Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Scitor Corporation ("Scitor") Salary Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established as a defined contribution plan for the purpose of providing employees of the Plan Sponsor (or "Company" as hereinafter defined) with retirement benefits within the meaning of section 401(a) of the Internal Revenue Code (the "IRC"), as amended. The Plan was amended and restated effective October 1, 2013. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Prior to February 1, 2016 the Plan Sponsor was Scitor. Effective February 1, 2016 employees of Scitor became employees of Science Applications International Corporation ("SAIC"), and SAIC became the Plan Sponsor.

As discussed below, effective September 23, 2016 the Plan was merged into the Science Applications International Corporation Retirement Plan ("SAIC Retirement Plan").

Plan Amendments and Merger

Effective October 1, 2014 the Plan was amended to exclude certain types of compensation from eligible compensation, as well as permit the Company to make an Additional Contribution, as defined, to the Plan in an amount determined by the Company. Additional Contributions could be determined separately for each Participant Group and were allocated as of the last day of the Plan year in the ratio that each Eligible Participant's Compensation, as defined by the Plan, in such Participant Group bears to the aggregate Compensation of all Eligible Participants in that Participant Group.

Effective April 23, 2015 the Plan was amended to allow in-service withdrawals in certain situations and to merge the Scitor Corporation Equity Participation Plan into the Plan. Related transfers of undistributed participant balances in the amounts of \$1,446,850 and \$66,363,179 are reported in the statements of changes in net assets for the period from October 1, 2015 to September 23, 2016 and for the Plan year ended September 30, 2015, respectively.

In connection with the acquisition of Scitor by SAIC (the "Acquisition") during the plan year ended September 30, 2015, on February 5, 2016 the Plan was amended to make SAIC the Plan Sponsor, effective February 1, 2016.

In connection with the Acquisition, effective September 23, 2016 the Plan was amended to merge the Plan into the SAIC Retirement Plan (the "Merger"). A related transfer of undistributed participant balances in the amount of \$473,513,576 is reported in the statement of changes in net assets for the final fiscal period, which ended on September 23, 2016.

Contributions

Participating employees were eligible to make bi-weekly pre-tax or after-tax contributions, as defined by the Plan, through salary reductions of up to 50% of their eligible compensation, subject to the limitations of the IRC. Additional catch-up contributions were permitted for eligible employees who attained the age of 50 before the end of the fiscal year. The Plan also allowed participants to make rollover contributions from other qualified plans.

The Company could make annual discretionary contributions to the Plan in an amount determined by the Company. The Plan was amended effective October 1, 2013 to identify three Participant Groups:

Participant Group 1: Eligible Participants previously employed with GCI Inc., and whose participation in the Plan commenced on November 22, 2013 in connection with a transaction with GCI Inc.

Participant Group 2: Eligible Participants previously employed with GDIT Inc., and whose participation in the Plan commenced on November 22, 2013 in connection with a transaction with GDIT Inc.

Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

Participant Group 3: All Eligible Participants not described in Participant Group 1 or Participant Group 2.

Discretionary contributions were determined separately for each Participant Group, as defined by the Plan. Discretionary contributions were allocated as of the last day of the Plan year, to participants that were Eligible Participants on the last day of the Plan year, in the ratio that each Eligible Participant's Compensation, as defined by the Plan, in such Participant Group bears to the aggregate Compensation of all Eligible Participants in that Participant Group. For the period from October 1, 2015 to September 23, 2016, the discretionary contribution for all Participant Groups was 9.0% of eligible compensation paid during the fiscal period. For the fiscal year ended September 30, 2015, the discretionary contribution for Participant Groups 1, 2, and 3 was 16.5%, 5.0%, and 10.0%, respectively.

Vesting

Participants were immediately vested in both their voluntary contributions and the Company's contributions plus actual earnings thereon.

Participant Accounts

Participants could elect to have their individual account invested in any combination of various mutual funds and common collective trust funds managed by T. Rowe Price Trust Company ("T. Rowe Price" or "Trustee"). In addition, participants could select a self-directed option whereby they could select any investment available through T. Rowe Price. Each participant's account was credited with the participant's contributions, an allocation of the Company's contributions, and an allocation of Plan earnings (losses) thereon based on participant earnings or account balances, respectively, as defined in the Plan agreement.

Notes Receivable from Participants

Eligible employees participating in the Plan could borrow up to 50% of their vested account balance, limited to a maximum loan of \$50,000. Loans were subject to approval and bore interest at prevailing market rates at the date of the loan, as determined by the Trustee, which was generally set at the prime rate plus 2%. During the period from October 1, 2015 to September 23, 2016, all outstanding loans were transferred to the SAIC Retirement Plan as a result of the Merger. As of September 30, 2015, the interest rates on existing loans ranged from 5.25% to 10.25%.

Loans were to be repaid within four and one half years of the date of the loan, unless the loan was used by a participant to acquire a principal residence, in which case the term of the loan could not exceed ten years. Loans were secured by the balance in the participant's account, and principal and interest were paid through payroll deductions. Participants were required to pay any outstanding loan balances in full upon termination of service with the Company.

Payment of Benefits

Upon termination of employment or separation of service due to retirement, death, or disability, the balances in the participants' accounts could be distributed to the participants or their beneficiaries in a lump sum. Employees aged 59-1/2 or older could request to withdraw an amount up to their total account balance. The Plan also allowed for certain hardship withdrawals.

Administrative Expenses

Administrative expenses were paid by an unallocated account funded by T. Rowe Price, the Company, or the Plan. Administrative expenses of \$214,702 and \$165,820 were paid out of the unallocated account for the period from October 1, 2015 to September 23, 2016 and for the fiscal year ended September 30, 2015, respectively. The amount funded by T. Rowe Price for the period from October 1, 2015 to September 23, 2016 and for the fiscal year ended September 30, 2015 was \$235,280 and \$186,163, respectively. As of September 30, 2015, the balance in the unallocated account was \$204,519. There was no balance in the unallocated account as of September 23, 2016.

Participants with balances in the self-directed option incurred a maintenance fee of \$18.75 per quarter, and participants incurred redemption fees for certain investment fund transactions. For the period from October 1, 2015 to September 23, 2016 and for the fiscal year ended September 30, 2015, these fees totaled \$20,578 and \$20,343, respectively.

Notes to Financial Statements

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are reported at fair value with the exception of the T. Rowe Price Stable Value Common Trust Fund as discussed in Note 4. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and is measured based on an established hierarchy of inputs. See Note 4 for a discussion of fair value measurements.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan provided for various investment options. Investment securities, such as mutual funds, common collective trust funds, and common stocks, are exposed to various risks, such as interest, market, and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults, and credit rating downgrades.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan agreement.

Payment of Benefits

Benefit payments are recorded upon distribution. There were no benefits payable to participants who had elected to withdraw from the Plan but had not yet been paid as of September 23, 2016 and September 30, 2015.

Tax Status

Income taxes are not provided as the Plan was designed to be exempt from taxation under the IRC. The Plan obtained its latest determination letter on July 10, 2014, at which time the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan has remained in compliance with the applicable requirements of the IRC. For the Plan year 2015, the Plan initially failed IRS code section 415(c) compliance testing, and a corrective distribution was made subsequent to the end of the Plan year in the amount of \$35,920.

The Company determined that the Plan inadvertently made certain in-service withdrawals during fiscal years 2008 through 2015 which were not permitted under the terms of the Plan. The Plan was amended, effective April 23, 2015, to allow in-service withdrawals in certain situations. The Company prepared a request to the IRS for approval of a correction under the Voluntary Correction Program ("VCP"). Under this correction, the Company retroactively amended the Plan, effective October 1, 2007, to allow in-service withdrawals in certain situations and bring the previously made in-service

Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

withdrawals into compliance with the amended Plan. A compliance statement was received from the IRS effective September 18, 2015, which is the agreement resulting from the submission to the VCP. The IRS agreed that the corrective methods and the modified administrative procedures were acceptable.

The preparation of financial statements in conformity with GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 23, 2016 and September 30, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax filings for the periods presented in these financial statements are subject to examination.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820)—Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using net asset value per share as a practical expedient. The ASU is effective for reporting periods beginning after December 15, 2015 with retrospective application to all periods presented, and early adoption is permitted. The Plan early adopted the standard as of September 30, 2015. The adoption has been reflected in Note 4 to the financial statements, and application has been applied retrospectively.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and designates contract value as the only required measure. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part III is not applicable to the Plan. Management early adopted Parts I and II of ASU 2015-12 as of September 30, 2015, and application has been applied retrospectively.

3. Information Certified by the Trustee

The investment balances included in the statements of net assets available for benefits, the related investment income information, which includes net appreciation (depreciation) in fair value and interest and dividends included in the statements of changes in net assets available for benefits and the related notes to financial statements, were derived from the Plan's trust statements as of September 23, 2016 and September 30, 2015 and for the fiscal periods then ended, and were certified by the Plan's Trustee as complete and accurate.

Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

4. Fair Value of Investments

The FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the framework are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments held by the Plan. There have been no changes in the methodologies used at September 23, 2016 and September 30, 2015.

Common Stock: Valued at the closing price reported on the exchanges on which the securities are traded.

Common Collective Trust Funds: Valued at the net asset value ("NAV") per unit based on the fair value of the underlying investments, with the exception of the T. Rowe Price Stable Value Common Trust Fund ("SVF"), which is reported at NAV per unit based on contract value. The SVF is a fully benefit-responsive common collective trust fund that primarily invests in guaranteed investment contracts ("GICs"), bank investment contracts ("BICs"), synthetic investment contracts ("SICs"), and separate account contracts ("SACs"). Contract value is the relevant measurement attribute for fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The Plan's investment in the SVF is valued based on information reported by the Plan's Trustee. The SVF's investment objective was to invest in investment contracts that were designed to provide principal stability and a competitive yield. The SVF had daily liquidity and was not subject to any redemption restrictions except in case of a total withdrawal of the Plan's assets in the fund, which required a 12- to 30- month advance written notice, subject to being shortened or waived at the Trustee's discretion. The trade-to-settlement terms were one day for participant-driven trades and three days for Plan-driven trades.

Money Market Funds: Valued at quoted market prices that represent the NAV of shares held by the Plan as of the reporting date.

Mutual Funds: Mutual Funds include funds that are publicly traded. Funds are valued at quoted market prices that represent the NAV of shares held by the Plan as of the reporting date.

Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table represents assets and liabilities measured and recorded at fair value on the Plan's statements of net assets available for benefits on a recurring basis and their level within the fair value hierarchy as of September 23, 2016 and September 30, 2015. As discussed in Note 2, investments valued at NAV are not required to be categorized within the fair value hierarchy and are presented to permit reconciliation to the amounts presented in the statement of net assets available for benefits.

5. Related-Party and Party-in-Interest Transactions

The Plan invested in mutual funds and common collective trust funds managed by T. Rowe Price Trust Company. As discussed above, T. Rowe Price Trust Company also served as Trustee to the Plan. Transactions in such investments qualify as party-in-interest transactions, and are exempt from the prohibited transactions rules. Administrative expenses were paid using an unallocated account established and funded by T. Rowe Price, which qualify as party-in-interest transactions and are exempt from the prohibited transactions rules. No receivable was owed to the Plan from T. Rowe Price as part of this arrangement at September 23, 2016 or September 30, 2015.

6. Subsequent Events

In preparing these financial statements, management performed an evaluation of subsequent events through June 15, 2017, the date the financial statements were available for issuance, to determine whether circumstances warranted recognition and disclosure of those events or transactions in the financial statements as of September 23, 2016. No material recognized or unrecognized subsequent events were identified.
