(1) Description of Plan

The following brief description of the Pension Plan for Hourly-Paid Employees of Interbake Foods LLC, Richmond Division (the Plan) is provided for general information purposes only. Participants should refer to the plan document, including plan amendments, for more complete information.

General

The Plan was administered and sponsored by Interbake Foods LLC (the Company). The Plan was a noncontributory defined benefit pension plan covering hourly-paid employees and any other employees eligible for membership in the Paper, Allied-Industrial, Chemical & Energy Workers (PACE), Local 1553, formerly known as United Paperworkers International Union, Local No. 1553.

The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan participated in the Weston Foods US, Inc. Master Trust Fund (the Master Trust).

The Plan was funded entirely from contributions by the Company.

The Plan was periodically amended to increase the fixed monthly benefit rate. During 2016 and 2015, the monthly benefit rate in effect was $30.

During 2005, the Company approved a plan to restructure its biscuit operations and close the Richmond biscuit facility effective March 31, 2006. As a result, there were no longer active employees at the Richmond facility or new participants in the Plan as of March 31, 2006. The Plan was frozen as of March 31, 2006, and all participants became fully vested as of that date.

On September 30, 2014, the Board of Directors of Weston Foods US, Inc., voted to terminate the Plan, effective December 31, 2014 (Plan Termination).

In connection with the Plan Termination, the Plan was amended on September 30, 2014 to provide for a single-sum benefit payment option beyond the current plan maximum of $10,000 to all participants who were not yet in payment status as of December 1, 2015. This included surviving spouses of participants who had not yet commenced receiving their spousal benefits. The single-sum benefit payment option was equal to the present value of the participant's accrued benefit or in the case of the surviving spouse, the present value of the pre-retirement death benefit.

(1) Description of Plan, Continued

Plan Administration

The administration of the Plan was overseen by the Pension and Benefits Committee of Weston Foods US, Inc. (the Committee), which was appointed by the George Weston Limited (parent company) Board of Directors. The Committee had overall responsibility for the operation and administration of the Plan. The Committee determined the appropriateness of the Plan's investment offerings, monitored investment performance and reported to the Board of Directors.

- *Trustee*: The investment assets of the Plan were maintained by The Bank of New York Mellon/BNY Mellon, N.A. (the Trustee). Among other duties, the Trustee was to safekeep and account for the trust funds and make payments to eligible participants in accordance with the Plan.
- *Expenses:* Administrative expenses, such as actuarial, trust and other administrative expenses were paid from the assets of the Plan. All other expenses were paid by the Company.

Eligibility for Participation

The Plan was frozen effective March 31, 2006 and no longer accepted new participants.

Pension Benefits

Employees with at least five years of service were eligible for a monthly pension at age 62 based on their years of credited service multiplied by the fixed monthly benefit rate in effect on the date of retirement. The Plan permitted early retirement after age 55 with 30 years of service.

Terminated employees with five or more years of service were entitled to annual retirement benefits beginning at normal retirement age (62).

Employees with 15 years or more of service, who become disabled, were entitled to normal retirement benefits prior to normal retirement age.

Vesting

All participants were fully vested effective March 31, 2006 when the Plan was frozen.

Plan Termination

During 2016, the Plan purchased an annuity contract from Mass Mutual Life Insurance Company in the amount of $19,395,411, to provide for future benefits of those remaining participants. All of the Plan's assets were fully distributed by November 30, 2016.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have prepared on the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of the accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments were in funds administered by the Trustee.

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determined the Plan's valuation policies utilizing information provided by investment advisers and the Trustee. See Notes 7 and 8 for a discussion of the fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Expenses

The Plan's expenses were paid either by the Plan or the Company, as provided by the plan document. Expenses that were paid directly by the Company were excluded from these financial statements. Administrative expenses that were permitted as provided in the plan document were paid from the Master Trust assets. Certain administrative related expenses were included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets in liquidation available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through May 8, 2017, the date the financial statements were available to be issued.

(3) Funding Policy

The Company's funding policy was to make annual contributions to the Plan in amounts that were estimated to ensure all employees' benefits would be fully provided for by the time they retire. The Company made contributions of $1,193,023 for 2015. There were no contributions made in 2016 due to the Plan Termination. The Company's contributions for 2016 and 2015 exceeded the minimum funding requirements for ERISA as there were no minimum funding requirements.

(4) Plan Termination

As a result of the Plan Termination (Note 1), the net assets of the Plan were allocated, as prescribed by the plan document and ERISA and its related regulations.

As of November 30, 2016, the Plan's assets have been fully distributed to participants.

(5) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) present employees or their beneficiaries; and (c) beneficiaries of employees who have died.

(5) Actuarial Present Value of Accumulated Plan Benefits, Continued

The actuarial present value of accumulated plan benefits was determined by Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The present value of accumulated plan benefits was computed by Towers Watson as of January 1, 2015 and incorporate the impact of the Plan Termination described in Note 4. The significant actuarial assumptions used in the valuations are as follows as of January 1, 2015:

Discount rate	5.0%
Interest rate	5.0%
Average retirement age	62
Mortality	RP-2014 Mortality Table with scale MP-2014 improvements

The actuarial present value of accumulated benefits is as follows at January 1, 2015:

Vested benefits:	
Participants currently receiving payments	$ 17,252,186
Other participants	1,555,145
Actuarial present value of accumulated plan benefits at end of year	$ 18,807,331

The changes in the actuarial present value of accumulated plan benefits were as follows for the year ended January 1, 2015:

Actuarial present value of accumulated plan benefits at beginning of year	$ 19,128,995
Increase (decrease) attributed to:	
Additional benefits accumulated (including the effect of noninvestment experience)	(445,093)
Interest due to decrease in discount period	918,948
Benefits paid	(1,518,600)
Assumption changes	723,081
Net decrease	(321,664)
Actuarial present value of accumulated plan benefits at end of year	$ 18,807,331

(6) Investments (Unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Plan, as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The fair value of investments of the Plan's net assets is as follows at November 30, 2016 and December 31, 2015:

	2016	2015
Plan interest in the Master Trust	$ -	$ 18,559,474 *

*Represents 5% or more of the Plan's net assets at year end.

The Plan's share of investment income (loss) was as follows for the period ended November 30, 2016 and the year ended December 31:

	2016	2015
Plan interest in the Master Trust income (loss)	$ 518,275	$ (456,403)

(7) Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

(7) Fair Value Measurements, Continued

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2016 and 2015.

Plan's interest in the Master Trust: See Note 8 for valuation methodology.

The methods described in Note 8 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(8) Interest in the Master Trust (Unaudited)

The Plan's investments were held in the Master Trust, which was established for the investment of assets of the Plan and another Weston Foods US, Inc. sponsored retirement plan. Each participating retirement plan had an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. The administration of the Plan was overseen by the Committee.

(8) Interest in the Master Trust (Unaudited), Continued

The value of the Plan's interest in the Master Trust was based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. At December 31, 2015, the Plan's interest in the net assets of the Master Trust was approximately 40%. Investment income (loss) and administrative expenses relating to the Master Trust were allocated to the individual plans based upon average monthly balances invested in each plan.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Master Trust, as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The Trustee has certified to the accuracy and completeness of the investment in the net assets of the Master Trust as of November 30, 2016 and 2015, and the investment income (loss) for the years then ended, as summarized below.

The following table presents the assets, including investments of the Master Trust as of December 31, 2015:

U.S. government securities	$ 20,193,504
Common collective trust funds	27,012,910
	47,206,414
Receivables from investment income, and securities sold	107,073
	47,313,487
Payable for securities purchased	(1,310,501)
Total Master Trust investments	$ 46,002,986

(8) Interest in the Master Trust (Unaudited), Continued

Investment income (loss) for the Master Trust was as follows for the period ended November 30, 2016 and year ended December 31, 2015:

	2016	2015
Interest income	$ 139,560	$ 540,430
Dividend income	197	747
Net appreciation (depreciation) in fair value of investments:		
U.S. government securities	246,491	(255,755)
Common collective trust funds	973,671	(1,313,454)
	$ 1,359,919	$ (1,028,032)

Following is a description of the valuation methodologies used for assets measured at fair value held by the Master Trust.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Common collective trust: Valued at the NAV of units of a trust company collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. It the Plan was to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2015:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
U.S. government securities	$ 20,193,504	$ -	$ -	$ 20,193,504
Common collective trust funds:				
Fixed income fund	-	25,052,621	-	25,052,621
Other funds	-	1,960,289	-	1,960,289
Total common collective trust funds	-	27,012,910	-	27,012,910
Total assets at fair value	$ 20,193,504	$ 27,012,910	$ -	$ 47,206,414

(9) Related Party Transactions and Party-In-Interest Transactions

During 2015, administrative expenses of $147,948, include fees paid to the Trustee and other service providers, as well as the PBGC expenses. The Trustee was a party-in-interest to the Plan. Fees incurred by the Plan for the investment management services were included in net appreciation (depreciation) in fair value of investments.

The Plan does not consider employer contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(10) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 15, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan was designed and was currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified and the related trust was tax exempt.
