INDEPENDENT AUDITORS' REPORT

To the Benefits Committee and Participants of the Veyance Technologies, Inc. Defined Benefit Plan:

We were engaged to audit the accompanying financial statements of the Veyance Technologies, Inc. Defined Benefit Plan (the "Plan"), which comprise the statement of net assets available for benefits as of July 31, 2016, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with generally accepted auditing standards in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by PNC Bank, N.A., State Street Bank and Trust Company and KeyBank National Association (collectively, the Trustees of the Plan), except for comparing the information with the related information included in the 2016 financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the Trustees as of and for the year ended July 31, 2016, that the information provided to the plan administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion on the 2016 financial statements. Accordingly, we do not express an opinion on the 2016 financial statements.

Emphasis of Matter

As discussed in Note 2 to the financial statements, the Plan has elected to apply the early adoption provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement: Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share and FASB ASU 2015-12, Plan Accounting: (Part II) Plan Investment Disclosures. Our opinion is not modified with respect to that matter.

Other Matter - Supplemental Schedules

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended July 31, 2016 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Other Matter - 2015 Financial Statements

The financial statements of the Plan as of and for the year ended July 31, 2015, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the Trustees. Their report, dated May 6, 2016, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion and, accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustees, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with the DOL's Rules and Regulations 2016

The form and content of the information included in the 2016 financial statements and supplemental schedules, other than that derived from the information certified by the Trustees, have been audited by us in accordance with generally accepted auditing standards in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Assumptions for August 1, 2015 Funding Valuation****Discount rate sponsor elections**

• Segment rates or full yield curve	Segment		
• Look-back months	4		
		Stabilized	Nonstabilized
• First 5 years		4.72%	1.26%
• Next 15 years		6.11%	4.07%
• Over 20 years		6.81%	5.13%

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits.

Other economic assumptions

• Expected investment return	7.55% for 2013 and 6.20% for 2014 6.20% for 2015
• Expenses	\$200,000 has been added to the normal cost

Rationale for Economic Assumptions

- Expected investment return – The expected rate of return on plan assets is based on a blend of 25% of the hypothetical past performance of the plan's target asset mix (adjusted for anticipated market conditions over the life of the plan) and 75% of the median simulated 20-year investment return for the plan's target asset mix using capital market assumptions published in Mercer Investment Consulting's *Capital Markets Outlook* and rounded to the nearest 10 basis points. Historical and median results are adjusted to reflect a 20 basis point reduction for passive asset management costs. Realization of future alpha for active investment management, if applicable, is assumed to be offset by additional investment services fees associated with such active management.
- Discount rate – The discount rate is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.

Demographic assumptions

• Withdrawal	Select and ultimate rates. See table of sample rates.
• Disability incidence	Based on rates from the 1985 pension disability table (class 2), sex distinct. See table of sample rates. 60% of participants becoming disabled are assumed to be eligible for Social Security disability benefits.

Rationale for Demographic Assumptions

- Mortality – Prescribed assumption and based on plan sponsor's PPA election.
- Withdrawal – The withdrawal rates are based on an experience study undertaken in 2015 using data from 2012 through 2014.
- Retirement – The retirement rates are based on an experience study undertaken in 2015 using data from 2012 through 2014.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods for Funding*****Asset Methods***

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
- The **Temporary Early Retirement Supplement (TERS)** has benefits not based on accrued benefit or service. Benefits not based on accrued benefit or service are attributed by the ratio of years of service at the valuation date divided by the years of service at the time of the event that causes the benefit to be payable in accordance with final PPA regulations.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by the Pension Protection Act of 2006 (PPA) took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial Assumption Changes Since Prior Valuation

Funding

The following assumption change has occurred since the August 1, 2014 valuation.

- Administrative expenses added to normal cost changed from \$35,000 to \$200,000 to reflect our expectations for the current year.
- Current vested deferred participants' form of payment was updated to assume 70% elect the 50% joint & survivor optional form of payment to better reflect future expectations.
- The withdrawal decrement was updated to reflect actual experience determined in the most recent experience study dated December 2015.
- The retirement decrement was updated to reflect the actual experience in the most recent experience study dated December 2015.
- The commencement age for current and future deferred participants was changed from age 65 to age 62 to reflect actual experience.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Each employee is assumed to retire in accordance with the table of retirement rates. The proportion of employees expected to retire at each potential retirement age is shown below. The first set of rates apply to 948 employees with less than 30 years of service as of August 1, 2015 while the second set of rates apply to the 217 employees with 30 or more years of service as of August 1, 2015. The average retirement age is 62.

Miscellaneous	
• Maximum compensation	Employee may elect immediate distribution in the event of involuntary termination or layoff. Benefit is actuarially reduced accrued benefit.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2015, the limit is \$215,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, restated as of June 4, 2015, are included in this valuation:

- **Most recent plan amendments included:** The restated plan as of June 4, 2015 is included because it was adopted by the prior valuation date and is effective by the end of the prior plan year.
- **Plan amendments excluded:** None
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding***Additional Benefits Included or Excluded***

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** This valuation does not value the plan's unpredictable contingent event benefits, which are summarized below, because the likelihood of an event is de minimis.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2014 to 2015.

INDEPENDENT AUDITORS' REPORT

To the Benefits Committee and Participants of the Veyance Technologies, Inc. Defined Benefit Plan:

We were engaged to audit the accompanying financial statements of the Veyance Technologies, Inc. Defined Benefit Plan (the "Plan"), which comprise the statement of net assets available for benefits as of July 31, 2016, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with generally accepted auditing standards in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by PNC Bank, N.A., State Street Bank and Trust Company and KeyBank National Association (collectively, the Trustees of the Plan), except for comparing the information with the related information included in the 2016 financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the Trustees as of and for the year ended July 31, 2016, that the information provided to the plan administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion on the 2016 financial statements. Accordingly, we do not express an opinion on the 2016 financial statements.

Emphasis of Matter

As discussed in Note 2 to the financial statements, the Plan has elected to apply the early adoption provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement: Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share and FASB ASU 2015-12, Plan Accounting: (Part II) Plan Investment Disclosures. Our opinion is not modified with respect to that matter.

Other Matter - Supplemental Schedules

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended July 31, 2016 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Other Matter - 2015 Financial Statements

The financial statements of the Plan as of and for the year ended July 31, 2015, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the Trustees. Their report, dated May 6, 2016, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion and, accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustees, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with the DOL's Rules and Regulations 2016

The form and content of the information included in the 2016 financial statements and supplemental schedules, other than that derived from the information certified by the Trustees, have been audited by us in accordance with generally accepted auditing standards in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

VEYANCE TECHNOLOGIES, INC. DEFINED BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED JULY 31, 2016 AND 2015

1. PLAN DESCRIPTION

The following description of the Veyance Technologies, Inc. Defined Benefit Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - On August 1, 2007, Veyance Technologies, Inc. (the "Employer") was acquired from the Goodyear Tire & Rubber Company. The Board of Directors of the newly formed company entered into a pension, insurance and service award agreement with the United Steel Workers and the Local Unions thereof effective August 1, 2007. In January 2015, the Employer was acquired by Continental ContiTech. The Employer continues to operate under the name ContiTech AG. The Plan is administered by the Employer's Benefits Committee. The Benefits Committee has overall responsibility for the operation and administration of the Plan. The Benefits Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan is a defined benefit plan, which became effective August 1, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers all bargaining employees of the Employer who have at least one hour of service, excluding leased or new hire employees. New hire employees are employees hired by the Goodyear Tire and Rubber Company after December 22, 2006 or by the Employer after July 31, 2007, who shall be in a job classification other than technical maintenance. Individuals employed by the Goodyear Tire & Rubber Company prior to the acquisition of the Employer were eligible to carry forward their continuous years of service incurred at the Goodyear Tire & Rubber Company. The Plan provides for pension, death, disability, service and separation benefits calculated under formulas principally based on length of service. Participants may elect to receive their pension benefits in a normal retirement annuity or a joint and survivor annuity.

Normal retirement age is 65; however, early retirement provisions are available to participants who have attained age 55 and have completed at least 10 years of continuous service, or to participants who have completed at least 30 years of service.

Master Trust - Effective January 1, 2016, the Continental Automotive, Inc. Master Trust's (the "Master Trust") agreement was amended to permit the assets of the Plan to be maintained, for investment purposes only, on a commingled basis with the assets of the Pension Plan for Hourly-Paid Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Pension Plan for Salaried Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Continental NA Pension Plan, the Continental NA Automotive Union Pension Plan (Huntsville) and the Pension Plan for Hourly Employees of Continental NA Automotive (collectively, the "Participating Plans") in the Master Trust. These plans do not own specific assets of the Master Trust, but rather a proportionate beneficial interest or investment percentage. Accordingly, each plan's investment percentage changes regularly, based on daily transactions specific to each plan. Investment income for each fund is allocated to each plan based on the relationship of each plan's beneficial interest in the fund to the total beneficial interest of all plans in the fund.

Vesting - A participant is 100% vested after five years of credited service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Assets Value per Share (or Its Equivalent), which exempts investments measured using the net asset value ("NAV") practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016 for nonpublic entities. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the standard was retrospectively applied and has no impact on the comparability of the financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Plans (Topic 960): Part (II) Plan Investment Disclosures. This standard simplifies employee benefit plan reporting with respect to plan investment disclosures. Part II is effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early adoption permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the standard was retrospectively applied and has no impact on the statements of net assets available for benefits or the statements of changes in net assets available for benefits.

Use of Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosure of fair value measurements.

Effective January 1, 2016, the Plan began participating in the Master Trust to hold the investment assets. Investments, and the income therein, are allocated to the Plan based on the Plan's participation in investment options within the Master Trust. Accordingly, the Plan's investment gain for the year ended December 31, 2016, includes its allocable share of the Master Trust's interest and dividend income and net appreciation in fair value of investments since January 1, 2016.

Prior to participating in the Master Trust, the Plan's purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation in fair value of mutual funds included the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions and Funding - The Plan's funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. Annual employer contributions to the Plan are made based upon actuarially determined amounts, calculated by the Plan's actuary, subject to a floor of \$5,500,000 per the Employer's agreement with the United Steelworkers of America. For the years ended July 31, 2016 and 2015, the Employer made contributions of \$6,350,000 and \$5,500,000, respectively. The Employer's contributions for the years ended July 31, 2016 and 2015 exceeded the minimum funding requirements of ERISA.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Employer, as provided by the plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in the Plan interest in the Master Trust's income and net depreciation in fair value of mutual funds presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events - In preparing the financial statements, the plan administrator has evaluated subsequent events through May 11, 2017, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEES

The following is a summary of the Plan's investment information as of July 31, 2016 and 2015, and for the years then ended, included in the financial statements and supplemental schedules, that was prepared by, or derived from, information prepared by PNC Bank, N.A. for the period from August 1, 2014 through December 31, 2015, State Street Bank and Trust Company ("State Street") for the period from January 1, 2016 through July 31, 2016 and KeyBank National Association ("KeyBank") for the period from January 1, 2016 through July 31, 2016 (collectively, the Trustees of the Plan), and furnished to the plan administrator. The plan administrator has obtained certifications from the Trustees that such information is complete and accurate as of and for the years ended July 31, 2016 and 2015.

4. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles in the United States of America provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under generally accepted accounting principles in the United States of America are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and the Plan have the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <p style="padding-left: 40px;">Quoted prices for similar assets or liabilities in active markets;</p> <p style="padding-left: 40px;">Quoted prices for identical or similar assets or liabilities in inactive markets;</p> <p style="padding-left: 40px;">Inputs other than quoted prices that are observable for the asset or liability;</p> <p style="padding-left: 40px;">Inputs that are derived principally from or corroborated by observable market data by correlation or other means.</p> <p style="padding-left: 40px;">If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of July 31, 2016 and 2015.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Master Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of July 31, 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Interest-bearing cash: Valued at the ending cash balance plus any accrued interest held by the Plan as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the Master Trust and Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of July 31, 2016, excluding the Plan's interest in the Master Trust:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Interest-bearing cash	\$ <u>229,120</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>229,120</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of July 31, 2015:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 62,254,273	\$ -	\$ -	\$ 62,254,273

5. INTEREST IN MASTER TRUST

Effective January 1, 2016, the assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Participating Plans in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. As of July 31, 2016, the Plan's interest in the net assets of the Master Trust was approximately 8%. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

The following is a summary of the net assets of the Master Trust as of July 31, 2016 and for the period from January 1, 2016 through July 31, 2016, that was prepared by, or derived from, information prepared by State Street and furnished to the plan administrator. The plan administrator has obtained a certification from State Street that such information is complete and accurate for the period from January 1, 2016 through July 31, 2016.

Investments:

Collective trust funds	<u>\$ 987,622,452</u>
------------------------	-----------------------

Plan interest in the Master Trust	<u>\$ 78,206,510</u>
-----------------------------------	----------------------

The following are the changes in net assets for the Master Trust for the period from January 1, 2016 through July 31, 2016.

Investment income:

Net appreciation in fair value of collective trust funds	\$ 96,466,550
Net transfers	<u>20,616,473</u>
Change in net assets	<u>\$ 117,083,023</u>

Net assets:

Beginning of year	<u>\$ 870,539,429</u>
-------------------	-----------------------

End of year	<u>\$ 987,622,452</u>
-------------	-----------------------

See Note 4 for disclosure of the valuation methodologies used for investments of the Master Trust.

As of July 31, 2016, all investments held by the Master Trust are collective trust funds, which are valued at the NAV of units held by the Plan at year-end. In accordance with ASU 2015-07, the requirement to categorize investments within the fair value hierarchy for which fair value is measured using the NAV per share practical expedient has been removed. Accordingly, as of July 31, 2016, no investments held by the Master Trust are required to be categorized within the fair value hierarchy. See Note 4 for disclosure of the valuation methodologies used for investments of the Master Trust.

6. RISKS AND UNCERTAINTIES

The Master Trust's and the Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the accompanying statements of net assets available for benefits.

7. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Employer by a letter dated March 11, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Generally accepted accounting principles in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan, pending approval of applicable requirements under the collective bargaining agreements, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan's termination.
- Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Any funds remaining after the satisfaction of all liabilities under the Plan with respect to participants, transferred retirees or their beneficiaries shall be returned to the Employer. In the event of a partial termination of the Plan, the interests in the Plan of all participants affected by such partial termination shall be fully vested and non-forfeitable to the extent funded as of the date of such partial termination.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer and the level of benefits guaranteed by the PBGC.

9. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain investments of the Master Trust and the Plan are managed by the Trustees, as defined by the master trust agreement and plan document, and therefore, these transactions qualify as exempt party-in-interest transactions. The Trustees receive investment and administrative fees as a result of these activities. Certain other third party administrative expenses were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party-in-interest transactions.

10. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of August 1, 2015. Had the valuation been performed as of July 31, 2015 there would be no material differences. The significant actuarial assumptions used in the valuations as of July 31, 2015 were:

Discount rate	4.40%
Mortality basis after normal retirement age	Adjusted RP-2014 mortality, sex distinct, generational projection with scale MP-2015, blue collar adjustments
Assumed retirement date	Age 62
Expected long-term return on assets	4.40%, net of expenses

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of July 31, 2015 is as follows:

Vested benefits:	
Active participant	\$ 65,370,500
Inactive participants with deferred benefits	1,992,755
Inactive participants receiving benefits	<u>23,577,252</u>
Total vested benefits	90,940,507
Actuarial present value of nonvested benefits	<u>16,583,359</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 107,523,866</u>

The change in the actuarial present value of accumulated plan benefits during the year ended July 31, 2015 is as follows:

Actuarial present value of accumulated plan benefits as of beginning of year	<u>\$ 96,335,734</u>
Increase (decrease) attributed to:	
Benefits accumulated and losses	8,609,122
Increase for interest due to decrease in discount period	4,299,243
Benefits paid	(1,471,386)
Change in actuarial assumptions	(4,704,860)
Change in plan provisions	<u>4,456,013</u>
Net increase	<u>11,188,132</u>
Actuarial present value of accumulated plan benefits as of end of year	<u>\$ 107,523,866</u>
