liquidation basis of accounting as of July 31, 2016.

USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

ADMINISTRATIVE EXPENSES

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net depreciation of fair value of investments.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through May 9, 2017, the date the financial statements were available to be issued.

Note 3 INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The trustee, Wells Fargo Bank, N.A., has certified that the following information included in the accompanying financial statements are complete and accurate:

1. Investments reported on the statements of net assets available for benefits as of July 31, 2016 and December 31, 2015.
2. Investment activity reported on the statement of changes in net assets available of benefits for the year ended July 31, 2016.

Note 4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy FASB's authoritative guidance are as follows:

Level 1- Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs that are unobservable for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 31, 2016 and December 31, 2015.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Mutual funds: Mutual funds are valued at quoted prices available in an active market.

Note 6 RELATED-PARTY TRANSACTION AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. (Wells Fargo). Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator and investment advisor totaling \$5,081. The Company pays directly any other fees related to the Plan's operations.

Note 7 TRANSFER OF PLAN ASSETS DUE TO MERGER

Note 8 TAX STATUS

The Company adopted a prototype non-standardized plan which received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the non-standardized plan and related trust, as then designed, was in compliance with applicable requirements of the Internal Revenue Code.

Note 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
