Ohio Northern University Defined Contribution Retirement Plan

Notes to Financial Statements August 31, 2016 and 2015

Note 1: Description of the Plan

The following description of the Ohio Northern University Defined Contribution Retirement Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General

The Plan is a defined-contribution plan sponsored by Ohio Northern University (University) for the benefit of its employees. Employees are immediately eligible to participate in the Plan as a contributing participant upon commencement of employment with the University. Students who are employed by the University are generally excluded from participation in the Plan.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association (TIAA) serves as the issuer of the TIAA Traditional Annuity Contract held by the Plan and is the recordkeeper of the Plan. College Retirement Equities Fund (CREF) serves as the issuer of the CREF variable annuities held by the Plan. JPMorgan Chase Bank, N.A. served as the Plan custodian of most nonannuity assets through December 31, 2014, and TIAA-CREF Trust Company, FSB began serving in this capacity beginning January 1, 2015.

Contributions

The Plan was amended effective January 1, 2016. Prior to the amendment, the Plan required certain eligible full-time employees through a salary deferral election to make annual contributions of 7 percent of eligible compensation. The University made a nondiscretionary contribution of 7 percent of eligible compensation. The Plan did not require certain eligible full-time employees to make annual contributions of 7 percent, but the University still made a contribution of 7 percent of eligible compensation for such certain eligible full-time employees.

Effective January 1, 2016, employees were no longer required to make annual contributions to the Plan. The Plan permits eligible employees through a salary deferral election to have the University make annual contributions of up to 100 percent of eligible compensation. The University makes a nondiscretionary contribution of 4 percent of eligible compensation. The University may also make discretionary matching contributions on employee deferrals which were 3 percent of eligible compensation.

Employee rollover and catch-up contributions are also permitted. The Plan does allow for special Code Section 403(b) catch-up contributions for those participants with 15 years of service.

Participant Investment Account Options

Investment account options available include various annuity accounts, a pooled separate account and mutual funds. Each participant has the option of directing contributions into any of the investment account options selected by the University and may change the allocation to the extent permitted by the individual agreements.

Ohio Northern University Defined Contribution Retirement Plan

Notes to Financial Statements August 31, 2016 and 2015

Participant Accounts

Each participant's account is credited with the participant's contribution, the University's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, the University's contributions and plan earnings thereon.

Payment of Benefits

Upon termination of service or if the participant becomes disabled, a participant may elect to receive a lump-sum amount equal to the value of the account, an annuity contract (if assets are held in a custodial account) or converted into an income option (if assets are invested in an annuity contract). A participant may elect to receive a distribution of their rollover contributions at any time. Withdrawals other than for termination are permitted under circumstances provided by the Plan.

Plan Termination

Although it had not expressed an intention to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provision of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Ohio Northern University Defined Contribution Retirement Plan

Notes to Financial Statements August 31, 2016 and 2015

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan is funded by individually controlled TIAA and CREF investments. Contributions are allocated to the TIAA Traditional Annuity Contract, CREF variable annuity accounts, TIAA variable annuity accounts, TIAA-CREF mutual funds and the TIAA Real Estate pooled separate account.

TIAA Traditional Annuity

The TIAA Traditional Annuity is an unallocated fixed-dollar annuity and investment product offered by TIAA, an insurance company. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA.

The TIAA Traditional Annuity provides a guarantee of principal, a 3 percent guaranteed minimum rate of interest and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant's account purchases a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan.

The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a participant's termination of employment. Therefore, a portion of this account is considered a fully benefit-responsive investment contract (FBRIC) and another portion is considered nonbenefit-responsive.

The fully benefit-responsive portion of the contract is recorded at contract value and the nonbenefit-responsive portion of the contract is recorded at fair value, which approximates contract value as estimated by TIAA. At August 31, 2016, the fair value of the nonbenefit-responsive contracts at TIAA totaled \$62,851,710 and the contract value of the benefit-responsive contracts totaled \$7,336,684. At August 31, 2015, the fair value of the nonbenefit-responsive contracts totaled \$63,033,137 and the contract value of the benefit-responsive contracts totaled \$7,214,546.

Ohio Northern University Defined Contribution Retirement Plan

Notes to Financial Statements August 31, 2016 and 2015

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

CREF Variable Annuity Accounts

Participants purchase accumulation units in the variable annuity contracts and their value is calculated daily. Variable annuity accounts, except for the money market account, are recorded at their estimated fair value, which is based upon the underlying value of the assets. The money market account is recorded at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Mutual Funds

TIAA-CREF mutual funds are valued at the Net Asset Value (NAV) of the shares held by the Plan at year-end.

TIAA Real Estate Pooled Separate Account

The TIAA Real Estate pooled separate account is valued at the NAV per accumulation unit of the investment. The underlying real estate holdings or other real estate-related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice period.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Loans

Although the Plan does not permit participant loans, TIAA issues loans to Plan participants outside of the scope of the Plan. Participants pledge as security a portion of their balance in the TIAA Traditional Annuity, which represents 110 percent of the outstanding loan balance. Pledged balances were \$750,354 and \$1,009,976 at August 31, 2016 and 2015, respectively.

Ohio Northern University Defined Contribution Retirement Plan

Notes to Financial Statements August 31, 2016 and 2015

Plan Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not requested or obtained a determination letter, as the Internal Revenue Service does not generally provide that service for individual 403(b) plans. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Plan or University, at the University's discretion.

Note 3: Certification by Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as showing in the statements of net assets available for benefits and related disclosures as of August 31, 2016 and 2015

Note 4: Change in Accounting Principle

In 2016, the Plan changed its method of accounting for fully benefit-responsive investment contracts by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 962 and 965): Part I: Fully Benefit-Responsive Investment Contracts*. The accounting provided for in ASU 2015-12 allows plans to measure, present and disclose fully benefit-responsive investment contracts at contract value. The effect of the adoption of the ASU is to eliminate the requirement to measure fair value of fully benefit-responsive contracts and to present the reconciliation from fair value to contract value on the statement of net assets. This change was applied retrospectively to all periods presented.

In 2016, the Plan changed its accounting policy on plan accounting disclosures by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 960, 962 and 965): Part II: Plan Investment Disclosures*. The accounting policy change provided for in ASU 2015-12 changes the Plan's disclosure requirements to eliminate and/or modify certain investment-related disclosures. This change was applied retrospectively for all periods presented.

In 2016, the Plan changed its accounting policy on plan accounting disclosures and presentation of fair value of investments using the net asset value per share as a practical expedient by adopting the provisions of ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)*. In accordance with this guidance, investments measured at net asset value per share as a practical expedient are not categorized within the fair value hierarchy. This change was applied retrospectively to all periods presented.

Note 5: Reconciliation of Financial Statements to Form 5500

Differences between the Annual Return/Report of Employee Benefit Plan (Form 5500) filed with the Internal Revenue Service and the accompanying financial statements are primarily attributable to classification differences.

Note 6: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

The Plan invests in various funds of the Plan recordkeeper and custodian, and fees for investment and management services paid by the Plan to this recordkeeper were \$327,102 and \$428,607 for 2016 and 2015, respectively. The University provides certain administrative services at no cost to the Plan.

Note 7: Disclosures About Fair Value of Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statement of net assets available for benefit measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at August 31, 2016 and 2015:

2016

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended August 31, 2016. The Plan had no liabilities measured at fair value on a recurring basis. Additionally, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See Note 2 for definition of inputs utilized to determine fair value.

The TIAA Real Estate Pooled Separate Account (Account) seeks favorable long-term returns primarily through rental income and appreciation of real estate investments owned by the Account. The Account will also invest in publicly traded securities and short-term higher quality liquid investments that are easily converted to cash to enable the Account to meet participant redemption requests, purchase or improve properties or cover other expense needs.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of August 31, 2016 and 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

		August 31, 2016		
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account	\$ 7,190,020	N/A	Daily	None

		August 31, 2015		
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account	\$ 6,588,653	N/A	Daily	None

Fair value determinations for Level 3 measurements of securities are the responsibility of the Controller's Office. The Controller's Office contracts with a pricing specialist to generate fair value estimates on a monthly or quarterly basis. The Controller's Office challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs for the years ended August 31, 2016 and 2015:

	<u>TIAA Traditional Annuity Contract</u>
Balance, September 1, 2015	\$ 63,455,494
Investment income	2,685,752
Purchases	1,312,936
Sales	<u>(4,421,045)</u>
Balance, August 31, 2015	63,033,137
Investment income	2,749,553
Purchases	861,246
Sales	<u>(3,792,226)</u>
Balance, August 31, 2016	<u><u>\$ 62,851,710</u></u>

As the TIAA Traditional Annuity Contract is valued at fair value, which approximates contract value, there are no realized or unrealized gains or losses for this investment included in the net increase in net assets available for benefits.

Unobservable (Level 3) Inputs

The following tables present quantitative information about unobservable inputs used in recurring Level 3 fair value measurements:

	Fair Value at August 31, 2016	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
TIAA Traditional Annuity Contract	\$ 62,851,710	Discounted cash flow	Contractual interest rate	3%

	Fair Value at August 31, 2015	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
TIAA Traditional Annuity Contract	\$ 63,033,137	Discounted cash flow	Contractual interest rate	3%

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were issued.
