Notes to Financial Statements

March 24, 2014

1. Description of the Plan

General

The MGC Enterprises, LLC 401(k) Profit Sharing Plan (the “Plan”) was a defined contribution plan available to all employees of MGC Enterprises, LLC (the “Plan Sponsor”). Participation in the Plan was strictly voluntary, and employees could elect to participate on the first of January or July after attainment of age 21 and completion of 1,000 hours of eligible service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan Sponsor was responsible for the administration of the Plan and entrusted the maintenance of records and the day-to-day administration to PAi Trust Company (the “Custodian”).

The Plan Sponsor merged the Plan into the ROA 401(k) Plan, a multiple employer plan, as of March 24, 2014.

Contributions

Participating employees could defer 401(k) contributions up 90% of their compensation, subject to the Internal Revenue Service (“IRS”) limitations. In addition, participants who had attained the age of 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified plans; there were no participant rollovers to the Plan in 2014.

The Plan Sponsor made enhanced safe harbor matching contributions to the Plan of 100% of the first 4% of employee deferrals. The Plan Sponsor may also make discretionary qualified nonelective contributions. During 2014, the Plan Sponsor did not make discretionary qualified nonelective contributions.

Participant contributions to the Plan were made through periodic payroll deductions. The participant contributions and Plan Sponsor safe harbor matching contributions were remitted to PAi after each payroll. Discretionary qualified nonelective contributions, if any, are remitted annually. Receivables from the Plan Sponsor for contributions, if any, were unsecured.

Participant Accounts

Participants could allocate their employee and Plan Sponsor contributions among various investment options offered by PAi. Participants had the opportunity to change the investment options previously elected at any time.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts (continued)

Each participant's account was credited with the participant's contributions, the Plan Sponsor's safe harbor matching contributions, discretionary qualified nonelective contributions and Plan earnings or losses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's account.

Investments

The Plan's investments were invested in funds offered by PAI. The maximum loss, if any, that would be incurred by the Plan if the counterparties to the Plan's investments failed to perform was the recorded amount of such investments.

The Plan's investments in mutual funds were stated at fair value based on the last reported sales price for the year. In accordance with the policy of stating investments at fair value, net appreciation or depreciation in the fair value of investments was reflected in the Statement of Changes in Net Assets Available for Benefits. This includes all investments bought or sold, as well as held, during the year.

Participant Notes Receivable

Participants were able to borrow part of the value of their before-tax contributions from the Plan. The amount was required to be at least \$1,000 and not more than half of the vested value of their account, limited to \$50,000. The note was secured by the participant's remaining vested account balance. The notes were required to bear interest and to be repaid over periods not exceeding five years, except for those utilized for the acquisition or improvement of a qualified principal residence, which must have been repaid over a reasonable period of time.

Participant notes receivable were measured at unpaid principal balance plus any accrued but unpaid interest.

Upon default of participant notes receivable, the entire outstanding principal and interest was immediately due and payable. If a distributable event, as defined by the Internal Revenue Code ("IRC"), had occurred, the note receivable was foreclosed on and offset against the participant's account balance. If a participant's note receivable was in default, the participant was treated as having a taxable deemed distribution whether or not a distribution event had occurred.

1. Description of the Plan (continued)

Payment of Benefits

If the participant's vested benefit in the Plan did not exceed \$1,000 at the time of termination of employment, then the participant's benefit must have been distributed in a single lump-sum payment as soon as administratively feasible. If the participant's vested benefit in the Plan exceeded \$1,000 at the time of termination of employment, the participant could elect to either maintain their account in the Plan, receive a lump-sum distribution or rollover their account balance into another individual retirement account. Participants could also withdraw their vested account balances at any time on or after the age of 59½, or upon retirement, death, or disability.

Vesting

Participants were immediately vested in their voluntary contributions, Plan Sponsor safe harbor contributions and discretionary qualified nonelective contributions, plus actual earnings on these contributions.

Summary Plan Description

The foregoing description of the Plan provided only general information. Additional information related to the Plan was included in the MGC Enterprises, LLC 401(k) Profit Sharing Plan Summary Plan Description. Copies of this publication are available from the Plan Sponsor.

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plan were maintained on the accrual basis, as were annual returns filed under applicable provisions of ERISA and the IRC.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Benefit Payments

Benefits were recorded when paid.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Administrative Expenses

Fees for legal, accounting and other administration were paid by the Plan Sponsor.

Subsequent Events

In preparation of the accompanying financial statements, subsequent events that have occurred since the statement of net assets available for benefits date have been evaluated through May 31, 2017, the date the financial statements were available for issuance.

3. Income Tax Status

The IRS has ruled the volume submitter plan from which the Plan was prepared qualifies under provisions of the IRC and is, therefore, not subject to tax under present income tax law. Although the Plan has been amended since receiving the advisory letter, the Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualification status and believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 24, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2010.

4. Certified Information (Unaudited)

PAi, the Custodian, held the Plan's investment assets and executed transactions therein. Financial information relating to those assets is included in the accompanying financial statements based on information provided to the Plan administrator and certified as complete and accurate by PAi. That information, which has not been audited by independent auditors, is summarized below for the period ended March 24, 2014:

	Net Appreciation in Fair Value During Period	Fair Value at End of Period
Investments – mutual funds	\$7,895	\$ –

Interest earned on participant notes receivable totaled \$175 in 2014.

5. Investments

The fair value of individual investments that represented 5% or more of the Plan's net assets were as follows as of December 31, 2013:

6. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Quoted prices in active markets for identical assets.
- Level 2 Significant other observable inputs.
- Level 3 Significant unobservable inputs.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value:

Mutual Funds: Valued at the net asset value ("NAV") of the shares, which have quoted prices on the active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the fair value of the Plan's investments as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Mutual Funds:				
High Yield Bond	\$ 176,249	\$ —	\$ —	\$ 176,249
Small Growth	363,881	—	—	363,881
Large Value	270,186	—	—	270,186
Foreign Small/Mid Blend	234,253	—	—	234,253
Mid Cap Blend	42,253	—	—	42,253
Moderate Allocation	12,906	—	—	12,906
Money Market	27,251	—	—	27,251
Total assets at fair value	<u>\$1,126,979</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$1,126,979</u>

7. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
