AVITA DRUGS, LLC 401K PLAN

NOTES TO FINANCIAL STATEMENTS AUGUST 9, 2016 AND DECEMBER 31, 2015 (UNAUDITED)

1. DESCRIPTION OF THE PLAN

The following brief description of the Avita Drugs, LLC ("Company") Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

Termination of the Plan – The Company was sold and the Plan was terminated on August 9, 2016. Participants' accounts became fully vested and all remaining Plan assets were distributed to the participants in accordance with the Plan Document.

General – The Plan was a defined contribution plan covering all employees of Avita Drugs, LLC (the "Company") who met the eligibility requirements as stated below. The Plan was intended to be a qualified retirement plan under Section 401(a) and 401(k) of the Internal Revenue Code ("IRC") and was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's custodian was the John Hancock Life Insurance Company (the "custodian").

Administration – The Plan was administered by the Company, which served without compensation. The Plan administrator had the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may have designate one or more individuals to perform those responsibilities.

Eligibility – Eligibility requirements stated that an employee must be at least 21 years of age and had completed 4 months of service with the Company to be eligible to participate in the Plan.

Contributions – Eligible participants were allowed to contribute up to 100% of their annual compensation as defined in the Plan, subject to certain IRC limitations. The Company matched 100% of employee contributions up to the first 3% of employee annual compensation and 50% of employee contributions from 3% up to 5% of employee annual compensation. Additional profit sharing contributions were made at the discretion of the Company.

Participant Direction of Investments – Participants directed the investment of their account balances under the Plan. The Custodian invested the participant's account balance under the Plan in accordance with their direction. Participants were able to modify their investment options daily.

Participant Accounts – Each participant's account was credited with the participant's contribution and related Company matching contribution; an allocation of the Company's profit sharing contributions, if any; plan earnings; and forfeitures of terminated participants' nonvested amounts. Participant accounts are also charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant was entitled was the benefit that could have provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions and Company safe harbor contributions.

Notes Receivable from Participants – Participants may have borrowed from their account balances. The minimum amount of any loan was \$1,000 and the maximum was \$50,000 or 50% of a participant's total vested balance, whichever was less. The interest was charged at fixed rate for the term of the loan. Principal and interest was paid ratably through monthly payroll deductions.

Payment of Benefits – Upon death, retirement, disability financial hardship or termination of employment, a participant or his or her beneficiary may have elected to receive a lump sum payment

AVITA DRUGS, LLC 401K PLAN

NOTES TO FINANCIAL STATEMENTS AUGUST 9, 2016 AND DECEMBER 31, 2015 (UNAUDITED)

equal to the value of his or her account, or elected to rollover the asset balance directly into an IRA or into another qualified plan sponsored by an employer.

Forfeitures – Upon termination of employment and distribution of a participant's entire vested account balance or any reason other than death or permanent disability, the non-vested contributions were forfeited and were first used to reduce Company contributions and pay administrative expenses. At December 31, 2015, forfeited nonvested accounts totaled \$153.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Presentation – The accompanying financial statements have been prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions – Contributions are reported in the year services are rendered to the Company by the Plan participants.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any unpaid accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits are recorded upon distribution.

Administrative Expenses – The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

New Accounting Standards – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). The ASU removes certain disclosures and the requirement to categorize within the fair value hierarchy investments for which fair value is measured using the net asset value ("NAV") per share practical expedient provided by Topic 820, Fair Value Measurement. The ASU is effective for fiscal years

beginning after December 15, 2016, with early adoption permitted. The ASU should be applied retrospectively to all periods presented.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit- Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Parts I and II are not applicable. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies disclosures of the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks for disclosure purposes. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015 is to be applied retrospectively to all periods presented.

The statement of net assets available for benefits as of December 31, 2015 has been adjusted to reflect retrospective application of the new accounting guidance. There was no effect to total net assets available for benefits as previously reported.

Date of Management's Review – Subsequent events have been evaluated through June 14, 2017, which is the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts – Valued at the net asset value (NAV) provided by the administrator of the fund. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair

AVITA DRUGS, LLC 401K PLAN

NOTES TO FINANCIAL STATEMENTS AUGUST 9, 2016 AND DECEMBER 31, 2015 (UNAUDITED)

value. The NAV is based on the value of the underlying assets (i.e., common stock, mutual funds, short term securities) owned by the fund, less its liabilities, and then divided by the number of shares outstanding.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no investments in the Plan as of August 9, 2016. The Plan's investments are reported at fair value as follows at December 31, 2015:

	Fair Value Measurements Using:			Total
	Level 1	Level 2	Level 3	
December 31, 2015:				
Total assets in the fair value heirarchy	\$ -	\$ -	\$ -	\$ -
Pooled separate accounts:				
Asset Allocation				\$ 2,042,224
Equity Large Cap				241,368
Equity Mid Cap				118,025
Specialty				70,320
Equity Small Cap				37,600
Fixed Income				31,975
Equity International				18,665
Investments measured at net asset value (a)				2,560,177
Investments at fair value	\$ -	\$ -	\$ -	\$ 2,560,177

(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits. These investments are valued daily, can be redeemed daily with no restrictions, and without prior notice. There are no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility due to the level of risk associated

AVITA DRUGS, LLC 401K PLAN

NOTES TO FINANCIAL STATEMENTS AUGUST 9, 2016 AND DECEMBER 31, 2015 (UNAUDITED)

with certain investment securities. It is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the financial statements.

5. INFORMATION CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the John Hancock Life Insurance Company, the Custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as of August 9, 2016 and December 31, 2015 and for the period from January 1, 2016 through August 9, 2016:

- Investments
- Net appreciation in investments
- Interest from participant notes receivable

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. RELATED PARTIES

Plan investments were managed by the John Hancock Life Insurance Company, the Plan's Custodian and, therefore, these transactions qualified as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

7. TAX STATUS

The Plan has been operating under a prototype plan sponsored by the Dyatech, LLC, the recordkeeper of the Plan. Dyatech, LLC has received a letter dated April 2, 2012, stating that the prototype plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of August 9, 2016 and December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
