1. Description of the Plan

The following description of The Adventist Health System Consolidated ERISA 401(a) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Adventist Health System Sunbelt Healthcare Corporation (the "Employer") and participating employers. AIG Federal Savings Bank ("AIG") serves as the custodian of the Plan. Variable Annuity Life Insurance Company ("VALIC") serves as the record-keeper of the Plan.

The Plan was adopted on January 1, 2015 and constitutes a consolidation of the HOTC 401(k) Retirement Plan effective January 1, 2015 and Shawnee Mission Medical Center Tax-Deferred Annuity Matching Plan effective January 1, 2016.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Transfer of Assets

In December of 2015, $4,058,201 of assets, were transferred into the Plan from the HOTC 401(k) Retirement Plan. These assets represented the accounts of employees who were previously employed by Hospice of the Comforter and became employees of the Employer.

Eligibility

Employees who were previously participants in the HOTC 401(k) Retirement Plan and Shawnee Mission Medical Center Tax-Deferred Annuity Matching Plan are covered by this Plan. Other than the individuals described above, no additional individuals shall be eligible to become participants in the plan.

Contributions

No contributions shall be made under this Plan.

Participant Accounts

A participant's account is credited with the allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan *(continued)*

Vesting

Participants are vested immediately in their contributions made to the previous plans plus actual earnings thereon. Participants are vested in the employer matching and profit sharing contributions made to the previous plans at the rate of 20% per year of service with full vesting occurring after the fifth year of service.

Forfeited Accounts

Forfeited accounts are amounts forfeited by employees with a non-vested portion in their account that have terminated their employment and who have withdrawn from the Plan. Forfeited contributions will be used to reduce future Plan expenses. At December 31, 2015 forfeited non-vested amounts totaled $102,496.

Payment of Benefits and Withdrawals

Upon retirement, death, disability, or resignation of a participant, or upon termination of the Plan, a participant or beneficiary may receive a distribution in the form of a lump sum payment. In-service withdrawals of employee contributions for reasons of hardship (as defined in the Plan agreement) or attaining age 59½ are allowed. If a participant terminates employment and the participant's account balance does not exceed $5,000, the Plan administrator will authorize the benefit payment without the participant's consent.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%. Loans are to be repaid within five years for a general purpose loan or ten years for a principal residence loan from the date of execution or earlier. A participant may have no more than two outstanding loans from the Plan in a twelve month period. If a participant fails to make payment when they are due under the loan terms, they will be considered to be in default.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies *(continued)*

Fair Value Measurements

The Plan follows U.S. GAAP guidance on *Fair Value Measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist. As of December 31, 2015, all of the Plan's investments, that were valued at fair value, were valued using level 1 inputs.

Recently Issued Accounting Pronouncements

The Plan follows U.S. GAAP guidance (ASU 2015-12) which provides that: (i) fully benefit-responsive investment contracts will be stated and disclosed at contract value; (ii) eliminates the disclosure to report individual investments that represent 5 percent or more of a Plan's net assets available for benefits; and (iii) eliminates the disclosure for net appreciation (depreciation) for investments by general type and classes of assets on the basis of nature, characteristics and risks.

Investment Valuation and Income Recognition

All of the Plan's investments are stated at fair value except for the fixed account, which is stated at contract value. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The fixed account is reported at contract value, which represents the beginning balance plus any deposit and credited interest, less any withdrawals, charges, or expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of Significant Accounting Policies *(continued)*

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Employer and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Accounting of Uncertainty of Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The Plan is subject to examinations by the applicable taxing jurisdictions for periods including December 31, 2015.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is June 20, 2017.

3. Information Certified (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, AIG, the custodian of the Plan, has certified to the completeness and accuracy of all the assets reflected on the accompanying statements of net assets available for benefits as of December 31, 2015, the related investment activity reflected in the statement of changes in net assets available for benefits for the period from December 21, 2015 (inception) to December 31, 2015, and the supplemental Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015.

4. VALIC Fixed Interest Option

The VALIC Fixed Interest Option (the "Option") is a fully benefit-responsive investment contract with VALIC. The Option guarantees principal and a minimum guaranteed interest rate for the life of the contract, as well as featuring two declared interest rates: a current rate, determined no more frequently than every 90 days, and a guaranteed minimum floor rate declared for a defined period – currently one calendar year. The guaranteed minimum floor rate may change after the defined period, but it will never be lower than the minimum guaranteed interest rate that applies for the life of the contract. The current rate, the guaranteed minimum floor rate and the minimum guaranteed interest rate are expressed as annual effective yields. Each rate is credited on a daily basis at an annual effective rate and uses a portfolio interest credit method in which all deposits, as well as credited interest, receive the same crediting rate regardless of date of deposit.

Under this option, VALIC assumes the risk of investment gain or loss by guaranteeing the principal amount allocated to the Option and promises a minimum interest rate during the accumulation period and also throughout the annuity payout period. There is a 90 day waiting period to transfer funds out of this investment option. Withdrawals from the Option for other than the payment of benefits to participants may be subject to a market value adjustment and a surrender charge.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The Option is presented on the face of the statement of net assets available for benefits at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

VALIC is contractually obligated to repay the principal and the specified interest rate that is guaranteed to the Plan. The credit risk of the issuer was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (A2 as of May 2017), Standard and Poor's (A+ as of May 2017), A.M. Best (A as of May 2017), and Fitch (A+ as of May 2017).

5. Party-in-Interest Transactions

Certain Plan investments are managed by the record-keeper of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions under ERISA.

Participants who are active employees may borrow from their accounts and such loans qualify as exempt party-in-interest transactions under ERISA. These loans are recorded as notes receivable from participants in the statement of net assets available for benefits.

6. Plan Termination

Although the Employer has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Plan, effective January 1, 2015, represents a consolidation of existing qualified retirement plans. The Employer believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
