Notes to Financial Statements
December 31, 2015 and 2014

1. Summary of significant accounting policies

The following is a summary of the significant accounting policies followed by Silent-Aire USA Profit Sharing Plan and Trust (the Plan) which is sponsored by Silent-Aire USA Inc. (the Company). The policies conform with accounting principles generally accepted in the United States of America, which require management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates. Management has reviewed the financial statements for subsequent events through April 21, 2017, the date the financial statements were available to be issued.

a. Investments

Mutual funds and common collective trusts are stated at fair value based on the quoted market prices. The stable value fund, which is a benefit-responsive investment contract, is valued at contract value. Purchases and sales of securities are recorded on a trade-date basis and interest income is recorded on an accrual basis. Most investment options have management fees that reduce the overall return on assets. Net appreciation (depreciation) is inclusive of those fees and the Plan's gains and losses on investments purchased and sold as well as held during the year.

b. Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

c. Investment and administrative expenses

Investment expenses and certain administrative expenses are paid directly by the Plan. The Company also paid certain administrative expenses. However, the Company retains the right to discontinue paying expenses, in which case they will be paid by the Plan.

d. Income taxes

The Plan is using a prototype document sponsored by Automatic Data Processing (ADP). The document sponsor received a favorable determination letter dated July 8, 2014 from the Internal Revenue Service, which states that the document qualifies under the applicable provisions of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. However, the plan is subject to examination; generally for a period of three years from filing its Form 5500.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

1. Summary of significant accounting policies, continued

e. Concentrations of risk

The Plan provides for various investment fund options, which in turn invest in any combination of mutual funds and other investments. Investments are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the changes in net assets available for benefits.

f. Corrective distributions

Corrective distributions represent refunds due to participants for contributions made in excess of amounts allowed by Plan provisions. These amounts are generally reimbursed to the participant(s) in the subsequent year.

g. Adoption of new accounting standards

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. The pronouncement is effective for fiscal years beginning after December 15, 2015, with early application permitted.

Management has elected to adopt parts I and II of the pronouncement early. Part III is not applicable to this Plan.

2. Description of plan

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan, established January 1, 2013, is a defined contribution 401(k) plan covering employees with at least two months of service to the Company and who are age twenty-one or older. Employees may become participants on the first of the month following completion of the eligibility requirements. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Description of plan, continued

b. Contributions

Each participant may make salary deferral contributions, from a minimum of 1% to a maximum of 90% of compensation, not to exceed the annual deferral limit set by the Internal Revenue Code. Catch-up contributions are permitted for participants age 50 and older. The Plan also allows participants to make rollover contributions.

The Company may also make a discretionary contribution to all eligible participants. The exact percentage or amount is determined annually by the Company. For the plan year ended December 31, 2015, the Company did not make discretionary contributions.

c. Vesting

Each participant is immediately vested in his/her salary deferral, catch-up, and rollover contributions, plus any earnings or losses on those contributions. The remainder of a participant's account balance is vested based on years of service. Participants vest at 20% after two years of service, and the percentage increases by 20% annually until the employee is fully vested after six years of service.

Forfeited contributions may be used to reduce the Company's contribution or pay plan expenses. At December 31, 2015, there were no forfeitures.

d. Participant accounts

Each participant's account is credited with the participant's salary deferral, catch-up, and rollover contributions, Company discretionary contributions and Plan earnings/losses. Plan earnings/losses are allocated based on account balances, as defined in the Plan document.

Each participant directs the investment of his/her account into various investment options offered by the Plan through State Street Bank and Trust.

e. Payment of benefits

Each participant is entitled to Plan benefits equal to 100% of his/her vested account balance. Benefits begin upon the earliest of retirement age, termination of employment, total and permanent disability or death of the participant. Benefits are paid in a lump-sum or installments as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable. The Plan permits hardship and certain in-service distributions, under certain circumstances.

f. Loans

The Plan permits participants to borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must bear a reasonable rate of interest. Principal and interest is paid ratably through payroll deductions.

g. Plan termination

The Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

3. Information certified by the custodian (unaudited)

At December 31, 2015 the Plan's assets were held by State Street Bank and Trust (the Custodian). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

	<u>2015</u>
Mutual funds	\$ 148,659
Stable value fund	359
Common Collective Trust	<u>34,689</u>
	<u><u>\$ 183,707</u></u>
Net depreciation in fair value of investments	\$ (13,467)
Interest and dividend income	<u>5,137</u>
	<u><u>\$ (8,330)</u></u>

4. Fully Benefit-Responsive Investment Contracts

The Plan entered into a benefit-responsive investment contract with Invesco Trust Company (Invesco). Invesco maintains the contributions in a general account. The stable value fund (SVF) issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the SVF is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. Contract value, as reported to the Plan by Invesco, represents contributions made under the contract, plus earnings, less participant withdrawals and applicable expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events that are not in the ordinary course of fund operations may limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe that the occurrence of any events, which would limit the Plan's ability to transact at contract value with participants, is probable. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on an agreed upon formula with the issuer.

5. Fair value measurements

Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurements (FASB ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include 1) quoted prices for similar assets or liabilities in active markets, 2) quoted prices for identical or similar assets or liabilities in inactive markets, 3) inputs other than quoted prices that are observable for the asset or liability, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective investment trust: valued at the net asset value (NAV) of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. Prohibited transactions

There were unintentional delays by the Sponsor in submitting participant contributions in the total amount of \$6,108 to the custodian in 2014. The Sponsor calculated lost earnings of approximately \$551. The plan sponsor has sent the contribution and lost earnings amount to their third party administrator and has given them authorization to debit their account for the funds. There were also delays in remitting contributions from 2017 and the 4th quarter of 2016 due to a change in payroll providers. However, the Sponsor has calculated lost earnings and authorized their third party administrator to debit their account for the contributions and earnings.
