We have audited the accompanying financial statements of Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan's net assets available for benefits as of December 31, 2013 and changes therein for the year then ended, and its financial status as of December 31, 2012 and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

Note 1 - Description of the Plan

The following description of the Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Organization

In 2013, Longview Fibre Paper and Packaging, Inc. was acquired by Kapstone Paper and Packaging Corporation (the "Company"). The name of the Plan was retained. The Company maintains the Plan and the Longview Fibre Paper and Packaging, Inc. Union Hourly Retirement Plan (the "Retirement Plan"), which are both defined benefit plans. The purpose of the Plan is to provide pension benefits for all salaried and non-bargaining union employees. Pension benefits payable under the Plan are reduced by any benefits due while a member of the Retirement Plan.

The assets of the Plan and the Retirement Plan are included in the Longview Fibre Paper and Packaging, Inc. Master Trust (the "Master Trust"), which is administered by Wells Fargo Bank, N.A. ("Wells Fargo") and the McDermott Trust. The McDermott Trust is administered by an officer of the Company. The McDermott Trust was established on April 7, 1988, to allow the Company to invest Plan assets in more than one trust. Under the terms of the two trust agreements, the trustees act as custodians of the trusts assets. The Plan is administered by a Pension Committee appointed by the Board of Directors of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension Benefits

The Plan provides for annual pension benefits at normal retirement age (65), at retirement after age 65, or at a reduced amount as early as age 55 when certain service requirements are met. The amount of benefits is generally calculated based on length of service and specified unit benefits, compensation earned during the years participants are members of the Plan, or length of service and average compensation for the highest five of the last ten years of service. The Plan also provides certain minimum and maximum pension benefits. Under conditions specified in the plan agreement, a participant may elect to receive pension benefits in the form of a joint and survivor annuity.

In most instances, a death benefit of \$1,000 will be paid to the beneficiary on the death of a retired participant. Generally, if a participant becomes disabled and has completed a 15-year period of service, but before normal retirement age, the participant will receive benefits based on benefit service and average ending compensation as of the earlier of the termination date or December 31, 2010, and without any reduction for early commencement.

Employees' Pension Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

Note 1 - Description of the Plan (continued)

Pension Benefits (continued)

Certain benefits are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. The PBGC typically guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Eligibility and Vesting

Eligible employees employed by the Company prior to January 1, 2009 who completed one year of continuous service with at least 870 hours of service are eligible participants in the Plan. Beginning January 1, 2009 all employees who are eligible as described above are participants of the Plan on the first day of the first pay period that begins after a 30-day period of employment.

Participants' benefits in the Plan become fully vested upon completion of three years of qualified service. If termination occurs before rendering three years of service, the right to receive the portion of accumulated plan benefits attributable to the Company's contributions is forfeited. If the employment service resumes and five consecutive one-year breaks in service do not occur, membership in the Plan will be immediate. Participants who terminated employment during the period that commenced on April 20, 2007, and ended on September 30, 2008, have a 100 percent vested nonforfeitable right to his or her entire accrued benefit.

A participant who receives an Early Retirement Benefit shall receive a temporary monthly benefit payable from the participant's early retirement date until the first day of the month that precedes the date the participant attains age 65 or dies, whichever is earlier, provided that as of December 31, 2008 (i) the participant had attained the age of 45 and had a Period of Service of five or more years and (ii) the participant did not attain age 50 and have a Period of Service of ten or more years.

Funding Policy

Provisions of the Plan provide that the Company makes contributions of amounts designated by a qualified actuary to be adequate to fund the Plan on a sound actuarial basis. The actuary utilizes the entry age normal cost method with frozen initial liability. The Plan has met the "full funding limitation" as defined by Internal Revenue Code ("IRC") Section 412(c)(7). As a result, the Company made no contributions to the Plan for the years ended December 31, 2013 and 2012 for current or prior service costs.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 1 - Description of the Plan (continued)

Disposition of Funds Upon Termination of the Plan

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. To provide for refunds of voluntary contributions made by active and retired members;
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the PBGC up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Payments may be made in lump sums, annuities or as otherwise determined by the Pension Committee.

Plan Amendment

There were two administrative amendments to the Plan during the year ended December 31, 2013, both of which were adopted after the date of the actuarial valuation and did not affect the benefits included in the valuation.

Note 2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Longview Fibre Paper and Packaging, Inc.
Employees' Pension Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis in the period which it is earned. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Concentration of Credit Risk

The Plan maintains its cash balance at Bank of America, N.A. This balance is insured by the Federal Deposit Insurance Corporation up to \$250,000. At various times during the year, deposits in the account exceeded the FDIC coverage. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on its cash balances.

Plan Expense

A portion of the Plan's administrative expenses are paid by the Company. As provided in the Plan agreement, all other administrative expenses are paid by the Plan.

Employees' Pension Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (continued)

Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated January 23, 2013, that the Plan and related trusts are designed in accordance with applicable sections of the IRC. Although the Plan has been amended, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Allocation of Master Trust Assets

Investments, cash, interest receivable and the Plan's interest in unrealized appreciation (depreciation) on the valuation of investments at current fair value are generally allocated based on cumulative contributions to the Plan, plus realized investment income (loss), less cumulative benefit payments and contribution refunds since inception. Realized investment income (loss) is allocated to the Plan generally based on the average funds deposited and invested by each plan with the trustee during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The type and amount of benefits are defined by the Plan document and vary by location. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an actuary from Milliman, Inc. at January 1, 2013 and Buck consultants at January 1, 2012 and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2013 and 2012 were (a) life expectancy of participants, (b) retirement age assumptions based on a table of anticipated rates of retirement at each of the ages at which retirement eligibility occurs, and (c) expected long-term rate of return on Plan assets. Life expectancy of participants was based on versions of the RP 2000 Table. The January 1, 2013 and 2012 valuations included an expected long-term rate of return on Plan assets of 6.0%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The interest rates and mortality tables were updated since January 1, 2012 to reflect changes in accordance with Pension Protection Act of 2006 ("PPA"). The effective interest rate for the January 1, 2013 valuation date of 4.84% decreased from the rate used for the January 1, 2012 valuation of 6.96%. The discount rate increased from 6.00% in 2012 to 7.00% in 2013.

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

Note 3 - Actuarial Present Value of Accumulated Plan Benefits

Participants' interests in the Plan are actuarially determined as of the beginning of each plan year. The present value of obligations for Plan benefits is determined to be the present value of retirement benefits accumulated by participants during the current and prior years to be paid at or during retirement, less benefits forfeited or previously paid. The determination is made using a 7.0% interest rate per annum and the RP-2000 Combined Mortality Table.

Accumulated Plan benefits as of January 1, 2013, the valuation date, are summarized as follows:

	<u>2013</u>
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 117,418,973
Other participants	<u>62,299,802</u>
Total vested benefits	179,718,775
Non-vested benefits	<u>3,570,625</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 183,289,400</u></u>

The changes in accumulated Plan benefits for the year ended January 1, 2013 are as follows:

	<u>Year ended January 1, 2013</u>
Actuarial present value of accumulated plan benefits at January 1, 2012	\$ 194,685,333
Increase (decrease) during the year attributable to:	
Benefits accumulated	4,226,780
Benefits paid	(15,040,243)
Plan amendments	1,188,871
Change in actuarial assumptions	(18,802,419)

Note 5 – Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a three-level hierarchy for disclosure of assets and liabilities recorded at fair value. The classification of assets and liabilities within the hierarchy is based on whether the inputs to the valuation methodology used for measurement are observable or unobservable. Observable inputs reflect market-derived or market-based information obtained from independent sources while unobservable inputs reflect estimates about market data. The level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 – Level one inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date. An active market is one in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Longview Fibre Paper and Packaging, Inc.
Employees' Pension Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

Note 5 – Fair Value Measurements (continued)

Level 2 – Level two inputs are inputs other than quoted prices included within level one that are observable for the asset or liability, either directly or indirectly, at the measurement date. Fair value is determined through the use of models or other valuation methodologies. Such methodologies include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level two inputs must be observable for substantially the full term of the asset or liability.

Level 3 – Level three pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

Following is a description of the valuation methodologies used for assets measured at fair value for the Master Trust. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Cash equivalents: Valued at amortized cost, which approximates fair value.

Equity securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds and notes, U.S. government securities and municipal bonds: Valued at the closing trade price on day of valuation based on information from third-party pricing services as obtained by Wells Fargo.

Mortgage backed securities: Valued using quotations from an independent pricing service which may employ methodologies that utilize actual market transactions, actual quotations from broker-dealers, or other formula-driven valuation techniques, which consider factors such as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions.

Real estate investment trust: The underlying holdings of this investment are in diversified real estate assets, which are valued using independent appraisers. Investments are redeemed at the current net asset value per share based on the fair value of the underlying assets.

Limited partnership interests: Certain partnership interests are valued at the fund net asset values of each investee fund. For other partnership interest, independent appraisers value properties on an annual basis (at a minimum) and salient valuation assumptions of each asset are reviewed quarterly by the fund trustee in the determination of value of the fund.

Note 5 – Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets measured at fair value as of December 31, 2013 and 2012:

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no significant transfers between levels within the Master Trust for the years ended December 31, 2013 and 2012.

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following tables set forth a summary of changes in the fair value of the Master Trust's Level 3 assets for the years ended December 31, 2013 and 2012.

Note 5 – Fair Value Measurements (continued)

Fair Value of Investments the Calculate Net Asset Value

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share as of December 31, 2013 and 2012, respectively.

Year	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2013				
Limited partnership interest	\$26,487,923	\$5,471,669	(a)	(a)
Real estate investment trust	\$24,412,415	N/A	(b)	(b)
December 31, 2012				
Limited partnership interest	\$27,639,139	\$6,299,129	(a)	(a)
Real estate investment trust	\$22,484,491	N/A	(b)	(b)

(a) The class includes several funds that invest in limited partnerships. The fair values of the investments in this class have been estimated using the net asset value of the Company's ownership interest in partners' capital. Distributions from each fund will be received as the underlying investments of the funds are liquidated.

(b) This category invests the majority of its assets in U.S. commercial real estate holdings including industrial, office, retail, residential and land, which are valued using independent appraisers who primarily use the income capitalization and sales comparable approaches. Redemption requests must be received in writing 45 days prior to the end of the quarter and investments are redeemed at the current net asset value per share based on the fair value of the underlying assets.

Note 6 - Commitments

As of December 31, 2013 and 2012, the Plan and Retirement Plan have a commitment to contribute capital to nine partnership groups totaling approximately \$5,471,669 and \$6,299,129, respectively.

Note 7 – Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A., or an affiliate thereof. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS

Note 8 – Subsequent Events

During 2014, the Pension Committee approved merging of the Longview Fibre Paper and Packaging, Inc. Employees' Pension Plan, the Longview Fibre Paper and Packaging, Inc. Union Hourly Retirement Plan and the KapStone Paper and Packaging Corporation Defined Benefit Retirement Plan into one plan. The merging of these plans is anticipated to prior to the end of 2014.

Additionally, during 2014 the Pension Committee elected to use Fidelity Investments as the record keeper and actuary for all Company benefit plans.

On August 8, 2014, the President signed into law the Highway and Transportation Funding Act of 2014 ("HATFA"). Among other things, this legislation adjusts the interest rates used to calculate pension liabilities and funding obligations for defined benefit pension plans.

Under normal rules, funding obligations are calculated using a two-year average of interest rates. Interest rate volatility led congress to pass legislation in 2012 to temporarily narrow the specified range utilized in calculating interest rates. HATFA extends this 'corridor' approach and modifies the ranges and phase-out periods for the limitations.

The intent of this legislation is to reduce plan-sponsor contributions to defined benefit plans in the near-term (thus increasing taxable income), followed by increased contributions in future years. HATFA does not impact benefit accruals or the pension obligations of the Plan to participants. The Company is currently evaluating the impact of this legislation on the Plan, but anticipates a near-term decrease in required cash contributions.

Subsequent events have been evaluated through September 30, 2014, the date of the independent certified public accountants report, noting no additional matters that require disclosure or adjustment to the financial statements.

Plan Summary (Effective January 1, 2013)

Name

Employees' Pension Plan of Longview Fibre Paper and Packaging, Inc.

Effective Date

January 1, 1971. The Plan was last restated effective January 11, 2009. The Plan was last amended by the Seventh Amendment adopted April 26, 2013.

Plan Year

January 1 to December 31.

Type of Employees Covered

All regular employees of Longview Fibre Paper and Packaging, Inc. and any other participating affiliated company. Eligible employees do not include leased employees, nonresident aliens with no US income, or employees covered by a collective bargaining agreement.

Contribution Credits:

- \$1,100 times Benefit Service as of August 1, 2000, credited as of January 1, 2001
- \$5,500 minus January 1, 2001 balance, credited as of the date on which the participant completes 5 years of Benefit Service (if after January 1, 2001 and prior to June 1, 2006)

Interest Credits:

Credited monthly based on the average yield on 10-year US Treasury Constant Maturities for November of the previous calendar year.

Annuity Conversion:

Actuarial equivalence is based on Applicable Interest and Mortality under IRC Section 417(e)(3).

Cash Account

Hypothetical cash balance determined as follows:

Eligibility:

Active employees on or after January 1, 2009.

Contribution Credits (credited each payroll period):

- Basic credit: 5.5% of Earnings
- Supplemental credit: 4.5% of Earnings
- Transition credit (2009-2011 only): For participants age 50 and with 5 years of Employment as of December 31, 2008, a percentage of pay based on whole years of age plus whole years of service as of December 31, 2008, according to the following table:

Age plus Service at December 31, 2008	Percentage
55 - 59	2%
60 - 64	3%
65 - 69	4%
70 - 74	5%
75 +	6%

Interest Credits:

Credited quarterly based on the IRC Section 430 3rd segment rate (with 24-month smoothing) for November of the previous calendar year.

Annuity Conversion:

Actuarial equivalence is based on Applicable Interest and Mortality under IRC Section 417(e) (3).

Early Retirement

Eligibility:

Termination of employment at any time upon vesting.

Benefit:

- Cash Accounts may be paid as lump sums or actuarially equivalent annuities.
- Frozen annuity benefits may commence at any time at termination of employment upon vesting with full actuarial reduction from Normal Retirement Age.

Subsidized Early Retirement – Frozen Annuity Benefit

Eligibility:

Eligibility for subsidy on frozen benefit occurs at termination of employment after age 55 with 15 years of Qualifying Service.

Benefit: no reduction in the frozen annuity benefit at age 62 and 5.0% reduction per year from age 55 to 62.

Pre-retirement Death Benefit

Eligibility:

Death subsequent to vesting and prior to retirement.

Benefit:

- Cash accounts, if any, are payable as lump sums or may be taken on an actuarially equivalent basis as immediate annuities payable to the survivor.
- 50% of the frozen annuity benefit the participant would have received if terminated on the date of death and retired with a 50% J&S benefit at the earliest possible retirement date. Qualified Pre-Retirement Survivor Annuity or QPSA.

- The surviving spouse of a participant who is employed, but not early retirement eligible at death, and with age plus service greater than or equal to 70, may receive this benefit immediately using a 5% reduction from age 65.
- The frozen annuity benefit is reduced for periods subsequent to termination of employment for coverage under this provision. Vested terminated employees may opt out of coverage.

Special Death Benefit:

\$1,000 will be paid in a single lump sum upon the death of a participant who has met the requirements for normal, early, disability or late retirement and whose Beneficiary receives no employer-provided insurance proceeds. Active participants are generally covered by a group life insurance policy.

Disability Benefit

Eligibility:

Termination of employment at any time upon vesting.

Benefit:

- Cash Accounts may be paid as lump sums or actuarially equivalent annuities.
- Frozen annuity benefits may commence at any time at termination of employment upon vesting with full actuarial reduction from Normal Retirement Age.

Termination of employment at any time after vesting. Vesting occurs upon completion of 3 years of Qualifying Service.

Benefit:

- Cash Accounts may be paid as lump sums or actuarially equivalent annuities.
- Frozen annuity benefits may commence at any time at termination of employment upon vesting with full actuarial reduction from Normal Retirement Age.

Forms of Payment

- i) Life annuity
- ii) 50% Joint & Survivor annuity
- iii) 75% Joint & Survivor annuity
- iv) 100% Joint & Survivor annuity

Cash accounts may be paid as a single lump sum, regardless of the value.

A lump sum will be paid if the amount of the entire benefit (including the cash balance) does not exceed \$1,000.

A lump sum may be paid if the amount of the entire benefit (including the cash balance) exceeds \$1,000 but does not exceed \$5,000.

Bridge Benefit

Eligibility:

Active participants on January 1, 2009 who were age 45 with 5 years of service, but not age 50 with 10 years of service.

Availability:

Participant must be at least age 55 with 15 years of service at retirement in 2014 or later to receive this benefit.

Benefit:

\$600 per month in 2014, adjusted annually thereafter.

Payment Form:

Temporary life annuity payable until age 65.

Annual Adjustment:

\$600 will increase annually after 2014 based on the IRC Section 430 3rd segment rate for the preceding November.

Plan Changes

The Fifth Amendment to the plan, adopted on October 26, 2012, added the Bridge Benefit to the plan. This benefit was first reflected in the January 1, 2013 valuation.

The Sixth and Seventh Amendments, adopted after the January 1, 2013 valuation date, made administrative changes that do not affect the benefits included in the valuation.

Actuarial Assumptions and Actuarial Cost Method

Discount Rates

The following discount rates were used for calculating the present value of accumulated plan benefits for the purposes listed below. As selected by the Plan Sponsor, the rates for calculating the PPA Funding Target are the September 2012 segment rates.

- PPA Funding Target
 - Segment 1 payments under 5 years 4.94%
 - Segment 2 payments between 5 and 20 years 6.15%
 - Segment 3 payments after 20 years 6.76%

Mortality

For calculating the Funding Target, mortality follows the RP-2000 annuitant and non-annuitant mortality tables for 2013 as prescribed by the IRS.

Future Salary Increases

3.00% per annum

Interest Crediting Rate on Cash Accounts

6.50% per annum

Interest Crediting Rate on 2001 Cash Accounts

3.50% per annum

Administrative Expenses

Assumed to be \$300,000 annually, payable at the beginning of the year.

Retirement Rates

Active employees are assumed to retire based on the following rates:

Age	Assumption
55	7%
56	7%
57	7%
58	7%
59	7%
60	20%
61	25%

50	5.5%	5.5%
55	4.9%	4.9%
60	4.4%	4.4%
64	4.0%	4.0%

Assumed Optional Payment Forms

Cash Accounts

Employees who terminate before age 55 with 15 years of service are assumed to take their cash accounts immediately as a lump sum.

For employees who terminate after age 55 with 15 years of service, 40% are assumed to take their cash accounts immediately as a lump sum, and 60% are assumed to elect a monthly annuity. The single life annuity form of payment is valued. All other available annuity options are actuarially equivalent to the single life annuity.

2001 Cash Accounts

Employees are assumed to take their 2001 cash accounts as lump sums immediately upon termination.

Frozen Monthly Benefits

Employees who retire and take an annuity are assumed to elect the single life annuity form of payment. All optional forms are actuarially equivalent to the single life annuity.

Marital Percentage

100% of participants are assumed to be married at death. Husbands are assumed to be 4 years older than their wives.

Death Benefits

Charges to terminated employees for the QPSA coverage on annuity benefits were not reflected.

The special \$1,000 death benefit was valued for retirees reported as eligible for this benefit and active employees assumed to retire from active status.

Actuarial Value of Assets

The Actuarial Value of Assets is set equal to the Market value of assets, including the discounted value of receivable contributions.

Actuarial Cost Method

For purposes of calculating the Funding Target, we calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method.

Summary of Changes

- For the Funding Target calculations, the mortality assumption was updated to the projected RP-2000 annuitant and non-annuitant mortality tables for 2013 as prescribed by the IRS.
- The discount rates used to calculate the Funding Target were updated based on the relevant published values.
- The annual interest crediting rate on the cash account was increased from 6.28% in 2012 to 6.50% in 2013.
- The annual interest credit rate on the 2001 cash account was decreased from 4.50% in 2012 to 3.50% in 2013

WEIGHTED AVERAGE RETIREMENT AGE			60.59452
ROUNDED WEIGHTED AVERAGE RETIREMENT AGE			61

The weighted average retirement age was calculated by multiplying each possible retirement age by the probability of surviving to that age and then retiring. These products were then summed to produce the weighted average retirement age.
