Notes to Financial Statements

1. Description of the Plan

The following description of the JAG Healthcare, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing plan covering substantially all employees of JAG Healthcare, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

An employee is eligible to participate in the Plan upon completion of one year of service and attaining the age of 21.

Contributions

Subject to Plan limitations and those limitations under the Internal Revenue Code (IRC), participants may contribute up to 25% of their pretax earnings (as defined). In order to meet these limitations, contributions by employees representing the top 20% in pay are limited to 10% of base pay (as defined).

The Plan includes an automatic salary deferral feature. Unless a participant makes an alternative salary deferral election, the Company will automatically withhold 2% of their compensation from each payroll period and contribute this amount to the Plan as a pre-tax deferral. A participant is given a reasonable period to affirmatively elect a different percentage or elect not to make elective deferral contributions.

At its discretion, the Company may contribute an amount equal to 50% of participants' contributions up to 3% of their earnings. These contributions are allocated among the investment funds available in the same proportion as elected by the participants. There were no discretionary matching contributions during the years ended December 31, 2015 or 2014.

Contributions are invested at the election of the participants in funds maintained by the Plan's trustee, State Street Bank and Trust. Participants may elect to have contributions allocated between funds.

Participant Accounts

Each participant's account is credited with the participant and Company discretionary matching contributions, as well as an allocation of Plan earnings and losses. Allocation of the earnings and losses is based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Additionally, participants elect to maintain their accounts in a combination of investment funds. Separate accounting for each of the participants' funds is maintained pursuant to the participant's designated election.

JAG Healthcare, Inc. 401(k) Plan

Notes to Financial Statements

Vesting

A participant always has a nonforfeitable interest in that portion of Plan assets attributable to his or her contributions. However, a participant shall become fully vested in Company discretionary matching contributions as follows:

Years of Service	Vested Percentage
1 year	0%
2 years	0%
3 years	100%

Payment of Benefits

Participants are eligible to receive distributions from their accounts at the normal retirement age (age 65), disability, death or termination of employment. Participants receive the value of their vested account balance in the form of a single-sum payment or installments. Additionally, participants are entitled to apply for hardship withdrawals and, after attaining age 59 ½, may receive in-service distributions. With respect to distributions, if the vested balance is greater than \$1,000 and less than \$5,000, and the participant does not make an election to either receive or to roll over the distribution, the distribution must be rolled over to an IRA. If the vested balance is \$1,000 or less, the form of distribution remains as a single lump-sum payment.

Forfeitures

The Plan allows forfeited nonvested amounts to be used to reduce any Company discretionary matching contributions to the Plan to the extent they are not used to pay Plan administrative expenses. At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$5,037 and \$3,173, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts an amount up to a maximum equal to the lesser of \$50,000 or 50% (minimum loan amount of \$500) of their vested account balance. Note terms range from one month to five years, unless the note was used for the purchase of a primary residence. The notes are secured by the balance in the participant's account. The notes bear interest at a rate commensurate with bank prevailing rates as determined quarterly by the plan administrator. The interest rate was 4.25% as of December 31, 2015 and 2014. Principal and interest is paid through payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

JAG Healthcare, Inc. 401(k) Plan

Notes to Financial Statements

Valuation of Investments

The Plan's investments in mutual funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Costs of administering the Plan are paid by the Plan or the Company, as determined by the Company, subject to limitations under ERISA.

Risks and Uncertainties

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported increases and decreases of net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets

JAG Healthcare, Inc. 401(k) Plan

Notes to Financial Statements

categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2016. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2017. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update in the 2014 Plan year. The impact of adopting this update is reflected in Note 4.

In July 2015, the FASB issued ASU No. 2015-12, *Pension Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – Consensus of the Emerging Issues Task Force*. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, *Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets*. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan adopted this update in the 2014 Plan year. The impact of adopting this update is reflected in Note 4.

Evaluation of Subsequent Events

The Plan's administrator has evaluated subsequent events through October 17, 2016, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and/or disclosed in the notes.

3. Investments/Notes Receivable from Participants (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2015 and 2014 that the information provided by them is complete and accurate. Information included in the accompanying financial statements and supplemental schedule as to investments, net appreciation (depreciation), notes receivable from participants and investment income is presented solely in reliance upon those certifications.

4. Fair Value Measurements

The Plan follows the provisions of *Fair Value Measurements and Disclosures*, which provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

JAG Healthcare, Inc. 401(k) Plan

Notes to Financial Statements

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2015 and 2014.

Registered Investment Companies - Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust

The common/collective trust is valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The funds objective is to maintain stability of principal through underlying assets which maintain an average S&P credit quality. Participant transactions (purchases and sales) may occur daily. All other withdrawals of assets may be delayed for up to twelve months at the sole discretion of the trustee.

The valuation methodologies used for assets measured at fair value may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

JAG Healthcare, Inc. 401(k) Plan

Notes to Financial Statements

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

<i>December 31, 2015</i>	Fair Value Measurement at Reporting Date Using

* In accordance with ASC 820-10, certain investments that are measured at NAV (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

6. Tax Status of the Plan

The Plan uses a prototype plan document sponsored by ADP Retirement Services (ADP). ADP received an opinion from the Internal Revenue Service (IRS), dated March 31, 2008, which states that the prototype plan document satisfies the provisions of Section 401 of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the prototype plan document. Therefore, no provision for income taxes has been included in the Plan's financial statements.

JAG Healthcare, Inc. 401(k) Plan

Notes to Financial Statements

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Party-in-Interest Transactions

Certain Plan investments are mutual funds managed by the trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees are paid to the trustee for these services.
